REFERENCE: Transfer L-80

I am sorry. It is too late to reopen transfer application L-80. The file was closed and the fees were refunded over 12 years ago, in 1981. As indicated in Sam Allison's January 14, 1981 letter, activity ceased some 12 years before that, in 1968. After 24 years of inactivity, it is too late to reopen the file.

However, the irrigation district may file a new transfer application. In fact, the district is working on such a transfer application now. Just today, (March 16, 1993), I had a conversation with the Watermaster and representatives of the district about this transfer. If this diversion is not already included, it probably can be.

Sincerely,

LARRY H. NUNN
Senior Water Rights Specialist
