**FOR ALL TEMPORARY TRANSFER APPLICATIONS**

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Temporary Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at: [http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator). If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred? 5 List them here: 87111, 92994, 93872, 95154, 95155**  
Please include a separate Part 5 for each water right. (See instructions on page 6)
- N/A For standard Temporary Transfer (one to five years) **Begin Year: 2021 End Year: 2024.**
- N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

**Attachments:**

- Completed Temporary Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- Current recorded deed for the land **from** which the authorized place of use is temporarily being moved.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.)
- N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

**(For Staff Use Only)**

## Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application **will be returned** if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

---

Ann,

In this email I'll attempt to answer all of the questions and clarifications we have discussed over the phone Friday morning (and in various emails).

**T-13603**

1. 87111: I needed to add a point of diversion for cert. 87111. I have included a new supplemental form A for this right, which should supersede the portion of the application I submitted earlier this year.

**T-13609**

2. 87111: please remove 94241 from the list of rights associated with the land
3. 92994: I have added clarifying language to the irrigation system description (see attachment). The FRI and CID pump stations are located at the same legal description
4. 92994: Because 92994 is not a confirming certificate I have attached a satellite image showing proof of use under 92994 for the previous irrigation season (under T-13399, see attachment "92994 EOU").
5. T-13609: Please note that this transfer (T-13609) should be cancelled upon approval of permanent transfer T-13525
6. 93872: 93872 overlaps 44654. There will be no water use under 44654 for the 2021 irrigation season
7. 93872: The place of use table for 93872 has been corrected to reflect the correct section and parcel numbers.

-

I think this covers everything, but let me know if I've missed anything.

Thanks for your help and patience!

Nate Rau

**Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

CERTIFICATE # \_\_\_\_\_

**Water Right Certificate # 87111**

**Description of Water Delivery System**

System capacity: \_\_\_\_\_ cubic feet per second (cfs) **OR**

EID System gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Water is withdrawn at a pump station located on the Columbia River. The water is then transported through a series of pipelines and boosters and to the sprinkler system on the farm.**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
<b>Stahl Pump Station</b>	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed		5	N	30	E	8	S W	N W	0200	2910 Feet North and 120 Feet East from SW Corner, Section 8
<b>EID Pump Station</b>	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed		5	N	30	E	8	S W	N W	0200	2860 Feet North and 70 Feet East from SW Corner, Section 8

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) Certificates 92001, 85124, 87042, 94241 and 74762 are primary groundwater rights and will remain in place and be used during the 20201 irrigation season. (2) Permit S-54773 is a shoulder water right. The portions of supplemental water from Permit S-54773 associated with portions of Cert. 87111 affected by this transfer will not be transferred or exercised during the regular 2021 irrigation season. (3) Mitigation Permits: S-55114, S-55263, and S-55262 are mitigation permits and will be used on both the "TO" and "FROM" lands in accordance with the agreement between OWRD and Northeast Oregon Waterusers Association.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

**If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:**

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

RECEIVED  
FEB 03 2021

**AND/OR**

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

OWRD

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

**Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Additional remarks: \_\_\_\_\_

**Water Right Certificate # 92994**

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the “from” or the “to” lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) Permits S-54675, S-51017 & G-17354 overlap some of the proposed “To” lands. These permits are owned by other parties and are in the process of being permanently moved to other lands. They will not be used in the 2021 irrigation season (2) Permits S-55061, S-55190, S-55192 are mitigation permits and overlap the "TO" lands. (4) T-13399 is an approved temporary transfer that should be cancelled upon approval of this application (5) Permanent transfer T-13525 includes cert. 92994 and will be cancelled upon acceptance of this transfer

Pursuant to ORS 540.525, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

**If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:**

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. **(Tip:** You may search for well logs on the Department’s web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

**Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) G-16151 is a groundwater permit which will remain in palce unused for the 2021 irrigation season (2) Mitigation Permits: S-55114, S-55263, and S-55262 are mitigation permits and are located on the "TO" lands.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

