

# Application for Permit Amendment

## Part 1 of 5 – Minimum Requirements Checklist

Oregon Water Resources Department  
 725 Summer Street NE, Suite A  
 Salem, Oregon 97301-1266  
 (503) 986-0900  
 www.oregon.gov/OWRD

**This permit amendment application will be returned if Parts 1 through 5 and all required attachments are not completed and included.**  
 For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED  
 JUL 13 2023  
 OWRD  
 SALEM, OREGON

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at:  
[http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator).
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Permits to be Amended: **Number of permits to be amended: 1**  
**List the Permits here: G-8579**  
 Please include a separate Part 5 for each permit. (See instructions on page 6)
- Completed Permit Amendment Application Map (Does not have to be prepared by a Certified Water Right Examiner).
- N/A Request for Assignment Form and statutory fee. The request for assignment form has to be completed if the applicant is **not** the permit holder of record and needs to be assigned to the permit; **or** the landowner of the proposed place of use is **not** the permit holder of record and needs to be assigned to the permit (the Request for Assignment Form is available online at <https://www.oregon.gov/OWRD/Forms/Pages/default.aspx>). Assignment is not needed if the applicant is the permit holder of record.
- N/A Affidavit(s) of Consent are required from all permit holder(s) of record if the permit is not assigned to the applicant **or** other permit holders of record that are not listed as applicants.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500 feet from the surface water source and more than 1000 feet upstream or downstream from the point of diversion. (ORS 540.531(2) or (3)).

(For Staff Use Only)

**WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):**

<input type="checkbox"/> Application fee not enclosed/insufficient	<input type="checkbox"/> Map not included or incomplete
<input type="checkbox"/> Land Use Form not enclosed or incomplete	<input type="checkbox"/> Part _____ is incomplete
<input type="checkbox"/> Additional signature(s) required	
Other/Explanation _____	
Staff: _____ 503- _____ Date: ____/____/____	

**Your permit amendment application will be returned if any of the map requirements listed below are not met.**

**Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.**

**RECEIVED**  
**JUL 13 2023**  
**OWRD**  
**SALEM, OREGON**

- N/A If more than three permits are involved, separate maps for each permit.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.
- N/A If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

**Applicant Information**

APPLICANT/BUSINESS NAME City of Monmouth		PHONE NO. 503-838-0722	ADDITIONAL CONTACT NO.
ADDRESS 151 Main Street W		FAX NO.	
CITY Monmouth	STATE OR	ZIP 97361	E-MAIL
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

**Agent Information** – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME 4B Engineering & Consulting, LLC		PHONE NO. 503-580-8152	ADDITIONAL CONTACT NO.
ADDRESS 4454 71st Ave SE		FAX NO.	
CITY Salem	STATE OR	ZIP 97317	E-MAIL brooke.4b@outlook.com
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this permit amendment; and why:  
 The original permit was amended in 2017 to add the correct location of Marion County #2 (MC 2) to the existing POA Marion County #1 (MC 1). This application for permit amendment is to add the new Marion County Well #1A (MC 1A) which was drilled in 2023 and Marion County Well #1B (MC 1B) which will be drilled late 2023 to early 2024.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Is the applicant the permit holder of record?  Yes  No

If NO, include either:

- A completed assignment form (with required statutory assignment fee), assigning all or a portion of the permit to the applicant(s), OR
- An affidavit of consent from the permit holder(s) of record that gives permission for the applicant to amend the permit.

Has the Completion ("C") Date of the permit(s) in this application expired?  Yes  No

If YES, this application will not be accepted by the Department.

If NO, what are the completion dates of the permit(s)? \_\_\_\_\_

- If the permit completion date expires while the Permit Amendment Application is pending, the Department will not approve the Permit Amendment Application until an Extension of Time Application is approved for the permit.
- You may consider using the Reimbursement Authority process to expedite the processing of this Permit Amendment Application if the completion date of the permit expires within 6 months of the date of filing this application.

By my signature below, I confirm that I understand:

- Prior to Department approval of the permit amendment, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the permit is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Itemizer Observer

I (we) affirm that the information contained in this application is true and accurate.

## INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

### Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;

**OR**

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;

**OR**

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

### Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**

- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

### Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "**Allow only this type of editing in the document: Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

### Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

RECEIVED

JUL 13 2023

OWRD  
SALEM, OREGON

Please use a separate Part 5 for each permit being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

**PERMIT # G-8579**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**

(Note: If the POD/POA name is not specified in the permit, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized by the permit or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-_____)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Existing MC 1	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed		8	S	4	W	28	NE	SE		482' west and 2,114' north of the SE corner of T8S, R4W, Sec 28
Existing MC 2	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed	L-68858	8	S	4	W	28	SE	SE		467' west and 1,139' north of the SE corner of T8S, R4W, Sec 28
New MC 1A	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed	L-143506	8	S	4	W	28	NE	SE		503' west and 2,254' north of the SE corner of T8S, R4W, Sec 28
New MC1B	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed		8	S	4	W	28	NE	SE		480' west and 2,138' north of the SE corner of T8S, R4W, Sec 28

**Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):**

- |   |  |
|---|--|
| <input type="checkbox"/> Place of Use (POU)                   | <input checked="" type="checkbox"/> Point of Appropriation/Well (POA)  |
| <input type="checkbox"/> Point of Diversion (POD)             | <input type="checkbox"/> Additional Point of Appropriation (APOA)      |
| <input type="checkbox"/> Additional Point of Diversion (APOD) | <input type="checkbox"/> Surface water POD to Ground Water POA (SW/GW) |

**Will all of the proposed changes affect the entire water use permit?**

- Yes Complete only the proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the permit to be changed.

**For a change in place of use:**

**Does the permit holder of record own or control the land TO which the place of use is being moved?**

- Yes  No

If NO, the landowner of the land TO which the place of use is being moved must be assigned to the permit as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

**Is the proposed place of use contiguous to the authorized place of use?**  Yes  No

**RECEIVED**

**JUL 13 2023**

OWRD  
SARAH PETERSON

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use **unless** the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

**RECEIVED**  
**JUL 13 2023**  
**OWRD**  
**SALEM, OREGON**

Please use and attach additional pages of Table 2 as needed.  
See page 6 for instructions.

