6. SIGNATURES

The district certifies the following:

- (1) The water right(s) proposed for transfer is a water right(s) subject to transfer and has not been forfeited for nonuse under ORS 540.610;
- (2) Each user affected by the proposed transfer has provided written authorization for the transfer and such authorization is on file with the district; and
- (3) The district has notified each affected user that the Department may condition or reject the transfer at any time to the extent necessary to avoid injury to an existing water right, and that the use of water on lands from which the water right is transferred (authorized place of use) and at the proposed place of use during the same irrigation season or calendar year may subject both the user and district to civil penalties.

On behalf of the district, I affirm that the information contained in this application is true and accurate.

Hi Anne,

You are correct. That is definitely a mistake. The permanent transfer should supersede this temporary transfer.

Thanks for catching that!

Subject: RE: Updated Forms T-13608

Hi Nathan,

I am still reviewing the transfer app before I respond, but I have a question about this statement: I think you mean the temp transfer will be cancelled if T-13525 is approved??

For applications proposing a Change in Place of Use or Character of Use:

- Are there **Other Water Rights**, Permits or Ground Water Registrations associated with this land?

Yes No N/A – *No Change in Place of Use or Character of Use*

If "Yes", what are the Permit, Registration or Certificate Numbers? (1) Permits S-54675, S-51017 & G-17354 overlap some of the proposed "To" lands. These permits are owned by other parties and are in the process of being permanently moved to other lands. They will not be used in the 2021 irrigation season (2) Permits S-55061, S-55190, S-55192 are mitigation permits and overlap the "TO" lands. (4) Permanent transfer T-13525 includes cert. 92990 and will be cancelled upon acceptance of this transfer

The following information **must be provided only** for those points of diversion or appropriation that **are involved in the transfer** (i.e., **list only the portion of the water right you propose to transfer.**) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.

A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation)

Government lot(GOV'T LOT) and donation land claim numbers (DLC) must be included in the table below **only** if the information is reflected on the existing water right.

A. Supply a copy of the well log(s) for each point of appropriation that is **clearly labeled** and associated with the corresponding well in the table above and on the accompanying application map. (*NOTE: You may search for well logs on the Department’s web page at: <http://www.wrd.state.or.us>*)

or

B. If a well log is **not** available, you must describe the construction of the authorized point of appropriation by completing the table below. Attach additional copies as necessary.

Construction of Existing Authorized Point(s) of Appropriation – (Only needed if no well log is available.)

Wells in this listing must be clearly tied to corresponding well location(s) described in the table above and shown on the accompanying application map.

*If there are **multiple Priority Dates** identified on the water right, any information provided on **pages 3 through 6** of this form **must identify** which priority date is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

- Source(s) of Water to be Affected by Transfer: Columbia River
Tributary to: Pacific Ocean

*If there are **multiple Sources** listed on the water right, any information provided on **pages 3 through 6** of this form **must identify** which source is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

For applications proposing a Change in Place of Use or Character of Use:

- Are there **Other Water Rights**, Permits or Ground Water Registrations associated with this land?
 Yes No N/A – *No Change in Place of Use or Character of Use*

If "Yes", what are the Permit, Registration or Certificate Numbers? (1) The "from" place of use for Cert. 92992 is located in eight (8) foot wide strips and the place of use for Cert. 92993 is in two (2) foot strips interlaced between the 8-foot strips of 92992. While there are common lands between these two rights, the rights DO NOT OVERLAP and will therefore be transferred separately. (2) 93872: Certificate 93872 is partially located on the TO lands but it will be transferred to other lands as part of another temporary transfer. (3) Permits S-54675, S-51017 & G-17354 overlap some of the proposed "To" lands. These permits are owned by other parties and are in the process of being permanently moved to other lands. They will not be used in the 2021 irrigation season (4) Permits S-55061, S-55190, S-55192 are mitigation permits and overlap the "TO" lands. (5) Permanent transfer T-13525 includes cert. 92990 and will be cancelled upon acceptance of this transfer

13608

Pursuant to ORS 540.510, any "layered" water use or a right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled, except as provided in OAR 690-380-2240(5).

