Application for Permanent Water Right Transfer

O R E G O N
Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required CEIVED attachments are not completed and included.

	To questions, please can (503) 980-0900, and ask for transfer Section.
Check all ite	ms included with this application. (N/A = Not Applicable) Part 1 – Completed Minimum Requirements Checklist. OWRD
X	Part 2 – Completed Transfer Application Map Checklist.
X	Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd fee calculator. If you have questions, call Customer Service at (503) 986-0801.
X	Part 4 – Completed Applicant Information and Signature.
X	Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? <u>4</u> List them here: <u>C44294, 65094, C80557 & C94172</u> Please include a separate Part 5 for each water right. (See instructions on page 6)
	Attachments:
X	Completed Transfer Application Map.
X	Completed Evidence of Use Affidavit and supporting documentation.
X N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
☐ X N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
X N/A	Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
X N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
□ X N/A	Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.
	(For Staff Use Only)
	WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Evidence of Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete Other/Explanation Staff: 503-986-0 Date: //

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met 2020

Please be sure that the transfer application map you submit includes all the required items and WRD matches the existing water right map. Check all boxes that apply. Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions. If more than three water rights are involved, separate maps are needed for each water □ N/A right. X Permanent quality printed with dark ink on good quality paper. The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 \mathbf{X} inches. For 30 x 30 inch maps, one extra copy is required. \mathbf{X} A north arrow, a legend, and scale. The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final \mathbf{X} Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land X survey lines. Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. $|\mathbf{X}|$ Major physical features including rivers and creeks showing direction of flow, lakes and X reservoirs, roads, and railroads. Major water delivery system features from the point(s) of diversion/appropriation such as X main pipelines, canals, and ditches. Existing place of use that includes separate hachuring for each water right, priority date, X and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. | N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a X recognized survey corner. This information can be found in your water right certificate or permit. N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location X and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or

more digits after the decimal (example – 42.53764°).

6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$4,831								
	Is this transfer:	-									
	necessary to complete a project funded by the Oregon Watershed										
	Enhancement Board (OWEB) under ORS 541.932?										
	X endorsed in writing by ODFW as a change that will result in a net benefit to										
	fish and wildlife habitat?										
_	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »	7	\$2,785								
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » » » » »	7									
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » Transfer Fee:	8	\$2,785								

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$840.00
	Number of wells included in substitution (2a)		4
	Subtract 1 from the number in 2a above:(2b) If only one well this will be 0		
2	Multiply line 2b by \$410 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	

^{*}Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

Part 4 of 5 – Applicant Information and Signature **Applicant Information** ADDITIONAL CONTACT NO. PHONE NO. APPLICANT/BUSINESS NAME Russell Young (541) 575-1318 FAX NO. **ADDRESS** P.O. Box 171 E-MAIL STATE ZIP CITY OWRD OR 97820 Canyon City BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED. Agent Information - The agent is authorized to represent the applicant in all matters relating to this application. PHONE NO. ADDITIONAL CONTACT NO. AGENT/BUSINESS NAME King Williams (541) 620-0625 FAX NO. **ADDRESS** P.O. Box 325 E-MAIL STATE ZIP CITY John Day 97845 king.kinginc@gmail.com OR BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED. Explain in your own words what you propose to accomplish with this transfer application, and why: SEE EXHIBIT A, ATTACHED If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1". **Check One Box** By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; OR I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation. By my signature below, I confirm that I understand: Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050. Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010). I (we) affirm that the information contained in this application is true and accurate. Russell Young Print Name (and Title if applicable) Date Applicant signature

Exhibit A

OWRD

Explain in your own words what you propose to accomplish with this transfer application, and why.

The purpose of this transfer is to change the authorized places of use, and to change two points of diversions and to change the character of use for one right. The irrigated land under the current water right certificates is designed to be used as a flood irrigation and wheel line irrigation system. The change in place of use will allow us to primarily use the water in two center-pivots. Other irrigated areas outside the center pivots will be irrigated with wheel-lines and solid- set hand lines for greater efficiency.

We also propose to abandon the two most upstream points of diversions. If this application is successful, we will have no further use for POD's 4 and 5. The POD's will be abandoned and water will be diverted into the system at POD #2.

In addition the application include a change in charter of use for Certificate # 65094. The change will be made from primary to supplemental.

It should be noted that POD's #2 and #3 are the same POD, but have different corner ties from two different certificates.

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form. CERTIFICATE # 44294 **Description of Water Delivery System** System capacity: $\underline{}$ cubic feet per second (cfs) **OR** JUL 27 2020 gallons per minute (gpm) Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. See Exhibit B (C-44294) attached Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.) From the Authorized POD (POD#1), water runs in a pipe for approximately 5000 to a point on the north side of Highway 26. From this point the water enters the system common to POD#2 and POD #3 and can be used in the center-pivots, wheel lines or solid-set hand lines with impact sprinklers.

The current system can utilize water from Mark's Creek or the John Day River separately or together. The system is designed to use source water in conformance with appurtenant water rights.

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form. Exhibit B

(C-65094)

From the Authorized POD (POD#1), water runs in a pipe for approximately 5000 to a point on the north side of Highway 26. From this point the water enters the system common to POD#2 and POD #3 and can be used in the center-pivots, wheel lines or solid-set hand lines with impact sprinklers.

The current system can utilize water from Mark's Creek or the John Day River separately or together. The system is designed to use source water in conformance with appurtenant water rights.

This application includes a Change in Charter of Use for this right. If successful, the right will be converted from a primary right to a supplemental right, as shown on the associated map.

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form. 80557 **CERTIFICATE** # RECEIVED **Description of Water Delivery System** cubic feet per second (cfs) OR 1.46 JUL 27 2020 System capacity: 637 gallons per minute (gpm) Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. See Exhibit B(C-80557) attached Table 1. Ide	ntify the primary certificate to be cancelled. Certificate #		OWRD
For a	change in point(s) of appropriation (well(s)) or additional point(s) of a	ppropriation:	
	Well log(s) are attached for each authorized and proposed well(s) that with the corresponding well(s) in Table 1 above and on the accompany Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx		
AN	D/OR		
	Describe the construction of the authorized and proposed well(s) in Tahave a well log. For <i>proposed wells not yet constructed or built</i> , provid requested information element in the table. The Department recomm driller, geologist, or certified water right examiner to assist with assen	le "a best estimate" nends you consult a	' for each licensed well

Table 3. Construction of Point(s) of Appropriation

complete Table 3.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right

Exhibit B

(C-94172)

From Authorized POD #2 irrigation water is pumped into mainlines and used in wheel lines or solid set hand lines with impact sprinklers.
