- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 2 List them here: Certificates 46838 and 82480 (Attachment A)**  
Please include a separate Part 5 for each water right. (See instructions on page 6)

**Attachments:**

- Completed Transfer Application Map. **(Attachment B)**
- Completed Evidence of Use Affidavit and supporting documentation. **(Attachment C)**
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.) **(Attachment D)**
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. **(Attachment E)**
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. **(Attachment F)**
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500’ from the surface water source and more than 1000’ upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

## Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see [http://apps.wrd.state.or.us/apps/wr/cwre\\_license\\_view/](http://apps.wrd.state.or.us/apps/wr/cwre_license_view/). CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
  - a. Divide total authorized cfs by total acres in the water right (*for C12345, 1.25 cfs ÷ 100 ac*); then multiply by the number of acres to be transferred to get the transfer cfs (*x 45 ac = 0.56 cfs*).
  - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (*For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs*)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (*In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0*).

Explain in your own words what you propose to accomplish with this transfer application, and why:  
 The Applicant is proposing to change the authorized place of use and point of appropriation for the entirety of Certificate 46838 and an 0.8 cfs portion of Certificate 82480 to allow pumping of groundwater from a new Well 5 for use at a portion of the currently authorized place of use.

### Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

**By my signature below, I confirm that I understand:**

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: The Dalles Chronicle.
- Amendments to the application may only be made in response to the Department’s Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).

**I (we) affirm that the information contained in this application is true and accurate.**

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located?  Yes  No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant’s) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed. (See Attachment D)*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold?  Yes  No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

**OWRD**

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is pumped from Well 3 using a 100 Hp line shaft turbine pump and conveyed via 14 inch mainline to a common water system consisting of a 100,000 gallon elevated water storage tower and a closed pipe system that delivers water for various industrial purposes. In addition to the water right listed above, this system also provides water under water certificate 82480.

Additional Remarks: The Applicant is proposing to change the authorized place of use and point of appropriation for Certificate 46838. The authorized place of use is described in the Specific-to-General Industrial Use Change that was acknowledged by OWRD on July 29, 2010. The authorized place of use includes lands owned by Lockheed Martin Corp. and The Dalles Industrial Group, which have executed quit-claim deeds for their portions of Certificate 46838 to the Applicant. Hydro Extrusion USA, LLC also owns a portion of the authorized place of use and has provided a consent to this transfer. See Attachment D for copies of the quitclaim deeds and the consent to transfer.

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: Certificates 82480, 46835, 46836, 46839, 46840, 46841, and 64506. These water rights, however, authorize use for industrial/manufacturing use, so "layering" does not apply.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. **(Attachment F)**

**Tip:** You may search for well logs on the Department's web page at:

[http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

### Description of Water Delivery System

JAN 11 2021

System capacity: 5.02 cubic feet per second (cfs) OR (1.2 cfs under this water right)

\_\_\_\_\_ gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is pumped from Well 3 and Well 4 using a 100 Hp line shaft turbine pump, and a 60 Hp submersible pump, respectively. Water is conveyed via 14 inch mainline to a common water system consisting of a 100,000 gallon elevated water storage tower and a closed pipe system that delivers water for various industrial purposes. In addition to the water rights listed above the pumping system also serves water under certificates 46838 and 46839.

Will all of the proposed changes affect the entire water right?

Yes Complete only the Proposed ("to" or "on" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.

No Complete all of Table 2 to describe the portion of the water right to be changed.

**\*Different coordinates than described in Certificate 82480 are used here to describe the location of Well 3.**

**The coordinates used here describes the same location that is listed in Certificate 82480, however, these coordinates are being used for consistency with Certificate 46838 (Table 1 in the preceding Section 5) and the map included in Attachment B.**

Additional remarks: Certificate 82480 authorizes the use of up to 1.2 cfs for industrial use. The authorized place of use is described in the Specific-to-General Industrial Use Change notice that was acknowledged by OWRD on July 29, 2010. The Applicant is proposing to change the authorized place of use and point of appropriation for a 0.8 cfs portion of Certificate 82480. The proposed change would reduce the authorized rate within the Applicant's entire place of use for Certificate 82480. (The Applicant is submitting a water right transfer application for the remaining 0.4 cfs portion of Certificate 82480 in the near future.) The authorized place of use for Certificate 82480 includes lands owned by Lockheed Martin Corp. and The Dalles Industrial Group, which have both executed quitclaim deeds for their portions of the certificate to the Applicant. Hydro Extrusion USA, LLC also owns a portion of the authorized place of use and has provided a consent to this transfer. See Attachment D for copies of the quitclaim deeds and the consent to transfer.

