Application for
Allocation of Conserved Water
 Part 1 of 4 – Minimum Requirements Checklist

This application will be returned if Parts 1 through 4 and all required attachments are not completed and included.
 For questions, please call (503) 986-0900, and ask for Allocation of Conserved Water Section.

RECEIVED
 AUG 19 2019
 OWRD

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Applicant Information and Signature.
- Part 3 – Completed Water Right Information and Conservation Measures. Please include a separate Part 3 for each water right. List all water right certificates involved in this application here: 86804
- Part 4 – Completed Mitigation, Proposed Use, Project Schedule, Funding, and Fee Calculation.

Attachments:

- Fees – Amount enclosed: \$ 580.00 (From last page of application).
- Application Map. Must have sufficient detail to locate and describe the facilities and areas involved in the conservation measures. Must show the place of use where water is being used if the rate or duty are changing.
- Land Use Information Form with approval and signature. (Not required if 100% of Conserved Water is being transferred instream.) **or**
 Land Use Notice - Notice of the intent to create an instream water right must be provided to each affected county, city, municipal corporation, or tribal government along the proposed instream reach.
- N/A Completed Evidence of Use Affidavit and Supporting Documentation.
- N/A Affidavit(s) of Consent.
- N/A Letter of approval from Irrigation or Water Control District. For water rights served by or issued in the name of a District, this must be provided when the transfer applicant is not the District.
- N/A Irrigation or Water Control District's adopted policy on allocation of conserved water.
- N/A If construction of the project has begun or been completed and if more than 25 percent of the project costs have been expended before applying for allocation of conserved water, evidence that you have attempted to identify and resolve the concerns of water right holders in the area, governmental entities or other organizations who have asked to be consulted regarding the allocation of conserved water.
- N/A Evidence for Fee Waiver.
- N/A Notice of Completion.
- N/A Request for Finalization. (Entire project listed on the application must be complete. No partial finalization will be recognized.)

Conserved Water Policy (attached)

Part 2 of 4 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME <i>Dee Irrig. District</i>		PHONE NO. <i>541-806-6090</i>	ADDITIONAL CONTACT NO.	
ADDRESS <i>4035 O'Leary Rd</i>			FAX NO.	
CITY <i>Hood River</i>	STATE <i>OR</i>	ZIP <i>97031</i>	E-MAIL <i>dsscooter@hrecn.net</i>	

The applicant is an irrigation district organized under ORS Chapter 545 or a water control district organized under ORS Chapter 553. The District's OAR 690-018-0025 allocation of conserved water policy was adopted: 8 / 1 / 2019. *see attached*

OR

The applicant is the sole owner of the land on which the water right, or portion thereof, proposed for conservation measures is located? Yes No

If NO, include signatures of all landowners (and mailing address if different than the applicant's) or attach affidavits of consent (and mailing addresses) from all landowners or individuals/entities to which the water right(s) has been conveyed.

Part 3 of 4 – Water Right Information and Conservation Measures

Please use a separate Part 3 for each water right involved in the proposed allocation of conserved water.

WATER RIGHT INFORMATION:

Water Right Subject to Transfer (check and complete **ONE** of the following):

<input checked="" type="checkbox"/>	Certificated Right	86804	S-43314
		Certificate Number	Permit Number or Decree Name
<input type="checkbox"/>	Adjudicated, Un-certificated Right	_____	Page Number
		Name of Decree	
<input type="checkbox"/>	Permit for which Proof has been Approved	_____	Special Order Volume _____, Page _____
		Permit Number	
<input type="checkbox"/>	Transferred Right for which Proof has been Filed	_____	Date Claim of Beneficial Use Submitted
		Previous Certificate / Transfer Number	

County: Hood River

Describe the pre-project water delivery system. Include information on the diversion structure, pumps, and conveyance facilities (including canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use). Provide sufficient detail for the Department to determine the system capacity.

See attached

Table 1: Pre-Project Description

List: A) the maximum rate and annual duty (volume) of water that may be diverted **as stated on the water right of record**; and B) the maximum amount of water that can be diverted using the pre-project facilities (“**system capacity**”). If there are multiple priority dates on the water right, list the rate and duty associated with each priority date. (If the water right is only limited by rate, do not list a duty, and conversely, if the water is only limited by duty, do not list a rate.)

