Application for Permanent Water Right Transfer

Part 1 of 5 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

| | Staff: | |

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

| | sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply. |
|-------|---|
| □ N/A | Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/ . CWRE stamp and signature are not required for substitutions. |
| N/A | If more than three water rights are involved, separate maps are needed for each water right |
| | Permanent quality printed with dark ink on good quality paper. |
| | The size of the map can be $8\% \times 11$ inches, $8\% \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required. |
| | A north arrow, a legend, and scale. |
| | The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. |
| | Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. |
| | Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. |
| | Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. |
| | Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. |
| | Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. |
| □ N/A | Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. |
| | Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. |
| | If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5''$) or degrees-decimal with five or more digits after the decimal (example -42.53764°). |

Part 3 of 5 - Fee Worksheet

| | FEE WORKSHEET for PERMANENT TRANSFER (except Substitution) | | | | | | | | |
|---|--|---|---------|--|--|--|--|--|--|
| 1 | Base Fee (includes one type of change to one water right for up to 1 cfs) | 1 | \$1,360 | | | | | | |
| | Types of change proposed: | | | | | | | | |
| | ☐ Place of Use ☐ Character of Use ☐ Point of Diversion/Appropriation | | | | | | | | |
| | Number of above boxes checked = $\frac{2(2a)}{a}$ | | | | | | | | |
| | Subtract 1 from the number in line $2a = \frac{1(2b)}{1}$ If only one change, this will be 0 | | | | | | | | |
| 2 | Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » » | 2 | \$1,090 | | | | | | |
| 9 | Number of water rights included in transfer <u>6 (3a)</u> | | | | | | | | |
| , | Subtract 1 from the number in 3a above: <u>5 (3b)</u> If only one water right this will be 0 | | | | | | | | |
| 3 | Multiply line 3b by \$610 and enter » » » » » » » » » » » » » » » » » » » | 3 | \$3,050 | | | | | | |
| | Do you propose to add or change a well, or change from a surface water POD to a well? | | | | | | | | |
| | \boxtimes No: enter 0 \square Yes: enter \$480 for the 1 st well to be added or changed <u>0 (4a)</u> | | | | | | | | |
| | Do you propose to add or change additional wells? | | | | | | | | |
| | No: enter 0 Yes: multiply the number of additional wells by \$410 <u>0 (4b)</u> | | | | | | | | |
| 4 | Add line 4a to line 4b and enter » » » » » » » » » » » » » » » » | 4 | \$0 | | | | | | |
| | Do you propose to change the place of use or character of use? | | | | | | | | |
| | No: enter 0 on line 5 | | | | | | | | |
| | \boxtimes Yes: enter the cfs for the portions of the rights to be transferred (see below*):6.4 (5a) | | | | | | | | |
| | Subtract 1.0 from the number in 5a above: $5.4 (5b)$ | | | | | | | | |
| | If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » | | | | | | | | |
| _ | If 5b is greater than 0, round up to the nearest whole number: 6 (5c) and multiply | | | | | | | | |
| 5 | 5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » » | 5 | \$2,460 | | | | | | |
| 6 | Add entries on lines 1 through 5 above » » » » » » » » » Subtotal: | 6 | \$7,960 | | | | | | |
| | Is this transfer: | | | | | | | | |
| | necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? | | | | | | | | |
| | endorsed in writing by ODFW as a change that will result in a net benefit to fish and | | | | | | | | |
| | wildlife habitat? | | | | | | | | |
| | If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 » | | | | | | | | |
| 7 | If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » » | 7 | \$3,980 | | | | | | |
| 8 | Subtract line 7 from line 6 » » » » » » » » » » » » » » » » Transfer Fee: | 8 | \$3,980 | | | | | | |

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs \div 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

| | FEE WORKSHEET for SUBSTITUTION | | | | | | | | |
|---|--|---|----------|--|--|--|--|--|--|
| 1 | Base Fee (includes change to one well) | 1 | \$990.00 | | | | | | |
| | Number of wells included in substitution | | · | | | | | | |
| | Subtract 1 from the number in 2a above: (2b) If only one well this will be 0 | | | | | | | | |
| 2 | Multiply line 2b by \$480 and enter » » » » » » » » » » » » » » | 2 | 0 | | | | | | |
| 3 | Add entries on lines 1 through 2 above » » » » Fee for Substitution: | 3 | 0 | | | | | | |

Explain in your own words what you propose to accomplish with this transfer application, and why: The transfer will consolidted water rights to allow for system upgrades and improved irrigation efficiency. It will also allow restoration work to be conducted on the Crooked River by moving water rights away from the river onto unirrigated fields.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

| | | _ | | _ |

| \bowtie | By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to |
|-----------|---|
| | Department approval of the transfer, I will be required to provide landownership information and evidence that I am |
| | authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR |
| | I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the |
| | municipality or a predecessor; OR |
| | I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the |
| | property to which the water right proposed for transfer is appurtenant and have supporting documentation. |

APR 0 3 2023 OWRD

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: ___
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536,050.

