OWRD Application for Instream Lease

Part 1 of 4 – Minimum Requirements Checklist

	through 4 and include the required attachments r check boxes as indicated. (N/A= Not Applicable) owrd # 112-17714 Fee-									
	Pursuant to ORS 537.348(2) and OAR 690-077									
Check all items included with this application. ($N/A = Not Applicable$)										
⊠Yes	Part 1 – Completed Minimum Requirements Checklist and Application Fee									
	Fees ☐ \$520.00 for a lease involving four or more landowners or four or more water rights ☐ \$350.00 for all other leases	;								
	 ☐ Check enclosed or ☐ Fee Charged to customer account (account name) 									
⊠ Yes	Part 2 – Completed Instream Lease Application Map Checklist.									
⊠ Yes	Part 3 – Completed Water Right and Instream Use Information Include a separate Part 3 for each water right									
⊠ Yes	Part 4 - Completed Instream Lease Provisions and Signatures									
⊠ Yes	How many water rights are leased? 3 List them here: Certs 14092,14093, 88122 Include a separate Part 3 for each water right.									
☐ Yes ⊠ N/A	Other Water Rights, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream? List those other water rights here:									
☐ Yes ⊠ No	Conservation Reserve Enhancement Program (CREP). Are some or all of the lands to be leased part of CREP or another Federal program (list here:)?									
Attachments:										
⊠Yes □ N/A	Map: Instream Lease map requirements (see Part 2 of this application)									
⊠Yes □ N/A	Tax Lot Map: If a portion of the water right <i>not included in the lease</i> is appurtenant to lands owned by others, a tax lot map must be included with the lease application. The tax lot map should clearly show the property involved in the lease.									
∴Yes ⊠ N/A	Supporting documentation describing why a right (or portion thereof) is valid and not subject to forfeiture even though the right has not been exercised for five or more consecutive years. This information only needs to be provided if the checkbox has been checked to identify that the water right has not been used in the last five years and is not subject to forfeiture (See Part 4 of 4).									
∐Yes ⊠ N/A	 If the Lessor (water right holder) is not the deeded landowner - provide one of the following. A notarized statement from the landowner consenting to the lease and a copy of the recorded deed; or. A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or Other documentation which provides authority to pursue the lease absent consent of the landowner. 									

Part 2 of 4 – Instream Lease Application Map Checklist

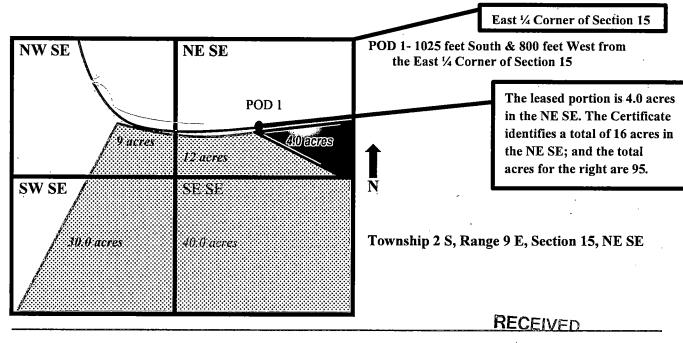

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a <u>simple</u> map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

- N/A A map is required <u>for each</u> water right not leased in its entirety. More than one QQ and property may be included on each map. A map is not required, if leasing the entire right or if the right to be leased is for municipal or quasi-municipal water use.
- The map should be of sufficient quality to be reproducible. Please do not use highlighters to mark items on the map as highlighters do not always copy.
- \triangle A North arrow and map scale (no smaller than 1" = 1320').
- Manual Township, Range, Section, quarter quarter (QQ), and a clearly labeled survey corner.
- For irrigation or other similar use, the number of acres to be leased in each quarter-quarter clearly labeled and hatchured to differentiate between the acres being leased and any remaining. If the place of use is broken down by more than one priority date, or source stream, and/or point of diversion you must identify each with separate hachuring and clearly label.
- If available, identify the existing point(s) of diversion.

EXAMPLE MAP (the darker shaded portion representing the portion leased instream)

Instream Lease Application (revised 7-27-2017)

Please check this box if you don't know the location of the POD(s) and want the Department to identify the location of the POD(s) for the purpose of the instream lease.