PRE-PROJECT DESCRIPTION											
			Column A Water Right of Record				Column B System Capacity				
			Rate		Duty		Rate		Duty		
Originating Water Right #	Priority	Acres	Maximum	CFS/AC	Maximum	AF/AC	Maximum	CFS/AC	Maximum	AF/AC	
86804	2/10/78	132.7	1.66	2FS	398.1	3.0	20.0	CFS	2057	AF	
Totals											

Note: 1 miner's inch = 1/40 cfs; 1 cfs = 448.8 gpm 1 cfs = 1.983471 ac-ft/day

CONSERVATION MEASURES:

Describe the type of conservation measures, check all that apply:

- On-Farm efficiency project
- Distribution project, such as a ditch piping or lining project
- Other: _____

RECEIVED
AUG 19 2019
OWRD

Describe the proposed changes to the physical system, operations and application methods that will result in the conservation of water. If these proposed changes will change the point of diversion, you must meet the ODFW fish screen and bypass requirements pursuant to ORS 540.525. *Please include a description and details of how the estimate of water conserved was determined. Please provide sufficient detail for the Department to provide notice of the project.* See attached

Place of Use Involved in Conservation Measures

List only the part of the right that will be affected. If the entire right is being affected, just state Entire Certificate

Twp	Rng	Sec	¼	¼	Tax Lot	Gvt Lot or DLC	Acres	Type of Use listed On Certificate	Priority Date	
2	S	9	E	15	NE	NW	153.0	100	EXAMPLE	1/1/1865
ENTIRE CERTIFICATE										
Total										

Are there other water right certificates, water use permits, ground water registrations, or uncertificated decreed rights associated with the above lands? Yes No. If YES, list the certificates, water use permits, ground water registrations, or uncertificated decreed numbers: 39048 + 39049

Is the project within the boundaries of an irrigation district or water control district? Yes No If YES, and applicant is not a District, you must provide a letter of approval from the District.

Table 2: Conserved Water

In Column A, list the smaller of A or B from Table 1 (Pre-Project Description). In Column B, list the amount of water that will be needed for the existing, authorized use(s) after implementing the conservation measures. In Column C, subtract Column B from Column A and enter the results (e.g., A – B = C). (If the water right is only limited by rate, do not list a duty; and conversely, if the water is only limited by duty, do not list a rate.)

Conserved Water Description											
	Column A				Column B				Column C		
	Table 1 – Smaller of A or B				Needed				Conserved Water		
	Rate		Duty		Rate		Duty		Rate	Duty	
Priority	Maximum CFS	CFS/AC	Maximum AF	AF/AC	Maximum CFS	CFS/AC	Maximum AF	AF/AC	Maximum CFS	Maximum AF	AF/AC
2/10/70	1.66	CFS			1.16	CFS			0.5	119.01	AF
Totals											

Table 3: Allocation of Conserved Water

List the portions of the conserved water that will be allocated to the state and applicant. Note: Column A plus Column B should total Column C (e.g., A + B = C).

Conserved Water Allocation								
Column A			Column B			Column C		
State's Portion			Applicant's Portion			Conserved Water		
Percentage*	Maximum Rate	Maximum Duty (Volume)	Percentage	Maximum Rate	Maximum Duty (Volume)	Percentage	Maximum Rate	Maximum Duty (Volume)
100 %	0.5 CFS	119.01 AF	0 %			100%	0.5 CFS	119.01 AF

* must be at least 25%

The priority for the conserved water is requested to be:

- The same as the original right, or
- One minute junior to the original right.

OWRD

**Part 4 of 4 – Mitigation, Proposed Use,
Project Schedule, Funding, and
Fee Calculation**

MITIGATION:

Describe any expected effects from the proposed allocation of conserved water on other water rights. Describe what currently happens to the water that is proposed to be conserved.

Proposed allocation of conserved water is equal to water that is currently lost so there will not be any effects to users. In the existing system water spills out the end and into ditches. Describe any mitigation or other measures that are planned to avoid harm to other water rights. There will be no harm to water rights.

PROPOSED USE:

~~N/A~~ For new out-of-stream uses, describe the intended use and boundaries of the expected area within which the diversion structures and places of use of the applicants' conserved water right will be located. This is land other than that to which this water right is appurtenant. Intended Use: _____; Boundaries: _____.

For instream uses to be created:

Originating Water Right (as identified in Part 3)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
86804	2/10/78	Camp, No Name, & West Fork	June - Sept.	0.5	119.01
TOTAL VOLUME					119.01

*Tip: To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

Note: The instream rate may not exceed the maximum rate conserved and the total volume may not exceed to maximum volume or duty conserved (Table 3, Column C)

Location of the proposed instream water right.

