of the landowner.

Part 2 of 4 – Instream Lease Application Map Checklist

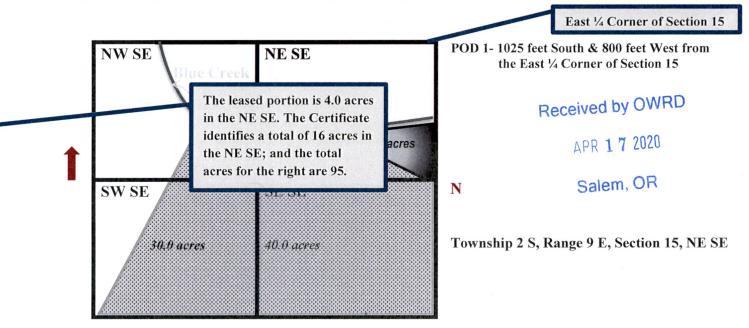

A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a <u>simple</u> map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

EXAMPLE MAP (the darker shaded portion representing the portion leased instream)

Use a separate Part 3 for each water right to be leased instream
