

Application for Permanent Water Right Transfer

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.
For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all items included with this application. (N/A = Not Applicable)

RECEIVED

APR 27 2023

OWRD

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? Four** List them here: **88208, 67246, 91444, and 95946**
Please include a separate Part 5 for each water right. (See instructions on page 6)
NOTE: A separate transfer application is required for each water right unless the criteria in OAR 690-380-3220 are met.

RECEIVED

Attachments:

OWRD

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500’ from the surface water source and more than 1000’ upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

Part 2 of 5 – Transfer Application Map

OWRD

OWRD

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 4 of 5 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME Skye and Penny Krebs		PHONE NO. 541 422 7558	ADDITIONAL CONTACT NO.
ADDRESS 73654 Hwy 74			FAX NO.
CITY Ione	STATE OR	ZIP 97843	E-MAIL skyekrebs@yahoo.com
<p>BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.</p>			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Dale VanSchoiack		PHONE NO. 509 627 8717	ADDITIONAL CONTACT NO.

Explain in your own words what you propose to accomplish with this transfer application, and why:
We are combining water rights to be able to locate them in a manner that will allow them to be used with circular irrigation machines.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: **East Oregonian**.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error of the Department.

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No*

**If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: https://www.oregon.gov/owrd/WRDFormsPDF/Transfer_Property_Transactions.pdf

Description of Water Delivery System

JUN 02 2023

APR 27 2023

System capacity: **0.34** cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

OWRD

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use.

Irrigation water is pumped from Willow Creek with a 7.5 horsepower electrical pump. The water is used to irrigate two fields. The southerly field is the smaller of the two in is somewhat irregular in shape. The northerly field is the larger of the two and is generally rectangular in shape.

The pump discharges into a buried 4" PVC pipeline that extends 160 feet +/- in a northwesterly direction across the northerly end of the smaller field to the northwesterly edge of the field. The northwesterly edge of the farm field is the southeasterly edge of the yard around the farmhouse. At this point there is a 90 degree bend to the southwest and the pipeline continues for 70 feet +/- and then bends the northwest and continues another 70 feet +/- . There are riser valves along the above described pipeline. A combination of a 480 foot +/- wheel line and portable hand lines are used to irrigate the southerly field.

There is a tee pipe fitting in the buried pump discharge line. It is located 60 feet +/- from the pump. The branch of the tee is oriented to extend in a northeasterly direction. A 170 foot +/- 4" buried PVC pipeline connects to the tee. The end of the 170 foot +/- pipe line connects to a 600" +/- pipeline that extends in a northwesterly direction along the southerly end of the larger field. This pipeline serves as the main line for the larger field. There are riser valves along this mainline. The majority of this field is irrigated with a ¼ mile wheel line. The southeasterly corner of this field is irrigated with portable hand lines.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Description of Water Delivery System

System capacity: **6.68 cfs (PTO driven pump)** cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use.

Water is diverted out of the Willow Creek at various points along the fields using a portable pump. The pump is a Dyna Flo Pump driven by a tractor PTO. It has a capacity of 3000 gpm (6.68 cfs). The pump discharges into a network of small canals that are used to distribute the water to locations where it is released to flood irrigate the property.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well rate (gpm) than 1 of wa

CERTIFICATE # 95946

RECEIVED

Description of Water Delivery System

JUN 02 2023

System capacity: 0.99 cubic feet per second (cfs) OR _____ gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use.

Irrigation water is pumped from Willow Creek with a 15.0 horsepower electrical pump. The pump discharges into a buried pipe distribution system that extends in both a northwesterly direction and a southeasterly direction. Two half circle circular irrigation machines connect to the buried distribution system. The southerly most half circle is used to irrigate ground authorized under Certificate 95946 that is part of this transfer.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Table with 9 columns: POD/POA Name or Number, Is this POD/POA Authorized on the Certificate or is it Proposed?, If POA, OWRD Well Log ID# (or Well ID Tag # L-___), Twp, Rng, Sec, 1/4 1/4, Tax Lot, DLC or Gov't Lot, Measured Distances (from a recognized survey corner). Row 1: POD 1, Authorized, 3 N 22 E 36 SW SW, 430' N & 130' E from the SW Cor of Sec 36.

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU) [checked]
Character of Use (USE) []
Point of Diversion (POD) []
Additional Point of Diversion (APOD) []
Surface Water POD to Ground Water POA (SW/GW) []
Supplemental Use to Primary Use (S to P) []
Point of Appropriation/Well (POA) []
Additional Point of Appropriation (APOA) []
Substitution (SUB) []
Government Action POD (GOV) []

Will all of the proposed changes affect the entire water right? *

- Yes Complete only the Proposed ("to" or "on" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the water right to be changed.

CERTIFICATE # 67246

RECEIVED

Description of Water Delivery System

JUN 02 2023

System capacity: **0.95** cubic feet per second (cfs) **OR**
 _____ gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use.

Irrigation water is diverted from Willow Creek into the Wilfred Cecil Ditch and the John Ruedy Ditch No. 2 from a point in the SE1/4 of the NE1/4 of Section 1, T2N, R22E, W.M. The ditch flows north 330 feet ± and then bends to the northwest and more or less parallels Highway 74 for 1970 feet ±. From this point it bends around some farmstead buildings for 810 feet ± where it continues paralleling Highway 74 for an additional 730 feet ±. Water is diverted out of the ditch and flooded across the fields to irrigate the ground. In instances where the water will not gravity flow from the ditch the water user uses a PTO driven pump to pump the water from the ditch onto the farmland. The pump is a Dyna Flo Pump driven by a tractor PTO. It has a capacity of 3000 gpm (6.68 cfs).

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: **Not Applicable**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate #; **Not Applicable**
Surface water primary Certificate #. **Not Applicable**

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

NA Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

NA Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L-_____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). If less than full rate of water right

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

RE: Skye and Penny Krebs Transfer Application

Dear Mr. Luongo

I am assisting Skye and Penny Krebs with their water right transfer application that includes a portion of Certificate 91444. This letter is in response to your May 2, 2023 letter to them.

With this letter an updated transfer application is being submitted. The application documents are the original documents with updated evidence of use images for Certificate 91444. In this submittal there are three colored images in support of Evidence of use for Certificate 91444. Two of the images are the same images that were included with the original transfer application. The labels on the images have been updated to include a designation of Photo 1 or Photo 2. The third image is a colored google image that covers the area of Certificate 91444, the SWNW and the SENW of Section 26, T3N R22E W.M. On this image there are tacks identifying the locations where Photo 1 and Photo 2 were taken. In the background of Photo 1 and Photo 2 you can see a bridge structure. This is the Rhea Lane bridge that crosses Willow Creek. Although the bridge is not labelled on the google image, Rhea Lane is. Using the bridge as a reference you can determine where Photos 1 and 2 were taken and the direction of the photos. Hopefully this addresses the issues you identified in your letter.

The owner's son, Kip Krebs, has numerous pictures showing water being diverted from Willow Creek for irrigation of the land authorized under Certificate 91444. The water is routed down historical channels and allowed to flood irrigate the ground. Sheep are then grazed on the ground.

Kip Krebs has informed me he has coordinated his efforts of diverting water for flood irrigation with the watermaster, Ken Thiemann. He suggested if you need any additional confirmation on the use of water from Willow Creek for irrigation under C 91444, please confer with Ken Thiemann. Ken's phone number is 1 541 969 8799.

Sincerely,

Dale VanSchoiack
