## Part 2 of 4 – Instream Lease Application Map Checklist

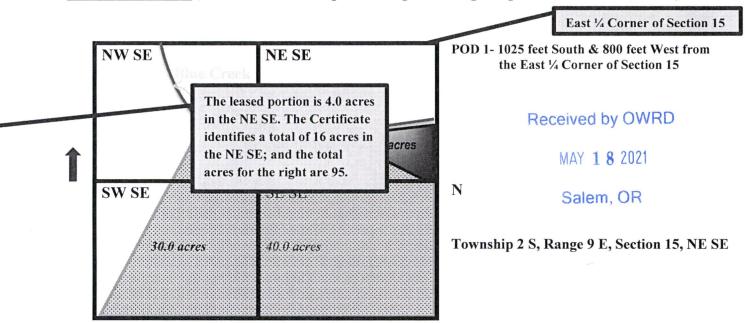

#### A Map is generally required for each water right not leased in its entirety

The application map (if required) should include all the items listed below and match the existing water right(s) of record. Check all boxes that apply.

This should be a <u>simple</u> map. (See example below). A copy of a final proof survey map with the portion to be leased shaded or hachured in will also suffice.

Attachment 4 (Standard Leasing Form). Attachment 5-D (Pooled Leasing Form).

The standard instream water right form or for pooled leases, the appropriate pooled lease forms, pursuant to ORS 537.348(2) and OAR 690-077 must also be filled out before a Split Season Use Instream Lease Application can be processed.

Note: Split season use lease applications must be submitted to the Department two weeks prior to water being used either for the existing purpose or for the proposed instream purpose. (OAR 690-077-0079)

#### 1. Existing and Instream Use Periods

For the water right being leased instream, as described in Section 1.5, include monthly or partial season rate or duty limitations, if appropriate.

This section replaces the "Total volume, Rate in cfs, and Allowed period of use" portions of Section 2.2 on the standard or pooled instream leasing forms.

Re: Measurement and Reporting for Split Season Lease

For water rights 94779, 94781 and 95217 the duty is 1.0 acre-feet per acre every 30 day period May 1-July 31, and 1 acre-foot per acre for all of August 1- September 31. For water right 95648 the duty is 1.5 acre-foot per acre for every 30-day period from May 1-July 31, and 1 acre-foot per acre for all of August 1- September 31. Because the instream period for the proposed split season lease begins on August 1 and ends on September 30, and because the irrigation duty limitation for August 1 - September 31 is independent of irrigation duty usage from May 1- July 31, the water master is not requiring measuring devices to monitor duty usage from May 1- July 31 for these water rights. Compliance with the terms of the split season lease and confirmation that no irrigation water is being applied to acres involved in the proposed split season lease from August 1- September 31 will be confirmed by regular site visits by the water master and Trout Unlimited staff.

Please let me know if you have any questions.