Do you have questions about how to fill-out the tables?  
Contact the Department at 503-986-0900 and ask for Transfer

**Table 2. Description of Changes to Water Use Permit # G-8579**

List the change proposed for the acreage in each ¼ ¼. If more than one change is proposed, specify the acreage associated with each change.  
If there is more than one POD/POA involved in the proposed changes, specify the acreage associated with each POD/POA.

AUTHORIZED (the "from" or "off" lands) The listing that appears on the certificate BEFORE PROPOSED CHANGES List only that part or portion of the water right that will be changed.										Proposed Changes (see "CODES" from previous page)	PROPOSED (the "to" or "on" lands) The listing as it would appear AFTER PROPOSED CHANGES are made.

Additional remarks: \* Water will be used within the Urban Growth Boundaries of the City of Monmouth.

**RECEIVED**  
**JUL 13 2023**  
**OWRD**  
**SALEM, OREGON**

Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands?  Yes  No

If YES, list the other certificate, permit, or ground water registration numbers: \_\_\_\_\_

If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-_____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
Existing MC 1	Yes		46'	12"	+2'-32'-6"	14'-21'	32'-6"-43'	23'	Sand and gravel	725 gpm
Existing MC 2	Yes	L-68858	46'	12"	0'-46'	0'-25'	31'-41'	12.34'	Sand and gravel	600+ gpm
New MC 1A	Yes	L-143506	56'	12"	+6'-32'	0'-30'	32'-47'	21.6'	Gravel	1,284 gpm
New MC 1B	No	N/A	Plan: 56'	Plan: 12"	Plan: +6'-32'	Plan: 0'-30'	Plan: 32'-47'	N/A	N/A	600+ gpm

14<sup>th</sup> day of August, 1978, at 8:00 o'clock  
A.M.

Application No. G-8926

Permit No. G 8579

# Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells.

The use to which this water is to be applied is municipal.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 14, 1978

Actual construction work shall begin on or before June 20, 1980 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Extended to Oct. 1985 Extended to October 1, 1990, 10-1-95, 10-1-2000

Complete application of the water to the proposed use shall be made on or before October 1, 1981

