OREGON WATER RESOURCES DEPARTMENT

COUNTY OF KLAMATH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

STANLEY STONIER
PO BOX 5
BEATTY OR 97621

confirms the right to use the waters of TWO WELLS. within the SPRAGUE RIVER BASIN for IRRIGATION of 191.7 ACRES.

This right was perfected under Permit G-3632. The date of priority is MAY 16, 1967. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 2.4 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
36 S	12 E	WM	6	NW SW	ORIGINAL WELL - 940.91 FEET NORTH & 3693.36 FEET EAST FROM S1/4 CORNER, SECTION 1
36 S	12 E	WM	6	SW SW	ADDITIONAL WELL - 1282.35 FEET SOUTH & 3789.59 FEET EAST FROM C-S 1/16 CORNER, SECTION 1

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water shall be acquired from the same aquifer as the original point of appropriation.

The quantity of water diverted at the new point of appropriation, together with that diverted at the old point of appropriation, shall not exceed the quantity of water available from the original point of appropriation.

The water user shall maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change in ADDITIONAL POINT OF APPROPRIATION approved by an order of the Water Resources Director entered SEPTEMBER 27, 2005, at Special Order Volume 67, Page 189, approving Transfer Application 9492, and supersedes Certificate 42500, State record of Water Right Certificates.

Issued **OCT 25 2013**

NOTICE OF CERTIFICATE ISSUANCE

Attached is a certificate that confirms the water rights established under the terms of a transfer order issued by this Department.

This certificate is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If you have any questions please contact Gerry Clark at 503-986-0811.

RE: DETERMINATION OF PROOF

I've determined that a PROPOSED FINAL certificate should be prepared and mailed to the permit holder consistent with:

Permit Transfer

FPS COBU

As described in the permit/transfer but as clarified by the FPS COBU

As described in the PERMIT/TRANSFER and FPS or COBU but as further specified below:

Conflict? No Yes: _____

stamped PROPOSED or assign Cert # 88478

Draft certificate(s) are available in the transfer directory.

Water Organization identified using area of interest tool? No Yes, cc: _____

Check ownership; and if there is a new owner, add them to the mailing list.

Prepare a mailing list.

Record marking: App _____ Cert _____

I. Points of Diversion/Appropriation and Place of Use

For each point of diversion or appropriation, provide the following information. If the claim is for more than one point of diversion/appropriation, copy and complete this section for each point of diversion or appropriation.

1. Provide a general narrative description of the distribution works. This description must trace the water system from the point of diversion or appropriation to and include the place of use:

Water flows from new artesian well through an 8" mainline to the wheel line and discharges into an irrigation canal. The old well is located at the discharge point, and discharges water into the irrigation canal. Water is then distributed via a series of irrigation ditches to flood irrigate the remaining pasture. (Please See Photographs).

Water flows from the new artesian well through an 8" mainline and runs a wheel line. The additional water flows through the 8" main line to discharge into a ditch for distribution via flood irrigation. The new well is artesian at 36" psi.

2. Point of diversion/appropriation name or number (correspond to map):

Point of diversion/appropriation name or number (correspond to map)	Well log ID # for all work performed on the well (if applicable)	Well tag # (if applicable)
New Well	KLAM 55389	L77919
Old Well	KLAM 2043	36/12-6M

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, and deepenings)

3. Point of diversion/appropriation source and, if from surface water, the tributary:

Source	Tributary to
Groundwater	Sprague River

4. Point of diversion/appropriation location:

(DLC, Government Lot, 1/4 1/4, Section, Township, Range)	Reference to a recognized public land survey corner by distance and bearing or by coordinates
New Well - Taxlot 1800, SE 1/4 SE 1/4 Sec. 6, T36S R12E, W.M.	1282.36' South and 3789.59' East of Center South Corner Sec. 1, T36S R11E, W.M.
Old Well - Taxlot 1800, NW 1/4 SE 1/4 Sec. 6, T36S R12E, W.M.	940.91' North and 3693.36' East of Center South Corner Sec. 1, T36S R11E, W.M.

5. Actual use(s), period of use, and rate for each use:

Uses	If irrigation, list crop type	When water is used	Rate for use
Irrigation	Pasture	Irrigation season	2.4 cfs

RECEIVED

APR 06 2007

**WATER RESOURCES DEPT

Groundwater Source Information (Well and Sump)

1. Describe the access port (type and location) or other means to measure the water level in the well in the box below:

NA, well is closed with pressure gauge

2. If well logs are not available, provide as much of the following information as possible:

Casing Diameter	Casing Depth	Total Depth	Completion Date of Original Well	Completion Dates of Alterations	Who the well was drilled for	Well drilled by
12"	250	950	April 18, 2006		Stanley Stonier	

In addition to the information requested in item "2" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

See Attached well logs

Gravity flow canal or ditch (The Department typically uses Manning's formula for canals and ditches)

1. If the system involves a gravity canal or ditch, complete the table below.

Canal or ditch type (material)	Top width of canal or ditch	Bottom width of canal or ditch	Depth	"N" factor	Amount of fall	Length of canal/ditch	Slope	Computed volume
See Attached								

2. Provide calculations in the box below:

See Attached
Canal and ditches are capable of delivering a large volume of water. Only part of this volume is used for flooding.

3. If an actual measurement was taken, provide the following:

Date of Measurement	Who made the measurement	Measurement method
NA		

Attach measurements notes

System Information:

Provide the following information concerning the diversion and delivery system. Trace the flow of water from the point of diversion/appropriation to the place of use.

6. Theoretical pump capacity

Horsepower	Operating psi	Lift from source to pump *If a well, the water level during pumping (see pump test results)	Lift from pump to place of use	Total pump output
NA				

7. Provide pump calculations in the box below:

NA, the pump on the old well and the booster pump next to the well are no longer in use. Both the new well and the old well are artesian, and water is allowed to flow from freely from the wells. The amount of water flowing from each well is controllable at the well. Theoretical flow values for each well are taken from the well logs.

8. Mainline information

Mainline size	Length	Type of pipe	Buried or above ground
8"	2176.53'	Aluminum	Above ground and Buried

9. Lateral or handline information

Lateral or handline size	Length	Type of pipe	Buried or above ground
4" wheel line	1570	Aluminum	Above ground

RECEIVED

APR 06 2007

RENEWAL DEC 31 2007

10. Sprinkler information Make and model:

Make	Model	Size	Operating psi	Sprinkler output	SMAX number used	Total sprinkler output
		3/16"	25	4.1	42	176 gpm

Refer to the chart of sprinkler output at various pressures for most nozzle sizes attached to this document.
See Attached

11. Additional notes or comments related to the system:

The old pump system is no longer in use. Water is allowed to flow from each well under artesian pressure, and is controllable by valve at the well.

