

# Application for Permanent Water Right Transfer

## Part 1 of 5 – Minimum Requirements Checklist

**Oregon Water Resources Department**  
 725 Summer Street NE, Suite A  
 Salem, Oregon 97301-1266  
 (503) 986-0900  
 www.oregon.gov/OWRD

**This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.**  
 For questions, please call (503) 986-0900, and ask for Transfer Section.

**Check all items included with this application. (N/A = Not Applicable)**

RECEIVED

OWRD

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: [http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator). If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 1 List them here: 42665**  
 Please include a separate Part 5 for each water right. (See instructions on page 6)

**Attachments:**

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500’ from the surface water source and more than 1000’ upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

**(For Staff Use Only)**

**WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):**

___ Application fee not enclosed/insufficient	___ Map not included or incomplete
___ Land Use Form not enclosed or incomplete	___ Evidence of Use Form not enclosed or incomplete
___ Additional signature(s) required	___ Part ___ is incomplete

## Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see [http://apps.wrd.state.or.us/apps/wr/cwre\\_license\\_view/](http://apps.wrd.state.or.us/apps/wr/cwre_license_view/). CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 3 of 5 – Fee Worksheet

FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)			
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,360
Types of change proposed: <input checked="" type="checkbox"/> Place of Use <input checked="" type="checkbox"/> Character of Use <input checked="" type="checkbox"/> Point of Diversion/Appropriation Number of above boxes checked = <u>3</u> (2a) Subtract 1 from the number in line 2a = <u>2</u> (2b) If only one change, this will be 0		 	
2	Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » » » » »	2	\$2,180
Number of water rights included in transfer <u>1</u> (3a) Subtract 1 from the number in 3a above: <u>0</u> (3b) If only one water right this will be 0			
3	Multiply line 3b by \$610 and enter » » » » » » » » » » » » » » » » » » » » » »	3	0
Do you propose to add or change a well, or change from a surface water POD to a well? <input type="checkbox"/> No: enter 0 <input checked="" type="checkbox"/> Yes: enter \$480 for the 1 <sup>st</sup> well to be added or changed <u>\$480</u> (4a)  Do you propose to add or change additional wells? <input type="checkbox"/> No: enter 0 <input checked="" type="checkbox"/> Yes: multiply the number of additional wells by \$410 <u>\$820</u> (4b)			
4	Add line 4a to line 4b and enter » » » » » » » » » » » » » » » » » » » » » »	4	\$1,300
Do you propose to change the place of use or character of use? <input type="checkbox"/> No: enter 0 on line 5 <input checked="" type="checkbox"/> Yes: enter the cfs for the portions of the rights to be transferred (see below*): <u>0.164</u> (5a) Subtract 1.0 from the number in 5a above: <u>-0.836</u> (5b) If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » » » » » » If 5b is greater than 0, round up to the nearest whole number: _____ (5c) and multiply 5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » » » » » »			
5		5	0
6	Add entries on lines 1 through 5 above » » » » » » » » » » Subtotal:	6	\$4,840
Is this transfer: <input type="checkbox"/> necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? <input type="checkbox"/> endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat?  If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »			
7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » » » » » »	7	0
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » » » » » » » <b>Transfer Fee:</b>	8	<b>\$4,840</b>

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- For irrigation calculate cfs for each water right involved as follows:
  - Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).
  - If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

FEE WORKSHEET for SUBSTITUTION			
1	Base Fee (includes change to one well)	1	\$990.00
Number of wells included in substitution _____ (2a) Subtract 1 from the number in 2a above: _____ (2b) If only one well this will be 0			
2	Multiply line 2b by \$480 and enter » » » » » » » » » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » <b>Fee for Substitution:</b>	3	NA

BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

**Agent Information** – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME <b>Elizabeth Howard Schwabe, Williamson &amp; Wyatt</b>		PHONE NO. <b>(503) 796-2093</b>	ADDITIONAL CONTACT NO.
ADDRESS <b>1211 SW 5<sup>TH</sup> AVENUE, SUITE 1200</b>		FAX NO.	
CITY <b>PORTLAND</b>	STATE <b>OR</b>	ZIP <b>97204</b>	E-MAIL <b>ehoward@schwabe.com</b>
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this transfer application, and why:  
We are requesting authorization to transfer 13.1 acres of irrigation water rights to agriculture use for a dairy and to add up to 3 new points of appropriation.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

**Check One Box**

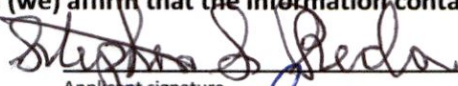

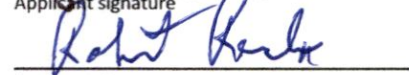

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

**By my signature below, I confirm that I understand:**

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: The Malheur Enterprise.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).

