

# Application for DISTRICT Instream Lease

## Part 1 of 4 – Minimum Requirements Checklist

|  |            |                  |
|--|------------|------------------|
| <b>This Application to be used for water rights in the name of or conveyed by an Irrigation District (or similar organization)</b><br><b>Complete Parts 1 through 4 and any required attachments</b> | OWRD #     | IL-1807 / MP-261 |
|  | District # | IL-20-09         |

Check all items included with this application. (N/A = Not Applicable)

Yes  N/A **Pooled Lease**-a lease with more than one Lessor (Landowner/water right interest holder)

Fee in the amount of:

|   |   |
|---|---|
| <input checked="" type="checkbox"/> \$520.00 for a lease involving four or more landowners or four or more water rights | Or <input type="checkbox"/> \$350.00 for all other leases |
| <input type="checkbox"/> Check enclosed or  |   |
| <input checked="" type="checkbox"/> Fee Charged to customer account <u>Deschutes River Conservancy</u> (Account name)   |   |

**Part 1 –**

**Completed Minimum Requirements Checklist**

**Part 2 – Completed District and Other Party Signature Page**

**Part 3 – Completed Place of Use and Lessor Signature Page**  
 (Include a separate Part 3 for each Lessor.)

**Part 4 – Completed Water Right and Instream Use Information**  
 (Include a separate Part 4 for each Water Right.)

**How many Water Rights are included in the lease application?** \_\_\_\_\_ (# of rights)

List each water right to be leased instream here: 94956

Yes  N/A **Other water rights**, if any, appurtenant to the lands involved in the lease application and not proposed to be leased instream.

List those other water rights here: 76714

Mitigation Project  
 Received by OWRI

APR 10 2020

Salem, OR

Yes  No Conservation Reserve Enhancement Program CREP – Are some or all of the lands to be leased part of CREP or another Federal program (list here: \_\_\_\_\_)?

**Required Attachments:**

Yes  N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading** and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes  N/A **If the Lessor(s) is not** the deeded land owner, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes  N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

**Part 2 of 4 – District and other party Signature**

|  |   |
|--|---|
| <b>Term of the Lease:</b><br>The lease is requested to begin in: <u>month April year 2020</u> and end: <u>month October year 2022</u> .  |   |
| <b>Public use:</b> Check the public use(s) this lease will serve (as defined by ORS 537.332):<br><input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values.<br><input checked="" type="checkbox"/> Recreation<br><input checked="" type="checkbox"/> Pollution abatement<br><input type="checkbox"/> Navigation   | <b>Termination provision (for multiyear leases):</b><br><b>The parties to the lease request (choose one):</b><br><input checked="" type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee.<br><input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease.<br><input type="checkbox"/> c. The parties would not like to include a Termination Provision.<br>(See instructions for limitations to this provision) |
| <b>Additive/Replacing Relationship to other instream water rights:</b> Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights.<br>If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent. |   |
| <b>Precedent:</b> If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.   |   |
| <b>Validity of the rights to be leased:</b><br><input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or<br><input type="checkbox"/> The water right(s) <b>have not been used</b> for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.   |   |

Received by OWRD

**Deschutes River Conservancy  
Instream Leasing Program**

APR 10 2020

Salem, OR

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

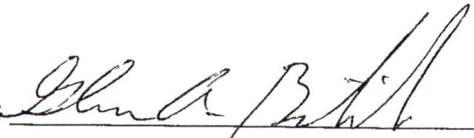

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, GLENN A. BARTNIK understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral and donations.

**EXHIBIT C**

**Deschutes River Conservancy  
Instream Leasing Program**

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin. Land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

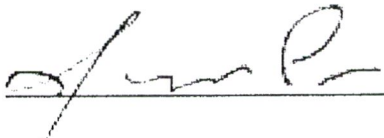

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I JEFFREY POPE understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral and donations.

## Deschutes River Conservancy Instream Leasing Program

### Policy Concerning Weeds & Instream Leases Information on Farm Deferral & Lease Payment

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

#### Weed Policy

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

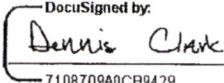

#### Farm Deferral Notice

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. **It is the landowner's responsibility to know their tax assessment status and qualifying uses.**

*Information and Resources Attached*

**Donated Leases:** One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, Dennis L. Clark understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral and donations.

**Deschutes River Conservancy  
Instream Leasing Program**

Salem, OR

**Policy Concerning Weeds & Instream Leases  
Information on Farm Deferral & Lease Payment**

The Deschutes River Conservancy is dedicated to restoring stream flow and improving water quality in the Deschutes Basin; land stewardship is a component of these goals.