2. Motor information

Brand	Model	Horsepower	Max RPM	Voltage
NA				

3. Meter information (if required in permit or transfer final order)

Make	Serial #	Condition (working or not)	Current meter reading	Notes
McCrometer	06-03974	Working	430 199	acre-feet x 0.001

4. Measurement device description

Device description	Condition (working or not)	Notes
NA		

5. Measured pump capacity (using meter if meter was present and system was operating)

Initial meter reading	Ending meter reading	Duration of time observed	Total pump output
NA			

6. Theoretical pump capacity

Horsepower	Operating psi	Lift from source to pump *If a well, the water level during pumping (see pump test results)	Lift from pump to place of use	Total pump output
NA				

7. Provide pump calculations in the box below:

NA

8. Mainline information

Mainline size	Length	Type of pipe	Buried or above ground
8"	2176.53'	Aluminum	Above ground and Buried

9. Lateral or handline information

III. CONDITIONS

Please pay special attention to this section. All conditions contained in the permit or transfer final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

a. Permits or transfer Final Orders contain any or all of the following dates; the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use is to be completed by. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or transfer final order:

	Dates from permit or transfer final order	Date accomplished	Description of actions taken by water user to comply with the time limits
Begin construction		April 4, 2006	
Complete construction		April 18, 2006	
Complete application of water		April 18, 2006	

2. Initial Water Level Measurements:

****If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.**

a. Was the water user required to submit an initial static water level measurement? **YES**

b. What month was the initial measurement to be taken in? **April 2006**

c. Did an authorized individual (as stated in the permit or transfer final order) make the initial static water level measurement in the month required?
YES

d. If "YES", was the measurement submitted to the Department? **YES**

e. If the initial measurement not been submitted, provide that measurement now if available:

Date of measurement	Who made measurement	Method	Measurement
NA			

3. Annual Static Water Level Measurements:

****If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.**

a. Was the water user required to submit annual static water level measurements? **YES**

b. In the box below, provide the month in which the static water level was to be made:

April 2006

c. Were the static water level measurements taken in the month required? **YES**

d. If "YES", were those measurements submitted to the Department? **YES**

RECEIVED

APR 12 2007

**WATER RESOURCES DEPT
SALEM OREGON**

RECEIVED

FEB 06 2007

**WATER RESOURCES DEPT
SALEM, OREGON**

e. If the annual measurements were not submitted, provide the measurements now in the box below:

Year	Month	Measurement made by	Measurement
NA			

4. Measurement, recording, and reporting conditions:

a. Does the permit or transfer final order require the installation of a meter or approved measuring device?
YES

b. Has a meter been installed? **YES**

c. Provide the date the meter was installed:

April 2006

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? **NA**

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

Name	Title	Approximate date
NA		

f. Is the water user required to report the water use to the Department? **YES**

g. Have the reports been submitted? **YES**

If the reports have not been submitted, attach a copy of the reports if available.

5. Fish Screening and/or By-pass Devices

a. Are any points of diversion required to be screened and/or have a by-pass device to prevent fish from entering the point of diversion? **NA**

6. Pump Test (typically required for ground water uses prior to issuance of a certificate, but not a requirement of permit development)

a. Did the permit or transfer final order require the submittal of a pump test? **YES**

b. Has a pump test been submitted and approved by the Department? **YES**

c. If no, is the pump test attached to this Claim? **NO**

7. Other Permit Conditions (examples: special well construct standards, water conservation plans, no obstructions to fish without a fishway, etc.; number as appropriate.)

IV. Attachments, Conclusions, Map and Signatures

Attachments

If you are attaching any documents to this report, provide a list below:

Attachment name	Description
Map	
Photographs	
Well Log	
Wheel Line Flows	
Worksheet for Irrigation Canal	
Worksheet for Irrigation Ditches	

Permit and Transfer Final Order Rates and System Rates Comparisons:

POD or POA name or #	Maximum rate allowed by permit or transfer final order	Calculated theoretical rate of water based on system	Actual amount of water measured (if measured)	Developed use	# of acres allowed by permit or transfer final order	# of acres developed
New well	2.4 cfs	4.9 cfs (maximum based on well log flow information)		Irrigation	191.7	191.7

Claim of Beneficial Use Map

The Claim of Beneficial Use Map must be submitted with this Claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320', 1" = 400', or the original full-size scale of the county assessor map for the location.

In the following box, provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Survey performed with Real Time GPS – Corner tie is a monument located at the Center South 1/16 Corner of Section 1, T36 S R 11 E, W.M.

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) FINAL ORDER APPROVING AN
T-9492, Klamath County) ADDITIONAL POINT OF APPROPRIATION

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

STANLEY STONIER
PO BOX 5
BEATTY OR 97621

Findings of Fact

1. Stanley Stonier filed an application to add an additional point of appropriation under Certificate 42500. The Department assigned the application number T-9492.

2. The right to be transferred is as follows:
Certificate: 42500 in the name of ERNEST D FIRSICK (perfected under Permit G-3632)
Use: IRRIGATION of 191.7 ACRES
Priority Date: MAY 16, 1967
Rate: 2.4 CUBIC FEET PER SECOND
Limit/Duty: ONE-EIGHTIETH cfs per acre, not to exceed 3 acre-feet per acre per year
Source: A WELL in the SPRAGUE RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	NW SW	400 FEET SOUTH & 1020 FEET EAST FROM W1/4 CORNER, SECTION 6

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

- Application T-9492 proposes to add an authorized point of appropriation approximately 1/2 mile south of the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	SW SW	10 FEET NORTH AND 1020 FEET EAST OF THE SW CORNER, SECTION 6

- Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
- Applicant did not supply the required documentation supporting use according to the terms and conditions of the right during the five years prior to submission of the transfer. However, examination of a year 2000 aerial photograph on file at the Department indicates irrigation of the land under Certificate 42500 during 2000. Therefore, water has been used within the last five years according to the terms and conditions of the rights; no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights.
- No comments were received in response to notice of the Preliminary Determination.

Conclusions of Law

The additional point of appropriation proposed in application T-9492 appears to be consistent with the requirements of ORS 537.705, 540.505 to 540.580, and OAR 690-380-5000.