Water is requested to be protected within a reach. Location of the proposed reach (identify the extent of the reach): (e.g., from the upstream POD located at RM _____ to downstream location at the mouth at RM _____) *From Camp Creek POD (RM 5.5 on West Fork) to mouth of West Fork Hood River.*

OR

Water is requested to be protected at a point at the following location (i.e. legal description of the point of diversion (POD)) _____

Public Use for which conserved water right should be managed under an instream right (check at least one box):

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat, and other ecological values.
- Recreation.
- Pollution Abatement.

RECEIVED

AUG 19 2019

List any existing instream water rights at the same point or within the same requested reach(es):

- None.
- Instream Water Right Certificates: 75619, 59749

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of any instream water right established under ORS 537.341 (state agency application process) and ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date?

- Yes No. If no, please explain your intent below:

Is the requested instream flow intended to exceed the estimated average natural flow or natural lake level occurring from the drainage system?

- No; **OR**
- Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); **OR**
- Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:
- The requested flow does not exceed the maximum amount of any instream water right applied for under ORS 537.338 (state agency instream water right application process); the requested public use is for the same public use; and the requested reach covers a portion or same reach as the state agency instream water right; **and**
 - The stream is in an ODFW flow restoration priority watershed during the requested instream period; **or**
 - The stream is listed as water quality limited by DEQ.

PROJECT SCHEDULE:

- N/A For a project that has **not** been completed, please provide the dates on which the applicant intends to do the following:

Begin Construction	Complete Construction and File Notice of Completion	Request that Entire Conserved Water Allocation be Finalized
Date: <u>9/1/2019</u>	Date: <u>2/1/2020</u>	*Date: <u>11/1/2023</u>

* Must be within 5 years from the date of filing the Notice of Completion.

Note: If construction of the project has begun or has been completed, and if more than 25 percent of the project costs have been expended before submitting this application, you must submit evidence that you have attempted to identify and resolve the concerns of water right holders in the area, governmental entities or other organization who have asked to be consulted regarding the allocation of conserved water.

- N/A For a project that has been completed, provide the dates when the conservation measures were implemented and the date by which the applicant intends to request the allocation be finalized. Complete and attach Notice of Completion form.

Conservation Measures Were Implemented	Request that Entire Conserved Water Allocation be Finalized
*Date:	**Date:

* Must be within 5 years prior to the date of filing this application.

** Must be within 5 years from the date of filing this Application and Notice of Completion.

FUNDING

N/A Federal or state public funds that are not subject to repayment are to be used for the project. Refer to OAR 690-018-0040(18)(a)-(d) for further information in completing this section.

Source of Funding: Federal: _____ State: _____ OWRD \$1.6M
OWEB \$300K
 Total cost for project engineering \$ 250,000
 Total cost for construction \$ 2,300,000

The present value of any incremental changes in the cost of operations and maintenance that are directly attributable to the project that would not be incurred or realized in the absence of the project is \$ _____. *Value of project is greater than the cost of \$2.55M. Yews for NPV?*

The amount of funding and the value of any in-kind contributions for project engineering and construction and for any incremental changes in the costs of operations and maintenance to be provided from federal or state public funds that are not subject to repayment is \$ \$1.9M

The amount of funding and the value of any in-kind contributions for project engineering and construction and for any incremental change since costs of operations and maintenance to be provided from other funds is \$ \$650K

N/A Enter the percentage from Table 3, Column B (Applicant's Portion of Conserved Water) 0%. If this is more than 25%, what portion of project funds (expressed as a percentage) come from federal or state public sources? _____%

N/A The Oregon Watershed Enhancement Board (OWEB) have a contractual interest in this project. The OWEB project number is 219-4017-16663

FEE CALCULATION

Fee Schedule - ORS 536.050	
\$1,160.00 - Base (1 st Water Right)	Add \$410.00 for each additional right
\$1,160 + (<u>0</u> x \$410) = Total Fee \$ <u>1,160</u>	