**Weed Policy**

The DRC expects participants in the Leasing Program will continue to exercise agricultural best management practices on lands enrolled in the Program, particularly with respect to the control of noxious and/or nuisance weeds. Failure to control weeds on leased acres may result in exclusion from Program compensation.

*Information and Resources Attached*

**Farm Deferral Notice**

Instream leasing is a beneficial use that protects your water right from forfeiture and allows for compensation for this instream use, but please note that it does not automatically protect against loss of farm use special assessment. Exclusive Farm Use (EFU) zoned lands may still require at least minimal use with the intent to make a profit. It is the landowner's responsibility to know their tax assessment status and qualifying uses.

*Information and Resources Attached*

**Donated Leases:** One year and multi-year leases of less than 10 acres, leases with public entities, leases submitted after the due date, and leases with verified weed complaints are not paid a per acre or per acre-foot rate by the DRC.

I, Mona Moore understand the DRC weed policy and have  
*Print Name*  
been informed about farm deferral and donations.

Revised: 11/29/2017

This calculator is primarily designed to facilitate the calculation of how much water may be protected instream through instream leases and transfers. However, the calculator can also be used to determine the rate and duty associated with other transfers and cancellations. For questions regarding its use, please contact [WRD\\_DL\\_instream@oregon.gov](mailto:WRD_DL_instream@oregon.gov).

Enter Total Number of Acres Involved from POD #1 (CO Canal)

Enter Total Number of Acres Involved from POD #11 (North Canal, also known as PB Canal)

Rate and duty for the acres by which the water right will be reduced by at the Point of Diversion (POD).

| POD #1              | October 31, 1900 | December 2, 1907 | Combined |
|---------------------|------------------|------------------|----------|
| Season 1 Rate (CFS) | 0.294            |                  |          |
| Season 2 Rate (CFS) | 0.392            |                  |          |
| Season 3 Rate (CFS) | 0.518            | 0.207            | 0.725    |
| Duty (AF)           |                  |                  | 232.84   |

| POD #11             | October 31, 1900 | December 2, 1907 | Combined |
|---------------------|------------------|------------------|----------|
| Season 1 Rate (CFS) | 0.000            |                  |          |
| Season 2 Rate (CFS) | 0.000            |                  |          |
| Season 3 Rate (CFS) | 0.000            | 0.000            | 0.000    |
| Duty (AF)           |                  |                  | 0.00     |

The transmission loss associated with this right is not transferable or protectable instream. The following tables show the amount of water that is protectable for Instream Leases and Instream Transfers, under the October 31, 1900 priority date. (Please contact the Department if you prefer to protect water instream under the combined October 31, 1900 and December 2, 1907 priority dates.) To prevent enlargement and injury, the instream use has been modified from the authorized season of April 1 through October 31, to April 1 through October 26.

| From POD #1 to Lake Billy Chinook |        |

Salem, OR

Revised: 11/29/2017

This calculator is primarily designed to facilitate the calculation of how much water may be protected instream through instream leases and transfers. However, the calculator can also be used to determine the rate and duty associated with other transfers and cancellations. For questions regarding its use, please contact [WRD\\_DL\\_instream@oregon.gov](mailto:WRD_DL_instream@oregon.gov).

Enter Total Number of Acres Involved from POD #1 (CO Canal)

Enter Total Number of Acres Involved from POD #11 (North Canal, also known as PB Canal)

Rate and duty for the acres by which the water right will be reduced by at the Point of Diversion (POD).

| POD #1              | October 31, 1900 | December 2, 1907 | Combined |
|---------------------|------------------|------------------|----------|
| Season 1 Rate (CFS) | 0.000            |                  |          |
| Season 2 Rate (CFS) | 0.000            |                  |          |
| Season 3 Rate (CFS) | 0.000            | 0.000            | 0.000    |
| Duty (AF)           |                  |                  | 0.00     |

| POD #11             | October 31, 1900 | December 2, 1907 | Combined |
|---------------------|------------------|------------------|----------|
| Season 1 Rate (CFS) | 0.766            |                  |          |
| Season 2 Rate (CFS) | 1.044            |                  |          |
| Season 3 Rate (CFS) | 1.424            | 0.570            | 1.994    |
| Duty (AF)           |                  |                  | 632.99   |

The transmission loss associated with this right is not transferable or protectable instream. The following tables show the amount of water that is protectable for Instream Leases and Instream Transfers, under the October 31, 1900 priority date. (Please contact the Department if you prefer to protect water instream under the combined October 31, 1900 and December 2, 1907 priority dates.) To prevent enlargement and injury, the instream use has been modified from the authorized season of April 1 through October 31, to April 1 through October 26.

| From POD #11 to Lake Billy Chinook |        |
