*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (*for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$*); then multiply by the number of acres to be transferred to get the transfer cfs (*$45 \text{ ac} = 0.56 \text{ cfs}$*).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (*For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$*)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (*In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0*).

RE: Transfer Application for Certificate 62684

Dear Mr. and Mrs. Kafka:

The Water Resources Department has received an application for a permanent transfer for a certificated water right. The application is considered incomplete as all applicant information is not included. Pursuant to Oregon Administrative Rule (OAR) 690-380-3000, each transfer application shall contain the following information concerning the primary water right and any appurtenant supplemental water right or permit, if applicable: (1) Applicant's name, mailing address, and **telephone number**.

The application does not include a phone number where you, the applicant, can be reached. If an application does not satisfy the requirements set forth by statute and rule, the Department may deem it necessary to contact the applicant directly to resolve any deficiencies in the application.

Pursuant to OAR 690-380-3000(12): Applications shall contain evidence that water has been used over the past five years in accordance with the terms and conditions of the right. The aerial image submitted identifies a date of June 2013. In order to meet the requirements, evidence of use should be within five years of the date of receiving the application, being February 22, 2014.

We are hereby returning the permanent transfer application and the fees submitted.

Please do not hesitate to contact me, at corey.a.courchane@oregon.gov or (503) 986-0825, if I may be of assistance.
