SUBJECT: Water Right Transfer Application T-13711

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13711. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. Mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified above.

Please contact me at scott.a.grew@oregon.gov or 503-986-0890 if I may be of assistance.

Sincerely,

Scott Grew

)	CHANGE IN PLACE OF USE

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On May 11, 2021, CROWE FARMS, LLC ATTN: STEVE CROWE filed an application for a change in place of use under Certificate 36432. The Department assigned the application number T-13711.
2. Notice of the application for transfer was published on June 1, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On February 23, 2022, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-13711 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of March 25, 2022, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
4. On March 17, 2022, the agent for the applicant requested the completion date of October 1, 2025, to allow extra time needed to drill Well 4 and make other needed changes to the irrigation system. The Department granted the longer time for completion per OAR 690-380-5140 (3).

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

5. The portion of the right to be transferred is as follows:

Certificate: 36432 in the name of JOE W. CROWE AND MARY ALICE CROWE
(perfected under Permit S-30185)
Use: IRRIGATION of 13.7 ACRES
Priority Date: JANUARY 15, 1965
Rate: 0.12 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from reservoir constructed under permit number R-4528.
Source: UNNAMED STREAM AND RESERVOIR CONSTRUCTED UNDER APPL. NO. R-40526, PERMIT NO. R-4528, a tributary of YAMHILL RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
6 S	6 W	WM	14	NW NW	58	980 FEET SOUTH AND 2840 FEET WEST FROM THE NE CORNER OF DLC 58

Authorized Place of Use:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
6 S	6 W	WM	11	SW SE	58	2.5
6 S	6 W	WM	14	NW NE	58	10.7
6 S	6 W	WM	14	NE NW	58	0.5
					Total	13.7

6. The Department received information from the applicant that describes the location of the authorized point of diversion for Certificate 36432 as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
6 S	6 W	WM	14	NW NW	58	1050 FEET SOUTH AND 3000 FEET WEST FROM THE NE CORNER OF DLC 58

7. Transfer Application T-13711 also proposes to change the place of use of the right to:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	Acres	
6 S	6 W	WM	11	SE SW	3.9	
6 S	6 W	WM	11	SW SE	9.8	
					Total	13.7

8. There is an existing water right on the proposed place of use which will become layered as a result of this transfer. The corresponding acreage of Certificate 36430 is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
6 S	6 W	WM	11	SW SE	5.0

9. The application contained a note that the applicant intended to cancel a 6.4-acre portion of Certificate 36432 but not the corresponding rate because the water right was certificated with a deficiency in rate. This action would result in enlargement of the certificated right and not consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

Transfer Review Criteria [OAR 690-380-4010(2)]

10. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
11. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-13711.
12. The proposed change would not result in enlargement of the right.
13. The proposed change would not result in injury to other water rights.
14. All other application requirements are met.

Determination and Proposed Action

The change in place of use proposed in Transfer Application T-13711 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-13711 is approved, the final order will include the following:

1. *The change in place of use proposed in Transfer Application T-13711 is approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 36432 and any related decree.*
3. *Water right Certificate 36432 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
4. *The former place of use of the transferred right shall no longer receive water under the right.*

5. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2025**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
6. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*
