# Application for Water Right Temporary or Drought Temporary Transfer

Part 1 of 5 - Minimum Requirements Checklist

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

This temporary transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

#### FOR ALL TEMPORARY TRANSFER APPLICATIONS

Che	ck all item	ns included with this application. (N/A = Not Applicable)
$\boxtimes$		Part 1 – Completed Minimum Requirements Checklist.
$\boxtimes$		Part 2 – Completed Temporary Transfer Application Map Checklist.
		Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at: <a href="http://apps.wrd.state.or.us/apps/misc/wrd">http://apps.wrd.state.or.us/apps/misc/wrd</a> fee calculator. If you have questions, call Customer Service at (503) 986-0801.
$\boxtimes$		Part 4 – Completed Applicant Information and Signature.
$\boxtimes$		Part 5 – Information about Transferred Water Rights: How many water rights are to be transferred? 1 List them here: Permit G-18390
		Please include a separate Part 5 for each water right. (See instructions on page 6)
	⊠ N/A	For standard Temporary Transfer (one to five years) Begin Year: End Year:
$\boxtimes$	☐ N/A	Temporary Drought Transfer (Only in counties where the Governor has declared drought)
Atta	achments:	RECEIVED
$\boxtimes$		Completed Temporary Transfer Application Map.
$\boxtimes$		Completed Evidence of Use Affidavit and supporting documentation.  APR 2 2 2021
$\boxtimes$		Current recorded deed for the land from which the authorized place of use is temperarily being moved.
	⊠ N/A	Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.)
$\boxtimes$	□ N/A	Supplemental Form D – For water rights served by or issued in the name of a district.  Complete when the temporary transfer applicant is not the district.
$\boxtimes$	□ N/A	Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
$\boxtimes$	□ N/A	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).
		(For Staff Use Only)  WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):  Application fee not enclosed/or is insufficient Map not included or incomplete  Land Use Form not enclosed or incomplete  Additional signature(s) required Part is incomplete  Other/Explanation Staff: 503-986-0

#### Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application <u>will be returned</u> if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

	⊠ N/A	If more than three water rights are involved, separate maps are needed for each water right.
$\boxtimes$		Permanent quality printed with dark ink on good quality paper.
Ø		The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, 11 x 17 inches control of the map can be 8½ x 11 inches, 11 x 17 in
$\boxtimes$		A north arrow, a legend, and scale.
$\boxtimes$		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
$\boxtimes$		Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
$\boxtimes$		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
$\boxtimes$		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
$\boxtimes$		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	⊠ N/A	Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
$\boxtimes$		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
$\boxtimes$	□ N/A	If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5''$ ) or degrees-decimal with five or more digits after the decimal (example $-42.53764^{\circ}$ ).

#### Part 3 of 5 - Fee Worksheet

6 If no box is applicable, enter 0 on line 7» » » » » » » » » » » » 6 \$0		fish and wildlife habitat?		
		If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 »		
	- 6	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » »	6	\$0
7 Subtract line 6 from line 5 » » » » » » » » » » » Transfer Fee: 7 \$0	7	Subtract line 6 from line 5 » » » » » » » » » » » » » Transfer Fee:	7	\$0

1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	<u>0.72 (2a)</u>		
	Subtract 1.0 from the number in 2a above: <u>0 (2b)</u>		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number:(2c)		
2	and multiply 2c by \$50, then enter on line 2 » » » » » » » »	2	\$0
3	Add entries on lines 1 through 2 above » » » » » » » » » Transfer Fee:	3	\$200

<sup>\*</sup>Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

<sup>1.</sup> Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

<sup>2.</sup> If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

<sup>3.</sup> Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Explain in your own words what you propose to accomplish with this transfer application and why: Due to the drought, Permit G-18390 will be reduced. Therefore, we are requesting permission to use only as much ground water as necessary for the crops already planted. With surface water being our only permitted alternative for an irrigation water supply, when the surface water supply is reduced or not provided we cannot produce crops to pay our bills, feed our family, pay our mortgages on property and equipment, taxes, and also will not be able to satisfy product delivery required in previously executed food supply agreement. There are no surface reservoirs to obtain water from. The decision to deliver all, a portion, or no water to us is made by the Federal and State Agencies, and is out of our control.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

#### **Part 5 of 5 – Water Right Information**

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

# Water Right Permit G-18390 Description of Water Delivery System System capacity: 0.72 cubic feet per second (cfs) OR \_\_\_\_ gallons per minute (gpm) RECEIVED APR 2 2 2021 OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use.

Currently, water is applied to the NE ½ NE ½, SE ½ NE ½, and NE ½ SE ½ of Section 16 through aboveground pipe that leads to wheel lines.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Additional remarks:

#### For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: KA 1000

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip**: You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx</a>)

#### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). <u>If</u> less than full rate of water right

### Land Use Information Form

RECEIVED

APR 23 2021

#### NOTE TO APPLICANTS

OWRD

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

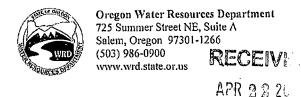

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

#### NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

### Land Use **Information Form**

#### **Supplemental Form D**

#### **OWRD**

# Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

OREGON
WATER RESOURCES

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 503-986-0900 www.oregon.gov/OWRD

[For transfers submitted under OAR Chapter 690 Division 380]

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA) or place of use (POU) served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases consent will be required from the district or water supplier.

This form must be included with any transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

#### 1. APPLICANT INFORMATION

NAME MIKE MCKOEN				рноме (нм); 541-205-1191	
PHONE (WK)	CEL	L	<u> </u>	FAX
