Explain in your own words what you propose to accomplish with this transfer application, and why:
The Applicant is proposing to change the place of use and character of use for two water rights in their entirety (Certificates 53194 and 53196) and portions of three water rights (Certificates 53193, 53195, and 53260). The Applicant is also proposing to change the Point of Appropriation for the two groundwater rights (Certificates 53193 & 53194). The water rights (or portions of rights) being transferred authorize the use of water for irrigation and supplemental irrigation, and are appurtenant to a total of 101.5 acres. The Applicant intends to use water under the water rights for industrial use when its primary source of industrial water supply is not available. The Applicant understands that use of water under the transferred water rights will be limited to a combined maximum authorized rate of 2.54 cfs and an annual volume of 456.75 AF based on per acre limitations of 1/40th cfs and 4.5 AF per acre. The Applicant is requesting 10 years to complete the changes proposed in this transfer application.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

CERTIFICATE # 53193

Description of Water Delivery System

System capacity: 0.78 cubic feet per second (cfs) **OR** (0.53 cfs under this right)
 ___ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Water is pumped from Well 1 using a 25Hp pump, piped to the place of use through 800ft of 10in steel mainline, and applied to the place of use using a center pivot.**

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: **Certificates 53195 and 53260 are also appurtenant to the "from" lands. The layered portions of both Certificates 53195 and 53260 are included in this transfer application. The following certificates are appurtenant to the "to" lands: 53193, 53194, 53195, 53196, 53260 and 89006. However, the Applicant is requesting to change Certificate 53193 to industrial use, and "layering" is not applicable to industrial use water rights.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
