# Application for District Instream Lease

## Part 1 of 4 – Minimum Requirements Checklist

<b>This Application to be used for water rights in the name of or conveyed by an Irrigation District (or similar organization)</b> <b>Complete Parts 1 through 4 and any required attachments</b>	OWRD #	L-1790
	District #	

Check all items included with this application. (N/A = Not Applicable)

Yes  N/A Pooled Lease—a lease with more than one LESSOR (Landowner/water right interest holder)  
 Fee in the amount of:

<input checked="" type="checkbox"/> \$520.00 for a lease involving four or more landowners or four or more water rights	Or <input type="checkbox"/> \$350.00 for all other leases
<input type="checkbox"/> Check enclosed or	
<input checked="" type="checkbox"/> Fee Charged to customer account Deschutes River Conservancy _____ (Account name)	

Part 1 –

Completed Minimum Requirements Checklist

Part 2 – Completed District and Other Party Signature Page

Part 3 – Completed Place of Use and Lessor Signature Page  
 (Include a separate Part 3 for each Lessor.)

Part 4 – Completed Water Right and Instream Use Information  
 (Include a separate Part 4 for each Water Right.)

How many Water Rights are included in the lease application? 3

List each water right to be leased instream here: 74146-CW, 74146, 74147

Yes  N/A Other water rights, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream.

List those other water rights here: 74147(IS) 74148 (IS) 74149 (IS) 76520 (IS)

Yes  No Conservation Reserve Enhancement Program CREP – Are some or all of the lands to be leased part of CREP or another Federal program (list here: \_\_\_\_\_)?

### Required Attachments:

Yes  N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is not required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you must identify each with separate hachuring or shading and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes  N/A If the Lessor(s) is not the deeded land owner, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes  N/A If the right has not been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is not subject to forfeiture.

Salem, OR

**Part 2 of 4 – District and other party Signature**

<b>Term of the Lease:</b> The lease is requested to begin in: month <u>April</u> year <u>2020</u> and end: month <u>October</u> year <u>2020</u> .	
<b>Public use:</b> Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input checked="" type="checkbox"/> Recreation <input checked="" type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	<b>Termination provision (for multiyear leases):</b> <b>The parties to the lease request (choose one):</b> <input type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input checked="" type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
<b>Additive/Replacing Relationship to other instream water rights:</b> Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
<b>Precedent:</b> If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
<b>Validity of the rights to be leased:</b> <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <input type="checkbox"/> The water right(s) <b>have not been used</b> for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

**This table will calculate flow rate factors and duty for Tumalo Irrigation Dist  
Instream Leases**

**Primary Irrigation**

TID CERT 74147 (assuming can divert full rate and duty allowed by certificate for primary water use)

Priority Date = October 29, 1913

Source = Tumalo Creek with any deficiencies to be made up from Crater Creek, Little Crater Creek, and

Enter Total Number of Acres to be Leased Instream Here →	<b>54.800</b>
--	---------------

Rate (CFS) associated with the right to be leased for the Lease Application Form				
Enter Rates and Duty on Lease Form by Season	Rate/acre (CFS)	Max Rate (CFS)	Duty/acre (AF)	Max Duty (AF)
Season 1	0.013	<b>0.685</b>	<b>9.910</b>	<b>543.07</b>
Season 2	0.017	<b>0.913</b>		
Season 3	0.031	<b>1.691</b>		

**Notes**

The rate identified in the green Section box was calculated based on the number of acres being leased multiplied acre for each season. For example Season 1 rate = # acres \* 1/80th CFS per acre

The duty identified is the number of acres to be leased multiplied by the 9.91 AF per acre duty limitation.