**I (we) affirm that the information contained in this application is true and accurate.**

	<b>Stephen S. Recla, Landowner</b>	<b>8-12-21</b>

13800 - 111

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located?  Yes  No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold?  Yes  No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

OWRD

**CERTIFICATE # 42665**

**Description of Water Delivery System**

System capacity: **At least 1.70 cubic feet per second (based on 0.78 cfs for Well 1 and 0.92 cfs for the Well 2 booster pump) (cfs) OR**  
 \_\_\_\_\_ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Two wells are used to appropriate groundwater to operate sprinklers and a portion of a pivot and to flood irrigate.**

**Well 1 has a 25-hp submersible pump. The well was recently tested and yielded 350 gpm (0.78 cfs).**

**Well 2 had a 15-hp centrifugal pump and a 20-hp booster pump. The online calculator available to CWREs indicates the theoretical capacity of the 15-hp pump in the well is 1.16 cfs (approximately 520 gpm), assuming an operating pressure of 20 psi and a pumping lift of 35 feet. The theoretical capacity of the 20-hp booster pump is 0.92 cfs (approximately 413 gpm), assuming an operating pressure of 60 psi.**

**There are three wheel lines that each have 33 nozzles that deliver 5 gpm/nozzle, for a total of 495 gpm (1.1 cfs). The pivot is rated for 950 gpm (2.1 cfs). The main concrete-lined ditch for flood irrigation is 46 inches wide at the top, 10.5 inches wide at the bottom and 18-inches deep. The Department’s online calculators available to CWREs indicates the ditch capacity would be 4.6 cfs, assuming a fall of 6 inches per 1,000 feet.**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

TOTAL ACRES:										13.1	TOTAL ACRES:										NA						

Additional remarks: This application is for a transfer of seasonal irrigation right to year-round agriculture use. To account for this change and to avoid enlargement we are seeking to transfer 0.164 cfs of the seasonal irrigation rate to a year round-rate of 0.11 cfs. The 0.11 rates is based on the following calculation using a year-round water use of 35,000 gallons per day:

- 1 Water use would be 35,000 gallons per day x 365 days/year = 12,775,000 gallons divided by 325,851 gallons/acre-foot = 39.2 acre-feet
- 3 39.2 acres divided by a 3 AF/acre duty described in the water right = 13.1 acres to be dried up
- 8 13.1 acres @ 1/80 cfs/acre as described in the water right = 0.164 cfs maximum rate during the irrigation season
- 0 0.164 cfs x 245 days/365 days = 0.164 cfs x 0.67123 = 0.110 cfs maximum rate for year-round use

RECEIVED

AUG 20 2021

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the “from” or the “to” lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: **Warm Springs Irrigation District water rights (Certificates 45536, 45539, 48051 and/or Permit S-18547) will be transferred off the To Lands before a final order approving this transfer is issued.**

Pursuant to ORS 540.510, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # NA;

Surface water primary Certificate # NA.

**For a change from Supplemental Irrigation Use to Primary Irrigation Use**

Identify the primary certificate to be cancelled. Certificate # NA

RECEIVED

AUG 20 2021

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: OWRD**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

**Tip:** You may search for well logs on the Department’s web page at:

[http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? --------	----	----	----------	-------	-----------------	------------	----------------	----	----------	----

\*Based on Water Well Report MALH 2821.

\*\*The Water Supply Well Reports indicate proposed Wells 3 and 4 are completed in lacustrine sediments; however, in an April 30, 2021 telephone call, Phillip Marcy of the Department indicated to Steven R. Bruce (Skookum Water Associates Inc.) that he considers it unlikely there are two aquifers in the area and the source for these wells is probably the alluvial aquifer.