Extended to Oct. 1985 Extended to October 1, 1990, 10-1-95, 10-1-2000

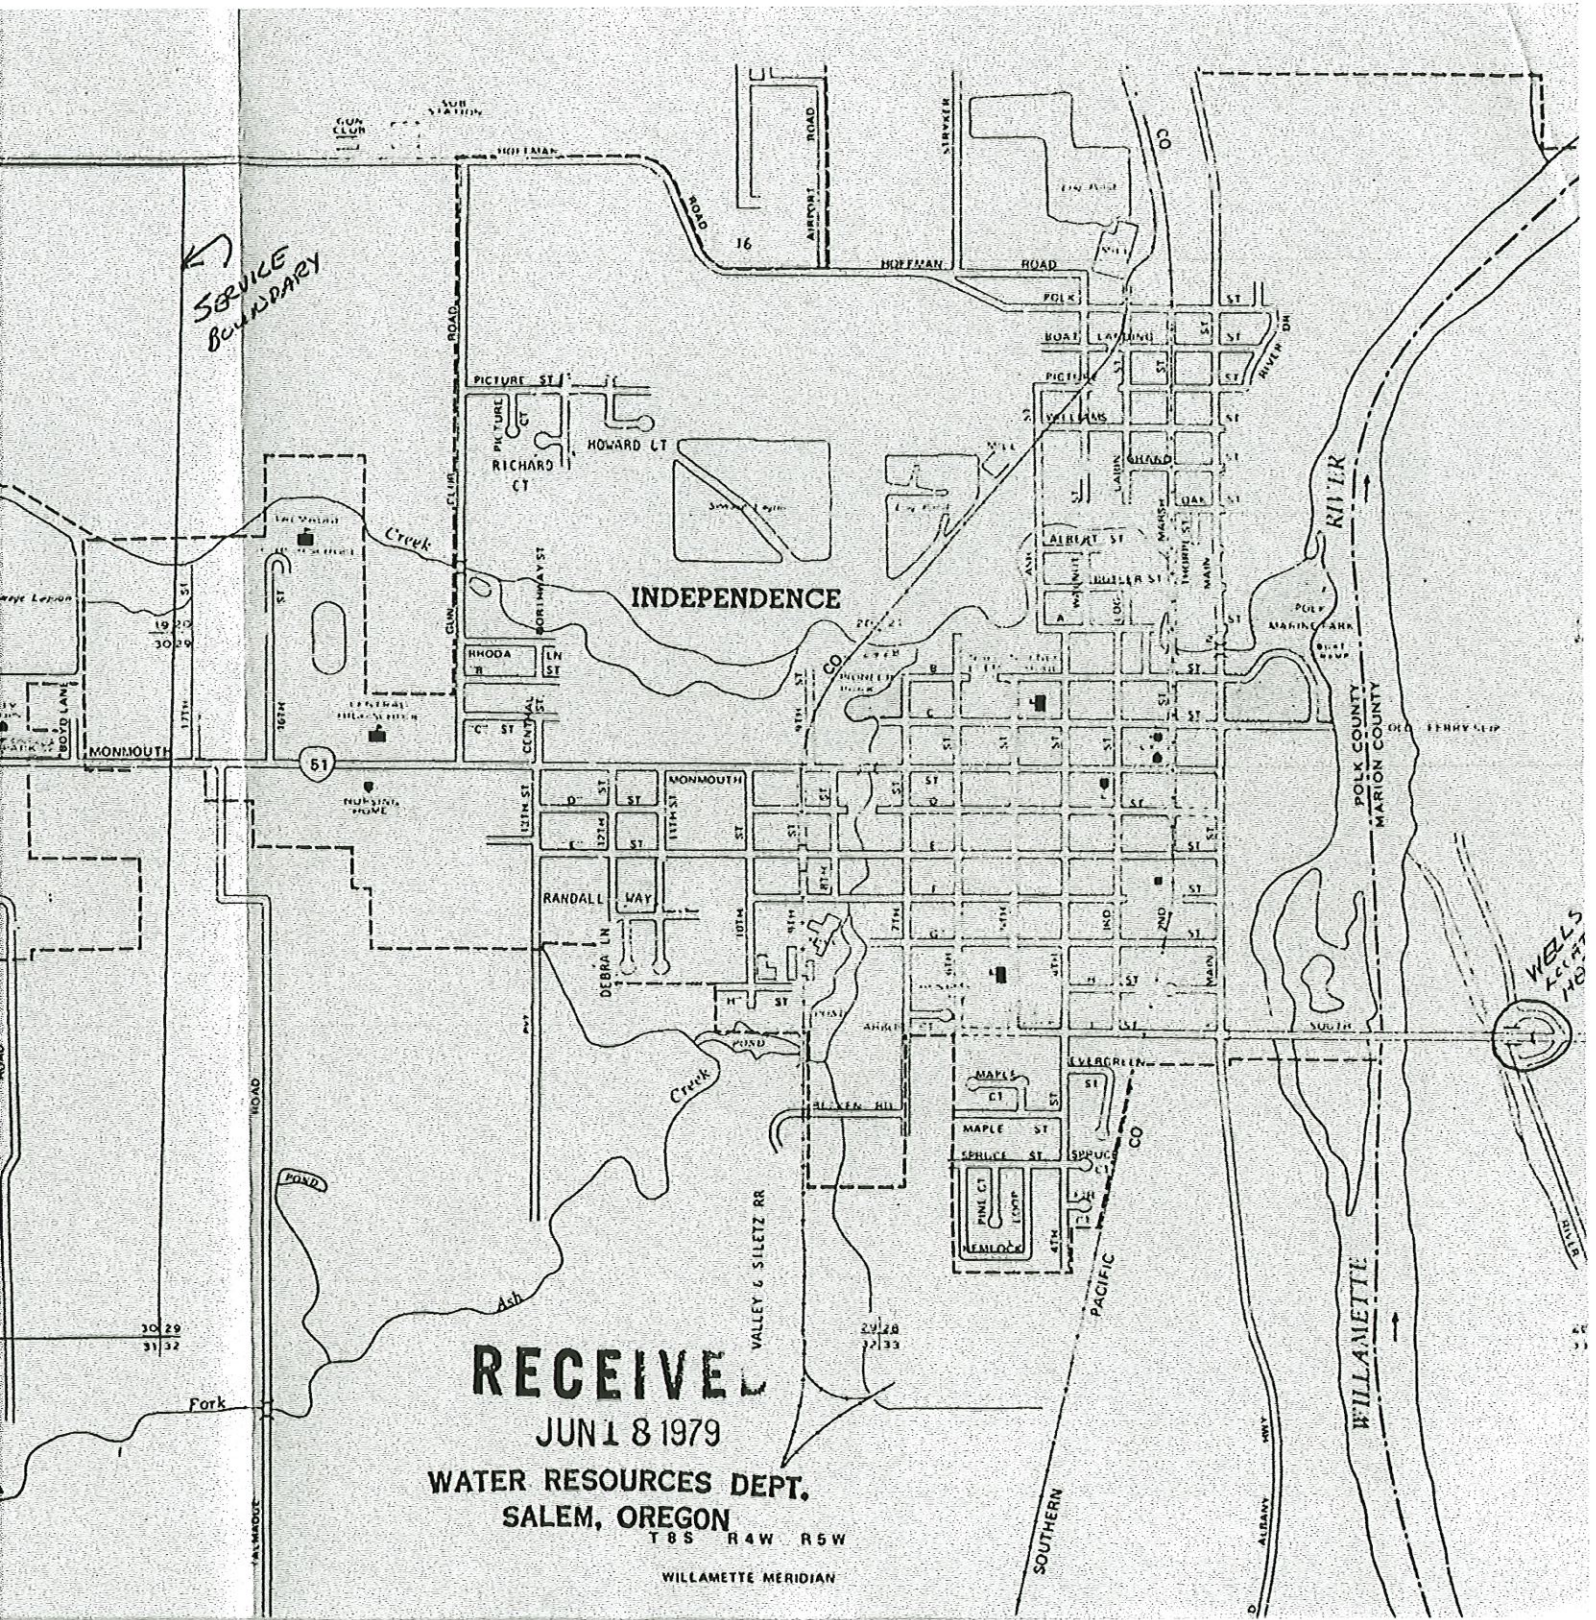

WITNESS my hand this 20th day of June, 1979

BRET JONES WWC/MWC #1684  
JONES WELL DRILLING COMPANY INC.  
29400 SANTIAM HIGHWAY  
LEBANON, OR 97355

## FINAL ORDER

Dear Mr. Jones:

The Special Standards Request Form you submitted for owner: Marion County/City of Monmouth, Start Card number 1059570, is hereby approved for the following: You may temporarily remove your drilling machine from this well site as described on your Special Standards Request Form dated December 21, 2022. *The stipulation of this approval is that the drilling machine must be returned to this well site no later than March 21, 2023.* All other well construction standards apply as required under Oregon Administrative Rules 690-210. A copy of your Special Standards Request Form is enclosed.

Verbal approval of this Special Standards Request was provided on December 21, 2022.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions concerning this letter, I may be contacted at (503) 302-8618, or by e-mail at [tommy.k.laird@water.oregon.gov](mailto:tommy.k.laird@water.oregon.gov).

Sincerely,

Tommy Laird  
Well Construction Program Coordinator  
Well Construction and Compliance Section

**This is a FINAL ORDER other than contested case. This final order is subject to judicial review under ORS 183.484. Any petition for judicial review of the final order must be filed within the time specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.**

# Special Standards Request Form

REQUEST FOR WRITTEN APPROVAL TO USE CONSTRUCTION METHODS NOT INCLUDED IN OREGON ADMINISTRATIVE RULES 690-200 THROUGH 690-240

Before the request can be considered, this form must be completed. Requests shall be submitted to the Well Construction Program Coordinator, Water Resources Department, 725 Summer Street NE, Suite A, Salem OR 97301-1266. Requests may also be considered by the appropriate Regional Manager.

