# Application for Permanent Water Right Transfer

# Part 1 of 5 – Minimum Requirements Checklist

attachments are not completed and included. RECEIVED For questions, please call (503) 986-0900, and ask for Transfer Section. Check all items included with this application. (N/A = Not Applicable) SEP 04 2020 Part 1 – Completed Minimum Requirements Checklist.  $\bowtie$ Part 2 – Completed Transfer Application Map Checklist. M OWRD Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd\_fee\_calculator. If you have questions, call Customer Service at (503) 986-0801. Part 4 – Completed Applicant Information and Signature. Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 4 List them here: Certificate 20351, 27941, 47384, 55068 Please include a separate Part 5 for each water right. (See instructions on page 6) **Attachments:** Completed Transfer Application Map. Completed Evidence of Use Affidavit and supporting documentation. N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.) Supplemental Form D – For water rights served by or issued in the name of an irrigation ⊠ N/A district. Complete when the transfer applicant is not the irrigation district. Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability. (For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): \_\_\_ Map not included or incomplete Application fee not enclosed/insufficient \_\_\_\_ Land Use Form not enclosed or incomplete \_\_\_\_ Evidence of Use Form not enclosed or incomplete \_\_\_ Part \_\_\_\_\_ is incomplete Additional signature(s) required Other/Explanation \_ 503-986-0 Date: Staff: \_

This transfer application will be returned if Parts 1 through 5 and all required

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre license view/. CWRE stamp and signature are not required for substitutions. If more than three water rights are involved, separate maps are needed for each water N/A right. Permanent quality printed with dark ink on good quality paper. M The size of the map can be 8% x 11 inches, 8% x 14 inches, 11 x 17 inches, or up to 30 x 30 X inches. For 30 x 30 inch maps, one extra copy is required.  $\boxtimes$ A north arrow, a legend, and scale. The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final  $\boxtimes$ Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land X survey lines. Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. X Major physical features including rivers and creeks showing direction of flow, lakes and X reservoirs, roads, and railroads. Major water delivery system features from the point(s) of diversion/appropriation such as X main pipelines, canals, and ditches.  $\boxtimes$ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a  $\boxtimes$ recognized survey corner. This information can be found in your water right certificate or permit. N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location  $\bowtie$ and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example - 42.53764°).

#### Part 3 of 5 - Fee Worksheet

, uit			
	FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)		¢4.4C0
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,160
	Types of change proposed:		
		ا لاا	
	Character of Use SEP 0 4 20	20	
	Point of Diversion/Appropriation		
	Number of above boxes checked = $\frac{2(2a)}{a}$		
	Subtract 1 from the number in line $2a = \frac{1(2b)}{1}$ If only one change, this will be 0		ĊOZO
2	Multiply line 2b by \$930 and enter » » » » » » » » » » » » » »	2_	\$930
	Number of water rights included in transfer 4 (3a)		
	Subtract 1 from the number in 3a above: 3 (3b) If only one water right this will be 0		¢1 FC0
3	Multiply line 3b by \$520 and enter » » » » » » » » » » » » »	3	\$1,560
	Do you propose to add or change a well, or change from a surface water POD to a		
	well?		
	No: enter 0 »» » » » » » » » » » » » » » » » »	ا ۾ ا	ćo
4	Yes: enter \$410 » » » » » » » » » » » » » » » » »	4	\$0
	Do you propose to change the place of use or character of use?		
	No: enter 0 on line 5 » » » » » » » » » » » » » » » » »		
	Yes: enter the cfs for the portions of the rights to be transferred (see		
	example below*): 0.34 (5a)		
	Subtract 1.0 from the number in 5a above: 1 (5b)		
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »		
_	If 5b is greater than 0, round up to the nearest whole number: -0.66 (5c) and	5	\$0
5	multiply 5c by \$350, then enter on line 5 » » » » » » » »	6	<del>`</del>
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	0	\$3,650
	Is this transfer:		
	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?	;	
_	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »	7	¢Ω
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » »	8	\$0
। ८।	Subtract line 7 from line 6 » » » » » » » » » » » <b>Transfer Fee:</b>	ď	\$3,650

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

强心	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$840.00
	Number of wells included in substitution (2a) Subtract 1 from the number in 2a above: (2b) If only one well this will be 0		
2	Multiply line 2b by \$410 and enter » » » » » » » » » » » » »	2	NA
3	Add entries on lines 1 through 2 above » » » » Fee for Substitution:	3	NA

<sup>\*</sup>Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

Explain in your own words what you propose to accomplish with this transfer application, and why:

The original point of diversion from the unnamed stream was removed when the reservoir was expanded under Permit R-14994 and re-located to the new southern end of the Reservoir. This transfer is to record the new location of the point of diversion from the unnamed stream and to describe the location of the point of diversion out of the reservoir. In addition, the place of use

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

was revised to reflect future site plans for our landscape outline.

