Application for Instream Lease

Part 1 of 4 – Minimum Requirements Checklist

Complete Part 1 through 4 and include the required attachments
 Fill in or check boxes as indicated. (N/A= Not Applicable)

OWRD #	26-42
Fee	\$520.00

Pursuant to ORS 537.348(2) and OAR 690-077

Check all items included with this application. (N/A = Not Applicable)

Yes

Part 1 – Completed Minimum Requirements Checklist and Application Fee

Fees	<input checked="" type="checkbox"/> \$520.00 for a lease involving four or more landowners or four or more water rights	<input type="checkbox"/> \$350.00 for all other leases
	<input type="checkbox"/> Check enclosed or <input checked="" type="checkbox"/> Fee Charged to customer account <u>The Freshwater Trust</u> (account name)	

Yes

Part 2 – Completed Instream Lease Application Map Checklist.

Yes

Part 3 – Completed Water Right and Instream Use Information
 Include a separate **Part 3** for each water right

Yes

Part 4 – Completed Instream Lease Provisions and Signatures

Yes

How many water rights are leased? **10** List them here: 93514, 93516, 93518, 93520, 93524, 93526, 93528, 3153, 7332, 91288. Include a separate **Part 3** for each water right.

Yes N/A

Other Water Rights, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream?
 List those other water rights here: Supplemental Certificates 81507 and 11642

Yes No

Conservation Reserve Enhancement Program (CREP). Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Attachments:

Yes N/A

Map: Instream Lease map requirements (see Part 2 of this application)

Yes N/A

Tax Lot Map: If a portion of the water right *not included in the lease* is appurtenant to lands owned by others, a tax lot map must be included with the lease application. The tax lot map should clearly show the property involved in the lease.

Yes N/A

Supporting documentation describing why a right (or portion thereof) is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years. This information only needs to be provided if the checkbox has been checked to identify that the water right has not been used in the last five years and is not subject to forfeiture (See Part 4 of 4).

Yes N/A

If the Lessor (water right holder) is not the deeded landowner - provide one of the following.

- A notarized statement from the landowner consenting to the lease and a copy of the recorded deed; or.
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation which provides authority to pursue the lease absent consent of the landowner.

