(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(5): Application fee not enclosed or incomplete Lind Use F

Part 2 of 5 - Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre license view/. CWRE stamp and signature are not required for substitutions. N/A If more than three water rights are involved, separate maps are needed for each water right. M Permanent quality printed with dark ink on good quality paper. 冈 The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required. 冈 A north arrow, a legend, and scale. 冈 The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. \boxtimes Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. 冈 Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. \square Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. 冈 Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. 冈 Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. \boxtimes Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 3 of 5 - Fee Worksheet

i ,	FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)	z³	3	
1		1	\$1,360	
	Types of change proposed:			
	Place of Use Character of Use Point of Diversion/Appropriation			
	Number of above boxes checked = 3 (2a)			
	Subtract 1 from the number in line 2a = 2 (2b) If only one change, this will be 0			
2	Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » »	2	\$2,180	
	Number of water rights included in transfer 1 (3a)			
	Subtract 1 from the number in 3a above: <u>0 (3b)</u> If only one water right this will be 0		4	
3	Multiply line 3b by \$610 and enter » » » » » » » » » » » » » » » » » » »	3	\$0	
	Do you propose to add or change a well, or change from a surface water POD to a well?			
	No: enter 0 X Yes: enter \$480 for the 1 st well to be added or changed \$480 (4a)			
	Do you propose to add or change additional wells?			
	No: enter 0 Yes: multiply the number of additional wells by \$410 \$820 (4b)			
4	Add line 4a to line 4b and enter » » » » » » » » » » » » » » » » »	4	\$1,300	
	Do you propose to change the place of use or character of use?		REC	CEIV
	No: enter 0 on line 5		250	A 60 A
	Yes: enter the cfs for the portions of the rights to be transferred (see below*):0.45 (5a)		DEC	032
	Subtract 1.0 from the number in 5a above: -0.55 (5b)			
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »		· 0	WRI
5	If 5b is greater than 0, round up to the nearest whole number: <u>0 (5c)</u> and multiply 5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » »	5	\$0	
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	-	\$4,840	
<u>~</u>	Is this transfer:	۲	γ-1,0 10	
	necessary to complete a project funded by the Oregon Watershed Enhancement Board			
	(OWEB) under ORS 541.932?			
	endorsed in writing by ODFW as a change that will result in a net benefit to fish and			
	wildlife habitat?			
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »			
7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » »	7	A	
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » » »	8	\$4,840	

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION	1 .	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
1	Base Fee (includes change to one well)	1	\$990.00
	Number of wells included in substitution (2a) Subtract 1 from the number in 2a above: (2b) If only one well this will be 0		
2	Multiply line 2b by \$480 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » Fee for Substitution:	3

Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

RECEIVED

DEC 0 3 2021

NOTE TO APPLICANTS

OWRD

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