Now, therefore, it is ORDERED:

The additional point of diversion proposed in T-9492 is approved; subsequent use of water shall be subject to the following conditions:

1. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 42500 and any related decree.
2. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
3. The proposed change shall be completed on or before October 1, 2006.
4. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
5. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Prior to diverting water at the new point of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
7. Certificate 42500 is cancelled.

Dated at Salem, Oregon this 27 day of September 2005.

Lakeview, Oregon 97630

RE: Application T-9492

Dear Mr. Anderson,

The Department received the claim of beneficial use site report (COBU) and map for the above referenced application on February 6, 2007. The COBU report and/or map failed to meet our minimum requirements as required in OAR 690-014 and OAR 690-310-0050 and are being returned for corrections.

The COBU fails to provide diversion works destruction (pump/motor information) and pump calculations for the well(s). Calculations were provided for the canal and ditch.

The corrected and completed form and map should be returned to the Department within 90 days from the date of this letter or within such additional time as may be approved by request, in writing, to this office.

We look forward to working with you on this project. Please feel free to contact me 503-986-0812 if you have any questions and I will be happy to address any concerns you may have.

Sincerely,

Jerry Gainey

Water Rights Specialist, Certificate Section

enclosure: Claim of Beneficial Use Report and Map

cc: Stanley Stonier
PO Box 5
Beatty, Oregon 97621

CLAIM OF BENEFICIAL USE

The completion of this form is required by OAR 690-014-010(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. Every numbered item must have a response. If any requested information does not apply to the Claim, insert "n/a." Do not delete any section of this form unless directed by the form. The Department may require the submittal of additional information from any water user or authorized agent. A separate form shall be completed for each permit or transfer final order.

I. Points of Diversion/Appropriation and Place of Use

For each point of diversion or appropriation, provide the following information. If the claim is for more than one point of diversion/appropriation, copy and complete this section for each point of diversion or appropriation.

1. Provide a general narrative description of the distribution works. This description must trace the water system from the point of diversion or appropriation to and include the place of use:

Water flows from artesian well through an 8" mainline to the wheel line and discharges into an irrigation canal. Water is then distributed via a series of irrigation ditches to flood irrigate the remaining pasture. (Please See Photographs).
Water flows from the artesian well through an 8" mainline and runs a wheel line. The additional water Flows through the 8" main line to discharge into a ditch for distribution via flood irrigation. The well Is artesian at 36" psi.

2. Point of diversion/appropriation name or number (correspond to map):

Point of diversion/appropriation name or number (correspond to map)	Well log ID # for all work performed on the well (if applicable)	Well tag # (if applicable)
New Well	KLAM 55389	L77919
Old Well	KLAM 2043	36/12-6M

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, and deepenings)

3. Point of diversion/appropriation source and, if from surface water, the tributary:

Source	Tributary to
Groundwater	Sprague River

4. Point of diversion/appropriation location:

(DLC, Government Lot, 1/4 1/4, Section, Township, Range)	Reference to a recognized public land survey corner by distance and bearing or by coordinates
Taxlot 1800, SE 1/4 SE 1/4 Sec. 6, T36S R12E, W.M.	1282.36' South and 3789.59' East of Center South Corner Sec. 1, T36S R11E, W.M.

5. Actual use(s), period of use, and rate for each use:

Uses	If irrigation, list crop type	When water is used	Rate for use
Irrigation	Pasture	Irrigation season	2.4 cfs

Total Quantity of Water 2.4 cfs

6. Place of use for the point of diversion or appropriation:

DLC	Gov lot	1/4 1/4	Section	Township	Range	Use	# of primary acres	# of supplemental acres
	1600	NW SE	1	36 S	11 E	Irrigation	3.4	RECEIVED FEB 06 2007 WATER RESOURCES DEPT SALEM, OREGON
	1700	NE SE	1	36 S	11 E	Irrigation	13.0	
	1700	SW SE	1	36 S	11 E	Irrigation	37.4	
	1700	SE SE	1	36 S	11 E	Irrigation	40.0	
	1800	SE NW	6	36 S	12 E	Irrigation	0.1	

	1800	NW SW	6	36 S	12 E	Irrigation	23.8	
	1800	NE SW	6	36 S	12 E	Irrigation	18.0	
	1800	SE SW	6	36 S	12 E	Irrigation	19.8	
	1800	SW SW	6	36 S	12 E	Irrigation	36.2	

Total Acres Irrigated 191.7

Groundwater Source Information (Well and Sump)

1. Describe the access port (type and location) or other means to measure the water level in the well in the box below:

NA, well is closed with pressure gauge

2. If well logs are not available, provide as much of the following information as possible:

Casing Diameter	Casing Depth	Total Depth	Completion Date of Original Well	Completion Dates of Alterations	Who the well was drilled for	Well drilled by
12"	250	950	April 18, 2006		Stanley Stonier	

In addition to the information requested in item "2" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

See Attached well logs

Gravity flow canal or ditch (The Department typically uses Manning's formula for canals and ditches)

1. If the system involves a gravity canal or ditch, complete the table below.

Canal or ditch type (material)	Top width of canal or ditch	Bottom width of canal or ditch	Depth	"N" factor	Amount of fall	Length of canal/ditch	Slope	Computed volume
See Attached								

2. Provide calculations in the box below:

See Attached
Canal and ditches are capable of delivering a large volume of water. Only part of this volume is used for flooding.

3. If an actual measurement was taken, provide the following:

Date of Measurement	Who made the measurement	Measurement method	Measured quantity of water
NA			

Attach measurements notes

System Information:

Provide the following information concerning the diversion and delivery system. Trace the flow of water from the point of diversion/appropriation to the place of use.

