	⊠ N/A	Geologist Report for a change from a surface water point of div of appropriation (well), if the proposed well is more than 500's and more than 1000's upstream or downstream from the point of 380-2130 for requirements and applicability.	from the surface water source
		(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOY Application fee not enclosed/insufficient Map not included Land Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete Other/Explanation Staff: 503-986-0 Date:	ded or incomplete

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions. N/A If more than three water rights are involved, separate maps are needed for each water right. \boxtimes Permanent quality printed with dark ink on good quality paper. The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 X inches. For 30 x 30 inch maps, one extra copy is required. FFB 1 9 2019 \boxtimes A north arrow, a legend, and scale. OWRD The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final X Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. \boxtimes Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. \boxtimes Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. \boxtimes Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. Major water delivery system features from the point(s) of diversion/appropriation such as \boxtimes main pipelines, canals, and ditches. \boxtimes Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each guarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a \boxtimes recognized survey corner. This information can be found in your water right certificate or permit.

 \boxtimes

N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example -42.53764°).

TACS

	FEE WORKSHEET for PERMANENT TRANSFER Part 3 of 5	- Fee	Worksheet
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,160
	Types of change proposed:		
	Place of Use		
	Character of Use		
	☐ Point of Diversion/Appropriation		•
	Number of above boxes checked = $1(2a)$		
	Subtract 1 from the number in line $2a = 0$ (2b) If only one change, this will be 0		
2	Multiply line 2b by \$930 and enter » » » » » » » » » » » » » » »	2	\$0
	Number of water rights included in transfer 2 (3a)		
	Subtract 1 from the number in 3a above: 1 (3b) If only one water right this will		
	be 0		
3	Multiply line 3b by \$520 and enter » » » » » » » » » » » » » »	3_	\$520
	Do you propose to add or change a well, or change from a surface water POD		
	to a well?		
4	Yes: enter \$410 » » » » » » » » » » » » » » » » »	4	\$0
	Do you propose to change the place of use or character of use?		
	No: enter 0 on line 5 » » » » » » » » » » » » » » » » »		
	Yes: enter the cfs for the portions of the rights to be transferred (see		
i	example below*):(5a)		
	Subtract 1.0 from the number in 5a above:(5b)		
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » »		
	If 5b is greater than 0, round up to the nearest whole number:(5c)		
5	and multiply 5c by \$350, then enter on line 5 » » » » » » » » » »	5	\$0
6	Add entries on lines 1 through 5 above » » » » » » » » » » Subtotal:	6	\$1,680
	Is this transfer:	FNE	n
	necessary to complete a project funded by the Oregon Watershed REC	EIVE	
	Enhancement Board (OWEB) under ORS 541.932?	1 9 20	9
	endorsed in writing by ODFW as a change that will result in a net	ء کار	
	benefit to fish and wildlife habitat?	WRD	
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 \gg	9910	
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » » »	7	\$0
- 8	Subtract line 7 from line 6 » » » » » » » » » » » » » » Transfer Fee:	8	\$1,680

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

1.00	FEE WORKSHEET for SUBSTITUTION		og III
1	Base Fee (includes change to one well)	1	\$840.00
	Number of wells included in substitution (2a)		
	Subtract 1 from the number in 3a above: (2b) If only one well this will be 0		1
2	Multiply line 2b by \$410 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	NA

For Place of Use or Character of Use Changes - NA

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \square Yes \square No \boxtimes NA

If YES, list the certificate, water use permit, or ground water registration numbers: NA.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) - NA

Ground water supplemental Permit or Certificate # <u>NA</u>; Surface water primary Certificate # <u>NA</u>.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: - NA

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and
associated with the corresponding well(s) in Table 1 above and on the accompanying application
map.

Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

COMM. EXP. 01-04-2019

My commission expires 01/04/2019

STATE OF OREGON

CLACKAMAS

CERTIFICATE OF WATER RIGHT

This is to certify, That

COUNTY OF

DORIS L. ROUSETT

OR 97045 15211 S. Kirk Rd., Oregon City , State of , has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of an unnamed stream and reservoir constructed under Permit R-2020

Beaver Creek a tributary of Beaver United irrigation of 8.0 acres

for the purpose of

43084 and that said right to the use of said waters has been perfected in under Permit No. accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from April 6, 1978

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.10 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the Lot 2 (NW 1/4 SE 1/4), Section 27, T3S, R2E, WM; 710 feet South and 510 feet East from Center 1/4 corner Section 27.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage,

and shall

conform to such reasonable rotation system as may be ordered by the proper state officer. A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

> 1.1 acres Lot 3 (NE 1/4 SW 1/4) 2.5 acres NW 1/4 SW 1/4 2.9 acres Lot 4 (SW 1/4 SW 1/4) 1.5 acres Lot 5 (SE 1/4 SW 1/4) Section 27 Township 3 South, Range 2 East, WM

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Resources Commission with an effective date prior to this right.

WITNESS the signature of the Water Resources Director, affixed

7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	7	\$0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	\$2,610
xampl	e for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100	acres) a	
	plemental Certificate 87654 (1/80 cfs per acre) on the same land:		Dort

1. For irrigation calculate cfs for each water right involved as follows:

Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 $cfs/ac = 0.56 \ cfs$

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$840.00
2	Number of wells included in substitution (2a) Subtract 1 from the number in 3a above: (2b) If only one well this will be 0 Multiply line 2b by \$410 and enter >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	2	
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	NA

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 47384

Description of Water Delivery System

System capacity: 0.24 cubic feet per second (cfs) OR

gallons per minute (gpm)

RECEIVED

MAR 0 4 2020

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is diverted from the stream for storage in winter, and can be diverted from the same point of diversion on the stream to capture the live flow component of the water right, thereby using the reservoir as a bulge in the system. Water is pumped from the reservoir using a centrifugal pump with a fish screen. Water from the reservoir is conveyed through a six-inch buried mainline to the place of use.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L)	Т	wp Rng Sec 1/4 1/4 DLC or Gov't Lot				Lot DLC or Gov		Measured Distances (from a recognized survey corner)	
POD from unnamed stream		NA	3	S	2	E	27	NW	SE	Lot 2	710 feet south and 510 feet east from the Center 1/4 corner, Section 27
POD from unnamed stream	☐ Authorized ☐ Proposed	NA	3	S	2	E	27	NW	SE	Lot 2	940 feet south and 415 feet east from the Center 1/4 corner, Section 27

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses): Place of Use (POU) Supplemental Use to Primary Use (S to P) Jaria) 2.192020 Character of Use (USE) Point of Appropriation/Well (POA) Point of Diversion (POD) Additional Point of Appropriation (APOA) Additional Point of Diversion (APOD) Substitution (SUB) Surface Water POD to Ground Water Government Action POD (GOV) POA (SW/GW) Will all of the proposed changes affect the entire water right? Yes Complete only the Proposed ("to" or "on" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes. Complete all of Table 2 to describe the portion of the water right to be changed.

SUPERSEDING

Please use and attach additional pages of Table 2 as needed. See page 6 for instructions.

Do you have questions about how to fill-out the tables? Contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Changes to Water Right Certificate # 47384

List the change proposed for the acreage in each 1/4 1/4. If more than one change is proposed, specify the acreage associated with each change. If there is more than one POD/POA involved in the proposed changes, specify the acreage associated with each POD/POA.

	Describe the construction of the authorized and proposed well(s) in Table 3 not have a well log. For proposed wells not yet constructed or built, provid each requested information element in the table. The Department recomme licensed well driller, geologist, or certified water right examiner to assist winformation necessary to complete Table 3.	le "a best estimate" for ends you consult a

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

SUPERSEDING

MAR 0 4 2020 OWRD For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?

Yes
No

If YES, list the certificate, water use permit, or ground water registration numbers: Permit G-17699.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) - NA

Ground water supplemental Permit or Certificate # <u>NA;</u> Surface water primary Certificate # <u>NA.</u> MAR 0 4 2020

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

OWRD

For a change in	point(s) of	appropriation	(well(s))	or additional	point(s)	of appropriation	: - NA
-----------------	-------------	---------------	-----------	---------------	----------	------------------	--------

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated
with the corresponding well(s) in Table 1 above and on the accompanying application map.
Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not
have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each
requested information element in the table. The Department recommends you consult a licensed well
driller, geologist, or certified water right examiner to assist with assembling the information necessary
to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built?