Salem, OR

Part 2 of 4 – Instream Lease Application Map Checklist

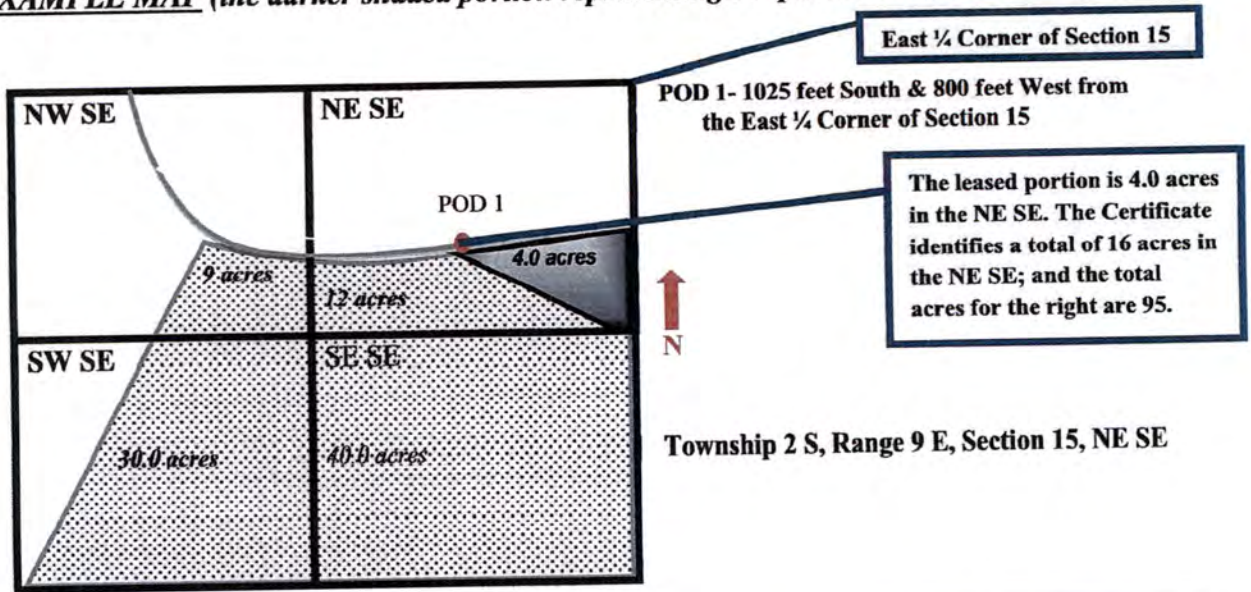

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a simple map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

- N/A A map is required for each water right not leased in its entirety. More than one QQ and property may be included on each map. A map is not required, if leasing the entire right or if the right to be leased is for municipal or quasi-municipal water use.
- The map should be of sufficient quality to be reproducible. Please do not use highlighters to mark items on the map as highlighters do not always copy.
- A North arrow and map scale (no smaller than 1" = 1320').
- Township, Range, Section, quarter quarter (QQ), and a clearly labeled survey corner.
- For irrigation or other similar use, the number of acres to be leased in each quarter-quarter clearly labeled and hachured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.
- If available, identify the existing point(s) of diversion.

EXAMPLE MAP (the darker shaded portion representing the portion leased instream)

Water Right Information

Water right # 93514

Table 1

Water Right Information: Provide a description of the originating water right to be leased. Also include your tax lot number(s). Fill in all applicable information. For example, if your water right has multiple points of diversion (POD) but they're not numbered, you do not need to include a number. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 1). Please clearly label any attachments.

<input type="checkbox"/> If only leasing a portion of the right - complete Table 1 as indicated					<input checked="" type="checkbox"/> Entirety - If the entire water right is to be leased, skip to Table 3.					
Priority Date	POD #	Twp	Rng	Sec	Q-Q	Tax Lot	Gov't Lot/DLC	Acres	USE	Previous Lease # (if any)
EXAMPLE										
12/2/1901	3	2-S	9-E	15	NE SE	100	47	4.0	IR	IL-1100

Total Acres: 143.3

Table 2

To illustrate the totals for the water right proposed to be leased instream						
Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be leased. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 2). Please clearly label any attachments. (cfs = cubic feet per second and af = acre-feet)						
Priority Date	POD #	Use	Total Acres	Other Information (such as conditions/limitations on the right)	Total Rate (cfs)	Total Volume (af)
Total af from storage, if applicable: ____ AF or <input type="checkbox"/> N/A						
Any additional information about the right: ____						

Table 3

Point of Diversion (POD) description: If the POD is not described on the certificate or if there is more than one POD listed on the certificate, then the specific POD(s) involved in the lease must be described. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 3). Please clearly label any attachments.

POD #	Twp	Rng	Sec	Q-Q	DLC/ Gov't lot	Measured Distances, latitude/longitude coordinates, or river mile (if unknown you may indicate "unknown")
	1-N	43-E	33	SW-SW		45.518688, -117.469878 Clearwater Ditch
	-	-		-		

Please check this box if you don't know the location of the POD(s) and want the Department to identify the location of the POD(s) for the purpose of the instream lease.

Part 3 of 4 cont. – Water Right and Instream Use Information

Salem, OR

Instream Lease Application (revised 7-27-2017)

