For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No*

* Golden Rule Farms is submitting a transfer application for Certificate 91644 at the same time as this application that will move a portion of the place of use (POU) for Certificate 91644 to a location that would overlap with the current POU for Certificate 91418 if this transfer application is not approved. Golden Rule Farms does not intend to layer any portion of water right Certificates 91418 or 91644. Golden Rule Farms' intent is that the POU for both water rights will be reconfigured and will not overlap.

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Surface water primary Certificate # _____.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

2. I attest that:

- Water was used during the previous five years on the entire place of use for Certificate # ____; OR
- My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township	Range	Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: ____ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); OR
- The water-right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.

*Enclosed is Certificate 91418, which was issued on April 25, 2016. On February 6, 2020, within five years after issuance of Certificate 91418, Transfer T-13363 was filed to change Certificate 91418. T-13363 is pending. Under ORS 540.610(2)(m), the period of time by which water must be used under Certificate 91418

to rebut the presumption of forfeiture has been tolled because T-13363 is still pending. Accordingly, water use was not required to have occurred under Certificate 91418 in the past five years therefore, the presumption of forfeiture is rebutted.