Date of request: 12/21/2022 Oral approval date (if applicable): \_\_\_\_\_

Bonded Well Constructor (name, license #, and mailing address): Bret Jones WWC@1684  
 \_\_\_\_\_  
29400 Santiam Hwy. Lebanon, OR 97355

(1) Location of Well: NE 1/4 SE 1/4 Tax lot None Section 29,  
 Township 8 S, Range 4 W, Marion County  
 Address at well site: \_\_\_\_\_ None

(2) Start Card Number(s)(for work to be done): \_\_\_\_\_ 1059570

(3) Name and Address of Land Owner: \_\_\_\_\_ Marion County/City of Monmouth

(4) Distance to the nearest septic tank, drainfield, closed sewage line (if water supply well)  
 \_\_\_\_\_ None

(5) The unusual site conditions which necessitate this request: \_\_\_\_\_ Availability of  
 \_\_\_\_\_ special materials to be built (90 days) and other well needs to be drilled with this rig

(6) The proposed construction methods that the bonded well constructor believes will be adequate for this well: (attach additional pages if needed)  
 \_\_\_\_\_ Drilled in 16" casing. /Weld lid on and move rig to next well site

PLEASE NOTE:

- (1) The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.
- (2) If it should be determined at some future date that the well, due to its construction, is allowing ground water contamination, waste or loss of artesian pressure, the undersigned shall return to the site and rectify the problem.
- (3) If oral approval was granted, a written request must be submitted to the Department either within three (3) working days of the date of oral approval or prior to the completion of the associated well work. Failure to submit a written request as described above may void prior oral approval.

I have read and understand the above information. I further attest that the information provided is accurate to the best of my knowledge.

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

**This form is NOT required if:**

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

## A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	¼ ¼	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:			Proposed Land Use:
<u>8S</u>	<u>4W</u>	<u>19</u>	<u>SW, NW</u>	<u>ALL</u>	_____	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	_____
<u>8S</u>	<u>4W</u>	<u>19</u>	<u>SE, NW</u>	<u>ALL</u>	_____	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	_____
<u>8S</u>	<u>4W</u>	<u>19</u>	<u>SW 1/4</u>	<u>ALL</u>	_____	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	_____
<u>8S</u>	<u>4W</u>	<u>19</u>	<u>SE 1/4</u>	<u>ALL</u>	_____	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used	_____

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Polk County, OR; Marion County, OR; City of Monmouth, OR; City of Independence, OR

## B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water   
  Water Right Transfer   
  Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License   
  Allocation of Conserved Water   
  Exchange of Water

Source of water:  Reservoir/Pond   
 Ground Water   
 Surface Water (name) \_\_\_\_\_

Estimated quantity of water needed: 2,240   
 cubic feet per second   
 gallons per minute   
 acre-feet

Intended use of water:  Irrigation   
 Commercial   
 Industrial   
 Domestic for \_\_\_\_\_ household(s)  
 Municipal   
 Quasi-Municipal   
 Instream   
 Other \_\_\_\_\_

Briefly describe:

Existing POA are at the Marion County #1 site which is located on right of way property that is controlled by the City of Monmouth and Marion County #2 is located on property that the City of Monmouth has a 99 year lease on. Both wells are currently conveyed over the Marion/Polk County bridge that runs over the Willamette River on River Road South into the City of Independence with a 12" steel waterline. The modification will include a new Well #1A on the north side of the right of way property that is controlled by the City of Monmouth and a future Well #1B that will be placed at the existing Marion County #1 site. These two wells will replace the existing Marion County Well #1.

**Note to applicant:** If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

# Land Use Information Form

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
www.wrd.state.or.us

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

**This form is NOT required if:**

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Polk County, OR; Marion County, OR; City of Monmouth, OR; City of Independence, OR

## B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water   
  Water Right Transfer   
  Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License   
  Allocation of Conserved Water   
  Exchange of Water

Source of water:  Reservoir/Pond     Ground Water     Surface Water (name) \_\_\_\_\_

Estimated quantity of water needed: 2,240     cubic feet per second     gallons per minute     acre-feet

Intended use of water:  Irrigation     Commercial     Industrial     Domestic for \_\_\_\_\_ household(s)  
 Municipal     Quasi-Municipal     Instream     Other \_\_\_\_\_

Briefly describe:

Existing POA are at the Marion County #1 site which is located on right of way property that is controlled by the City of Monmouth and Marion County #2 is located on property that the City of Monmouth has a 99 year lease on. Both wells are currently conveyed over the Marion/Polk County bridge that runs over the Willamette River on River Road South into the City of Independence with a 12" steel waterline. The modification will include a new Well #1A on the north side of the right of way property that is controlled by the City of Monmouth and a future Well #1B that will be placed at the existing Marion County #1 site. These two wells will replace the existing Marion County Well #1.

**Note to applicant:** If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

# For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
Conditional Use	Under previous code in 1979, Section 178.040(c) required a conditional use permit to place structures in a floodplain. Approval has been attached.	<input checked="" type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
Administrative Review	Per MCC 17.136.040(I), utility facilities necessary for public service are a use permitted subject to standards. # 2711 P2

CONDITIONAL USE CASE NO. 79-19

NOTICE OF ORDER GRANTING CONDITIONAL USE

NOTICE IS HEREBY GIVEN to the above-named applicant(s) that the aforesaid application for conditional use is granted subject to any conditions stated in the attached report, by this reference made a part hereof.

THIS CONDITIONAL USE shall not be effective until ten days after the mailing of the notice of decision, and then not in case certification of the proceedings has been requested by the Board of County Commissioners, or an appeal has been taken to the Hearings Officer's decision, in either case the conditional use not being effective until the Board of Commissioners has acted on the certification or appeal.

