Application for Instream Lease

Part 1 of 4 – Minimum Requirements Checklist

Complete Part 1 through 4 and include the required attachments Fill in or check boxes as indicated. (N/A= Not Applicable)	OWRD #	11-1767
	Fee-	

Pursuant to ORS 537.348(2) and OAR 690-077

Check all items included with this application. (N/A = Not Applicable)

☐ Yes

Part 1 – Completed Minimum Requirements Checklist and Application Fee

Fees

☐ \$520.00 for a lease involving four or more landowners or four or more water rights	☒ \$350.00 for all other leases
☒ Check enclosed <u>or</u>	
☐ Fee Charged to customer account _____ (account name)	

☒ Yes

Part 2 – Completed Instream Lease Application Map Checklist.

☒ Yes

Part 3 – Completed Water Right and Instream Use Information
 Include a separate **Part 3** for **each water right**

☒ Yes

Part 4 – Completed Instream Lease Provisions and Signatures

☒ Yes

How many water rights are leased? 2 List them here: C-87700, 88759
 Include a separate **Part 3** for each **water right**.

☒ Yes ☐ N/A

Other Water Rights, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream?
List those other water rights here: C-88758

☐ Yes ☐ No

Conservation Reserve Enhancement Program (CREP). Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Attachments:

☒ Yes ☐ N/A

Map: Instream Lease map requirements (see Part 2 of this application)

☒ Yes ☐ N/A

Tax Lot Map: If a portion of the water right *not included in the lease* is appurtenant to lands owned by others, a tax lot map must be included with the lease application. The tax lot map should clearly show the property involved in the lease.

☒ Yes ☐ N/A

Supporting documentation describing why a right (or portion thereof) is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years. This information only needs to be provided if the checkbox has been checked to identify that the water right has not been used in the last five years and is not subject to forfeiture (See Part 4 of 4).

☐ Yes ☒ N/A

If the Lessor (water right holder) is not the deeded landowner - provide one of the following.

- A notarized statement from the landowner consenting to the lease and a copy of the recorded deed; or.
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation which provides authority to pursue the lease absent consent of the landowner.

OWRD

Part 2 of 4 – Instream Lease Application Map Checklist

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a simple map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

- ☒ ☐ N/A A map is required for each water right not leased in its entirety. More than one QQ and property may be included on each map. A map is not required, if leasing the entire right or if the right to be leased is for municipal or quasi-municipal water use.
- ☒ The map should be of sufficient quality to be reproducible. Please do not use highlighters to mark items on the map as highlighters do not always copy.
- ☒ A North arrow and map scale (no smaller than 1" = 1320').
- ☒ Township, Range, Section, quarter quarter (QQ), and a clearly labeled survey corner.
- ☒ For irrigation or other similar use, the number of acres to be leased in each quarter-quarter clearly labeled and hachured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.
- ☒ If available, identify the existing point(s) of diversion.

Instream Use Information

Table 4

Instream Use Created by the Lease						
River/ Stream Name: <u>Unnamed Stream</u> , tributary to <u>Alder Cr.</u>				River Basin: <u>John Day</u>		
Instream Portion: Use Table 4 to illustrate the instream rate, volume and instream period by priority date, POD (if more than one), Use (if more than one), and acreage as appropriate considering the right to be leased. If not enough room below, you may add additional rows (see instructions) or attach a spreadsheet (matching the below portion of Table 4). Please clearly label any attachments.						
Priority date	POD #	Use	Acre	Proposed Instream Period	Total instream rate (cfs)	Total instream volume (af)
5/2/1979	1	IR	34.1	4/1-9/30	0.3744 CFS	136.4
Note: If not certain of the instream rate, volume and/or instream period, see the instructions and/or contact Department Staff for assistance. The instream rate and volume may be up to the maximum rate and duty/volume allowed by the right, as described in Table 2 or on your Certificate if leasing the entire right. The proposed instream period may be no longer than the irrigation season or the authorized period of allowed use.						
OR ☐ Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.						
Instream Reach						
Proposed Instream Reach: ☐ A reach typically begins at the point of diversion (POD) and ends at the mouth of the source stream: From the POD to _____				Or Proposed Instream Point: ☒ Instream use protected at the POD		
OR ☐ Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. (If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)						
Additional Instream Information						
☒ Yes ☐ N/A Conditions to avoid enlargement or injury to other water rights, if any, or other limitations: list here <u>Reduced rate to limit to Total Duty</u>						
Note: The Department may identify additional conditions to prevent injury and/or enlargement.						
Any additional information about the proposed instream use: <u>N/A</u>						

I do NOT Agree To this! RV.