The following information **must be provided** only for those points of diversion or appropriation that **are involved in the transfer** (i.e., **list only the portion of the water right you propose to transfer.**) Attach additional pages as necessary.

A Point of Diversion (POD) describes the location of diversion from a surface water source.

A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation)

Government lot(GOV'T LOT) and donation land claim numbers (DLC) must be included in the table below **only** if the information is reflected on the existing water right.

*If there are **multiple Priority Dates** identified on the water right, any information provided on **pages 3 through 6** of this form **must identify** which priority date is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

- Source(s) of Water to be Affected by Transfer: Columbia River
Tributary to: Pacific Ocean

*If there are **multiple Sources** listed on the water right, any information provided on **pages 3 through 6** of this form **must identify** which source is associated with each of the authorized and proposed points of diversion or appropriation and places of use.*

For applications proposing a Change in Place of Use or Character of Use:

- Are there **Other Water Rights**, Permits or Ground Water Registrations associated with this land?
 Yes No N/A – No Change in Place of Use or Character of Use

If “Yes”, what are the Permit, Registration or Certificate Numbers? (1) The place of use for Cert. 92992 is located in eight foot wide strips and the place of use for Cert. 92993 is in two foot strips interlaced between the 8-foot strips of 92992. While there are common lands between these two rights, the rights DO NOT OVERLAP and will therefore be transferred separately (2) Permits S-54675, S-51017 & G-17354 overlap some of the proposed “To” lands. These permits are owned by other parties and are in the process of being permanently moved to other lands. They will not be used in the 2021 irrigation season (2) Permits S-55061, S-55190, S-55192 are mitigation permits and overlap the "TO" lands. (3) Permanent transfer T-13525 includes cert. 92990 and will be cancelled upon acceptance of this transfer

Pursuant to ORS 540.510, any “layered” water use or a right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled, except as provided in OAR 690-380-2240(5).

▪ Certificate Number or other identifying number: 92993

The following information **must be provided only for those points of diversion or appropriation that are involved in the transfer (i.e., list only the portion of the water right you propose to transfer.)** Attach additional pages as necessary.

- A Point of Diversion (POD) describes the location of diversion from a surface water source.
- A Point of Appropriation (POA) describes the location of appropriation from a ground water source or well.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Table I (Authorized Place of Use) and Table II (Proposed Place of Use).

Location of Existing Authorized Point(s) of Diversion or Appropriation to be Changed:

(i.e., the allowed point(s) of diversion or appropriation listed on the water right that will be affected by the proposed transfer, the "OFF or FROM" point(s) of diversion or appropriation)
 Government lot(GOVT LOT) and donation land claim numbers (DLC) must be included in the table below **only** if the information is reflected on the existing water right.

Re: Columbia Improvement District Temporary Water Right Transfer for Certificates: 92990, 92991, 92992, 92993 & 95154

To Whom It May Concern,

Please find enclosed a completed Application for a District Temporary Water Right Transfer including water rights owned by Farmland Reserve, Inc. within the Columbia Improvement District. This application proposes a change in place of use for the involved water rights to better serve irrigated lands within the district.

Certificates 92990, 92992 & 92993 are included in T-13525, which is a permanent transfer. Upon approval of T-13525, this temporary transfer should be cancelled.

All required application documentation and fees are included in this packet. Our company has asked us to limit in-person interaction because of the ongoing COVID-19 situation, which has made it difficult to acquire original signatures. Certificate 92991 is held by the Oregon Department of State lands and as such a consent to transfer is required. There has been a delay in having the consent to transfer form signed and notarized and so it will be sent along as soon as it arrives at my office.

The per-acre fee has been calculated at the reduced rate because the application materials and data have been sent to Ann Reese in a department approved format. If you have any questions regarding this application, please contact me by phone at (509) 820-3231 or by email at nrau@agrinw.com.

Sincerely,
