SUBJECT: Water Right Transfer Application T-13534

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13534. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please contact me at scott.a.grew@oregon.gov or 503-986-0890 should you have questions.

Sincerely,

Scott Grew

9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.
11. All other application requirements are met.

If Transfer Application T-13534 is approved, the final order will include the following:

- 1. The change in place of use proposed in Transfer Application T-13534 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 24311 and any related decree.*
- 3. Water right Certificate 24311 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 4. Water use measurement conditions:*
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.*
 - b. The water user shall maintain the meters or measuring devices in good working order.*
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
- 5. The former place of use of the transferred right shall no longer receive water under the right.*
- 6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before October 1, 2022. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*

7. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*