Instream Use Information

Table 4

Instream Use Created by the Lease						
River/ Stream Name: <u>Lostine River, tributary to Wallowa River</u>				River Basin: <u>Grande Ronde</u>		
<p>Instream Portion: Use Table 4 to illustrate the instream rate, volume and instream period by priority date, POD (if more than one), Use (if more than one), and acreage as appropriate considering the right to be leased.</p> <p>If not enough room below, you may add additional rows (see instructions) or attach a spreadsheet (matching the below portion of Table 4). Please clearly label any attachments.</p>						
Priority date	POD #	Use	Acres	Proposed Instream Period	Total instream rate (cfs)	Total instream volume (af)
12/31/1883		IR	143.3	8/1 - 9/30	1.1844	143.3
<p>Note: If not certain of the instream rate, volume and/or instream period, see the instructions and/or contact Department Staff for assistance. The instream rate and volume may be up to the maximum rate and duty/volume allowed by the right, as described in Table 2 or on your Certificate if leasing the entire right. The proposed instream period may be no longer than the irrigation season or the authorized period of allowed use.</p>						
<p>OR <input type="checkbox"/> Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.</p>						
Instream Reach						
<p>Proposed Instream Reach: <input checked="" type="checkbox"/> A reach typically begins at the point of diversion (POD) and ends at the mouth of the source stream: From the POD to <u>confluence of Wallowa and Grande Ronde River</u></p>				<p>Or Proposed Instream Point: <input type="checkbox"/> Instream use protected at the POD</p>		
<p>OR <input type="checkbox"/> Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. (If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)</p>						
Additional Instream Information						
<p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> N/A Conditions to avoid enlargement or injury to other water rights, if any, or other limitations: list here _____</p> <p>Note: The Department may identify additional conditions to prevent injury and/or enlargement.</p>						
<p>Any additional information about the proposed instream use: _____</p>

Part 4 of 4 – Lease Provisions and Party Signatures

<p>Term of the Lease (may be from 1 year up to 5 years): The lease is requested to begin in: month <u>August</u> year <u>2018</u> and end: month <u>October</u> year <u>2019</u> Note: The begin month is generally the first month of the irrigation season and the end month is the last month in the irrigation season. If not an irrigation right, this would be the first and last month of your authorized period of allowed use.</p>	
<p>Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332):</p> <p><input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values.</p> <p><input type="checkbox"/> Recreation</p> <p><input type="checkbox"/> Pollution abatement</p> <p><input type="checkbox"/> Navigation</p>	<p>Termination provision (for multiyear leases): The parties to the lease request (choose one):</p> <p><input checked="" type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.</p> <p><input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease.</p> <p><input type="checkbox"/> c. The parties would not like to include a Termination Provision.</p> <p>(See instructions for limitations to this provision)</p>
<p>Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases, transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.</p> <p>If you would like this lease to relate to other instream water rights differently, please check this box. <input type="checkbox"/></p> <p>And attach an explanation of your intent.</p>	
<p>Validity of the Right(s) to be leased (check the appropriate box):</p> <p><input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or</p> <p><input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the right(s). However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right(s) is not subject to forfeiture is provided.</p>	

Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.

The undersigned declare:

1. The Lessor(s) agree during the term of this lease, to suspend use of water allowed under the subject water right(s) and under any appurtenant primary or supplemental water right(s) not involved in the lease application; and
2. The Lessor(s) certify that I/we are the water right holder(s) of the right(s) described in this instream lease application. If not the deeded landowner, I/we have provided documentation with the lease application that I/we have authorization to pursue the lease application and/or have obtained consent from the deeded landowner; and
3. All parties affirm that information provided in this lease application is true and accurate.

 Signature of Lessor

Application for Split Season Instream Lease

A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

Attachment 4 (Standard Leasing Form).
Attachment 5-D (Pooled Leasing Form).

The standard instream water right form or for pooled leases, the appropriate pooled lease forms, pursuant to ORS 537.348(2) and OAR 690-077 must also be filled out before a Split Season Use Instream Lease Application can be processed.

Note: Split season use lease applications must be submitted to the Department two weeks prior to water being used either for the existing purpose or for the proposed instream purpose. (OAR 690-077-0079)

1. Existing and Instream Use Periods

For the water right being leased instream, as described in Section 1.5, include monthly or partial season rate or duty limitations, if appropriate.

This section replaces the "Total volume, Rate in cfs, and Allowed period of use" portions of Section 2.2 on the standard or pooled instream leasing forms.

WATER RIGHT #93514

The water right will be used for its existing purpose from 5.1 to 7.31.
 The water right will be used for instream use period is from 8.1 to 9.30.

