## Part 2 of 4 – District and other party Signature

<b>Term of the Lease:</b> The lease is requested to begin in: <b>month</b> <u>4</u> <b>year</b> <u>2019</u> and end: <b>month</b> <u>4</u> <b>year</b> <u>2020</u> .	
<b>Public use:</b> Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input checked="" type="checkbox"/> Recreation <input checked="" type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	<b>Termination provision (for multiyear leases):</b> <b>The parties to the lease request (choose one):</b> <input type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
<b>Additive/Replacing Relationship to other instream water rights:</b> Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
<b>Precedent:</b> If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
<b>Validity of the rights to be leased:</b> <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <u>instreamed in 2014 and 2015</u> <input type="checkbox"/> The water right(s) <b>have not been used</b> for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

Subject: Rogue River Valley Irrigation District (RRVID) 2019 Instream Lease Application

Dear Mr. <sup>Brian</sup>Hampson:

Thank you for your March 19, 2019 letter requesting the Bureau of Reclamation's concurrence on the application for a temporary instream lease of 66 acres of supplemental water under water right certificate S83729. Reclamation has no objections to this application and believes it's very important that RRVID and Reclamation protect this water right for future use. An instream lease also helps support the Biological Opinion that RRVID and the other districts have been involved with helping to implement.

Please contact Mr. Gregg Garnett, Bend Field Office Manager, at (541) 389-6541, extension 226, or by email at [ggarnett@usbr.gov](mailto:ggarnett@usbr.gov), should you have any questions or need additional information.

Sincerely,

Dawn A. Wiedmeier