1. Pump information

Brand	Model	Serial Number	Type (centrifugal, turbine or submersible)	Intake size	Discharge size
NA				RECEIVED	

FEB 06 2007

2. Motor information

Brand	Model	Horsepower	Max RPM	Voltage
NA				

3. Meter information (if required in permit or transfer final order)

Make	Serial #	Condition (working or not)	Current meter reading	Notes
McCrometer	06-03974	Working	430 199	acre-feet x 0.001

4. Measurement device description

Device description	Condition (working or not)	Notes
NA		

5. Measured pump capacity (using meter if meter was present and system was operating)

Initial meter reading	Ending meter reading	Duration of time observed	Total pump output
NA			

6. Theoretical pump capacity

Horsepower	Operating psi	Lift from source to pump *If a well, the water level during pumping (see pump test results)	Lift from pump to place of use	Total pump output
NA				

7. Provide pump calculations in the box below:

NA

8. Mainline information

Mainline size	Length	Type of pipe	Buried or above ground
8"	2176.53'	Aluminum	Above ground and Buried

9. Lateral or handline information

Lateral or handline size	Length	Type of pipe	Buried or above ground
4" wheel line	1570	Aluminum	Above ground

10. Sprinkler information Make and model:

Make	Model	Size	Operating psi	Sprinkler output	Maximum number used	Total sprinkler output
		3/16"	25	4.1	42	176 gpm

Refer to the chart of sprinkler output at various pressures for most nozzle sizes attached to this document.
See Attached

11. Additional notes or comments related to the system:

	<p>RECEIVED</p> <p>FEB 06 2007</p> <p>WATER RESOURCES DEPT SALEM, OREGON</p>
--	---

III. CONDITIONS

Please pay special attention to this section. All conditions contained in the permit or transfer final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

a. Permits or transfer Final Orders contain any or all of the following dates; the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use is to be completed by. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit or transfer final order:

	Dates from permit or transfer final order	Date accomplished	Description of actions taken by water user to comply with the time limits
Begin construction		April 4, 2006	
Complete construction		April 18, 2006	
Complete application of water		April 18, 2006	

2. Initial Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit an initial static water level measurement? **YES**

b. What month was the initial measurement to be taken in? **April 2006**

c. Did an authorized individual (as stated in the permit or transfer final order) make the initial static water level measurement in the month required?

YES

d. If "YES", was the measurement submitted to the Department? **YES**

e. If the initial measurement not been submitted, provide that measurement now if available:

Date of measurement	Who made measurement	Method	Measurement
NA			

3. Annual Static Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit annual static water level measurements? **YES**

b. In the box below, provide the month in which the static water level was to be made:

April 2006

c. Were the static water level measurements taken in the month required? **YES**

d. If "YES", were those measurements submitted to the Department? **YES**

RECEIVED

FEB 06 2007

**WATER RESOURCES DEPT
SALEM, OREGON**

e. If the annual measurements were not submitted, provide the measurements now in the box below:

Year	Month	Measurement made by	Measurement
NA			

4. Measurement, recording, and reporting conditions:

a. Does the permit or transfer final order require the installation of a meter or approved measuring device?

YES

b. Has a meter been installed? **YES**

c. Provide the date the meter was installed:

April 2006

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? **NA**

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

Name	Title	Approximate date
NA		

f. Is the water user required to report the water use to the Department? **YES**

g. Have the reports been submitted? **YES**

If the reports have not been submitted, attach a copy of the reports if available.

5. Fish Screening and/or By-pass Devices

a. Are any points of diversion required to be screened and/or have a by-pass device to prevent fish from entering the point of diversion? **NA**

6. Pump Test (typically required for ground water uses prior to issuance of a certificate, but not a requirement of permit development)

a. Did the permit or transfer final order require the submittal of a pump test? **YES**

b. Has a pump test been submitted and approved by the Department? **YES**

c. If no, is the pump test attached to this Claim? **NO**

7. Other Permit Conditions (examples: special well construct standards, water conservation plans, no obstructions to fish without a fishway, etc.; number as appropriate.)

NA

Permit and Transfer Final Order Rates and System Rates Comparisons:

POD or POA name or #	Maximum rate allowed by permit or transfer final order	Calculated theoretical rate of water based on system	Actual amount of water measured (if measured)	Developed use	# of acres allowed by permit or transfer final order	# of acres developed
New well	2.4 cfs	2.4 cfs		Irrigation	191.7	191.7

Claim of Beneficial Use Map

The Claim of Beneficial Use Map must be submitted with this Claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on poly film at a scale of 1" = 1320', 1" = 400', or the original full-size scale of the county assessor map for the location.

In the following box, provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Survey performed with Real Time GPS – Corner tie is a monument located at the Center South 1/16 Corner of Section 1, T36 S R 11 E, W.M.

JUL 4 1967

State Well No.

36/12-6M

STATE ENGINEER

State Permit No.

CASING 1 FT. ABOVE GROUND

(1) OWNER:

Name **ERNEST FIBSICK**
Address **SPARQUE RIVER**

(2) TYPE OF WORK (check):

New Well Deepening Reconditioning Abandon

If abandonment, describe material and procedure in Item 12.

(3) TYPE OF WELL:

Rotary Driven
Cable Jetted
Dug Bored

(4) PROPOSED USE (check):

Domestic Industrial Municipal
Irrigation Test Well Other

CASING INSTALLED:

Threaded Welded

" Diam. from _____ ft. to _____ ft. Gage _____
" Diam. from _____ ft. to _____ ft. Gage _____
" Diam. from _____ ft. to _____ ft. Gage _____

PERFORATIONS:

Perforated? Yes No.

Type of perforator used _____

Size of perforations in. by _____ in.
_____ perforations from _____ ft. to _____ ft.
_____ perforations from _____ ft. to _____ ft.

(7) SCREENS:

Well screen installed? Yes No

Manufacturer's Name _____
Type _____ Model No. _____
Diam. _____ Slot size _____ Set from _____ ft. to _____ ft.
Diam. _____ Slot size _____ Set from _____ ft. to _____ ft.

(8) WATER LEVEL: Completed well.

Static level _____ ft. below land surface Date _____
Artesian pressure _____ lbs. per square inch Date _____

(9) WELL TESTS:

Drawdown is amount water level is lowered below static level

Was a pump test made? Yes No If yes, by whom? _____
l: _____ gal./min. with _____ ft. drawdown after _____ hrs.

Bailer test _____ gal./min. with _____ ft. drawdown after _____ hrs.

Artesian flow _____ g.p.m. Date _____

Temperature of water _____ Was a chemical analysis made? Yes No

(10) CONSTRUCTION:

Well seal—Material used _____
Depth of seal _____ ft.
Diameter of well bore to bottom of seal _____ in.
Were any loose strata cemented off? Yes No Depth _____
Was a drive shoe used? Yes No
Did any strata contain unusable water? Yes No
Type of water? _____ depth of strata _____
Method of sealing strata off _____
Was well gravel packed? Yes No Size of gravel: _____
Gravel placed from _____ ft. to _____ ft.

(11) LOCATION OF WELL:

County _____ Driller's well number _____
_____ 1/4 Section T. R. W.M.

Bearing and distance from section or subdivision corner _____

(12) WELL LOG:

Diameter of well below casing _____

Depth drilled _____ ft. Depth of completed well _____ ft.

