Application for Permanent Water Right Transfer

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all it	ems included with this application. (N/A = Not Applicable)
\boxtimes	Part 1 – Completed Minimum Requirements Checklist.
\boxtimes	Part 2 – Completed Transfer Application Map Checklist.
	Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd fee calculator.
	Part 4 – Completed Applicant Information and Signature.
	Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 3 List them here: 30600, 29998, 33534 Please include a separate Part 5 for each water right. (See instructions on page 6) NOTE: A separate transfer application is required for each water right unless the criteria in OAR 690-380-3220 are met.
	Attachments:
\boxtimes	Completed Transfer Application Map.
	Completed Evidence of Use Affidavit and supporting documentation.
□ N/A	A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
N/.	Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
	Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
□ N/	Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.
	(For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Evidence of Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete is incomplete Staff: Staff: So3 Date: /_ /

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

		sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply.
	□ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/ . CWRE stamp and signature are not required for substitutions.
	⊠ N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes		Permanent quality printed with dark ink on good quality paper.
\boxtimes		The size of the map can be $8\% \times 11$ inches, $8\% \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
\boxtimes		Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
\boxtimes		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
\boxtimes		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	⊠ N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
\boxtimes		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	□ N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5''$) or degrees-decimal with five or more digits after the decimal (example -42.53764°).

Part 3 of 5 - Fee Worksheet

	FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)					
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,360			
	Types of change proposed:					
	☐ Place of Use ☐ Character of Use ☐ Point of Diversion/Appropriation					
	Number of above boxes checked = $\frac{1}{2a}$ Subtract 1 from the number in line 2a = $\frac{0}{2b}$ If only one change, this will be 0					
2	Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » »	2	0			
2	Number of water rights included in transfer 4 (3a)		U			
	Subtract 1 from the number in 3a above: 3 (3b) If only one water right this will be 0					
3	Multiply line 3b by \$610 and enter » » » » » » » » » » » » » » » » » » »	3	\$1,830			
	Do you propose to add or change a well, or change from a surface water POD to a well?					
	No: enter 0 Yes: enter \$480 for the 1st well to be added or changed(4a)					
	De very propose to odd ar shange additional wells?					
	Do you propose to add or change additional wells? No: enter 0 Yes: multiply the number of additional wells by \$410(4b)					
4	Add line 4a to line 4b and enter » » » » » » » » » » » » » » »	4	\$0			
_	Do you propose to change the place of use or character of use?					
	No: enter 0 on line 5		•			
	\boxtimes Yes: enter the cfs for the portions of the rights to be transferred (see below*):0.67 (5a)					
	Subtract 1.0 from the number in 5a above: 0 (5b)					
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » »					
_	If 5b is greater than 0, round up to the nearest whole number:(5c) and multiply	_				
5	5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » »	5				
6	Add entries on lines 1 through 5 above » » » » » » » » Subtotal:	6	\$3,190			
	Is this transfer: necessary to complete a project funded by the Oregon Watershed Enhancement Board					
	(OWEB) under ORS 541.932?					
	endorsed in writing by ODFW as a change that will result in a net benefit to fish and					
	wildlife habitat?					
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »					
7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » »	7	T -			
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » Transfer Fee:	8	\$3,190			

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	·	•	
,	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$990.00
	Number of wells included in substitution <u>0 (2a)</u>		
.*	Subtract 1 from the number in 2a above: 0 (2b) If only one well this will be 0		
2	Multiply line 2b by \$480 and enter » » » » » » » » » » » » » »	. 2	- \$0
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	\$0

Part 4 of 5 - Applicant Information and Signature

BY PROVIDING AN E-I	MAIL ADDRESS, CONSE	NT IS GIVEN TO RE	CEIVE ALL CORRESPONDENC	E FROM THE DEPARTMENT				
	By providing an e-mail address, consent is given to receive all correspondence from the Department electronically. Copies of the Final Order documents will also be mailed.							

Explain in your own words what you propose to accomplish with this transfer application, and why:

The point of appropriation, POA4, shown on the application map is currently being used to irrigate the lands associated with certificates 30600, 29998, and 33534 so it is requested that the point of appropriation, POA1, POA2, and POA3, be moved to POA4 based on use.

Check One Box

\boxtimes	By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to
	Department approval of the transfer, I will be required to provide landownership information and evidence that I an
	authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
	I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the
	municipality or a predecessor; OR
	I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the
	property to which the water right proposed for transfer is appurtenant and have supporting documentation.

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: The Stayton Mail.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.

 Failure to complete an approved water right (OAR 690-380-6010). 		d/or change in character	of use, will result in loss of the

Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 30600

Description of Water Delivery System

System capacity: 0.67 cubic feet per second (cfs) OR

300 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The well located at POA4 shown on the attached map is being used to irrigate the lands associated with certificates 29998, 30600, and 33534 using underground pipelines to transfer water to sprinkler and drip tube irrigation systems for the crops grown.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L)	Twp	Rng	Sec	1/4 1/4	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

Fc	or Place of Use or Character of Use Changes
	Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \square Yes \boxtimes No
	If YES, list the certificate, water use permit, or ground water registration numbers: N/A.
	Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.
Fc	or Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)
	Ground water supplemental Permit or Certificate # <u>N/A;</u> Surface water primary Certificate # <u>N/A.</u>
Fc	or a change from Supplemental Irrigation Use to Primary Irrigation Use
	Identify the primary certificate to be cancelled. Certificate # N/A
Fc	or a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx
	AND/OR
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For <i>proposed wells not yet constructed or built</i> , provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.
ny	e 3. Construction of Point(s) of Appropriation well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the ompanying application map. Failure to provide the information will delay the processing of your transfer discation until it is received. The information is necessary for the department to assess whether the proposed

Tak

Ar ac application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

CERTIFICATE # 33534

Description of Water Delivery System

System capacity: 0.67 cubic feet per second (cfs) OR

300 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The well located at POA4 shown on the attached map is being used to irrigate the lands associated with certificates 29998, 30600, and 33534 using underground pipelines to transfer water to sprinkler and drip tube irrigation systems for the crops grown.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

STATE OF OREGON

COUNTY OF LIM

CERTIFICATE OF WATER RIGHT

This Is to Certify, That DE WITT THER

of Houte 1, Box 24, Stayton , State of Oregon , has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of a well

a tributary of Willamotte River

for the purpose of

irrigation of 11.2 acres

under Permit No. G-11.34 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from September 1, 1959,

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed

0.11 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NN SE 4, Section 15, T. 9 S., R. 1 W., W.M. Well located 230 feet South and 710 feet East from center, Section 15.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $2\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall

conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

11.2 acres NN SE Section 15
T. 9 S., R. 1 W., W. K.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

this date. FEBRUARY 8 1963