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: **Certificates 46838, 46835, 46836, 46839, 46840, 46841, and 64506. These rights, however, authorize industrial and manufacturing use, so "layering" does not apply.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

**Tip:** You may search for well logs on the Department's web page at: **(Attachment F)**

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

THIS CERTIFICATE ISSUED TO

MARTIN MARIETTA CORP  
6801 ROCKLEDGE DRIVE  
BETHESDA, MARYLAND 20034

confirms the right to use the waters of WELL 3 AND WELL 4 in the COLUMBIA RIVER BASIN for the purpose of INDUSTRIAL USE.

The right has been perfected under Permit G-646. The date of priority is AUGUST 19, 1957. The right is limited to not more than 1.2 CUBIC FOOT PER SECOND IF AVAILABLE AT THE ORIGINAL POINT OF APPROPRIATION or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

WELL 3: SW 1/4 SW 1/4, (DLC 41), SECTION 28, T 2 N, R 13 E, W.M.;  
300 FEET SOUTH AND 1820 FEET WEST FROM THE SE CORNER, DLC 39.

WELL 4: SE 1/4 SW 1/4, (DLC 39), SECTION 28, T 2 N, R 13 E, W.M.;  
60 FEET NORTH AND 1040 FEET WEST FROM THE SE CORNER, DLC 39.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The quantity of water appropriated at the new wells shall not exceed the quantity of water available at the old well under the subject right, and shall not exceed 1.2 cubic foot per second.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

SW 1/4  
SECTION 28  
TOWNSHIP 2 NORTH, RANGE 13 EAST, W.M.

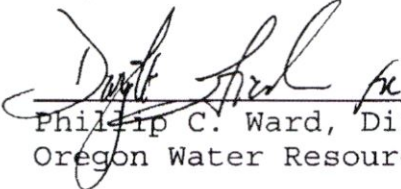

The diversion works shall include an access port, an in line flow meter, weir, or other suitable device for measuring the water to which the water user is entitled.

This certificate is issued to confirm a change in POINT OF APPROPRIATION approved by an order of the Water Resources Director entered MARCH 12, 1987, approving Transfer Application 5607, and supersedes Certificate 46837, State Record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This is a request under ORS 540.259(9)  
To include additional place of use

**540.520**

(9) A water right transfer under subsection (1) of this section is not required for a general industrial use that was not included in a water right certificate issued for a specific industrial use if:

(a) The quantity of water used for the general industrial use is not greater than the rate allowed in the original water right and not greater than the quantity of water diverted to satisfy the authorized specific use under the original water right;

**There will be no increase beyond what is authorized in the water rights by the additional industrial land added to the water rights.**

(b) The location where the water is to be used for general industrial use was owned by the holder of the original water right at the time the water right permit was issued;

**The land involved here was all owned by different aluminum companies to operate an aluminum plant. Harvey Aluminum was the first company and the one that built the aluminum plant. The ownership changed to Martin Marietta Aluminum and then to Northwest Aluminum. See attached assessors maps and copies of deeds showing ownership when water rights were filed.**

(c) The person who makes the change in water use provides the following information to the Water Resources Department:

(A) The name and mailing address of the person using water under the water right;

**Requesting Change:**

I, Caitlin Bryan of Maul Foster & Alongi, Inc., in my capacity as Direct Responsible Charge for the Water System  
 mailing address PO Box 1646, Goldendale, WA, 98620  
 telephone number (509) 690-3012, being first duly sworn depose and say:

RECEIVED  
 JAN 11 2021  
 OWRD

1. My knowledge of the exercise or status of the water right is based on (check one):

- Personal observation       Professional expertise

2. I attest that:

- Water was used during the previous five years in accordance with the terms and conditions of Certificate # 82480; OR
- My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township		Range		Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

OR

- Confirming Certificate # \_\_\_\_ has been issued within the past five years; **OR**
- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: \_\_\_\_ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
- The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
- Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # \_\_\_\_ (For Historic POD/POA Transfers)

(continues on reverse side)

13596

3. The water right was used for: (e.g., crops, pasture, etc.): INDUSTRIAL PURPOSES

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

Re: Transfer Application for Certificates 46838 and 82480, in the name of Design, LLC

Dear Mr. Starnes:

Design, LLC is the holder of water right Certificates 46838 and 82480. Each certificate authorizes the appropriation of up to 1.2 cfs of groundwater (2.4 cfs total) for industrial use. The Applicant is filing the enclosed transfer application to change the place of use and point(s) of appropriation for the entirety of Certificate 46838, and a 0.8 cfs portion of Certificate 82480. Please note that the Applicant will submit a transfer application for the remaining 0.4 cfs portion of Certificate 82480 in the near future.

Enclosed is an Application for Permanent Water Right Transfer and the required processing fee of \$3,370.

Please contact me if you have any questions or concerns. My telephone number is 541-257-9004.

Sincerely,

A handwritten signature in black ink that reads "Kimberly Grigsby". The signature is written in a cursive, flowing style.