Formation: Describe color, texture, grain size and structure of materials; and show thickness and nature of each stratum and aquifer penetrated, with at least one entry for each change of formation. Report each change in position of Static Water Level as drilling proceeds. Note drilling rates.

Reference: Transfer 9492

Enclosed is a copy of the order approving your water right transfer application.

A time to complete the transfer is given the order. **YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT.** The water right for any portion of the authorized change in use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change within the time allowed.

You have the requirement to hire a Certified Water Right Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this department within one year of the date you completed the change or within one year of the completion date authorized in the transfer, whichever occurs first.

Sincerely,

For Doug Parrow
Natural Resource Specialist

DP:lp

cc: Watermaster #17
CWRE #271

Enclosure

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) FINAL ORDER APPROVING AN
T-9492, Klamath County) ADDITIONAL POINT OF APPROPRIATION

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

STANLEY STONIER
PO BOX 5
BEATTY OR 97621

Findings of Fact

1. Stanley Stonier filed an application to add an additional point of appropriation under Certificate 42500. The Department assigned the application number T-9492.
2. The right to be transferred is as follows:
Certificate: 42500 in the name of ERNEST D FIRSICK (perfected under Permit G-3632)
Use: IRRIGATION of 191.7 ACRES
Priority Date: MAY 16, 1967
Rate: 2.4 CUBIC FEET PER SECOND
Limit/Duty: ONE-EIGHTIETH cfs per acre, not to exceed 3 acre-feet per acre per year
Source: A WELL in the SPRAGUE RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	NW SW	400 FEET SOUTH & 1020 FEET EAST FROM W1/4 CORNER, SECTION 6

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

3. Application T-9492 proposes to add an authorized point of appropriation approximately 1/2 mile south of the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	SW SW	10 FEET NORTH AND 1020 FEET EAST OF THE SW CORNER, SECTION 6

4. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
5. Applicant did not supply the required documentation supporting use according to the terms and conditions of the right during the five years prior to submission of the transfer. However, examination of a year 2000 aerial photograph on file at the Department indicates irrigation of the land under Certificate 42500 during 2000. Therefore, water has been used within the last five years according to the terms and conditions of the rights; no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
6. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
7. The proposed change would not result in enlargement of the right.
8. The proposed change would not result in injury to other water rights.
9. No comments were received in response to notice of the Preliminary Determination.

Conclusions of Law

The additional point of appropriation proposed in application T-9492 appears to be consistent with the requirements of ORS 537.705, 540.505 to 540.580, and OAR 690-380-5000.

Now, therefore, it is ORDERED:

The additional point of diversion proposed in T-9492 is approved; subsequent use of water shall be subject to the following conditions:

1. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 42500 and any related decree.
2. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
3. The proposed change shall be completed on or before October 1, 2006.
4. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
5. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Prior to diverting water at the new point of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
7. Certificate 42500 is cancelled.

Dated at Salem, Oregon this 27 day of September 2005.

STATE OF OREGON
COUNTY OF KLAMATH
CERTIFICATE OF WATER RIGHT

This Is to Certify, That ERNEST D. FIRSICK

97639

of P. O. Box 343, Sprague River, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of a well

a tributary of Sprague River for the purpose of irrigation of 191.7 acres

under Permit No. G-3632 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 16, 1967

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 2.40 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW 1/4 SW 1/4, Section 6, T. 36 S., R. 12 E., W. M., 400 feet South and 1020 feet East from W 1/2 Corner, Section 6.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

- 13.0 acres NE 1/4 SE 1/4
- 3.4 acres NW 1/4 SE 1/4
- 37.4 acres SW 1/4 SE 1/4
- 40.0 acres SE 1/4 SE 1/4
- Section 1
- T. 36 S., R. 11 E., W. M.

- 0.1 acre SE 1/4 NW 1/4
- 18.0 acres NE 1/4 SW 1/4
- 23.8 acres NW 1/4 SW 1/4
- 36.2 acres SW 1/4 SW 1/4
- 19.8 acres SE 1/4 SW 1/4
- Section 6
- T. 36 S., R. 12 E., W. M.

6. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- Enclosed
Not needed: (must meet the following four requirements)
1 In EFU zone or irrigation district.
2 Change in place of use only.
3 No structural changes needed, including diversion works, delivery facilities, other structures.
4 Irrigation only.
List all affected governments (city, county, state, tribal, federal):

Evidence of use within last five years, or not subject to forfeiture:

Best evidence is an affidavit from a knowledgeable person describing the water use. Statements saying water was delivered or assessments/fees were paid are insufficient. Evidence must show actual use of the water for the authorized purpose, in the authorized place of use.

Water Well Reports:

If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Map:

- Water Right Transfer: Must be prepared by a Certified Water Right Examiner.
All others: Need not be prepared by a Certified Water Right Examiner.

Fees:

Amount enclosed \$ 300.00
See instruction book for fee schedule.

Deed:

- Must accompany all applications, except permit amendment requests.

7. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

Stanley Stonier Stanley Stonier 6-30-03
applicant signature name (print) date
Dolores Stonier Dolores Stonier 6-30-03
applicant signature name (print) date

Before you submit your application be sure you have:

- Answered each question completely.
Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
Included the necessary exhibits.
Included a check payable to the Oregon Water Resources Department for the appropriate amount.

STANLEY STONIER
PO BOX 5
BEATTY OR 97621

SUBJECT: Transfer Application T-9492

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-9492.

Because the new point of appropriation is more than ¼ mile from the authorized point of appropriation, the applicant is responsible for giving public notice of the transfer changes in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We have prepared the notice for you (enclosed). The deadline for individuals to file protests or standing statements is 30 days after the date of last publication. Please have the newspaper insert the date of last publication in the proper place. After publication, the Department needs to receive an affidavit specifying the dates the notice was published. Typically, the newspaper will prepare and mail an *affidavit of publication* to the Department, however you will want to request specifically that they do so. The newspaper can mail the affidavit to me at the address above.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a 30-day period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0891 or Timothy.Wallin@ wrd.state.or.us if I may be of assistance.

Sincerely,

Tim Wallin
Field Services Division

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)
T-9492, Klamath County) **PRELIMINARY DETERMINATION
PROPOSING APPROVAL OF AN
ADDITIONAL POINT OF APPROPRIATION**

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

STANLEY STONIER
PO BOX 5
BEATTY OR 97621

Findings of Fact

1. Stanley Stonier filed an application to add an additional point of appropriation under Certificate 42500. The Department assigned the application number T-9492.