* See Attached letter. This instream lease shall not set a precedent on future transactions. It must not reduce my rights as defined in the original MAY 2, 1979 water right deed in rates of use or any other way. I do not agree to this lease making any changes, or added restrictions beyond those in my original deed or on the Feb 10, 2010 lease that preceded this lease. In that lease, this box was not checked and the precedent statement said "an instream lease shall not set a precedent".

I Do Not Agree To this!
 RV.

See attached letter - this instream lease should NOT "set a precedent" on future transaction. IT must NOT reduce my rights as defined in the original 1979 ^{Deed} Rate of use or any other way. This lease must make no changes or added restrictions beyond those I approved in the 2014 lease. This Box was not checked and the "Precedent" Statement said "An instream lease shall not set a precedent".
 Roberta Hoben Vandelay

Instream Lease Application (revised 7-27-2017)

Part 4 of 4 – Lease Provisions and Party Signatures

Term of the Lease (may be from 1 year up to 5 years):

The lease is requested to begin in: month April year 2020 and end: month September year 2025

Note: The begin month is generally the first month of the irrigation season and the end month is the last month in the irrigation season. If not an irrigation right, this would be the first and last month of your authorized period of allowed use.

Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332):

☒ Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values.

☐ Recreation

☐ Pollution abatement

☐ Navigation

Termination provision (for multiyear leases):

The parties to the lease request (choose one):

☒ a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.

☐ b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease.

☐ c. The parties would not like to include a Termination Provision.

(See instructions for limitations to this provision)

Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases, transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.

If you would like this lease to relate to other instream water rights differently, please check this box. ☐
And attach an explanation of your intent.

Validity of the Right(s) to be leased (check the appropriate box):

☒ The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or

☐ The water right(s) have not been used for the last five years according to the terms and conditions of the right(s). However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right(s) is not subject to forfeiture is provided.

Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.

The undersigned declare:

1. The Lessor(s) agree during the term of this lease, to suspend use of water allowed under the subject water right(s) and under any appurtenant primary or supplemental water right(s) not involved in the lease application; and
2. The Lessor(s) certify that I/we are the water right holder(s) of the right(s) described in this instream lease application. If not the deeded landowner, I/we have provided documentation with the lease application that I/we have authorization to pursue the lease application and/or have obtained consent from the deeded landowner; and
3. All parties affirm that information provided in this lease application is true and accurate.

CERTIFICATE OF WATER RIGHT

RECEIVED

AUG 20 2019

OWRD

THIS CERTIFICATE ISSUED TO

DOROTHY ROERTA HOFER VANDEHEY
20481 WINLOCK LANE
FOSSIL, OR 97830

confirms the right to use the waters of an UNNAMED STREAM, a tributary of ALDER CREEK for IRRIGATION of 34.1 ACRES:

This right was perfected under Permit S-44272. The date of priority is MAY 2, 1979. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.85 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

Twsp	Rng	Mer	Sec	Q-Q	Measured Distances
7 S	24 E	WM	32	NW NW	1270 FEET SOUTH AND 40 FEET EAST FROM THE NE CORNER OF SECTION 31

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The right to the use of water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION					
Twsp	Rng	Mer	Sec	Q-Q	Acres
7 S	24 E	WM	31	NE SE	8.2
7 S	24 E	WM	31	SW SE	3.9
7 S	24 E	WM	31	SE SE	22.0

This certificate is issued to correct a scrivener's error in the location of the point of diversion described in Certificate 87211. This certificate supersedes Certificate 87211, and describes the portion of water right Certificate 82920, re-described, but not transferred, by the provisions of a correcting order of the Water Resources Director approving Transfer Application T-10804, entered July 19 2012, and recorded at Special Order Volume 88, Page 120.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

CERTIFICATE OF WATER RIGHT

RECEIVED

AUG 20 2019

OWRD

THIS CERTIFICATE ISSUED TO

ROBERTA VANDEHEY
20481 WINLOCK LANE
FOSSIL OR 97830

confirms the right to use the waters of UNNAMED STREAM, tributary to ALDER CREEK for IRRIGATION of 9.4 ACRES.

This right was perfected under Permit S-44272. The date of priority is MAY 2, 1979. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.24 CUBIC FOOT PER SECOND, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
7 S	24 E	WM	32	NW NW	1270 FEET SOUTH AND 40 FEET EAST FROM NW CORNER, SECTION 32

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 ACRE-FEET per acre for each acre irrigated during the irrigation season of each year.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
7 S	24 E	WM	31	SE SE	9.4

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

When required by the Department, the water user shall install, maintain and operate a headgate to control and regulate the quantity of water diverted. The type and plans of the headgate must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The Director may require the water user to install a totalizing flow meter or other suitable measuring device at the point of diversion. If the Director notifies the water user to install a totalizing flow meter or other measuring device, the water user shall install such device specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the Watermaster access to the meter or measuring device.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482.