Fee Waiver Worksheet	
To qualify for a waiver of up to 50%, you must provide evidence to establish your application meets the following criteria:	
<input type="checkbox"/>	(a) Will be converted to an instream right pursuant to ORS 537.348; or
<input type="checkbox"/>	(b) Is necessary to complete a project funded under ORS 541.375 (OWEB); or
<input checked="" type="checkbox"/>	(c) Is approved by the Oregon Department of Fish and Wildlife as a project that will result in a net benefit to fish and wildlife habitat. See OAR 690-018-0040(25).
If the project meets one of the above standards, use the following formula to calculate the fees:	
<input type="checkbox"/>	(d) Enter Percentage from Table 3, Column A = <u>100</u> %
<input type="checkbox"/>	(e) Deduct 25% from percentage in (d) above = <u>75</u> %
<input type="checkbox"/>	(f) Enter the lesser of (e) above or 50% <u>50</u>
<input type="checkbox"/>	(g) Total Fee x % waived (f) = Fee Waiver \$ <u>580</u> *
<i>Example: (d) = 100% - 25% (e) = 75% (max 50% waived) = Fee x 50% = Fee Waiver</i>	
Total Fee \$ <u>1,160</u> - Fee Waiver (g) \$ <u>580</u> = Amount Due \$ <u>580</u>	

Additional Information

1. Pre-project water delivery description:

Irrigation water enters the Dee Flat area at the south end of the district from a 36" 4 ½ mile long pipeline. The district is approximately 870 acres in size and has 65 patrons. Once water enters the Dee Flat area it is divided, as equally as possible, into 4 mainlines of various materials (concrete, steel, PVC, wood, and transite). Each mainline has one or two overflow locations that feed water into an open ditch that eventually returns to the West Fork Hood River. None of the existing system is pressurized and individual patrons use pumps.

2. Proposed changes to system:

The new system will replace all parts of the existing system and will be constructed of high density polyethelyn (HDPE) pipe. All individual pumps will be eliminate. The new system will provide pressurized water to all patrons through two pump zones and one gravity zone. The entire system will be closed and all overflow/spill locations will be eliminated.

3. Evidence of Fee Waiver:

See ~~attached letter from ODFW.~~

*email from Rod French (ODFW) to
Lisa Jaramilo and Teri Hranac.*

4. Maps:

The PODs are geographically separated from the conservation measures so three maps are provided. The first map shows the new pipeline (i.e. conservation measures) and irrigated area. The second map shows the PODs, and the third map shows the boundary (hatching) of the place of use.

DEE IRRIGATION DISTRICT
ALLOCATION OF CONSERVED WATER POLICY

The Dee Irrigation District (District) proposes to undertake a conservation measures, including, but not limited to, improvements to the District's diversion facilities on the West Fork of the Hood River, piping of the District's main canal to eliminate leakage loss along the canal route and other projects that may be proposed in the future. Before initiating the Project, the District must adopt a conserved water policy. The purpose of the policy is to provide District members with the information required by OAR 690-018-0025 and to set the procedures by which the policy shall be implemented.

RECEIVED

AUG 19 2019

OWRD

- A. **Definitions.** The following definitions shall apply in this policy:
1. **"Commission"** means the Water Resources Commission
 2. **"Conservation"** means the reduction of the amount of water diverted to satisfy an existing beneficial use achieved either by improving the technology or the method for diverting, transporting, applying or recovering water or by implementing other approved conservation measures.
 3. **"Conserved Water"** means that amount of water that results from conservation measures, measured as the difference between:
 - a. The smaller of the amount stated on the water right or the maximum amount of water that can be diverted using the existing facilities; and
 - b. The amount of water needed after implementation of conservation measures to meet the beneficial use under the water right certificate.
 4. **"Director"** means the Director of the Oregon Water Resources Department.
 5. **"District"** means the Dee Irrigation District, an irrigation district formed under Oregon Revised Statutes, Chapter 545.
 6. **"District Member"** means the owner of land situated within the District and subject to assessments of the District.
 7. **"District Allocation"** means the amount of Conserved Water allocated by order of the Director.
 8. **"Funding Member"** means a member of the District that funds all or a portion of a water conservation project as provided in paragraph C of this Policy.

9. "Project" means the conserved water project to be undertaken by the District to reduce the amount of water diverted under water right Certificates 39048 and 39049.

B. Policy of Board. Conservation Measures

1. Conserved water projects undertaken pursuant to ORS 537.455 through 537.500 are intended to reduce water transmission loss within the District's conveyance system, improve on-farm water use efficiency; and allocate conserved water in accordance with OAR 690-018-0012.
2. Conserved water may be allocated by the District as follows:
 - a. 25% to the state for in-stream flow enhancement and 75% to the District, unless the District proposes a higher allocation to the state or more than 25% of the funds used to finance the conservation measures comes from federal or state public resources; or
 - b. Up to 100% to the State for in-stream flow enhancement.
3. **Members May Fund Part of Water Conservation Project.** Members may fund a portion of a water conservation project in an amount that is proportionate to the member's share of the water rights involved in the conservation project.

