On March 5, 2009, we received your water right Transfer application. The \$500.00 fee has been paid by Invoice #4587.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Your application will be examined to determine whether additional information is needed. We will notify you if further information or corrections to the application or map are required.

You may not use water for the new use, in the new place of use or from the new point of appropriation until a final order approving recognition of the ground water registration modification application has been issued by the Department. If the land is sold before the modification is approved, the buyer's consent to the modification will be required unless a recorded deed or other legal document clearly established that the ground water registration was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503)986-0883.

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. Comments should be sent to the Transfers Section at the Department's Salem office.

In accordance with OAR 690-382-0400(16)(a), I (we) understand that prior to Department approval of a permanent modification and upon my receipt of a draft Preliminary Determination for the proposed modification, I (we) will be required [pursuant to OAR 690-382-0700(5)] to provide the following landownership information and evidence demonstrating that I (we) are authorized to pursue the modification:

- (a) A report of ownership and lien information that has been prepared by a title company *within the last three months*;
- (b) A copy of written notification of the proposed modification provided by the applicant to all lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the recorded agreement and a listing of the owner(s) of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the applicant is not both the person named on the ground water registration or the assignee *and* the owner of the lands to which the registration is appurtenant, as identified in the report of ownership and lien information, then either of the following must be provided:
  - A) Notarized statements consenting to the modification by all persons, other than the applicant, who are named on the ground water registration or identified as landowners in the report of ownership and lien information or who are authorized representatives of an entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement; or
  - B) Documentation demonstrating that the applicant is authorized to pursue the modification in the absence of consent of the persons named on the ground water registration or the assignee and the owner of the lands to which the registration is appurtenant.

I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-382-0400(16)(b), the applicant is NOT required to provide the above described report of ownership and lien information.

I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the ground water registration proposed for modification is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-382-0400(16)(c), the applicant is NOT required to provide the above described report of ownership and lien information. (NOTE: Such an entity may only apply for recognition of a modification under this subsection if it has filed a condemnation action to acquire the property and deposited the funds with the court as required by ORS 35.265.)

- **For both Permit Amendment and Ground Water Registration Modification Applications, I (we) affirm that the information contained in this application is true and accurate.**

REFERENCE: Ground Water Registration Modification T-10797, 10798, 10799, 10800

After examining your Ground Water Registration Modification (GR Mod) Applications, there are some problems that need to be resolved before we can continue processing. Please provide the following information and/or materials:

1. Need a notarized consent statement from Oregon State Hospital with regards to the four GR Mod Applications. The other alternative is to file a change in Certificate of Registration Assignment. The application form is available on our Department webpage.
2. If the lands the GR Mod Applications are proposing to transfer from have been sold and are currently under ownership other than the GR Mod applicants, the Department needs a notarized consent form from each landowner affected by the transfer.
3. The majority of the proposed lands affected by the GR Mod transfers are currently authorized by Certificate 68665. Parts of the Certificate 68665 associated with the from lands will need to be cancelled and the portions associated with the to lands will need to be either determined as supplemental, primary, or cancelled. This will require the notarized consent of the Certificate 68665 holder, Santiam Water Control District.
4. As the GR Mod Applications currently propose, the transfer of the Certificates of Registration creates an enlargement issue due to the authorized rate/duty and the number of proposed acres to be irrigated. There is also a 'layering' issue as the Applications propose to place two Certificates of Registration onto the same lands in conjunction with Certificate 68665. We will need to resolve these issues by either reducing acre size and/or creating supplemental rights.

## Ground Water Review Form: Water Right Transfer

Transfer Application: T-10799  
Corrections

Applicant Name: Stephen Poage (Oregon Dept. of

Proposed Changes:  POA     APOA     SW→GW     RA  
 USE     POU     OTHER

Reviewer(s): Josh Hackett

Date of Review: Mar. 11, 2009

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other \_\_\_\_\_

1. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?

Yes     No    Comments: The current well (MARI 9609) is 187 feet deep and produces from the alluvial aquifer system. The proposed well will be ~200 feet deep and will likely produce from the Columbia River Basalt (CRB) aquifer system. Locally, the CRB exist at land surface to the southeast o the applicant's well and dip to the northwest. CRB was encountered in MARI 9609 at a depth of 164 feet and the top of the CRB surface has been mapped at ~130 feet below land surface northwest of the well (Gannett and Caldwell, 1998). Although MARI 9609 is completed in the CRB, the well casing is perforated above the basalt, indicating it produces from the alluvium. Because the proposed well is up dip from MARI 9609, it will likely encounter CRB at a shallower depth and will likely produce from the CRB aquifer system.

