# Part 2 of 4 - Groundwater Registration Modification Map Checklist

Your Groundwater Registration Modification application will be returned if any of the map requirements listed below are not met.

RECEIVED

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does <u>not</u> have to be prepared by a 2022 Certified Water Right Examiner. Check all boxes that apply.

$\boxtimes$		Permanent quality printed with dark ink on good quality paper.	OWRD
$\boxtimes$		The size of the map can be $8\frac{1}{2}$ x 11 inches, $8\frac{1}{2}$ x 14 inches, 11 x 17 inches, or up to 30 inches. For 30 x 30 inch maps, one extra copy is required.	x 30
$\boxtimes$		A north arrow, a legend, and scale.	
		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the cassessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has be approved by the Department.	
$\boxtimes$		Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public lasurvey lines.	nd
$\boxtimes$		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.	
$\boxtimes$		Major physical features including rivers and creeks showing direction of flow, lakes a reservoirs, roads and railroads.	nd
$\boxtimes$		Major water delivery system features from the point(s) of appropriation such as main pipelines, canals, and ditches.	n
$\boxtimes$		Existing place of use that includes hachuring, priority date, and use including number acres in each quarter-quarter section, government lot, or in each quarter-quarter section, government lots, or other recognized public lasurvey subdivisions. If less than the entirety of the registration is being changed, a separate hachuring is needed for the portion of the registration left unchanged.	ction as
$\boxtimes$	□ N/A	If you are proposing a modification in place of use, show the proposed place of use we hachuring including priority date and use including number of acres in each quarter-section, government lot, or in each quarter-quarter section as projected within gover lots, donation land claims, or other recognized public land survey subdivisions.	quarter
$\boxtimes$		Existing point(s) of appropriation with distance and bearing or coordinates from a recognized survey corner.	
	□ N/A	If you are proposing a modification in point(s) of appropriation, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates used, latitude-longitude coordinates may be expressed as either degrees-minutes seconds with at least one digit after the decimal (example – 42°32′15.5″) or degrees-decimal with five or more digits after the decimal (example – 42.53764°).	s-

Explain in your own word	s what yo	ou propose to acc	complish with this mod	lification; and wh	ny:			
We completed a lot line								
			d that the map submi					
of use accordingly. In the								
registration was extreme	ely inaccu	rate. The acreag	<u>e is correct, but the pl</u>	ace of use as de	<u>picted on</u>			

We completed a lot line adjustment to TL 400 that needs to be addressed by changing the place of use accordingly. In the process, we have realized that the map submitted with the original registration was extremely inaccurate. The acreage is correct, but the place of use as depicted on the map does not match up with the property as historically owned and operated as a nursery. It has also been brought to our attention by staff at the OWRD that the well believed to be our original authorized well is not in the location as shown on the original registration map. We note, however, that the surveyed coordinates for the well as given in the Groundwater Registration (i.e., S 77° 54' E, 1915.54 feet and S 15° 05' W, 209 feet from the SW corner of DLC 62) are consistent with the actual location of the original well (Well 1, MARI 3849). We believe the discrepancy between the apparent location of the registered well as shown on the map, and the actual location of that well is likely explained by the inaccuracy of the registration map. In addition to re-describing the place of use, and then changing the place of use in accordance with the recent lot line adjustment, we also wish to add an additional well.

the recent lot line adjustment, we also wish to add an additional well.
If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".
Check this box if this project is fully or partially funded by the American Recovery and Reinvestmen Act. (Federal stimulus dollars)
(Check one box)
By signing this application, I (we) understand that, upon receipt of the draft preliminary determination and prior to Department approval of the Groundwater modification, I (we) will be required to provide landownership information and evidence that I am authorized to pursue the modification as identified in OAR 690-382-0400(16)(a); OR
I (we) affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; <b>OR</b>
I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the Groundwater registration proposed for modification is appurtenant by condemnation and have attached supporting documentation.

I understand that prior to Department approval of the groundwater registration modification, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the

14004

area where the groundwater registration is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following paper: Statesman Journal. I (we) affirm that the information contained in this application is true and accurate. Applicant Signature Print Name and title if applicable Applicant Signature Is the applicant the sole owner of the land on which the Groundwater registration modification or portion thereof, is located? Yes No If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the Groundwater registration has been conveyed. Check the appropriate box, if applicable: MAY 0 9 2022 Check here if the Groundwater registration proposed for modification is or will be located OWRD within or served by an irrigation or other water district. IRRIGATION DISTRICT NAME **ADDRESS** NA CITY STATE Check here if water for the Groundwater registration is supplied under a water service agreement or other contract with a federal agency or other entity. **ENTITY NAME ADDRESS** NA ZIP CITY STATE To meet State Land Use Consistency Requirements, you must list all local governments (each county, city, municipal corporation, or tribal government) within whose jurisdiction water will be diverted, conveyed or used.

