### Table 2

To illustrate the totals for the water right proposed to be leased instream									
Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be									
leased. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet									
(matching Table 2). Please clearly label any attachments. (cfs = cubic feet per second and af = acre-feet)									
Total Other Information (such as Total Total									
POD#	Use	Acres	conditions/limitations on the right)	Rate (cfs)	Volume (af)				
1	IR	79.1	Little Creek	1.98	237.3				
2	IR	49.8	Catherine Creek	1.25	149.4				
Total af from storage, if applicable: AF or 🔀 N/A									
Any additional information about the right:									
	rolume by nough roo e 2). Please POD #	rolume by priority nough room below e 2). Please clearly POD # Use  1 IR 2 IR rage, if applicable:	rolume by priority date, PC rough room below, you may e 2). Please clearly label at POD# Use Acres  1 IR 79.1 2 IR 49.8  rage, if applicable: AF or	rolume by priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate concept of the priority date, POD, use and acreage as appropriate conce	rolume by priority date, POD, use and acreage as appropriate considering the rough room below, you may add additional rows (see instructions) or attach e 2). Please clearly label any attachments. (cfs = cubic feet per second and a conditions/limitations on the right)    Total   Other Information (such as conditions/limitations on the right)   Rate (cfs)				

### Table 3

**Point of Diversion (POD) description:** If the POD is not described on the certificate or if there is more than one POD listed on the certificate, then **the specific POD(s)** involved in the lease must be described. If not enough room below, you may add additional rows (see instructions) or attach spreadsheet (matching Table 3). Please clearly label any attachments.

POD#	Twp	Rng	Sec	Q-Q	DLC/ Gov't lot	Measured Distances, latitude/longitude coordinates, or river mile (if unknown you may indicate "unknown")
1	4-S	40-E	20	NWNW		-117.845, 45.209
2	4-S	40-E	29	NE-NE		-117.834, 45.193

Please check this box if you don't know the location of the POD(s) and want the Department to identify the location of the POD(s) for the purpose of the instream lease.

### **Instream Use Information**

#### Table 4

Instream Use Created by the Lease								
River/ Stream Ronde	Name: C	Catherin	<u>de</u>	River Basin:	Grande Ronde			
<b>Instream Portion:</b> Use Table 4 to illustrate the instream rate, volume and instream period by priority date, POD (if more than one), Use (if more than one), and acreage as appropriate considering the right to be leased.								
If not enough room below, you may add additional rows (see instructions) or attach a spreadsheet (matching the below portion of Table 4). Please clearly label any attachments.								
Priority date	POD#	Use	Acres	Proposed Instrea Period	1	Total instream rate (cfs)	Total instream volume (af)	
1864	1-Little	IR	79.1	7/15-9/12		1.98	237.3	
1864	2-CC	IR	49.8	7/15-9/12		1.25	149.4	
maximum rate and duty/volume allowed by the right, as described in Table 2 or on your Certificate if leasing the entire right. The proposed instream period may be no longer than the irrigation season or the authorized period of allowed use.  OR Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.								
Instream Reach								
Proposed Instream Reach:  ☐ A reach typically begins at the point of diversion (POD) and ends at the mouth of the source stream: From the POD to the confluence with the Grande Ronde.  ☐ Or Proposed Instream Point: ☐ Instream use protected at the POD to the confluence with the Grande Ronde.								
<b>OR</b> Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. (If no reach is identified or the above box is not checked, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD.)								

**Additional Instream Information**
