6. SIGNATURES

The district certifies the following:

- (1) The water right(s) proposed for transfer is a water right(s) subject to transfer and has not been forfeited for nonuse under ORS 540.610;
- (2) Each user affected by the proposed transfer has provided written authorization for the transfer and such authorization is on file with the district; and
- (3) The district has notified each affected user that the Department may condition or reject the transfer at any time to the extent necessary to avoid injury to an existing water right, and that the use of water on lands from which the water right is transferred (authorized place of use) and at the proposed place of use during the same irrigation season or calendar year may subject both the user and district to civil penalties.

On behalf of the district, I affirm that the information contained in this application is true and accurate.

Tributary to: **Pacific Ocean**

*If there are **multiple Sources** listed on the water right, any information provided on **pages 3 through 6** of this form **must identify** which source is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

For applications proposing a Change in Place of Use or Character of Use:

- Are there **Other Water Rights**, Permits or Ground Water Registrations associated with this land?
 - Yes No N/A – *No Change in Place of Use or Character of Use*

If “Yes”, what are the Permit, Registration or Certificate Numbers? (1) The “from” place of use for Cert. 92992 is located in eight (8) foot wide strips and the place of use for Cert. 92993 is in two (2) foot strips interlaced between the 8-foot strips of 92992. While there are common lands between these two rights, the rights DO NOT OVERLAP and will therefore be transferred separately. (2) 93872: Certificate 93872 is allocated 1.53 ac-ft/ac which is not sufficient for our current crop needs. It will remain in place during the 2020 irrigation season. (3) S- 54675 & S-51017: Permits S-54675 & S51017 appear to share the same place of use and both overlap some of the proposed “To” lands. Both permits are owned by other parties and WILL NOT be used on the lands described in this application during the 2020 irrigation season. (4) G-17354: Permit G-17354 is a supplemental groundwater permit that overlaps some of the proposed “To” lands. This permit is owned by another party and WILL NOT be used on the lands described in this application during the 2020 irrigation season. (5) S-55061, S-55190, S-55192: Permits S-55601, S-55190, S-55192 identify the “To” lands as supplemental. These permits WILL NOT be used on the lands described in this application, though it is possible that they will be exercised in the same or adjacent quarter-quarter sections (6) Certificate 44654. This certificate will remain in place and WILL NOT be used in the 2020 irrigation season. (7) T-12836 & T-12946 involve cert. 92992 but will be cancelled as soon as this transfer is accepted

*Pursuant to ORS 540.510, any “layered” water use or a right that is supplemental to a primary right proposed for transfer **must be included in the transfer or be cancelled**, except as provided in OAR 690-380-2240(5).*

▪ Certificate Number or other identifying number: 92992

The following information must be provided only for those points of diversion or appropriation that are involved in the transfer (i.e., list only the portion of the water right you propose to transfer.) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.
 A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation Government lot(GOV" T LOT) and donation land claim numbers (DLC) must be included in the table below only if the information is reflected on the existing water right.

- Does the water right being transferred involve a ground water source(s)?
 - Yes
 - No (Surface water source only.)

If "Yes", for each authorized point of appropriation (well) involved, you must either:

- A. Supply a copy of the well log(s) for each point of appropriation that is **clearly labeled** and associated with the corresponding well in the table above and on the accompanying application map. (NOTE: You may search for well logs on the Department's web page at: <http://www.wrd.state.or.us>)

or

- B. If a well log is **not** available, you must describe the construction of the authorized point of appropriation by completing the table below. Attach additional copies as necessary.

Construction of Existing Authorized Point(s) of Appropriation – (Only needed if no well log is available.)

*If there are **multiple Priority Dates** identified on the water right, any information provided on **pages 3 through 6** of this form **must identify** which priority date is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

- Source(s) of Water to be Affected by Transfer: **Columbia River**

Tributary to: **Pacific Ocean**

For applications proposing a Change in Place of Use or Character of Use:

- Are there **Other Water Rights**, Permits or Ground Water Registrations associated with this land?

Yes No N/A – *No Change in Place of Use or Character of Use*

If “Yes”, what are the Permit, Registration or Certificate Numbers? (1) The place of use for Cert. 92992 is located in eight (8) foot wide strips and the place of use for Cert. 92993 is in two (2) foot strips interlaced between the 8-foot strips of 92992. While there are common lands between these two rights, the rights DO NOT OVERLAP and will therefore be transferred separately (2) S- 54675 & S-51017: Permits S-54675 & S51017 appear to share the same place of use and both overlap some of the proposed “To” lands. Both permits are owned by other parties and WILL NOT be used on the lands described in this application during the 2020 irrigation season. (3) S-55061, S-55190, S-55192: Permits S-55601, S-55190, S-55192 identify the “To” lands as supplemental. These permits WILL NOT be used on the lands described in this application, though it is possible that they will be exercised in the same or adjacent quarter-quarter sections

*Pursuant to ORS 540.510, any “layered” water use or a right that is supplemental to a primary right proposed for transfer **must be included in the transfer or be cancelled**, except as provided in OAR 690-380-2240(5).*

▪ Certificate Number or other identifying number: 92993

The following information **must be provided** only for those points of diversion or appropriation that **are involved in the transfer** (i.e., **list only the portion of the water right you propose to transfer.**) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.

A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation) Government lot(GOV" T LOT) and donation land claim numbers (DLC) must be included in the table below **only** if the information is reflected on the existing water right.

Re: Columbia Improvement District Temporary Water Right Transfer for Certificates: 92990, 92991, 92992, and 92993

To Whom It May Concern,

Please find enclosed a completed Application for a District Temporary Water Right Transfer prepared for the Columbia Improvement District in Morrow County, Oregon. The purpose of this transfer is to temporarily change the place of use of the involved water rights to better serve irrigated lands within the district.

Temporary transfers T-12836 and T-12946 are currently active on two of the rights involved in this transfer. Both of these temporary transfers should be cancelled as soon as this transfer becomes effective. We have already been in contact with Arla Davis at OWRD to begin the cancellation process.

All required application documentation and fees are included in this packet. Our company has asked us to limit in-person interaction as a result of the COVID-19 outbreak, which has made it difficult to acquire original signatures. The signatures included in this packet are scanned and the original signature pages will be sent along as soon as is practical. The per-acre fee has been calculated at the reduced rate because the application materials and data have been sent to Ann Reese in a department approved format. If you have any questions regarding this application, please contact Nathan Rau by phone at (509) 820-3231 or by email at nrau@agrinw.com.

Sincerely,

Jens Rasmussen