**If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:**

OWRD

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). I, LUKE MAYNARD, in my capacity as IRRIGATION MANAGER, AGRINORTHWEST,  
 mailing address PO BOX 2308 PASCO, WA 99302  
 telephone number (541)945-1684, being first duly sworn depose and say:

RECEIVED  
 FEB 03 2021  
 OWRD

1. My knowledge of the exercise or status of the water right is based on (check one):

- Personal observation                       Professional expertise

2. I attest that:

Water was used during the previous five years on the **entire** place of use for Certificate # **87111 & 93872**; **OR**

My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township	Range	Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

**OR**

- Confirming Certificate # **92994, 95154, & 95155** has been issued within the past five years; **OR**
- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: \_\_\_\_ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
- The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
- Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # \_\_\_\_ (For Historic POD/POA Transfers)

13609

(continues on reverse side)

3. The water right was used for: (e.g., crops, pasture, etc.): \_\_\_\_\_

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN for IRRIGATION of 234.89 ACRES.

This right was perfected under Permit S-36940. The date of priority is JUNE 29, 1973. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 5.81 CUBIC FEET PER SECOND, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q - Q	GLot	Measured Distances
4 N	25 E	WM	2	NE NW	7	SOUTH 86 DEGREES 22 MINUTES 46 SECONDS WEST, 2829 FEET FROM THE NE CORNER OF SECTION 2

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.5 acre-feet per acre for each acre irrigated during the irrigation season of each year. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

Twp	Rng	Mer	Sec	Q - Q	Acres
4 N	26 E	WM	16	NE NE	30.99
4 N	26 E	WM	16	NW NE	38.98

4 N	26 E	WM	16	SE NW	2.20
4 N	26 E	WM	17	NE NE	25.28
4 N	26 E	WM	17	NW NE	5.91

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4 N	26 E	WM	17	SW NE	33.49
4 N	26 E	WM	17	SE NE	17.06
4 N	26 E	WM	17	SE NW	1.42
<b>TOTAL:</b>					<b>234.89</b>

The water user shall install and maintain headgates, in-line flow meters, weirs, or other suitable devices for controlling, measuring and recording the quantity of water diverted. In-line flow meters shall be installed at the Cherokee Strip pump site, Booster Pump station #1, and each field control manifold. The type of plans of the headgates and measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall operate and maintain the headgates and measuring devices, as needed. The Watermaster may operate the headgates and monitor accuracy of the measuring devices, as needed.

The water user shall install and maintain a soil moisture monitoring program. The monitoring shall include Troxler Sentry capacitance probe data (or other monitoring data of similar or superior accuracy) at 1, 2, 3, 4 and 5 foot depths, at weekly intervals, beginning one week prior to the irrigation season and continuing one week past the end of the irrigation season. The monitoring program and the location of the monitoring sites shall be approved by the Watermaster. Review of the monitoring program can occur at any time with a formal request from the water user or the Watermaster.

Monitoring shall include one paired data sampling site with access tubes between adjacent tree rows for every 1000 acres of each major soil type in each age class (each paired site shall consist of a pair of access tubes located within the non-irrigated strip between the tree rows and at the outer edges of that strip). Major soil types with less than 1000 acres in a given age class will have one paired site. Monitoring shall include one access tube for each soil type located outside the planted area to be used as control for each major soil type. Soil types are as identified in attached soil classification map dated 12/2/2000. This data will be supplemented with other ongoing monitoring data from tubes in the tree rows as normally required by the water user for accurate irrigation scheduling, and as reasonably approved by the Watermaster.

Monitoring sites, and monitoring data and flow data shall be available to the Watermaster promptly upon request.

The water user shall supply, to the Watermaster, bi-annual reports of water use and monitoring data. The first report will cover the period through June of each year and the second report will cover the remainder of the growing season. Monitoring data report shall be provided in a reasonable summary format as approved by the Watermaster. The water user shall promptly inform the Watermaster of encroachment events into any areas without water rights, including the areas between tree rows and inform the Watermaster of the course of action to correct the problem.

If water use under the irrigation system delivers water to areas without water rights, including the area between the tree rows, the Watermaster may regulate the water use until soil moisture and flow data demonstrate that the areas without water rights are no longer receiving water.