THIS CONDITIONAL USE shall be effective only when the exercise of the right granted hereunder is commenced within six months from the effective date of the conditional use, unless a longer period is specified or hereafter allowed by the Hearings Officer. In case such right is not exercised, or extension obtained, the conditional use shall be void.

DATED at Salem, Oregon, this 26th day of March, 1979.

MARION COUNTY HEARINGS OFFICER

BEFORE THE HEARINGS OFFICER

FOR MARION COUNTY, OREGON

In the matter of the application of the City )  
of Monmouth to construct a well pump house )  
in a Flood Plain Overlay Zone on property )  
located at the intersection of South River )  
Road and River Drive South, in Marion County, )  
Oregon. )

CONDITIONAL USE CASE NO. 79-19

Date and Place of Hearing: March 21, 1979, in Room 129, Marion County Courthouse,  
Salem, Oregon.

Appearances:

Planning Department report on the application presented by Ray Dwyer.

Proponents: Ron Peterson, Monmouth City Manager, appeared in support of  
the application.

Opponents: No appearance in opposition.

DISCUSSION AND FINDINGS

This is an application to construct a well pump house facility on 0.3 acre  
in an F (Farm) zone and in a Flood Plain Overlay Zone at the intersection of South  
River Road and River Drive South. Such a utility facility for municipal use is an  
outright permitted use in the Farm zone. Section 178.040(c) of the Marion County  
Zone Code, however, permits the location of structures in the Flood Plain Overlay  
zone as a conditional use only when such structure will not be subject to substan-  
tial flood damage and will not increase flood-related damages on other lands. It is  
under this Section this application is reviewed.

The subject property comprises 0.3 acre owned by Marion County at the east end  
of the Independence Bridge. The structure is proposed to be an approximately  
250 square foot, one story, block construction building. It would house the well  
pump for water service to the City of Monmouth. (See detailed site and structural  
plans, Exhibit B.)

The elevation at which there is a one percent chance of flooding in any one  
year at this site (regulated "100-year flood" level) is approximately 157.9 feet  
above mean sea level. Native ground level at the building site is approximately  
155 feet above mean sea level. However, a mechanically compacted select native  
backfill is proposed to raise the ground level to 160 feet in elevation.

The facility is apparently proposed to be located so as not to impair site  
distances at this intersection. Traffic at the facility would be for periodic  
inspections only. No subsurface sewage disposal or water distribution is necessary  
to serve this use.

The general area of the subject property is in agricultural uses. The applicant  
has acquired a permit from the State Department of Water Resources to draw from  
this aquifer. The property is not located within the Willamette River Greenway Boundary

RECEIVED  
JUL 13 2023  
OWRD  
SALEM, OREGON

FINDINGS OF FACT

1. The proposed use is permitted in the Farm zone in which the subject property is located.
2. The proposed structure is permitted in the Flood Plain Overlay Zone subject to the provisions of Section 178.040(c) of the Marion County Zone Code.
3. Provided the structure is elevated above the regulated flood level of 157.9 feet, and the fill and construction is approved by the Marion County Department of Building Inspection, the proposed structure would not appear to be subject to substantial flood damage or tend to increase flood-related damages on other lands.

BASED ON THE FOREGOING, THE HEARINGS OFFICER ENTERS THE FOLLOWING:

CONCLUSIONS AND DECISION

The Hearings Officer is empowered by the Ordinance to enter a decision in this case. The structure and use, as proposed and conditioned below, is consistent with the intent and requirements of Section 178.040(c) of the Marion County Zone Code and of the Flood Plain Overlay Zone generally.

The Conditional Use is GRANTED, subject to the following conditions:

1. The main floor of the structure shall be placed at a minimum elevation of 159 feet above mean sea level.
2. Any fill at the site shall be approved by the Department of Building Inspection and all construction permits shall be obtained from that Department. The Department of Building Inspection, in issuing those approvals and permits, may impose additional floodproofing measures necessary to carry out the purpose and intent of Chapter 178 of the Marion County Zone Code, including but not limited to those measures listed in Section 178.040 of the Zone Code.

DATED this 20th day of March, 1979.

CASE NO.94-1**

**APPLICATION:** Application of the City of Monmouth on property within a public right-of-way for an Administrative Review and Floodplain Development Permit to construct an addition to an existing water treatment and well site building on property zoned EFU (EXCLUSIVE FARM USE) located in the 7000 block of River Road South. (Section 27; T8S; R4W).

**DECISION:** Notice is hereby given that the Planning Director for Marion County has **APPROVED** the above described Floodplain Development Permit and Administrative Review application subject to certain conditions.

This Floodplain Development Permit is valid only when exercised by \_\_\_\_\_. The effective period of an approved application may be extended for an additional year subject to approval of an extension (Extension form available from the Planning Division).

**WARNING:** A decision approving the proposed division or use is for land use purposes only. Due to septic, well, and drain field replacement areas, these parcels may not be able to support a dwelling. To be sure the subject property can accommodate the proposed use the application needs to check with the Building Inspection Division, 588-5147.

**This decision does not include approval of a building permit.**

**CONDITIONS:** The following conditions must be met before a building permit can be obtained or the approved use established:

1. A registered engineer shall certify that the proposed expansion meets the standards contained in Section 178.060 (d) 1 and (e) 1 and 2.
2. Prior to any activities in the floodplain the applicant shall submit certification from a registered professional engineer or architect demonstrating that the encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge. The certification shall include all supporting engineering data used to comply

**RECEIVED**  
**JUL 13 2023**  
**OWRD**  
**SALEM, OREGON**

with the FEMA Region X Guide (attached). The certification may be submitted to the FEMA Regional Engineer for review and approval.

3. The applicant shall obtain all necessary building permits from the Marion County Building Inspection Division.
4. When the elevation of the lowest floor of the expanded structure can be determined during construction, but before occupancy, the applicant shall submit an Elevation Certification identifying the actual elevation above mean sea level of the lowest floor of the water treatment facility (Certification attached). This elevation shall not be less than 160 feet Mean Sea Level.

