Yes  N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- RECEIVED BY OWRD • A north arrow and map scale (no smaller than 1" = 1320').
- MAR 26 2014 • Label township, range, section and quarter-quarter (QQ).
- SALEM, OR • If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading** and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes  N/A If the Lessor(s) is not the deeded land owner, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes  N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

**Part 2 of 4 – District and other party Signature**

**Term of the Lease:**

The lease is requested to begin in: month April year 2014 and end: month October year 2014.

**Public use:** Check the public use(s) this lease will serve (as defined by ORS 537.332):

- Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values.
- Recreation
- Pollution abatement
- Navigation

**Termination provision (for multiyear leases):**

**The parties to the lease request (choose one):**

- a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.
- b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease.
- c. The parties would not like to include a Termination Provision.

(See instructions for limitations to this provision)

**Additive/Replacing Relationship to other instream water rights:** Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.

If you would like this lease to relate to other instream water rights differently than described above, please check this box.  And attach an explanation of your intent.

**Precedent:** If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.

**Validity of the rights to be leased:**

- The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or
- The water right(s) have not been used for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

**EXHIBIT C**

**Deschutes River Conservancy  
2014 Instream Leasing Program**

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, MATTHEW LISIGNOLI understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral and donations.

## Part 4 of 4 – Water Right and Instream Use Information

Use a separate Part 4 for each water right to be leased instream

**Table 2**

**Water Right # 83571**

**Use Table 2 to illustrate the totals for the water right proposed to be leased instream (based on Part 3 of 4)**

Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be leased. If not enough room below, you may add rows (see instructions) or create a spreadsheet (matching Table 2 and clearly labeled) and attach.  
(cfs = cubic feet per second and af = acre-feet)

Priority Date	POD #	Use	Acre	Other Information (such as conditions/limitations on the right)	Rate (cfs)	Volume (af)
10/31/1900	11	Irrig	127.32	Season 1 Rate / Total Volume	1.453	1201.44
10/31/1900	11	Irrig	127.32	Season 2 Rate	1.982

Total af from storage, if applicable: \_\_\_\_\_ AF or  N/A

If the POD is not described on the certificate or, if there is more than one POD listed on the certificate, then the specific POD must be described: POD # 11

<b>OR</b> <input type="checkbox"/> Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. If no reach is identified or the above box is not checked, and there is only one POD listed on the water right, the lease may be processed to be protected at the POD.)						
<b>Instream Portion: May not exceed the maximum rate/volume for the right (identified in Table 2)</b>						
Use the table 3 to illustrate the instream rate, volume and instream period by priority date, POD, Use and acreage, as appropriate. If not enough room below, you may add rows (see instructions) or create a spreadsheet (clearly labeled and matching the below portion of Table 3) and attach.