RECEIVED

FEB 03 2021

This certificate is issued to correct a scrivener's error in the date of issuance of the Final Order approving T-12522 described on Certificate 92930. This Certificate supersedes Certificate 92930, and describes the portion of water right Certificate 89511, NOT modified by the provisions of an order of the Water Resources Director entered March 31, 2017, and recorded at Volume 104, Page 293, approving Transfer Application T-12522.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed APR 11 2017.

*Dwight French, Water Right Services Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department*

Water user measurement conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device approved by the Director at each point of diversion in good working order.
- B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.

The water user shall maintain headgates, in-line flow meters, weirs, or other suitable devices for controlling, measuring and recording the quantity of water diverted. In-line flow meters shall be installed at each canal pump station. The type and plans of the headgates and measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall operate and maintain headgates and measuring devices, as needed. The Watermaster may operate the headgates and monitor accuracy of the measuring devices, as needed.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change in PLACE OF USE approved by an order of the Water Resources Director entered MARCH 31, 2017, at Special Order Volume 104, Page 293, approving Transfer Application T-12522, and together with Certificates 92926, 92927, 92928, 92929, supersedes Certificates 76584, 76585, 76586, and 83588, State Record of Water Right Certificates.

Issued JUL 31, 2020

Dwight French  
 Water Right Services Division Administrator, for  
 Thomas M. Byler, Director  
 Oregon Water Resources Department

STATE OF OREGON  
 COUNTY OF MORROW  
 CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

FARMLAND RESERVE INC.  
 C/O AGRINORTHWEST  
 PO BOX 2308  
 PASCO WA 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION of 7472.54 ACRES.

This right was perfected under Permit S-36940. The date of priority is JUNE 29, 1973. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 184.71 CUBIC FEET PER SECOND if available at the original point of diversion: LOT 7 (NE 1/4 NW 1/4), SECTION 2, T 4 N, R 25 E, W.M.; SOUTH 86 DEGREES 22 MINUTES 46 SECONDS WEST, 2811 FEET FROM THE NE CORNER, SECTION 2, or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
4 N	25 E	WM	2	NE NW	7	COLUMBIA RIVER PUMP STATION - SOUTH 86 DEGREES 22 MINUTES 46 SECONDS WEST, 2829 FEET FROM NE CORNER, SECTION 2

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use is as follows:

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water user measurement conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device approved by the Director at each point of diversion in good working order.
- B. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall maintain headgates, in-line flow meters, weirs, or other suitable devices for controlling, measuring and recording the quantity of water diverted. In-line flow meters shall be installed at the Cherokee Strip pump site, Booster Pump Station #1 and each field control manifold. The type and plans of the headgates and measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall operate and maintain headgates and measuring devices, as needed. The Watermaster may operate the headgates and monitor accuracy of the measuring devices, as needed.

The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows. The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a change in PLACE OF USE approved by an order of the Water Resources Director entered MARCH 31, 2017, at Special Order Volume 104, Page 293, approving Transfer Application T-12522, and together with Certificate 92930, supersedes Certificate 83589, 83590, 83591, 83592, and 89511, State Record of Water Right Certificates.

Issued JUL 31 2020.

## Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

[For transfers submitted under OAR Chapter 690 Division 380]

Oregon Water Resources Department  
 725 Summer Street NE, Suite A  
 Salem, Oregon 97301-1266  
 503-986-0900  
 www.oregon.gov/OWRD

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA) or place of use (POU) served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases consent will be required from the district or water supplier.

This form must be included with any transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

**EXHIBIT B**

(Permitted Encumbrances – Umatilla County)

**The following matters affect the Umatilla County Parcel:**

1. As disclosed by the tax rolls the premises herein described have been zoned or classified for special use. At any time that said land is disqualified for such use said property will be subject to additional taxes and interest.

Persons or parties acquiring title to said lands should check with the appropriate Planning Department and Assessors Office to verify zoning or classification.

