Part 2 of 4 - Groundwater Registration Modification Map Checklist

Your Groundwater Registration Modification application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does <u>not</u> have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

\boxtimes		Permanent quality printed with dark ink on good quality paper.
		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been preapproved by the Department.
\boxtimes		Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads and railroads.
\boxtimes		Major water delivery system features from the point(s) of appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes hachuring, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the registration is being changed, a separate hachuring is needed for the portion of the registration left unchanged.
\boxtimes	□ N/A	If you are proposing a modification in place of use, show the proposed place of use with hachuring including priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
\boxtimes		Existing point(s) of appropriation with distance and bearing or coordinates from a recognized survey corner.
	□ N/A	If you are proposing a modification in point(s) of appropriation, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5"$) or degrees-decimal with five or more digits after the decimal (example -42.53764°).

Explain in your own words what you propose to accomplish with this modification; and why: The Applicant proposes to add an existing collector well (Collector Well 1) and 2 proposed collector wells (Collector Wells 2 and 3) as points of appropriation under GR-3509 and change the place of use to the "City of Salem service area."

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

	Reinvestment Act. (Federal stimulus dollars)	
	(Check one box) By signing this application, I (we) understand that, upon receipt of the draft preliminary determination at Department approval of the Groundwater modification, I (we) will be required to provide landownershi information and evidence that I am authorized to pursue the modification as identified in OAR 690-382-OR	р
\boxtimes	I (we) affirm the applicant is a municipality as defined in ORS $540.510(3)(b)$ and that the right is in the name of the municipality or a predecessor; OR	RECEIVE
	I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the Groundwater registration proposed for modification is appurtenant by condemnation and have attached supporting documentation.	DEC 1 7 2019 OWRD

I understand that prior to Department approval of the groundwater registration modification, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the groundwater registration is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following paper: <u>Statesman Journal</u>.

I (we) affirm that the information contained in this application is true and accurate.

Revised 02/11/2019

Groundwater Registration Modification - Page 6 of 7

TACS

1

Groundwater Registration # GR-3509 (Certificate # GR-3229)

For a modification in place of use or character of use:

Are there other water right certificates, water use permits, or Groundwater registrations associated with the "from" or "to" lands? \square Yes \square No N/A – GR-3509 is a municipal use right, so "layering" does not apply

If YES, list the other certificate, water use permit, or other Groundwater registration numbers:

Pursuant to OAR 690-382-0200, any "layered" water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a Groundwater registration on the "to" lands must be filed separately with a Groundwater registration modification.

For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:

Well log(s) are attached for each well that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

(Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/) The well logs for LINN 2677 and LINN 2676 are provided in Attachment D

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your modification application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? Cc: Trevor Grandy <tgrandy@gsiws.com>

Subject: Request for map scale waiver for the City of Salem

Dear Kelly Starnes,

The City of Salem is preparing one water rights transfer and four ground water modifications to add two proposed points of appropriation to Certificate 91526, GR-3502, GR-3507, GR-3509, and GR-3510.

Because of the size of the City of Salem's service area, we are requesting a map scale waiver for the place of use map for each application (See attachments). The authorized/proposed point of appropriation maps are at a standard scale (1 inch=1,320 feet), and are also attached to this email.

Please let us know if you have any questions regarding our map scale waiver request.

Thank you,

Zach Pike-Urlacher

Water Resources Analyst

$Attachment\ E$ Collector Well 1 Construction Details Application for a Permanent Water Right Transfer – City of Salem

December 16, 2019

Kelly Starnes Oregon Water Resources Department 725 NE Summer Street, Suite A Salem, OR 97301

RE: Application for Groundwater Registration Modification for GR-3509 in the name of City of Salem

Dear Kelly:

GSI Water Solutions, Inc. (GSI) is submitting the enclosed Groundwater Registration Modification on behalf of the City of Salem. The City holds Ground Water Registration GR-3509 which allows for the appropriation of 1100 gallons per minute for municipal use. The City is seeking to add an existing collector well (Collector Well 1) and two proposed collector wells (Collector Wells 2 and 3) as points of appropriation to GR-3509 and change the place of use to the "City of Salem service area".

The required application documents and fee of \$1,250 are enclosed.

Please contact me if you have any questions. My phone number is 541-257-9001.

Sincerely,

Adam Sussman

Principle Water Resources Consultant

Enclosures: Application for Groundwater Registration Modification – GR-3509

Check in the amount of \$1,250