Amounts that may be leased to instream use for the Lease Application Form				
Enter Instream Rates and Volumes by Season on Lease Form	Instream Rate (CFS) over full Irrigation Season	Days instream	Instream Volume (AF)	Full Duty at POU (5.45 af/ac)
Season 1	<b>0.377</b>	55	<b>41.10</b>	298.66

<b>Totals</b>		<b>0.041</b>	<b>16.92</b>

\*Resulting rates may not exceed the max rate identified for Section 1.5 of the Lease Application

**Notes**

The amounts shown in the lavender box's breaks the water right down into each priority date for what is going instream.  
 The volume shown is simply the full duty as calculated in the green box.  
 However, the instream rate has been reduced. The presumption I used is that water is to be protected instream over the full irrigation season, being April 15 to October 15. The instream rate then is the duty divided by the number of days in the irrigation season (184). This is then divided by 1.983471 AF/day to arrive at the rate instream. 1.983471 AF = 1 CFS per day.  
 (Duty in AF / # of days instream) \* 1 CFS/1.983471 AF per Day

\* Resulting rates may not exceed the max rate identified for Section 1.5 of the Lease Application

**Notes**

The amounts shown in the lavender box's breaks the water right down into each priority date for what is going instream.  
 The volume shown is simply the full duty as calculated in the green box.  
 However, the instream rate has been reduced. The presumption I used is that water is to be protected instream over the full irrigation season, being April 15 to October 15. The instream rate then is the duty divided by the number of days in the irrigation season (184). This is then divided by 1.983471 AF/day to arrive at the rate instream. 1.983471 AF = 1 CFS for one day.

$(\text{Duty in AF} / \# \text{ of days instream}) * 1 \text{ CFS} / 1.983471 \text{ AF per Day}$

Part 3 of 4 – Place of Use – Lessor Information and Signatures

Complete Table 1 Identify water right(s) proposed to be leased instream
Provide a separate Part 3 for each Lessor (water right interest holder/landowner)

Irrigation District or other Water Purveyor Name: Tumalo Irrigation District

Specify Water Right, Priority Date, point of diversion(s) (POD), place of use, tax lot, gov't lot/DLC, acres to be leased, original use type, certificate page number, and any previous lease.

If not enough room below, you may add rows (see instructions) or create a spreadsheet/table (matching Table 1) and attach.

Any attached table should include reference to the Lessor.

Table with 14 columns: Water Right #, Priority Date, POD #, Twp, Rng, Sec, Q-Q, Tax Lot, Acres, Use, Page #, Previous Lease #. Contains 3 rows of data for water right 74147.

Any additional information about the right:

Farm Deferral Tax Status: Counties make the determination of whether a property qualifies for the farm use assessment without consideration of whether the lands have an associated water right which is leased instream.

The undersigned declare:

- 1. I/We agree during the term of this lease to suspend use of water allowed under the water right(s) involved in the lease as well as and any other appurtenant primary or supplemental water right(s); and
2. I/We certify are the lessor(s) (water right interest holder) of the water right(s) in Table 1. If not the deeded land owner, I/we have obtained consent from the deeded land owner and/or have provided documentation of authorization to pursue the instream lease; and
3. I/We affirm that the information in this application is true and accurate.

Signature of Lessor (Handwritten signature)

**Deschutes River Conservancy  
Instream Leasing Program**

MAR 04 2020

Salem, OR

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** Leases of less than 3 acres, leases with public entities, leases submitted after the due date agreed upon by the District and the DRC and posted by the District, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

Tumalo Irrigation District leases are paid for water measured instream. Size of lease payment may vary from year-to-year depending on reliability of the water in a given year and total number acres leased from TID patrons. If more than 450 total district acres are leased, payment *per measured acre-foot* increases from \$8.50 to \$10.00 per acre-foot.

I, Edwin J. Bishop understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral, payments and donations.