	Rate (cfs)		Conversion Factor 1 cfs = 1.983471 ac-ft/day		Number of days		Duty (ac-ft)
Existing Use	2.356	*	1.983471	*	92.00	=	429.9
use if needed		*	1.983471	*		=	0.00
use if needed		*	1.983471	*		=	0.00
Instream Use	1.1844	*	1.983471	*	61	=	143.30
use if needed		*	1.983471	*		=	0.00
use if needed		*	1.983471	*		=	0.00
Total	n/a		n/a		n/a		573.2

2. Measurement and Reporting

The water right lessor or lessee shall contact the watermaster to determine the necessary measurement and reporting requirements associated with leasing a water right.

The holders of the water rights shall measure and report the use of the existing water right and instream water right to the satisfaction of the Director, or provide for third party measurement and reporting to the satisfaction of the Director. Pursuant to ORS 537.332(3), the Department holds instream water rights in trust for the benefit of the people of the State of Oregon.

 The water right will be used for instream use period is from 8.1 _____ to 9.30 _____.

	Rate (cfs)		Conversion Factor 1 cfs = 1.983471 ac-ft/day		Number of days		Duty (ac-ft)
Existing Use	0.1874	*	1.983471	*	92.00	=	34.2
use if needed		*	1.983471	*		=	0.00
use if needed		*	1.983471	*		=	0.00
Instream Use	0.0628	*	1.983471	*	61	=	7.6
use if needed		*	1.983471	*		=	0.00
use if needed		*	1.983471	*		=	0.00
Total	n/a		n/a		n/a		41.8

2. Measurement and Reporting

The water right lessor or lessee shall contact the watermaster to determine the necessary measurement and reporting requirements associated with leasing a water right.
 The holders of the water rights shall measure and report the use of the existing water right and instream water right to the satisfaction of the Director, or provide for third party measurement and reporting to the satisfaction of the Director. Pursuant to ORS 537.332(3), the Department holds instream water rights in trust for the benefit of the people of the State of Oregon.

Re: Measurement and Reporting for Split Season Lease

The water rights listed below have no rate limitation and a duty limitation of 1 acre-foot per acre (with the exception of 3153 that has 1.5 acre-feet duty) for every 30-day period from May 1-July 31, and 1 acre-foot per acre for all of August 1- September 31. Because the instream period for the proposed split season lease begins on August 1 and ends on September 31, and because the irrigation duty limitation for August 1 - September 31 is independent of irrigation duty usage from May 1- July 31, the water master is not requiring measuring devices to monitor duty usage from May 1- July 31 for these water rights. Compliance with the terms of the split season lease and confirmation that no irrigation water is being applied to acres involved in the proposed split season lease from August 1- September 31 will be confirmed by regular site visits by the water master and The Freshwater Trust staff.

