# Part 2 of 5 - Temporary Transfer Application Map Checklist

Your temporary transfer application <u>will be returned</u> if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A If more than three water rights are involved, separate maps are needed for each water right. Received by OWRD  $\boxtimes$ Permanent quality printed with dark ink on good quality paper. X The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or 10 30 30 inches. For 30 x 30 inch maps, one extra copy is required. Salem, OR  $\boxtimes$ A north arrow, a legend, and scale. 冈 The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.  $\boxtimes$ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. 冈 Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.  $\boxtimes$ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.  $\boxtimes$ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.  $\boxtimes$ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.  $\boxtimes$ □ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. X Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. П ⊠ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example - 42.53764°).

#### Part 3 of 5 - Fee Worksheet

		425

Base Fee (includes temporary change to one water right for up to 1 cfs) Salem		_
Number of water rights included in transfer: 3 (2a)		
Subtract 1 from the number in 3a above: 2 (2b) If only one water right this will be 0		dentreverent de des
2 Multiply line 2b by \$310.00 and enter » » » » » » » » » » » » »	2	620
Do you propose to change the place of use for a non-irrigation use?		
No: enter 0 on line 3 » » » » » » » » » » » » » » » » » »		
☐ Yes: enter the cfs for the portions of the rights to be transferred:(3a)		
Subtract 1.0 from the number in 3a above:(3b)		
If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » »		
If 3b is greater than 0, round up to the nearest whole number:(3c) and		
3 multiply 4c by \$210.00, then enter on line 3	3	
Do you propose to change the place of use for an irrigation use?		
☐ No: enter 0 on line 4 » » » » » » » » » » » » » » » » » »		
☑ Yes: enter the number of acres in the footprint of the place of use for the		
portions of the rights to be transferred: 35.0 (4a)		
4 Multiply the number of acres in 4a above by \$2.70 and enter on line 4 » »	4	94.50
5 Add entries on lines 1 through 4 above » » » » » » » » » » Subtotal:	5	1,664.50
Is this transfer:		· · · · · · · · · · · · · · · · · · ·
necessary to complete a project funded by the Oregon Watershed		
Enhancement Board (OWEB) under ORS 541.932?		
endorsed in writing by ODFW as a change that will result in a net benefit to		
fish and wildlife habitat?		
If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 »		
6 If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	6	0
7 Subtract line 6 from line 5 » » » » » » » » » » » » » Transfer Fee:	7	\$1,664.50

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS		
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	(2a)		
	Subtract 1.0 from the number in 2a above: (2b)		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number:(2c) and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » » » » Transfer Fee:	3	

<sup>\*</sup>Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

<sup>1.</sup> Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

<sup>2.</sup> If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

<sup>3.</sup> Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

# Part 4 of 5 - Applicant Information and Signature

#### **Applicant Information**

APPLICANT/BUSINESS NAME			PHONE NO.	ADDITIONAL CONTACT NO.

#### For Place of Use Changes

	there other water right certificates, water use permits or ground water registrations ciated with the "from" or the "to" lands? $oxtimes$ Yes $oxtimes$ No
If YE	S, list the certificate, water use permit, or ground water registration numbers: <b>Cert. 40110</b>
sup or re eno	suant to ORS 540.525, any "layered" water use such as an irrigation right that is oblemental to a primary right proposed for temporary transfer can be included in the transfer emain unused on the authorized place of use. If the primary water right does not revert soor ugh to allow use of the supplemental right within five years, the supplemental right shall ome subject to cancellation for nonuse under ORS 540.610.
	ange in point(s) of appropriation (well(s)) or additional point(s) of appropriation is sary to convey the water to the new temporary place of use you must provide:
	Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. ( <b>Tip</b> : You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx</a> )
AND	p/or
	Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

# Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

#### For Place of Use Changes

	The there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? $\boxtimes$ Yes $\square$ No						
	YES, list the certificate, water use permit, or ground water registration numbers: Cert. 30631						
	uant to ORS 540.525, any "layered" water use such as an irrigation right that is plemental to a primary right proposed for temporary transfer can be included in the transfer emain unused on the authorized place of use. If the primary water right does not revert soon ugh to allow use of the supplemental right within five years, the supplemental right shall ome subject to cancellation for nonuse under ORS 540.610.						
	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is essary to convey the water to the new temporary place of use you must provide:						
	Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx</a> )						
	ND/OR						
<b>Recei</b> ved t	DW/Describe the construction of the authorized and proposed well(s) in Table 3 below for any						
MAR 0	well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The						
Sair	Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.						

### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (Intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