2. The right to be transferred is as follows:
Certificate: 42500 in the name of ERNEST D FIRSICK (perfected under Permit G-3632)
Use: IRRIGATION of 191.7 ACRES
Priority Date: MAY 16, 1967
Rate: 2.4 CUBIC FEET PER SECOND
Limit/Duty: ONE-EIGHTIETH cfs per acre, not to exceed 3 acre-feet per acre per year
Source: A WELL in the SPRAGUE RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	NW SW	400 FEET SOUTH & 1020 FEET EAST FROM W1/4 CORNER, SECTION 6

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

3. Application T-9492 proposes to add an authorized point of appropriation approximately 1/2 mile south of the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	SW SW	10 FEET NORTH AND 1020 FEET EAST OF THE SW CORNER, SECTION 6

4. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
5. Applicant did not supply the required documentation supporting use according to the terms and conditions of the right during the five years prior to submission of the transfer. However, examination of a year 2000 aerial photograph on file at the Department indicates irrigation of the land under Certificate 42500 during 2000. Therefore, water has been used within the last five years according to the terms and conditions of the rights; no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
6. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
7. The proposed change would not result in enlargement of the right.
8. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The additional point of appropriation proposed in application T-9492 appears to be consistent with the requirements of ORS 537.705, 540.505 to 540.580, and OAR 690-380-5000, and will be approved provided that protests are not filed pursuant to OAR 690-380-4030.

If approved, the change and subsequent use of water shall be subject to the following conditions:

1. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 42500 and any related decree.
2. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
3. The proposed change shall be completed on or before October 1, 2006.
4. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
5. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.

6. Prior to diverting water at the new point of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Dated at Salem, Oregon this 23rd day of May 2005.

Phillip C. Ward, Director

Protests should be addressed to the attention of Field Services Division, Water Resources Department, 725 Summer St. NE, Salem, OR 97301-1271

This Preliminary Determination was prepared by Tim Wallin. If you have questions about the information in this document, you may reach me at 503-986-0891 or Timothy.Wallin@wrд.state.or.us.

**Notice of Preliminary Determination for
Water Right Transfer T-9492**

T-9492 filed by STANLEY STONIER, proposes an additional point of appropriation under Certificate 42500. The right allows the use of 2.4 cfs (priority date MAY 16, 1967) from a well in Sec 6, T36S, R12E, WM (Sprague River Basin) for IRRIGATION. The applicant proposes to add a point of appropriation at a well approximately 1/2 mile south in Sec 6 (10 feet North and 1020 feet East of SW corner, Sec 6). The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may file, jointly or severally, with the Department a protest or standing statement within 30 days after the date of final publication of notice in the Department's weekly notice or of this newspaper notice, whichever is later. A protest form and additional information on filing protests may be obtained by calling (503) 986-0852. The last date of newspaper publication is [DATE OF FINAL PUBLICATION]. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

SUBJECT: Application T-9492

Enclosed find a draft of our Preliminary Determination regarding transfer application T-9492. The draft Preliminary Determination reflects the Department's conclusion that, based on the information currently available, the transfer will be approved, *provided you address two minor deficiencies*:

1. We need a copy of a letter documenting that you have notified the lienholder (Farmer's Home Administration) of the proposed transfer (OAR 690-380-4000 §16). The letter should be from you to the lienholder.
2. The survey coordinates you specify on the application form for the proposed point of diversion differ slightly from those shown on the map prepared by your CWRE. Specifically the map indicates the proposed point of diversion will be 1020 feet east of the SW corner, whereas the application indicates it will be 1000 east of the SW corner. On the draft Preliminary Determination I have used the "1020" value; please verify which coordinate you prefer to use.

This draft is also intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so. Please review the draft carefully to evaluate whether the document is consistent with your intent in seeking the transfer, and whether you agree with the proposed action.

Issuance of the Preliminary Determination will occur shortly after we receive the requested information, or on May 11, whichever occurs first. You may provide your comments or approval to proceed in writing or via e-mail.

Because the new point of appropriation is more than ¼ mile from the authorized point of appropriation, the applicant is responsible for publishing notice of the transfer in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We will provide a copy of the required notice to you upon issuance of the Preliminary Determination.

Please do not hesitate to contact me at 503-986-0891 or Timothy.Wallin@ wrd.state.or.us if I may be of assistance.

Sincerely,

Tim Wallin
Field Services Division

Source: Well in the SPRAGUE RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	NW SW	400 FEET SOUTH & 1020 FEET EAST FROM W1/4 CORNER, SECTION 6

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
36 S	11 E	WM	1	NE SE	13.0
36 S	11 E	WM	1	NW SE	3.4
36 S	11 E	WM	1	SW SE	37.4
36 S	11 E	WM	1	SE SE	40.0
36 S	12 E	WM	6	SE NW	0.1
36 S	12 E	WM	6	NE SW	18.0
36 S	12 E	WM	6	NW SW	23.8
36 S	12 E	WM	6	SW SW	36.2
36 S	12 E	WM	6	SE SW	19.8

- Application T-9492 proposes to add an authorized point of appropriation approximately 1/2 mile south of the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
36 S	12 E	WM	6	SW SW	10 FEET NORTH AND 1020 FEET EAST OF THE SW CORNER, SECTION 6

- Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
- Applicant did not supply the required documentation supporting use according to the terms and conditions of the right during the five years prior to submission of the transfer. However, examination of a year 2000 aerial photograph on file at the Department indicates irrigation of the land under Certificate 42500 during 2000. Therefore, water has been used within the last five years according to the terms and conditions of the rights, and no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The additional point of appropriation proposed in application T-9492 appears to be consistent with the requirements of ORS 537.705, 540.505 to 540.580, and OAR 690-380-5000, and will be approved provided that protests are not filed pursuant to OAR 690-380-4030.

If approved, the change and subsequent use of water shall be subject to the following conditions:

- The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 42500 and any related decree.
- Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
- The proposed change shall be completed on or before October 1, 2006.
- A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
- The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.

6. Prior to diverting water at the new point of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Dated at Salem, Oregon this ____ day of _____ 2005.

INTEROFFICE MEMO

FORWARD TO: Kyle Gorman
FIELD PROCESSOR WORKING ON THIS TRANSFER

DATE: 2-11-05

FROM: X WATERMASTER, DISTRICT # 17
GROUNDWATER SECTION

(SIGNATURE) [Signature] signed by injury reviewer *date signed* 2-22-05

SUBJECT: WATER RIGHT TRANSFER # 9492

A change in: POU POD A POA USE of water.