**OTHER PERMITS, FEES, AND RESTRICTIONS:** This approval does not remove or affect any covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for obtaining other permits or satisfying any restrictions or conditions thereon. The applicant is advised of the following:

5. Materials that are buoyant, flammable, obnoxious, toxic or otherwise injurious to persons or property, if transported by floodwaters, are prohibited unless stored within a structure or on land elevated above the base flood level. Storage of materials and equipment not having these characteristics is permissible only if the materials and equipment have low-damage potential and are anchored or are readily removable from the area within the time available after forecasting and warning.

**PROCEDURE:** The Marion County Zoning Ordinance provides that Floodplain Development applications be considered first by the County Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must condition or deny the application. Any interested person who disagrees with the Director's decision may request that the application be considered by the Marion County Hearings Officer after a public hearing. The applicant may also request reconsideration on the basis of new information subject to signing a waiver of the 120 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$50.00 fee. Requests for reconsideration, or consider-

RECEIVED  
JUL 13 2023  
OWRD  
SALEM, OREGON

ation by the Hearings Officer, must be in writing and be received in the Marion County Planning Division, 220 High Street NE, Salem by 5:00 p.m. on \_\_\_\_\_. If you have any question about this application or the decision please call 588-5038 or visit the County Planning Office at the above address. This decision is effective \_\_\_\_\_ unless further consideration is requested.

**FINDINGS AND CONCLUSIONS:** The findings and conclusions on which the Director based his decision are noted below.

1. The subject property is designated Primary Agriculture in the Marion County Comprehensive Plan and correspondingly zoned EFU (EXCLUSIVE FARM USE). The property is also located within the Floodplain Overlay Zone for the Willamette River.
2. The subject property is located within the public road right-of-way adjacent to and on the south side of the independence bridge. The property currently contains a well pumphouse and chemical room.
3. Surrounding uses include commercial farm operations on lands zoned EFU to the north, east and south of the subject property. To the west is the Willamette River and the City of Independence.
4. The applicant proposes to build an addition to an existing building that will house treatment equipment for the City of Monmouth water supply. The equipment will be used to remedy the asbestos fiber problem that occurred in the city drinking water supply last spring.
5. The Marion County Building Inspection Division commented that permits will be required. The Marion County Department of Public Works commented that they had no objection to the request. All other commenting agencies stated they had no comment on the proposal.
6. Marion County Zoning Ordinance 136.020(d) includes "Utility facilities necessary for public service, except commercial facilities for power generation;" as a permitted use within the EFU zone.

In McCaw Communication, Incorporated vs. Marion County, 96 OR App 552 (1989), the Oregon Court of Appeals determined that cellular telephone towers are a utility facility that relates to the provision of public service. The Court also held, however, that siting utility facilities on resource land is permitted under the Ordinance **only** when it can be

RECEIVED  
JUL 13 2023  
OWRD  
SALEM, OREGON

established that (a) it is necessary to situate the facility in an agriculture zone in order for the service to be provided; and (b) a permitted use having no direct supportive relationship to agricultural use of the land must be non-disruptive of farm use.

7. The proposed water treatment facility is a utility facility that provides a public service. The existing treatment facility and well is located in the EFU zone and the proposed expansion must by necessity be located at the same site. The subject property is on land within a public right-of-way that is not in farm use. As a result, no farm land will be removed from farm use and no disruption of farm use will occur. In addition, because no increase of groundwater removal will occur as a result of the proposed expansion no additional water will be removed from being available for irrigation associated with farm uses. Furthermore, the water treatment facility is unmanned and visited only during routine inspections, or to correct equipment problems. The proposed utility will not, therefore, interfere with farm activity on adjacent properties.
8. Based on the above discussion, the proposal as defined by the applicant is recognized as part of a permitted use in the EFU zone and will be consistent with the Marion County Rural Zoning Ordinance.
9. The subject property is located within the identified floodplain of the Willamette River. Flood Insurance Rate Map #410154 0250 D indicates that the project site is within Zone A9. The Base Flood Level at the site is approximately 159 feet above mean sea level (MSL). In a previous Floodplain development permit for the original treatment facility the City indicated that they would be elevating the floor to 160 feet MSL. The now propose to locate the lowest floor of the addition at the same elevation.
10. Section 178.060 (c) of the Floodplain Overlay Zone requires that non-residential construction shall either have the lowest floor elevated to one foot above the base flood elevation or meet the criteria in 178.060 (c) 1 through 5. The proposal to elevate to 160 feet MSL will meet the elevation standard.
11. Section 178.060 d (1) requires all new construction and substantial improvements shall be anchored to prevent flotation, collapse, or lateral movement of the structure. This requirement also needs to be certified.
12. Section 178.060 e (1) and (2) state the following:

RECEIVED

JUL 13 2023

OWRD  
SALEM, OREGON

"All new construction and substantial improvements below base flood level shall be constructed with materials and utility equipment resistant to flood damage, and the design and methods of construction are in accord with accepted standards of practice based on an engineer's or architect's review of the plans and specifications.

All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damages."

A statement from an engineer or architect that these requirements are met is also required.

13. The subject property is also identified as being located within the regulated Floodway portion of the floodplain. Section 178.060 J (1) states the following:

"Prohibit encroachments, including fill, new construction, substantial improvements and other development unless a certified technical evaluation is provided by a registered professional engineer or architect demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge. This evaluation may be submitted to the Federal Emergency Management Agency for technical review."

The city indicates that they intend to use up to 220 cubic yards of backfill/embankment material to elevate the proposed addition. The city will be required to provide a "no rise" analysis for the proposed fill and development consistent with the Federal Emergency Management Agency Region X guide. The analysis will need to show that there will be no increase in the base flood elevation as a result of the development.

14. The subject property is not located within the Willamette River Greenway Overlay Zone so not greenway development permit is required. Based on the above, staff finds that the proposal, provided certain conditions of approval are met, is in conformance with the criteria in the Marion County Floodplain Ordinance and the other provisions of the Marion County Rural Zoning Ordinance.