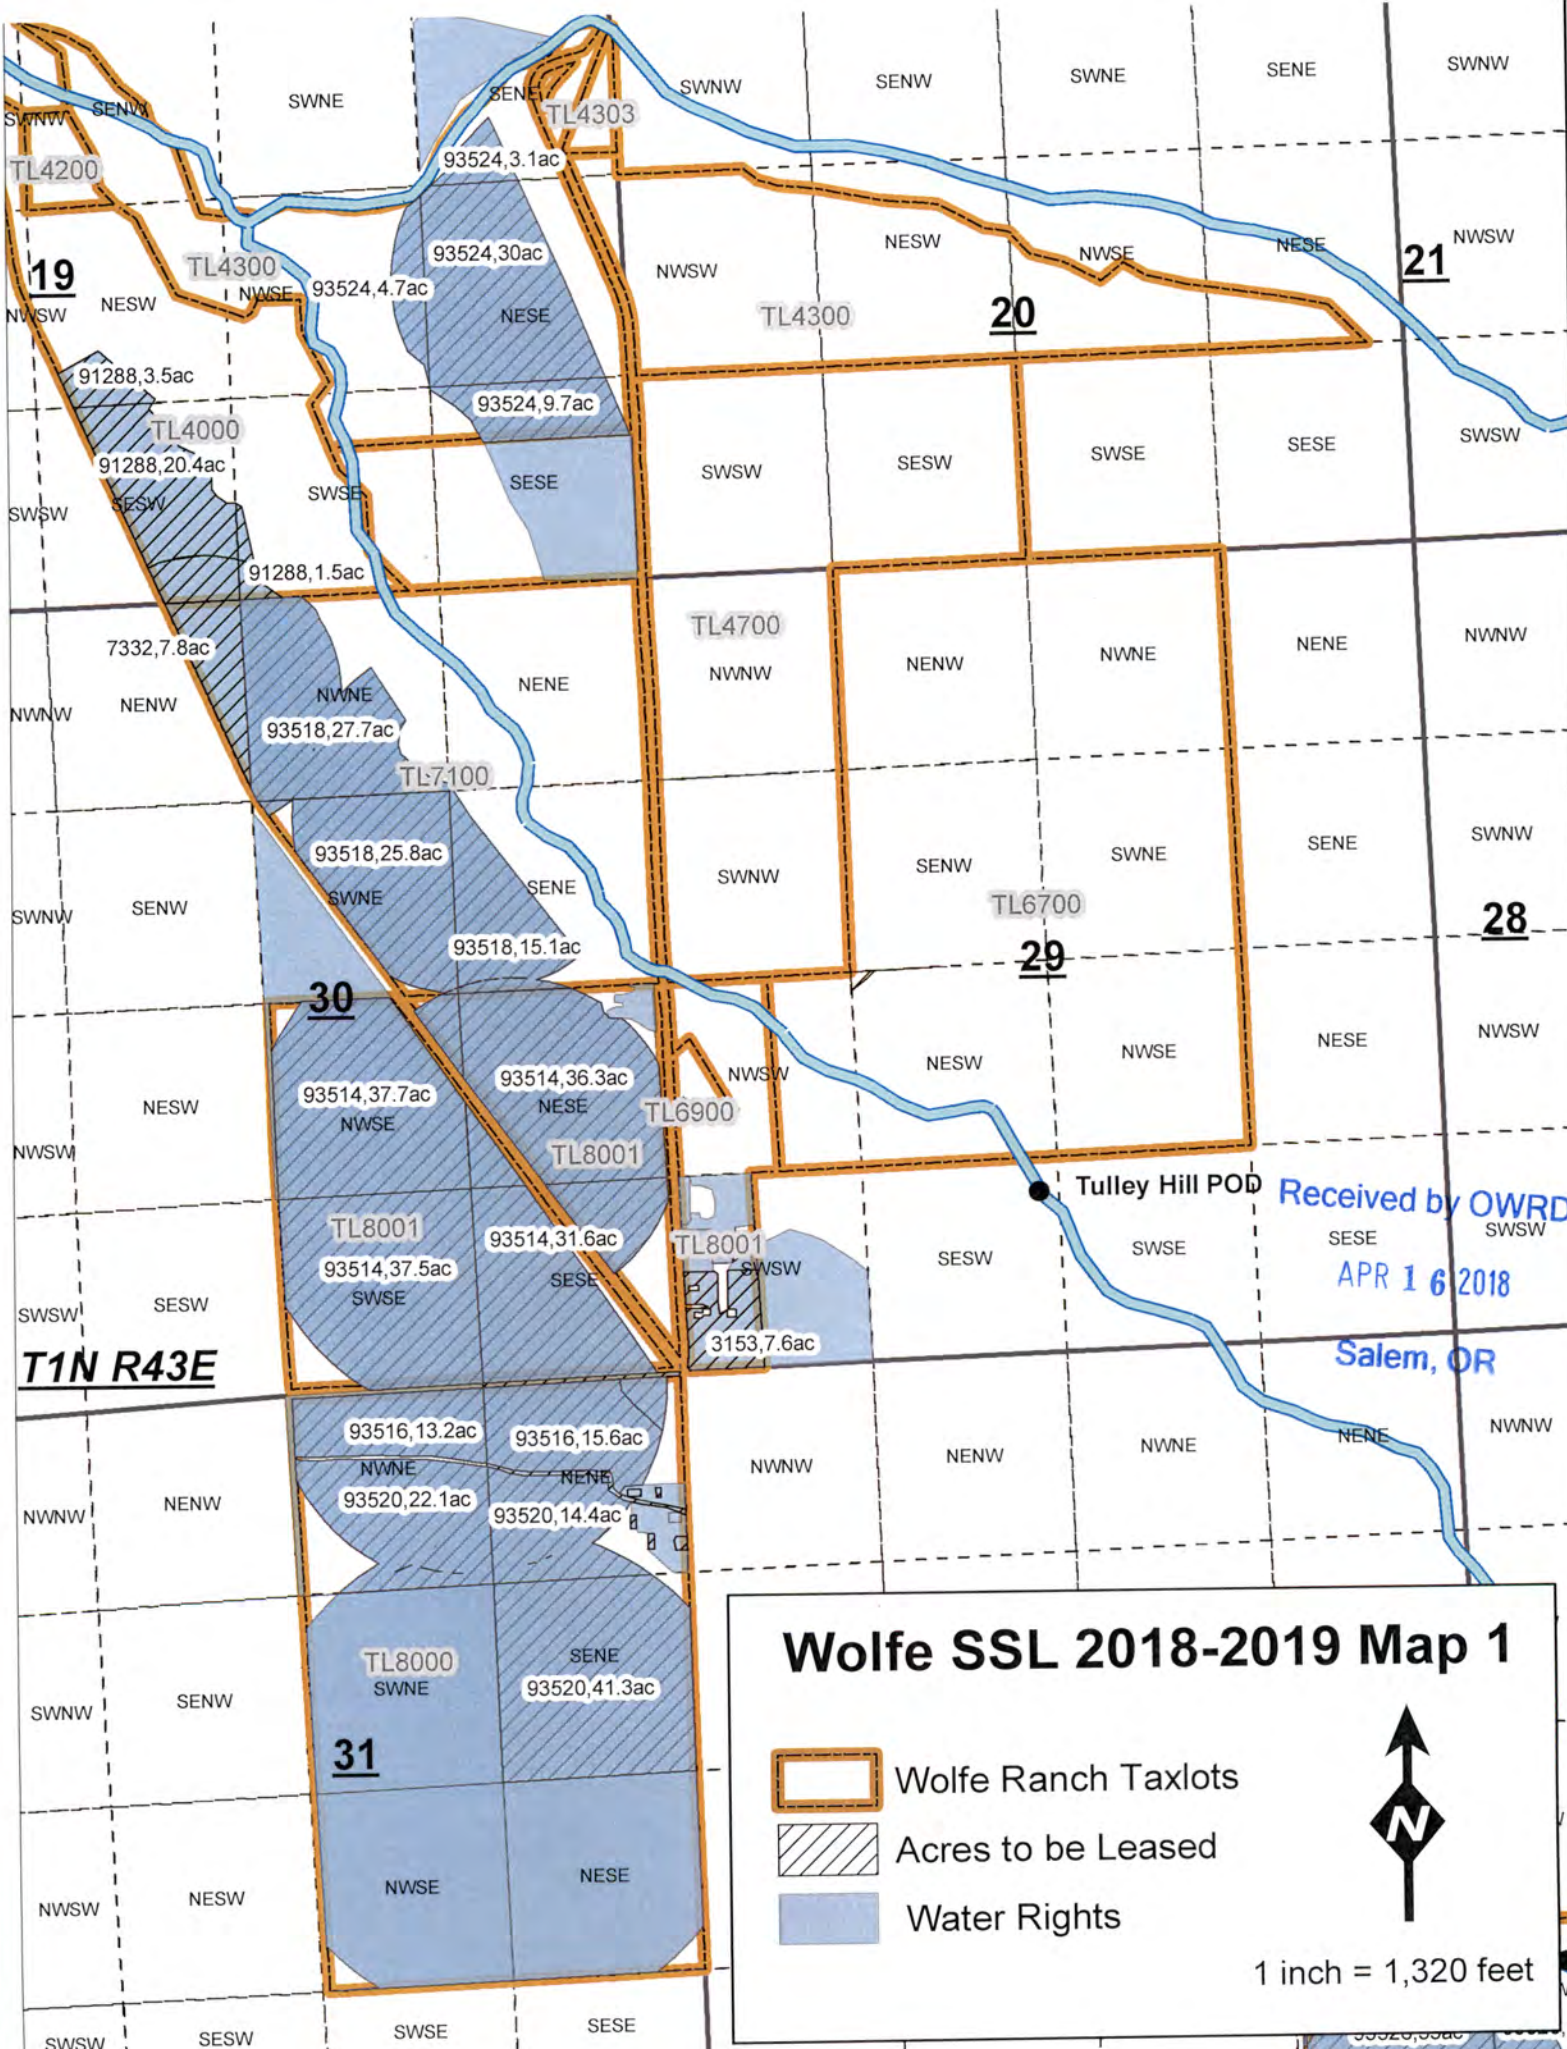

Water rights *not* subject to monitoring devices during the lease period include certificates: **93514, 93516, 93518, 93520, 93524, 93526, 93528, 3153.**

The remaining water rights involved in the split season lease (**certificates 7332 and 91288**) have both rate and duty limitations uniformly defined across the entire May 1- September 31 irrigation season. As such, the water master is requiring measuring devices to monitor irrigation water usage from May 1- July 31 in order to prevent injury. The monitoring requirements for these water rights are further defined in the attached split season lease application.

Water Right Transfer Supplemental Form Waiver of Mapping Requirements

The Director may waive or assist a transfer applicant in satisfying the mapping requirements (OAR 690-380-3100) for certain transfers if the criteria described in this form are met pursuant to OAR 690-380-3410.

This form must be prepared by the transfer applicant and the appropriate Regional Manager for the Oregon Water Resources Department. To prepare the form, a copy of the complete transfer application, including a description of the water rights to be transferred, must be provided to the Regional Manager.

This map waiver form must be signed by the Regional Manager and submitted with the transfer application.

