Re: Permit Amendment T-13245

On September 5, 2019 our client submitted a permit amendment T-13245 for Application G-16890, Permit G-16411. On February 20, 2020 the groundwater report was posted. Upon reviewing this groundwater report, our client Keystone Pacific LLC has determined to make changes to the location of Well 7 and to remove Well 6 in hopes for a more favorable groundwater review.

Attached are the amended pages (6, 8 and 10) of the application and the amended map to reflect these changes

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