Part 3 of 4 cont. – Water Right and Instream Use Information

Instream Use Information

Table 4

Instream Use Created by the Lease								
River/ Stream Name: Tualatin River, tributary to Willamette R. River Basin: Willamette								
Instream Portion: Use Table 4 to illustrate the instream rate, volume and instream period by priority date, POD (if more than one), Use (if more than one), and acreage as appropriate considering the right to be leased.								
If not enough room below, you may add additional rows (see instructions) or attach a spreadsheet (matching the below portion of Table 4). Please clearly label any attachments.								
Priority date	Proposed Instream Total instream Total instre							
12/29/1928	1	IR	657.9	May 1 - Sept 30		5.42	1644.75	
		·						
Note: If not certain of the instream rate, volume and/or instream period, see the instructions and/or contact Department Staff for assistance. The instream rate and volume may be up to the maximum rate and duty/volume allowed by the right, as described in Table 2 or on your Certificate if leasing the entire right. The proposed instream period may be no longer than the irrigation season or the authorized period of allowed use.								
OR Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.								
Instream Reach								
Proposed Instream Reach: ☐ A reach typically begins at the point of diversion (POD) and ends at the mouth of the source stream: From the POD to it's confluence with the Willamette River ☐ Instream use protected at the POD								
OR Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. (If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)								
Additional Instream Information								
☐Yes ☑ N/A Conditions to avoid enlargement or injury to other water rights, if any, or other limitations: list here								
Note: The Department may identify additional conditions to prevent injury and/or enlargement.								
Any additional information about the proposed instream use:

Part 4 of 4 – Lease Provisions and Party Signatures

Term of the Lease (may be from 1 year up to 5 years):							
The lease is requested to begin in: month May year 2019	and end: month September year 2024						
Note: The begin month is generally the first month of the	irrigation season and the end month is the last month						
in the irrigation season. If not an irrigation right, this wor	ald be the first and last month of your authorized						
period of allowed use.	•						
Public use: Check the public use(s) this lease will serve	Termination provision (for multiyear leases):						
(as defined by ORS 537.332):	The parties to the lease request (choose one):						
Conservation, maintenance and enhancement of	a. The option of terminating the lease prior to						
aquatic, fish and wildlife, fish and wildlife habitat and	expiration of the full term with written notice to						
any other ecological values.	the Department by the Lessor(s) and/or Lessee.						
Recreation	b. The option of terminating the lease prior to						
Pollution abatement	expiration of the full term, with consent by all						
☐ Navigation	parties to the lease.						
	c. The parties would not like to include a						
	Termination Provision.						
Addition (Double in a Dolotion ship to oth in instruction was	(See instructions for limitations to this provision)						
Additive/Replacing Relationship to other instream was other existing instream water rights created as a result of its content of the content							
conserved water. Since instream leases are also generally							
agency process or conversion of minimum flows, they get							
rights.	notary replace a polyton of shope junior most care						
If you would like this lease to relate to other instream wat	er rights differently please check this hox						
And attach an explanation of your intent.	or rights differently, prease cheek this box.						
Validity of the Right(s) to be leased (check the approp	riate hox):						
The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last							
five years or have been leased instream; or							
The water right(s) have not been used for the last five years according to the terms and conditions of the							
right(s). However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation							
describing why the water right(s) is not subject to forfeiture is provided.							
Precedent: If a right which has been leased is later proposed to be leased again or later transferred or							
become part of an allocation of conserved water project, a new injury review shall be required							
An instream lease shall not set a precedent on a future transaction.							
The undersigned declare:							
1. The Lessor(s) agree during the term of this lease, to							
right(s) and under any appurtenant primary or supple	emental water right(s) not involved in the lease						
application; and							
2. The Lessor(s) certify that I/we are the water right ho	lder(s) of the right(s) described in this instream						
lease application. If not the deeded landowner, I/we have provided documentation with the lease							
application that I/we have authorization to pursue the lease application and/or have obtained consent							
from the deeded landowner; and							
3. All parties affirm that information provided in this lease application is true and accurate.