Transfer Applicant: Woody Wolfe

Water Right(s) to be transferred: 93514, 93576, 93518, 93520, 93524, 93526, 93528, 7332, 91288, 3153, 62054, 93525

1. The transfer **must** be one of the following. Please check the appropriate box.

- An instream transfer application filed pursuant to ORS 537.348.
- A transfer application necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.375; or
- The transfer application is determined and endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat.

2. For an **instream transfer application filed pursuant to ORS 537.348**, a map waiver shall only be approved if the application meets one of the following additional criteria. Please check the appropriate box.

- The entirety of the right is being transferred to an instream water right and the location of the instream water right can be clearly delineated through reference to the existing point of diversion for the transferred right and other points of diversion or geographic reference points such as the mouth of the stream; or
- A map meeting the requirements of the transfer rules (OAR 690-380-3100) is available showing the lands not included in the transfer and the location of the instream water right can be clearly delineated through reference to the existing point of diversion for the transferred right and other points of diversion or geographic reference points such as the mouth of the stream. (Please include copy of map(s) with transfer application.)

Received by OWRD

APR 16 2018

3. For a transfer application meeting any one of the criteria identified in #1 (including an instream transfer application), a waiver may also be approved if other circumstances are present that make an application map unnecessary. If #2 does not apply, but circumstances are present that make an application map unnecessary, describe those circumstances below:

4. For any transfer application meeting one or more of the criteria identified in #1 that does not meet the criteria for a waiver as described in #2 or #3, the Department may assist the applicant in development of the application map. The Department (through the regional office) may provide this assistance at the discretion of the appropriate Regional Manager. Please check the appropriate box below if the Department has provided assistance in development of the transfer application map:

- A map meeting the requirements of OAR 690-380-3100 has been prepared by Department staff and is included with the transfer application.
- The map provided with the transfer application has been developed with assistance from Department staff and meets the requirements of OAR 690-380-3100.