Part 5 of 5 – Water Right Information

OWRD

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 72947

Description of Water Delivery System

System capacity: <u>0.645+</u> cubic feet per second (cfs) **OR**_____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The water is deliveried by McAllister Slough to the Low Line Ditch where it can either be applied by flood or by a pump in McAllister Slough through above ground aluminum mainlines and applied with wheellines and handlines.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Revised 7/7/2022

Permanent Transfer Application Form – Page 9 of 10

TACS

For Place of Use or Character of Use Changes

| | Are there other water right certificates, water use permits or ground water regwith the "from" or the "to" lands? \boxtimes Yes \square No | gistrations associated |
|---|---|--|
| | If YES, list the certificate, water use permit, or ground water registration number | pers: 72948,83858,. |
| > | Pursuant to ORS 540.510, any "layered" water use such as an irrigation right the a primary right proposed for transfer must be included in the transfer or be cato a ground water registration must be filed separately in a ground water regis | incelled. Any change |
| F | For Substitution (ground water supplemental irrigation will be substituted for su | rface water primary irrigation) |
| | Ground water supplemental Permit or Certificate #; Surface water primary Certificate # | RECEIVED |
| F | For a change from Supplemental Irrigation Use to Primary Irrigation Use | APR 0 3 2023 |
| | Identify the primary certificate to be cancelled. Certificate # | OWRD |
| F | For a change in point(s) of appropriation (well(s)) or additional point(s) of appr | opriation: |
| | Well log(s) are attached for each authorized and proposed well(s) that are with the corresponding well(s) in Table 1 above and on the accompanying Tip : You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx | e clearly labeled and associated gapplication map. |
| | AND/OR | |
| | Describe the construction of the authorized and proposed well(s) in Table have a well log. For proposed wells not yet constructed or built, provide "a requested information element in the table. The Department recommend driller, geologist, or certified water right examiner to assist with assembling complete Table 3. | best estimate" for each |
| h | le 3 Construction of Boint/s) of Annuariation | |

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Revised 7/7/2022

Permanent Transfer Application Form – Page 10 of 11

TACS

For Place of Use or Character of Use Changes Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? X Yes \tag No If YES, list the certificate, water use permit, or ground water registration numbers: 72947. Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application. For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) Ground water supplemental Permit or Certificate # _____; Surface water primary Certificate # _____. For a change from Supplemental Irrigation Use to Primary Irrigation Use Identify the primary certificate to be cancelled. Certificate # _____ For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well log/Default.aspx AND/OR Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each

Table 3. Construction of Point(s) of Appropriation

complete Table 3.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 83858 Description of Water Delivery System System capacity: 1.24 cubic feet per second (cfs) OR APR 0 3 2023 _____ gallons per minute (gpm) OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The water is deliveried by McAllister Slough to the Low Line Ditch where it can either be applied by flood or by a pump in McAllister Slough through above ground aluminum mainlines and applied with wheellines and handlines.

APR 0 3 2023

OWRD

APR 0 3 2023

Certificate # 90397

For Place of Use or Character of Use Changes

OWRD

| Are there other water right certificates, water use permits or ground water registrations associate |
|---|
| with the "from" or the "to" lands? 🛛 Yes 🗌 No |

If YES, list the certificate, water use permit, or ground water registration numbers: 94971.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

| to a ground water registration must be filed separately in a ground water registration modification application |
|--|
| For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) |
| Ground water supplemental Permit or Certificate #; Surface water primary Certificate # |
| For a change from Supplemental Irrigation Use to Primary Irrigation Use |
| Identify the primary certificate to be cancelled. Certificate # |
| For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: |
| Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx |
| AND COD |

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

| Proposed or Authorized POA Name or Number | Is well already built? (Yes or No) | If an existing well: OWRD Well ID Tag No. L | Total well depth | Casing Diameter | Casing Intervals (feet) | Seal depth(s) (intervals) | Perforated or screened intervals (in feet) | Static water level of completed well (in feet) | Source aquifer (sand, gravel, basalt, etc.) | Well-specific rate (cfs or gpm). Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 94170

Description of Water Delivery System System capacity: 2.935 cubic feet per second (cfs) OR _____ gallons per minute (gpm) Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to

divert, convey, and apply the water at the authorized place of use.

A combination of flood and pressurized sprinklers are used to apply the water. For pumping, either a portable pump or a 3-phase pump is used to pump water into above ground aluminum mainline which is then applied with wheellines and handlines typically using 5/32 nozzles. Flood irrigation is done by directing water out of McCallister Slough and distributing it through canals.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) Ground water supplemental Permit or Certificate # _____; RECEIVED Surface water primary Certificate # _____. APR 0 3 2023 For a change from Supplemental Irrigation Use to Primary Irrigation Use Identify the primary certificate to be cancelled. Certificate # _____ OWRD For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

CERTIFICATE # 94171 Description of Water Delivery System System capacity: 1.3 cubic feet per second (cfs) OR gallons per minute (gpm) May 6, 2025 OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. A combination of flood and pressurized sprinklers are used to apply the water. For pumping, either a portable pump or a 3-phase pump is used to pump water into above ground aluminum mainline which is then applied with wheellines and handlines typically using 5/32 nozzles. Flood irrigation is done by directing water out of McCallister Slough and distributing it through canals.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Permanent Transfer Application Form – Page 10 of 11

TACS

APR 0 3 2023

OWRD

For Place of Use or Character of Use Changes Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ✓ Yes No If YES, list the certificate, water use permit, or ground water registration numbers:94170. Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application. For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation) Ground water supplemental Permit or Certificate # _____; Surface water primary Certificate # _____. RECEIVED For a change from Supplemental Irrigation Use to Primary Irrigation Use APR 0 3 2023 Identify the primary certificate to be cancelled. Certificate #_____ OWRD For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx AND/OR Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each

Table 3. Construction of Point(s) of Appropriation

complete Table 3.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to

| Proposed or Authorized POA Name or Number | Is well already built? RECEIVED

Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.