				TO	TAL AC	DEC												TO	TAL AC	PEC	20.0			

Additional remarks: An accurate map showing the place of use for GR-3914 is not available in the Department file. The presumed location of the place of use was determined, in part, by re-aligning the GR-3914 map with the existing tax lots and other surrounding water rights, Certificates 95408 and 86134, with the understanding that GR-3914 was never intended to overlap those water rights on neighboring properties.

Furthermore, our assumptions for identifying the re-described place of use are based on a review of the history of ownership of the properties historically owned and operated by the Egan family as well as the surrounding properties. This history of ownership is provided in title search report prepared by Fidelity National Title Company of Oregon. The report provides chain-of-ownership documentation for the properties known to have been historically owned and operated by the Egan family (Lots 200, 300, 400, 700, and 800 on Tax Map 06 2W 07C) and adjacent, neighboring properties (Lot 1100 on Tax Map 06 2W 07 and Lot 500 on Tax Map 06 2W 07C) presumed to have been owned by others, going back to 1950 when the groundwater use was originally registered under GR-3914. A copy of the title history report is included as an attachment to this application.

TACS

Groundwater Registration Modification – Page 6 of 8

Revised 7/1/2021

OWRD

The chain-of-ownership report shows that Lots 200, 300, 400, and 700 have been continuously owned by the Egan family from 1950 to the present time. Lot 800, in its configuration before being expanded through a lot line adjustment (as described below) was owned by the Egan family from 1950 through January 2015, when it was sold to Northwest Land Conservation Trust. Lot 800 was eventually purchased by the current owner, GP Acres LLC in March 2019. In May 2019, Lot 800 was expanded through a lot line adjustment between GP Acres LLC and Chapin Investments LLC, who owns Lot 500 (Tax Map 06 2W 07C), resulting in the current lot configuration. The original footprint of Lot 800 (i.e., before the GP Acres – Chapin lot line adjustment) remains covered by GR-3914, and this portion of the groundwater registration is to be assigned to the current owner, GP Acres LLC.

In September 2017, Lot 400 (Egan) was changed through a lot line adjustment between Egan and Chapin Investments LLC. This lot line adjustment also effected the configuration of Lot 500, owned by Chapin Investments LLC, as described below.

The adjacent property to the north of the re-described location of GR-3914, defined as lot 1100 (Tax Map 06 2W 07), has been owned from 1950 to the present time by various entities not associated with the Egan family. The current owner of Lot 1100 is Spring Lake Farm.

The adjacent property to the west and south of the re-described location of GR-3914, defined as lot 500 (Tax Map 06 2W 07C), has been owned from 1950 to the present time by various entities not associated with the Egan family. The current owner of Lot 500 is Chapin Investments LLC, which purchased the property in February 2016. In September 2017, Lot 500 was changed through a lot line adjustment between Egan and Chapin Investments LLC. This lot line adjustment also effected the configuration of Lot 400, owned by Egan, as described above.

Due to the September 2017 lot line adjustment effecting both Lots 400 (Egan) and 500 (Chapin Investments), the place of use for GR-3914 is proposed to be changed in this application to fit the new tax lot alignment. An additional transfer effecting Certificate 95408 will also be submitted to adjust the place of use owned by Chapin Investments, accordingly.

#### Groundwater Registration # GR-3914 (Certificate # GR-3552)

For a modification in place of use or character of use:

Are there other water right certificates, water use permits, or Groundwater registrations associated with the "from" or "to" lands? 

Yes No

If YES, list the other certificate, water use permit, or other Groundwater registration numbers: **NA** 

Pursuant to OAR 690-382-0200, any "layered" water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a Groundwater registration on the "to" lands must be filed separately with a Groundwater registration modification.

## For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:

$\boxtimes$	Well log(s) are attached for each well that are clearly labeled and associated with the	eper	FIVE
	corresponding well(s) in Table 1 above and on the accompanying application map.	8 88 6	JLIVLL
	(Tip: You may search for well logs on the Department's web page at:	MAY	0 9 2022
	http://apps.wrd.state.or.us/apps/gw/well_log/)		

AND/OR OWRD

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your modification application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