Members that provide funding to the District for a water conservation project in advance, or within one year of the District first making expenditures for the conservation project shall be a Funding Member and receive the portion of the District Allocation to which the Funding Member is entitled under this Policy.

Proportionate costs will include all costs associated with the completion of the project, including costs associated with the planning and design of the project, application and processing fees, including but not limited to legal and consulting fees to secure a final order from the Oregon Water Resources Department, and/or costs of response to any legal challenges subsequent to receipt of the Final Order until conclusively resolved as determined by the Board of Directors:

Example Project: (based upon conserving 7.0 cubic feet per second)

Total project cost	\$ 2,400,000.00
Total conserved water	7.00 cfs
Minimum In-Stream contribution (25%)	1.75 cfs
Net available for additional irrigation	5.25 cfs
Cost per cubic-foot per second	\$457,142.86/cfs

RECEIVED

AUG 19 2019

OWRD

4. **Allocation of Conserved Water.** Except for a Funding Member, no member shall be entitled to any of the District Allocation other than the amount necessary to maintain the member's full rate and duty at its regular turnout(s). A Funding Member shall be entitled to a portion of the District Allocation equal to the percentage of the funding for the water conservation project paid to the District by the Funding Member.

C. Petitions to Vote on Policy. District Members may petition the Board to hold a vote of all District Members on the approval of this Policy. The petition must be signed by fifteen percent (15%) of the total number of votes that may be cast in an election for recall of a director pursuant to ORS 545.189(1) to be valid and to cause the District to hold a vote. Upon receiving a valid petition, the District shall hold a vote of all District members. The vote shall be whether to approve or reject this Policy. The vote shall be conducted according to the laws and procedures that govern District elections.

D. Appeal of Water Conservation Projects. Proposed conserved water projects shall be discussed and approved by the Board at any regularly scheduled Board meeting. Members may comment on the proposed conserved water project during the Board meeting at which the project is discussed.

If the Board approves a proposed conserved water project, any member in good standing may appeal the Board's decision in writing within two weeks from the date of the Board's decision to approve a project. The appeal shall include the name, address, and telephone number of the member appealing the Board's decision, a concise statement of the reasons the member believes the proposed conserved water project does not comply with this Policy, and a concise statement of how the conserved water project should be modified to comply with this Policy.

The Board shall consider a properly filed appeal at its next regularly scheduled meeting. The Board shall limit its consideration to whether the proposed water conservation project complies with this Policy. The member appealing the Board's decision shall have an opportunity to address the Board concerning the member's appeal.

The Board may take any of the following actions:

1. Grant the appeal and reject the proposed conserved water project;
2. Modify the proposed water conservation project as recommended by the appealing member to comply with this Policy;
3. Direct the District Manager to modify the proposed conserved water project so as to comply with this Policy; or
4. Reject the appeal and approve the proposed conserved water project as proposed.

E. **Policy Review and Updates.** The Board shall review and may update this Policy at the first regularly scheduled Board meeting following every fifth anniversary of the Board either adopting or reviewing and updating this Policy. The Board may, in its sole discretion, review and update this Policy at any other regularly scheduled Board meeting. The Board shall follow the process and provisions of this Policy, as required by OAR 690-018-1125(2), whenever reviewing and updating this Policy.

F. **Applicability.** This Policy applies only to applications for allocations of conserved water filed with the Oregon Water Resources Department by the District. This Policy does not apply to applications for allocations of conserved water filed by individuals, including District members. Individual district members may file applications for allocation of conserved water only with prior written consent of the District.

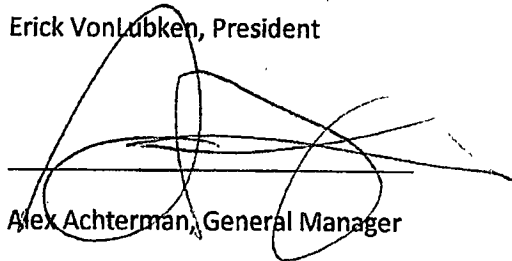

Adopted this 1st day of August, 2019

Subject: Dee Irrigation ACW Application

Good Morning,

Thank you for submitting an application for Allocations of Conserved Water for Dee Irrigation District. We received your application on 8/19/2019. However, when reviewing the application we noticed that no date was written in next to the signature line. If you would like to let me know when the application was signed, I can fill that date in with your permission. This way we can avoid having to send the application back. Once we get that date I can get the application processed and into our system.

Thanks,

Stacy H Phillips | Restoration Program Technician