#### **Check One Box**

$\boxtimes$	By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to
	Department approval of the transfer, I will be required to provide landownership information and evidence that I an
	authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
	I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the
	name of the municipality or a predecessor; <b>OR</b>
	l affirm the applicant is an entity with the authority to condemn property and is acquiring by
	condemnation the property to which the water right proposed for transfer is appurtenant and
	have supporting documentation.

#### By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the
  Department for publication of a notice in a newspaper with general circulation in the area where the water right
  is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest
  publishing the notice in the following newspaper: Oregon City News.
- Amendments to the application may only be made in response to the Department's Draft Preliminary
  Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any
  issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be
  subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).

I (we) affirm that the information contained in this application is true and accurate.

#### **Description of Water Delivery System**

SEP 04 2020

System capacity: <u>0.77</u> cubic feet per second (cfs) **OR**gallons per minute (gpm)

**OWRD** 

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is diverted from the point of diversion on the stream to capture the live flow from the stream through an 8-inch-diameter Pump Rite L-250 fish screen submerged within the creek. When water is needed, a gate valve connecting the fish screen to an 8-inch PVC pipe is opened, allowing water to gravity flow through the 8-inch PVC pipe connected to a 10-inch PVC pipe running underground from the creek to the pond, thereby using the reservoir as a bulge in the system. Water is pumped from the reservoir at the re-diversion POD using a centrifugal pump with a fish screen. Water from the reservoir is conveyed through a six-inch buried mainline to the place of use.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA: OWRD Well Log ID# (or Well ID Tag # L)		Ň <b>p</b>	R	ng	Sec	×	Ŷ.	Tax Lot; DLC or Gov't Lot	Measured Distances {from:a recognized survey corner}

Additional remarks: Certificate 20351 allows for the use of live flow from an unnamed stream. The POD identified in the certificate is the location on the stream where water was diverted to the reservoir. The apparent intent was to allow diversion of live flow from the stream into the reservoir during the irrigation season, with subsequent re-diversion from the reservoir, thus using the reservoir as a bulge in the system.

However, the certificate does not specify a location for the point of re-diversion from the reservoir. This application, among other things,

proposes to define (add) the re-diversion point on the reservoir to be consistent with the established point of re-diversion	ersion identified in Permit S-
<u>55000.</u>

**OWRD** 

## For Place of Use or Character of Use Changes

Are there other water right certificates, water use	permits or ground water registrations associated
with the "from" or the "to" lands? $igtimes$ Yes $igcap$ No	

If YES, list the certificate, water use permit, or ground water registration numbers: <u>Permit G-18122</u>, <u>Permit S-55000</u>, and <u>Certificate 27941</u>.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # NA; Surface water primary Certificate # NA. RECEIVED

SEP 04 2020

#### For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

OWRD

# For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and
associated with the corresponding well(s) in Table 1 above and on the accompanying application
map.

**Tip**: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx

#### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

# Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Is well Authorized alread POA built? Name or (Yes or Number No)	well: OWRD Well	Total	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well specific rate (cfs or gpm). If less than full rate of water right
NA									

# Part 5b of 5d - Water Right

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

#### Additional remarks:

Certificate 27941 allows for the use of live flow from an unnamed stream, along with the use of water stored in the reservoir constructed under Permit R-2020. The POD identified in the certificate is the location on the stream where water was diverted to the reservoir. In addition to allowing the use of stored water, the apparent intent was to allow diversion of live flow from the stream into the reservoir during the irrigation season, with subsequent re-diversion from the reservoir, thus using the reservoir as a bulge in the system. However, the certificate does not specify a location for the point of re-diversion from the reservoir. This application, among other things, proposes to change (define) the rediversion point on the reservoir to be consistent with the established point of re-diversion identified in Permit S-55000.

#### For Place of Use or Character of Use Changes

Are there other water right certificates, water use	permits or ground water registrations associated
with the "from" or the "to" lands?   ✓ Yes   No	

If YES, list the certificate, water use permit, or ground water registration numbers: <u>Permit G-18122</u>, <u>S-55000</u>, and <u>Certificate 20531</u>.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # <u>NA;</u> Surface water primary Certificate # <u>NA.</u> RECEIVED

SEP 0 4 2020

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # NA

OWRD

# For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and
associated with the corresponding well(s) in Table 1 above and on the accompanying application
map.

**Tip:** You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx</a>

#### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

# Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
