# Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

	N/A	If more than three water rights are involved, separate maps are needed for each water right.
$\boxtimes$		Permanent quality printed with dark ink on good quality paper.
$\boxtimes$		The size of the map can be $8\frac{1}{2}$ x 11 inches, $8\frac{1}{2}$ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
$\boxtimes$		A north arrow, a legend, and scale.
		The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$ , $1 \text{ inch} = 1,320 \text{ feet}$ , the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$ , or a scale that has been pre-approved by the Department.
$\boxtimes$		Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
$\boxtimes$		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
$\boxtimes$		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	□N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	□N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).
		MAR 0 8 2019

## Part 3 of 5 - Fee Worksheet

			7	0
	7	Subtract line 7 from line 6 » » » » » » » » » » » » » Transfer Fee:	8	\$1,210

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	(2a)		
	Subtract 1.0 from the number in 2a above: (2b)	- 1	
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number: (2c) and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » » Transfer Fee::	3	

<sup>\*</sup>Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

RECEIVED

MAR 08 2019

<sup>1.</sup> Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

<sup>2.</sup> If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

<sup>3.</sup> Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

# Part 4 of 5 – Applicant Information and Signature

## **Applicant Information**

APPLICANT/BUSINESS NAME		1	PHONE NO.	ADDITIONAL CONTACT NO.

DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.							

Explain in your own words what you propose to accomplish with this transfer application; and why: The Applicant is proposing to change the place of use to also include the greater Avion Service Area. In order to convey water to the new temporary place of use the Applicant is also proposing to temporarily add an additional point of appropriation. The Applicant understands that no more than 2.7 cfs can be used under the transfer between the two wells in any combination. The wells will be metered to monitor and document water use. If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and
Reinvestment Act (Federal stimulus dollars)

I (we) affirm that the information contained in this application is true and accurate.

Paul Binder, Vice President
Gold Ring Holdings, LLC
Print Name (and Title if applicable)

3/8/19

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located?  $\Box$  Yes  $\Box$  No N/A The authorized use for Certificate 93055 is quasi-municipal use.

If NO, include signatures of all landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) has been conveyed.

# **Description of Water Delivery System**

RECEIVED

System capacity: 2.7 cubic feet per second (cfs) OR

MAR 08 2019

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Groundwater is pumped from the supply well (DESC 8410) into the Broken Top Club House Lake located adjacent to the well. The water is then pumped from the lake into the pressurized distribution system by one of 3 pumps at the lakeside booster pump station. The distribution system provides water across the Broken Top development and consists of piping that ranges from 4-inch to 12-inch in diameter with smaller diameter lateral supplying water to the service connections or use points. A majority of the system's piping is PVC with the distribution system piping sizes generally decreasing the farther it is from the main booster station.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

with the "from" or the "to" lands? $\square$ Yes $\square$ No No N/A-The authorized use is quasi-municipal.
If YES, list the certificate, water use permit, or ground water registration numbers:
Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540-610.

Are there other water right certificates, water use permits or ground water registrations associated

# For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation if necessary to convey the water to the new temporary place of use:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well log/Default.aspx)

# **See Attachment E-Well Logs**

#### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

# Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aguifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? #### NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

Application G-12033.ra.klk

Page 1 of 2

RECEIVED Certificate 93055

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times. When required by the department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The quantity of water diverted at the new point of appropriation (well), shall not exceed the quantity of water lawfully available from the original point of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
18 S	11 E	WM	1	SE NE	1450 FEET SOUTH AND 1150 FEET WEST FROM NE CORNER, SECTION 1

The water user shall maintain a headgate, an in-line flow meter, weir, or other suitable measuring device for measuring and recording the quantity of water diverted.

Water shall be acquired from the same aquifer as the original point of appropriation.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use granted herein may be made only at times when sufficient water is available to satisfy all prior rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described; however, water may be applied to lands which are not specifically described above, provided the holder of this right complies with ORS 540.510(3).

Icened

1 = 1== /19 Subject: Request for map scale waiver for Gold Ring Holdings, LLC

Dear Mr. Starnes,

The Gold Ring Holdings, LLC is preparing a permanent transfer application to add an additional point of appropriation and to change the location of the place of use authorized by Certificate 93055. The Applicant is proposing to change the place of use for this quasi-municipal water right to the greater Avion service area as depicted in the attached map.

Because of the size of the greater Avion service area, we are requesting a map scale waiver for the existing place of use map. (See attached.) The authorized/proposed point of appropriation maps are attached and are at a standard scale (1 inch=400 feet).

Please let me know if you had any questions regarding our map scale waiver request.

Thank you,

Re: Temporary Transfer Application for Certificate 93055, in the name of Gold Ring Holdings, LLC

Dear Kelly:

Gold Ring Holdings, LLC (Applicant) is the holder of water right Certificate 93055, which authorizes the use of up to 2.7 cfs for quasi-municipal use. The Applicant is proposing to temporarily change the place of use to also include the greater Avion Water Company (Avion) service area. In order to convey water to the new temporary place of use the Applicant is also proposing to temporarily add an additional point of appropriation (China Hat 3 Well).

Enclosed is an Application for Temporary Water Right Transfer and the accompanying processing fee of \$1,210.

Please contact me if you have any questions or concerns. My number is 541-257-9001.

Sincerely,

Adam Sussman

Principal Water Resources Consultant