In the name(s) of Stanley Stonier

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY right. WOULD RESULT IN INJURY* to an existing water

*The approval of this transfer application would result in injury to other water rights because _____

The existing right may not be valid because _____

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) N/A

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

- X (1) PRIOR to the diverting of water at the new point of diversion . . .
- _____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

REFERENCE: Permit Amendment T-9492

On 07/01/2003, we received your request for permit amendment for an Additional Point of Appropriation of water from a Well. The request was accompanied by fees of \$300.00. Our receipt 61012 is enclosed.

By copy of this letter, we are asking the Watermaster for his usual report regarding the potential for injury to existing water rights which may be caused by the change.

We will notify you if additional information or corrections to the application or map are required.

You may not use the water at the new place of use or from the new point of APPROPRIATION] until 60 days after we received your notice.

If you have any questions, please call the Transfer Section at, (503) 378-8455, ext #309.

WARRANTY DEED—TENANTS BY ENTIRETY

Vol. 179 Page

1360

KNOW ALL MEN BY THESE PRESENTS, That Ernest D. Firsick and Gloria I. Firsick, husband and wife

hereinafter called the grantor, for the consideration hereinafter stated to the grantor paid by Stanley S. Stonier and Dolores E. Stonier, husband and wife, hereinafter called the grantees, does hereby grant, bargain, sell and convey unto the grantees, as tenants by the entirety, the heirs of the survivor and their assigns, that certain real property, with the tenements, hereditaments and appurtenances thereunto belonging or appertaining, situated in the County of Klamath State of Oregon, described as follows, to-wit:

In Township 36 South, Range 11 East of the Willamette Meridian:

Section 1: S½SE½, S½NE½SE½

In Township 36 South, Range 12 East of the Willamette Meridian:

Section 6: W½ Lot 3, All Lot 4, SW½NW½, W½SE½NW½, SW½

Subject, however, to the following:

1. Rights of the public in and to any portion of said premises lying within the limits of roads and highways.
2. Reservations included in Land Status Reports, recorded December 3, 1958 in Book 307 at page 191, Deed Records, and recorded March 10, 1959 in Book 310 at page 390, Deed Records. (Affects property in Section 6, Township 36 South, Range 12 East of the Willamette Meridian)
3. An easement created by instrument, including the terms and provisions thereof,

Recorded : October 7, 1958 Book: 304 Page 433

In favor of : Pacific Power & Light Company

(for continuation of this deed see reverse side of this document)

(IF SPACE INSUFFICIENT, CONTINUE DESCRIPTION ON REVERSE SIDE)

To Have and to Hold the above described and granted premises unto the said grantees, as tenants by the entirety, their heirs and assigns forever.

And grantor hereby covenants to and with grantees and the heirs of the survivor and their assigns, that grantor is lawfully seized in fee simple of the above granted premises, free from all encumbrances except as noted of record as of the date of this deed and those apparent upon the land, if any, as of the date of this deed,

and that grantor will warrant and forever defend the said premises and every part and parcel thereof against the lawful claims and demands of all persons whomsoever, except those claiming under the above described encumbrances.

The true and actual consideration paid for this transfer, stated in terms of dollars, is \$ 165,000.00

~~However, the actual consideration consists of or includes other property or value given or promised which is the whole consideration (indicate which).~~ (The sentence between the symbols Ⓞ, if not applicable, should be deleted. See ORS 93.030.)

In construing this deed and where the context so requires, the singular includes the plural and all grammatical changes shall be implied to make the provisions hereof apply equally to corporations and to individuals.

In Witness Whereof, the grantor has executed this instrument this 1st day of May, 1977; if a corporate grantor, it has caused its name to be signed and seal affixed by its officers, duly authorized thereto by order of its board of directors.

INSTRUCTIONS

FOR TRANSFER APPLICATIONS

Note: All information should be typewritten or neatly printed with dark ink. All items must be completed even if parts or all of the required information appears on supplemental maps or drawings. Applications must be submitted on original forms that are provided by the Department or watermaster. Sign the forms in ink. If you have additional comments that will not fit on the form please submit an attached sheet referencing the section and question.

You may include a fax number and an e-mail address if you have these. (These numbers are not required but they may assist the Department in contacting you.)

Mark the proposed change to your existing water right and describe the reason for that change. You may apply to change all three major components of your water right, however, you must pay the transfer fees for each change.

Indicate if the land is within an irrigation district. The Department is required to notify irrigation districts if transfers are proposed within their boundaries.

Indicate the name on the current water right. Enter the decree, permit or certificate number, whichever applies. Also enter the priority date, authorized use, source of water, and the county it is located in. If the use and source are in different counties, please indicate.

Fill in the table locating the place(s) of diversion (surface water) or point(s) of appropriation (wells).

Fill in the table locating the place(s) of use.

Describe the general delivery system. Include type, size, length, measurements.

Finally, list the capacity of the delivery system in cubic feet per second (cfs).

If you are proposing a change in type of use, check the box and provide the proposed new use.

If you are proposing a change in the point of diversion (surface sources) or appropriation (wells) check the box and then indicate if it will be a change or an addition to the existing water right.

Fill in the table locating the new place(s) of diversion (surface water) or point(s) of appropriation (wells).

For a change in the place of use, check the box and fill in the table locating the new place(s) of use.

Answer only the section(s) that apply.

If you are changing the type or place of use: Indicate if the lands are free of "encumbrances": liens, rights-of-way, or other contracts. If not, provide the name of the holder and obtain written permission from them to proceed with the transfer.

If you are applying for a transfer on land that you do not own: Provide names and addresses for all the landowners shown on the deed. You must obtain notarized permission from all the landowners listed on the deed to proceed with the transfer.

If the transfer will change water rights to someone other than the landowner or applicant: Check the appropriate box to indicate whom the Department should work with to complete the transfer.

Depending on the type of change you are proposing, you may be required to include several exhibits with your application.

For most applications you will need to include a completed Land Use Information Form. If you meet the four listed criteria, you may submit your application without the Land Use Information Form.

All applications require a map. If you are applying for a water right transfer, the map must be prepared by a certified water rights examiner (CWRE). If you do not have a CWRE, you may contact the Department for more information. All other applications may provide maps prepared without a CWRE.

All applications require evidence of use within the last five years.

Applications for changes in or to point(s) of appropriation require well reports.

Before signing the application be sure you have answered the questions completely and prepared the necessary maps and exhibits. Include a check made out to the Oregon Water Resources Department for the required fees and a completed Land Use Information Form (if required).