2. The premises herein described are within the boundaries of the Echo Irrigation District, and this property is therefore subject to all easements, levies and assessments thereof, including but not limited to the U.S.R.S Canal.
3. Water charges of the Echo Irrigation District, if any.
4. The premises herein described are within the boundaries of the Teel Irrigation District, and this property is therefore subject to all easements, levies and assessments thereof.
5. Water charges of the Teel Irrigation District, if any.
6. The premises herein described are within the boundaries of the Westland Irrigation District, and this property is therefore subject to all easements, levies and assessments thereof.
7. Water charges of the Westland Irrigation District, if any.
8. The premises herein described are within the boundaries of the Butter Creek Irrigation District, and this property is therefore subject to all easements, levies and assessments thereof.
9. Water charges of the Butter Creek Irrigation District, if any.
10. Lack of Access: We are unable to ascertain from the records if the premises herein described has a physical means of ingress and egress to and from a legally dedicated road or highway and for this reason such rights cannot be insured. (Affects Tracts 23 & 44)
11. The lands described herein consist of portions that are contiguous. Access to such lands may be through adjoining lands that have common ownership. Rights of access to the lands are limited to those County Roads which may abut or pass through the lands described herein and no representation is made that all lands and/or parts thereof have independent rights of access. (Affects Tracts 8, 9, 10, 25, 27, 28 and 42)

Re: Temporary Water Right Transfer for Certificates: 95155, 95154, 92994, 93872 & 87111

To Whom It May Concern,

Please find enclosed an Application for Water Right Temporary Transfer, prepared by AgriNorthwest, for five water rights held by Farmland Reserve, Inc (FRI). The purpose of this transfer is to fully utilize the subject water rights on land owned by FRI.

Portions of certificates 95154 and 87111 are involved in in-district transfers for the upcoming season but I do not yet have transfer numbers for those applications. Additionally, certificate 92994 is involved in an active temporary transfer (T-13399), which should be cancelled upon approval of this temporary transfer, and a pending permanent transfer (T-13525). Upon approval of T-13525 this temporary transfer should be cancelled.

All required application documentation and fees are included in this packet. Our company has asked us to limit in-person interaction because of the ongoing COVID-19 situation, which has made it difficult to acquire original signatures. If you have any questions regarding this application, please contact me by phone at (509) 820-3231 or by email at [nrau@agrinw.com](mailto:nrau@agrinw.com).

Sincerely,

Nathan Rau  
Natural Resources Analyst

**Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

CERTIFICATE # \_\_\_\_\_

**Water Right Certificate # 92994**

**Description of Water Delivery System**

System capacity: \_\_\_\_\_ cubic feet per second (cfs) **OR**

**CID System - 142,000** gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Water is withdrawn at a pump station located on the Columbia River. The water is then transported through a series of pipelines and boosters and then into the CID canal. From the canal, water re-enters an underground pipeline and is pumped into the sprinkler system.**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-____)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

**RECEIVED**  
**FEB 03 2021**  
**OWRD**

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) Permits S-54675, S-51017 & G-17354 overlap some of the proposed "To" lands. These permits are owned by other parties and are in the process of being permanently moved to other lands. They will not be used in the 2021 irrigation season (2) Permits S-55061, S-55190, S-55192 are mitigation permits and overlap the "TO" lands. (4) T-13399 is an approved temporary transfer that should be cancelled upon approval of this application (5) Permanent transfer T-13525 includes cert. 92994 and will be cancelled upon acceptance of this transfer

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

**If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:**

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

RECEIVED  
FEB 03 2021

**AND/OR**

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

OWRD

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
								13609		=

**Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

**RECEIVED**

FEB 03 2021

**OWRD**

this page superseded 3/1/2021

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) 44654 is located on the two lands. It will remain in place and is in the process of being diminished to supplemental status as part of T(2) G-17354 & S-51017 & S-54675 are all owned by another party who is in the process of permanently moving both permits away from the "To" lands. (5) Mitigation permits (S-55192, -55190, -54633, -55061) are located on the TO and FROM lands and will be used on the TO lands.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

**If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:**

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

OWRD

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