Attention Property Owner: A land use proposal has been submitted for property near where you live or near property you own elsewhere. State law requires that the county notify property owners within a certain distance from this property. The proposal and address of the property is described in the "Application" section below. The decision in this case does not directly affect the zoning or use of your property. If you object to the decision, refer to the "Appeal" section. If you have questions, contact the staff person listed at the end of this report.

**NOTICE OF DECISION  
FLOODPLAIN DEVELOPMENT PERMIT CASE NO. 21-001**

**APPLICATION:** Application of the City of Monmouth on property within a public right-of-way for a floodplain development permit to construct a new well on property in the 7000 block of River Road South, Salem (adjacent to T8S, R4W, Section 27, tax lot 900).

**DECISION:** The Planning Director for Marion County has **APPROVED** the above-described Floodplain Development application subject to certain conditions.

**EXPIRATION DATE:** This Floodplain Development Permit is valid only when exercised by **May 12, 2023**. The effective period may be extended for an additional year subject to approval of an extension (form available from the Planning Division). **Additional extensions may not be granted if the regulations under which this decision was granted have changed since the original approval.**

**WARNING:** A decision approving the proposal is for land use purposes only. Due to septic, well, and drain field replacement areas this parcel may not be able to support the proposal. To be sure the subject property can accommodate the proposal the applicant should contact the Building Inspection Division, (503) 588-5147.

**All development in the floodplain is subject to federal, local and state regulations and standards at the time development is begun. These regulations and standards are in the process of being revised and the development proposed in this application may be subject to additional regulations and standards at the time construction of structures or placement of fill on the property begins.**

**Based on preliminary information provided by the National Marine Fisheries Service on April 14, 2016, federal law might only recognize as legal under the county current floodplain ordinance building permits that are issued prior to September 15, 2016 and where the work is begun prior to March 15, 2017. Permits issued after September 15, 2016 or not begun until after March 15, 2017 may be in violation of federal law and thus invalidate this local permit.**

**Construction related to this permit is approved only within the existing developed area of the property. Construction of new structures, fill or other development of the property should not occur outside the existing developed area without prior consultation with the Marion County Planning Division. Federal regulations may require additional approvals for development outside the existing developed area of the property.**

**Applicants are further advised that buildings constructed with below-grade crawlspaces will have higher flood insurance premiums than buildings that have the preferred crawlspace construction (the interior grade of the crawlspace is at or above the adjacent exterior grade).**

**This decision does not include approval of a building permit.**

**CONDITIONS:** The following conditions must be met before a building permit can be obtained or the approved use established:

1. The applicant shall obtain all permits required by the Marion County Building Inspection Division.
2. Prior to issuance of building permits, a registered civil engineer or architect shall certify the proposal meets the requirements of MCC 17.178.050(C) (D), and 17.178.060(F)(1), and (H), (I) (1-3), (J) (1-3).

3. Prior to construction of the project, the applicant shall sign and submit to the Planning Division a Declaratory Statement acknowledging that the property and the approved development are located within a floodplain. The applicant shall record this statement with the Marion County Clerk after it has been reviewed and signed by the Planning Director.

**OTHER PERMITS, FEES, AND RESTRICTIONS:** This approval does not remove or affect any covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for, obtaining other permits or satisfying any restrictions or conditions thereon.

4. The applicants should contact the Polk County Fire District to obtain a copy of the District's Recommended Building Access and Premise Identification regulations and the Polk County Fire Code Applications Guide. Fire District access standards may be more restrictive than County standards.
5. Materials that are buoyant, flammable, obnoxious, toxic or otherwise injurious to persons or property, if transported by floodwaters, are prohibited unless stored within a structure or on land elevated above the base flood level. Storage of materials and equipment not having these characteristics is permissible only if the materials and equipment have low-damage potential and are anchored or are readily removable from the area within the time available after forecasting and warning.

**APPEAL PROCEDURE:** The Marion County Zone Code provides that certain applications be considered first by the Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must condition or deny the application. Anyone who disagrees with the Director's decision may request that the application be considered by a Marion County hearings officer after a public hearing. The applicant may also request reconsideration (one time only and a fee of \$200) on the basis of new information subject to signing an extension of the 150 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$250.00 fee. Requests for reconsideration, or consideration by a hearings officer, must be in writing and received in the Marion County Planning Division, 5155 Silverton Rd. NE, Salem, by 5:00 p.m. on **May 12, 2021**. If you have any questions about this decision contact the Planning Division at (503) 588-5038 or at the office. This decision is effective **May 13, 2021** unless further consideration is requested.

**FINDINGS AND CONCLUSIONS:** Findings and conclusions on which the decision was based are noted below.

1. The subject property is designated Primary Agriculture in the Marion County Comprehensive Plan and correspondingly zoned EFU (Exclusive Farm Use). It is located within the identified floodway of the Willamette River. The subject property is not located in the Willamette River Greenway Overlay Zone.
2. The subject property is located on River Road S. in the Marion County public right-of-way where River Road intersects with Riverside Road South. A floodplain permit was issued to the City of Monmouth in 1996 for a well on the opposite side (land to the south) of River Road S.
3. Surrounding lands to the north, south, and east are zoned EFU (Exclusive Farm Use) and are currently in farm use. The Willamette River is to the west.
4. The subject property is comprised of 100% High Value soils.
5. The applicant(s) propose to construct a new well on property.
6. Marion County Building Division commented that a building permit is required for new construction.

RECEIVED

JUL 13 2023

OWRD  
SALEM, OREGON

Oregon Department of State Lands commented that a state permit will not be required for the proposed project because, based on the submitted site plan, the project avoids impacts to jurisdictional wetlands, waterways, or other waters.

Marion County Land Development and Engineering provided the following comments:

#### ENGINEERING REQUIREMENTS

- RECEIVED  
JUL 13 2023  
OVRD  
SALEM, OREGON
- A. Work in the public right-of-way requires advance Utility Permitting from PW Engineering. This applies to the municipal well and to the presumed water main line crossing under River Road extending to the existing pump house facility situated to the south side of the Road.
  - B. It will be required by PW Engineering as a stipulation for Utility Permit issuance for the waterline bore under River Road, to establish an OUNC (Oregon Utility Notification Center) District Code Number for the line. Having an OUNC # affiliated with the waterline will cause the City PWD to receive notifications of future underground excavation work in the immediate vicinity of the proposed crossing that is reported to OUNC, such that City personnel or their designated Agent will have advance opportunity to mark out the line location and conduct desired coordination to protect the facility.