2. Is there more than one source developed under the right (e.g., basalt and alluvium)?  
 Yes     No. If yes, estimate the portion of the right supplied by each of the sources.  
 Comments: \_\_\_\_\_

3. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?  
 Yes     No    Comments: \_\_\_\_\_

## Watermaster Review Form: Water Right Transfer

Transfer Application: T-1079910800

Review Due Date: \_\_\_\_\_

Applicant Name: DOC

Proposed Changes:  POU  POD  POA  USE  OTHER

Reviewer(s): MLM

Date of Review: Apr. 15, 2009

1. Do you have information suggesting that the water rights may be subject to forfeiture?  
 Yes  No If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: NA - GR Mod.
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights?  Yes  No Generally characterize the frequency of any regulation or explain why regulation has not occurred:  
 \_\_\_\_\_
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right?  If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:  
 \_\_\_\_\_
4. Are there upstream water rights that would be affected by the proposed change?  
 Yes  No If "Yes", describe how the rights would be affected and list the rights most affected: \_\_\_\_\_
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach?  If you check the box, describe and, if possible, estimate the losses: \_\_\_\_\_
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?  
 Yes  No If "Yes", explain: \_\_\_\_\_
7. For POU changes, would the original place of use continue to receive water from the same source?  Yes  No  N/A If "Yes", explain: \_\_\_\_\_
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?  Yes  No If "Yes", explain: \_\_\_\_\_
9. Are there other issues not identified through the above questions?  Yes  No If "Yes", explain: These two transfers were reviewed together because if approved, the two GR's involved would be combined. The end result would be a water right with a rate of 1.14 cfs, a duty of 5.7 acre feet per acre for 141.6 acres.

10. What alternatives may be available for addressing any issues identified above: I suggest we discuss this with the applicant or their agent to figure out a solution to this.

11. Have headgate notices been issued for the source that serves the right?  Yes  No

12. What water control and measurement conditions should be included in the transfer:

<b>Measurement Devices</b>	<input type="checkbox"/> Present and should be maintained.	<input checked="" type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
<b>Headgates</b>	<input type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.

Reference: Application T- 10799

On March 5, 2009, we received your water right Transfer application. The \$500.00 fee has been paid by Invoice #4587.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Your application will be examined to determine whether additional information is needed. We will notify you if further information or corrections to the application or map are required.

You may not use water for the new use, in the new place of use or from the new point of appropriation until a final order approving recognition of the ground water registration modification application has been issued by the Department. If the land is sold before the modification is approved, the buyer's consent to the modification will be required unless a recorded deed or other legal document clearly established that the ground water registration was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503)986-0883.

- (b) A copy of written notification of the proposed modification provided by the applicant to **all** lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the recorded agreement and a listing of the owner(s) of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the applicant is **not both** the person named on the ground water registration or the assignee **and** the owner of the lands to which the registration is appurtenant, as identified in the report of ownership and lien information, then **either** of the following must be provided:
  - A) Notarized statements consenting to the modification by all persons, other than the applicant, who are named on the ground water registration or identified as landowners in the report of ownership and lien information or who are authorized representatives of an entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement; **or**
  - B) Documentation demonstrating that the applicant is authorized to pursue the modification in the absence of consent of the persons named on the ground water registration or the assignee **and** the owner of the lands to which the registration is appurtenant.

I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-382-0400(16)(b), the applicant is **NOT** required to provide the above described report of ownership and lien information.

I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the ground water registration proposed for modification is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-382-0400(16)(c), the applicant is **NOT** required to provide the above described report of ownership and lien information. (NOTE: Such an entity may only apply for recognition of a modification under this subsection if it has filed a condemnation action to acquire the property and deposited the funds with the court as required by ORS 35.265.)

- **For both Permit Amendment and Ground Water Registration Modification Applications, I (we) affirm that the information contained in this application is true and accurate.**

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form.

This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

### Please check the appropriate box below and provide the requested information

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): SRC 160.090 (a).

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)

**If approvals have been obtained but all appeal periods have not ended, check "Being pursued".**