Signature:  Date: 1-9-2020

**This form must be signed and returned with state lease form.**

Part 3 of 4 – Place of Use – Lessor Information and Signatures

Complete Table 1 Identify water right(s) proposed to be leased instream
Provide a separate Part 3 for each Lessor (water right interest holder/landowner)

Irrigation District or other Water Purveyor Name: Tumalo Irrigation District

Received by OWRD

**Deschutes River Conservancy  
Instream Leasing Program**

MAR 04 2020

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

Salem, OR

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

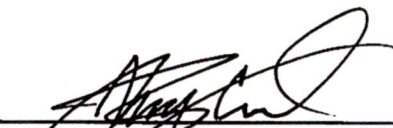

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** Leases of less than 3 acres, leases with public entities, leases submitted after the due date agreed upon by the District and the DRC and posted by the District, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

Tumalo Irrigation District leases are paid for water measured instream. Size of lease payment may vary from year-to-year depending on reliability of the water in a given year and total number acres leased from TID patrons. If more than 450 total district acres are leased, payment *per measured acre-foot* increases from \$8.50 to \$10.00 per acre-foot.

I, Jerry Curl for C.L.R., Inc. understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral, payments and donations.

**EXHIBIT C**

**Deschutes River Conservancy  
Instream Leasing Program**

Received by OWRD

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

MAR 04 2020

Salem, OR

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** Leases of less than 3 acres, leases with public entities, leases submitted after the due date agreed upon by the District and the DRC and posted by the District, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

Tumalo Irrigation District leases are paid for water measured instream. Size of lease payment may vary from year-to-year depending on reliability of the water in a given year and total number acres leased from TID patrons. If more than 450 total district acres are leased, payment *per measured acre-foot* increases from \$8.50 to \$10.00 per acre-foot.

I, Craig Morton <sup>DRRG</sup> understand the DRC weed policy and have been informed about farm deferral, payments and donations.

Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment

Salem, OR

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** Leases of less than 3 acres, leases with public entities, leases submitted after the due date agreed upon by the District and the DRC and posted by the District, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

Tumalo Irrigation District leases are paid for water measured instream. Size of lease payment may vary from year-to-year depending on reliability of the water in a given year and total number acres leased from TID patrons. If more than 450 total district acres are leased, payment *per measured acre-foot* increases from \$8.50 to \$10.00 per acre-foot.

I, Bruce J. LaVeau understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral, payments and donations.

## Part 3 of 4 – Place of Use – Lessor Information and Signatures

Complete Table 1 Identify water right(s) proposed to be leased instream  
Provide a separate Part 3 for each Lessor (water right interest holder/landowner)

Irrigation District or other Water Purveyor Name: **Tumalo Irrigation District**

Specify Water Right, Priority Date, point of diversion(s) (POD), place of use, tax lot, gov't lot/DLC, acres to be leased, original use type, certificate page number, and any previous lease.

If not enough room below, you may add rows (see instructions) or create a spreadsheet/table (matching Table 1) and attach.  
Any attached table should include reference to the Lessor.

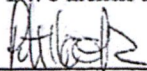

Water Right #	Priority Date	POD #	Twp	Rng	Sec	Q-Q	Tax Lot	Acres	Use	Page #	Previous Lease #
74146	09/01/1900	1P	17 S	11 E	11	NW SW	01601	1.00	IR	12	IL-1446
74146-CW	09/01/1900	3P	17 S	11 E	11	NW SW	01601	2.00	IR	4	IL-1446

Any additional information about the right:

**Farm Deferral Tax Status:** Counties make the determination of whether a property qualifies for the farm use assessment without consideration of whether the lands have an associated water right which is leased instream. If you have questions regarding the farm use assessment you should contact your local county assessor. You should contact your County for any weed ordinance and management requirements.

The undersigned declare:

- I/We agree during the term of this lease to suspend use of water allowed under the water right(s) involved in the lease as well as and any other appurtenant primary or supplemental water right(s); and
- I/We certify are the lessor(s) (water right interest holder) of the water right(s) in Table 1. If not the deeded land owner, I/we have obtained consent from the deeded land owner and/or have provided documentation of authorization to pursue the instream lease; and
- I/We affirm that the information in this application is true and accurate.