Additional agencies notified of the proposal but either had no comment or failed to respond to the request to comment.

- 7. The purpose of the Floodplain Overlay Zone is to promote public health, safety and general welfare to minimize public and private losses due to flood conditions. The criteria and standards which must be satisfied are listed in Section 17.178.050 and 17.178.060 of the Marion County Code (MCC).
- 8. The subject property is located with the identified floodplain of the Willamette River. Flood Insurance Rate Map # 41047C0650G indicates that the floodplain elevation is approximately 159.3 feet above mean sea level (MSL) and is in Zone AE. Based on information provided by the applicant, the top of the well casing will be at elevation 161.0', which is 1.8' above the 100 year floodplain level.
- 9. New development in the floodplain must comply with the provisions in Marion County Code 17.178.050.

MCC 17.178.050 (C) requires:

*Prior to obtaining a building permit the owner shall be required to sign and record in the deed records for the county a declaratory statement binding the landowner, and the landowner's successors in interest, acknowledging that the property and the approved development are located in a floodplain.*

The applicant indicated in their application narrative that the City of Monmouth will comply with the above condition. Moreover, the requirement can be made a condition of approval. This criterion is met.

MCC 17.178.050 (D) requires:

*Prior to obtaining a building permit, commencing development or placing fill in the floodplain the applicant shall submit a certification from a registered civil engineer demonstrating that a development or fill will not result in an increase in floodplain area on other properties and will not result in an increase in erosive velocity of the stream that may cause channel scouring or reduce slope stability downstream of the development or fill.*

The applicant's engineer, Edward P. Butts, P.E. provided this certification. This criterion is met.

- 10. New development in the floodplain must comply with the provisions in Marion County Code 17.178.060.

RECEIVED

JUL 13 2023

OWWRD  
SALEM, OREGON

Marion County Code 17.178.060(F)

*Utilities:*

1. *All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system as approved by the State Health Division.*
2. *New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters in the systems and discharge from the systems into floodwaters.*
3. *On-site waste disposal systems shall be designed and located to avoid impairment to them or contamination from them during flooding consistent with the requirements of the Oregon State Department of Environmental Quality.*
4. *Electrical, heating, ventilation, plumbing, duct systems, air-conditioning and other equipment and service facilities shall be elevated to one foot above the level of the base flood elevation. Where the base flood elevation is not available, the electrical, heating, ventilation, plumbing and air-conditioning equipment shall be elevated to one foot above the highest adjacent natural grade (within five feet) of the building site. If replaced as part of a substantial improvement the utility equipment and service facilities shall meet all the requirements of this subsection.*

Number one can be made a condition of any approval. The well is being developed without any structure; therefore, there will be no septic system or additional utilities and numbers two through four do not apply. The criterion is satisfied.

Marion County Code 17.178.060(H)

*Storage of Materials and Equipment: Materials that are buoyant, flammable, obnoxious, toxic or otherwise injurious to persons or property, if transported by floodwaters, are prohibited. Storage of materials and equipment not having these characteristics is permissible only if the materials and equipment have low damage potential and are anchored or are readily removable from the area within the time available after forecasting and warning.*

The applicant indicated in their application that during construction, materials that are buoyant, flammable, obnoxious, toxic, or otherwise injurious to persons or property will be kept off-site. The applicant indicated that materials stored onsite will have low-damage potential and will be anchored. Moreover, this criterion can be made a condition of any approval. The criterion is satisfied.

Marion County Code 17.178.060(I)

*Alteration of Watercourses: When considering a conditional use permit to allow alteration or modification of a watercourse the following shall apply:*

1. *Adjacent communities, the Oregon Division of State Lands and the Department of Land Conservation and Development, and other affected state and federal agencies shall be notified prior to any alteration or relocation of a watercourse and evidence of such notification shall be submitted to the Federal Insurance Administration. This notification shall be provided by the applicant to the Federal Insurance Administration as a letter of map revision (LOMR) along with either:*
  - a. *A proposed maintenance plan to assure the flood carrying capacity within the altered or relocated portion of the watercourse is maintained; or*

- b. *Certification by a registered professional engineer that the project has been designed to retain its flood carrying capacity without periodic maintenance.*
2. *Maintenance shall be provided within the altered or relocated portion of said watercourse so that the flood carrying capacity is not diminished.*
3. *The applicant shall be required to submit a conditional letter of map revision (CLOMR) when required under MCC 17.178.030(I).*

The applicant indicated in their application narrative that they did not expect to alter the watercourse of the Willamette River. If they did need to alter the watercourse, the applicant indicated that they would notify all required state and federal agencies through the prescribed processes. This along with criteria two and three can be made conditions of approval. The criteria are satisfied.

Marion County Code 17.178.060(J)

*Floodways: Located within areas of floodplain established in MCC 17.178.030 are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and erosion potential the following provisions shall apply in addition to the requirement in subsection (I) of this section:*

1. *Prohibit encroachments, including fill, new construction, substantial improvements and other development within the adopted regulatory floodway unless certification by a registered professional civil engineer is provided demonstrating through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment shall not result in any increase in flood levels within the community during the occurrence of the base flood discharge.*
2. *If subsection (J)(1) of this section is satisfied, all new construction, substantial improvements, and other development shall comply with all applicable flood hazard reduction provisions of this section.*
3. *The area below the lowest floor shall remain open and unenclosed to allow the unrestricted flow of floodwaters beneath the structure.*

The applicant indicated in their application narrative that they will provide the relevant analysis demonstrating that the proposed development will not increase flood levels within the community during the occurrence of the base flood discharge. This can be made a condition of approval.

11. Based on the above findings, it has been determined that the proposal complies with the criteria in the Marion County Code and is, therefore, **APPROVED**, subject to conditions.

Joe Fennimore  
Planning Director