Regular transfers and permit amendments

First change: \$200 Each additional change: \$100

Each cfs: \$100

or fraction thereof, requested beyond the first cfs (for changes in place of use, type of use, or water exchanges)

Temporary transfers

Base fee: \$100 Each cfs: \$50

or fraction thereof, and each additional cfs, or fraction thereof (for non irrigation uses) or

Each acre of irrigated land: \$0.25

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. Applicant

Name: Stanley Stonier
 Address: P.O. Box 5 36265 Drews Rd
 City: Booth State: Or Zip: 97621 Day Phone: 541 533-2677

B. Land and Location

Please provide information as requested below for **all tax lots** on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
3612-000-1800	EFU-CG	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
3611 1D-1700	EFU-CG	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
3612-000-1700	EFU-CG	<input type="checkbox"/> Diverted	<input type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Klamath County

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): Irrigation
 Briefly describe: Flood Irrigate & Sprinkler with Wheel Line

D. Source

Indicate the source for the proposed water use:
 Reservoir/Pond Ground Water Surface Water Well
(source)

E. Quantity

Indicate the estimated quantity of water the use will require:
1150 CFS GPM Acre-Feet

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s); 54. Go to section B "Approval" below
- Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: J.K. LUNDAHL Date: 6-30-03
 Title: SENIOR PLANNER Phone: 800 426 9763
 Signature: J.K. Lundahl

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: STONIER

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.

FAX (503) 378-8130

INTEROFFICE MEMO

TO: TRANSFER SECTION

DATE: 7-17-03

FROM: _____ WATERMASTER, DISTRICT # _____
✓ _____ GROUNDWATER SECTION

(SIGNATURE) Michael Zwart date signed 7/22/03

SUBJECT: PERMIT AMENDMENT # 9492

A change in: POU POD APOA of water.

In the name(s) of Stanley Stonier

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY* to an existing water right.

*The approval of this transfer application would result in injury to other water rights because _____

The existing right may not be valid because _____

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

**OREGON WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO**

To: Ground Water Files

Date: July 22, 2003

From: Michael J. Zwart

Subject: Application Review: T-9492, Stanley Stonier (Permit Amendment)

This application proposes one additional POA. The existing well, KLAM 2043, develops interbedded basalt, clays, pumice and cinders. The proposed additional well could develop the same confined aquifer, but no well construction information is provided for this well.

I find that the proposed change may be made without injury provided the following: the right is valid, the proposed well develops the same aquifer as the existing well, both wells meet applicable construction standards and the Watermaster can approve the proposal.

Oregon

Theodore R. Kulongoski, Governor

Water Resources Department

REFERENCE: Permit Amendment T-9492

On 07/01/2003, we received your request for permit amendment for an Additional Point of Appropriation of water from a Well. The request was accompanied by fees of \$300.00. Our receipt 61012 is enclosed.

By copy of this letter, we are asking the Watermaster for his usual report regarding the potential for injury to existing water rights which may be caused by the change.

We will notify you if additional information or corrections to the application or map are required.

You may not use the water at the new place of use or from the new point of APPROPRIATION] until 60 days after we received your notice.

If you have any questions, please call the Transfer Section at, (503) 378-8455, ext #309.

5. LAND OWNERSHIP

Use/Place of Use

Answer only if for change in Use or Place of Use.

Are the lands free of encumbrances? Yes No

If no, name of encumbrance holder: Farmers Home Adm.

If no, application must include written permission for the transfer from the encumbrance holder.

Landowners

Answer only if applicant is not the landowner.

This section does not apply to water delivery entities authorized to act on behalf of their members, making permit amendment requests, or requests for changes in point of diversion or point of appropriation only.

Landowners: _____

(List all landowners shown on deed.)

Address(es): _____

_____ City State Zip

Application must include notarized statements from all landowners shown on deed giving permission for the transfer. Use an extra sheet if necessary.

Receiving Landowner

Answer only if the receiving landowner is not the original landowner or the applicant.

Name: Stanley Stonier

Address: P.O. Box 5 36205 Drews Rd

Beatty City Oregon State 97621 Zip

The Department's records should be changed to show this landowner is responsible for completion of the changes. All notices and correspondence should be sent to this landowner.

Applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to applicant.

6. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- Enclosed
- Not needed: (must meet the following four requirements)
 - ① In EFU zone or irrigation district.
 - ② Change in place of use only.
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures.
 - ④ Irrigation only.
- List all affected governments (city, county, state, tribal, federal):

Map:

- Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*
- All others: *Need not be prepared by a Certified Water Right Examiner.*

Deed:

- Must accompany all applications, except permit amendment requests.

Evidence of use within last five years, or not subject to forfeiture:

- Best evidence is an affidavit from a knowledgeable person describing the water use. Statements saying water was delivered or assessments/fees were paid are insufficient. Evidence must show actual use of the water for the authorized purpose, in the authorized place of use.

Water Well Reports:

- If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

- Amount enclosed \$ 300.00

See instruction book for fee schedule.

7. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

<u>Stanley Stonier</u> applicant signature	<u>STANLEY STONIER</u> name (print)	<u>6-30-03</u> date
<u>Dolores Stonier</u> applicant signature	<u>Dolores Stonier</u> name (print)	<u>6-30-03</u> date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included the necessary exhibits.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

CERTIFICATE OF WATER RIGHT

This Is to Certify, That ERNEST D. FIRSICK

of **P. O. Box 343, Sprague River**, State of **Oregon**, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of a well

97639

a tributary of **Sprague River** for the purpose of irrigation of **191.7 acres**

under Permit No. **G-3632** of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from **May 16, 1967**

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed **2.40 cubic feet per second**

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the **NW¹ SW¹**, Section 6, T. 36 S., R. 12 E., W. M., **400 feet South and 1020 feet East from W¹ Corner, Section 6.**

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to **one-eightieth** of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed **3 acre feet per acre** for each acre irrigated during the irrigation season of each year;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

13.0 acres NE¹ SE¹
3.4 acres NW¹ SE¹
37.4 acres SW¹ SE¹
40.0 acres SE¹ SE¹
Section 1
T. 36 S., R. 11 E., W. M.

0.1 acre SE¹ NW¹
18.0 acres NE¹ SW¹
23.8 acres NW¹ SW¹
36.2 acres SW¹ SW¹
19.8 acres SE¹ SW¹
Section 6
T. 36 S., R. 12 E., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

this date. **September 15, 1975**

James E. Sexson

Water Resources Director ~~State Engineer~~
