Hi Gerry,

There may not have been a RR issued. I presume you have looked in the transfer and water right permit files.

We could probably issue a RR at this date (we have certainly issued overlooked RR certs before). To help Jonnine, I am attaching a copy of the RR cert template the transfer caseworkers use.

Kelly,

Jonnine has been working on the issuance of the confirming certificate for T-5531. In the process of my peer review, I was unable to locate a remining right for the portion of Certificate 50506 not modified by the transfer:

I'm writing in regards to our conversation on 3/9/90. The property was watered with wheel line in 1985 with a gearhead and diesel motor. There was a crop of rye under the system which was baled for hay. We had pump and motor problems which have been resolved. The property was irrigated this last summer of 1990.

Also enclosed is the water well report we talked about.
