*\*Well 2 measured distance is meant to be 20' West from Weddle Road instead of 20' from the section line due to the recurring false assumption that the road is on the section line throughout this GR. Actual measured distance is: 2600' S and 230' W from the NE corner of Section 14.*

*This is confirmed by Wells (TL 2100) easement onto Osprey Corner (TL 300) to use Well 2*

*\*\*North Well is Pump Well #2 from GR 2193. The old measured distances of 929' S and 610' W from the NE corner of Section 14 were based on the same faulty section line and actually measured off of Weddle Road. The measured distances in Table 1 are clarification of the actual location of MARI 16285 on the ground.*
