

Application for Permanent Water Right Transfer

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.
For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED
OCT 16 2023
OWRD

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 3 List them here: C-97175, 97176 & 97177**
Please include a separate Part 5 for each water right. (See instructions on page 6)
NOTE: A separate transfer application is required for each water right unless the criteria in OAR 690-380-3220 are met.

Attachments:

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500’ from the surface water source and more than 1000’ upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

(For Staff Use Only)

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met. CWRE

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32’15.5”) or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

14339 -

Part 3 of 5 - Fee Worksheet

FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)

Table with 4 columns: Line Number, Description, Line Number, Amount. Rows 1-8 containing fee calculations for permanent transfer, including base fee, change types, well additions, and substitution options.

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
a. Divide total authorized cfs by total acres in the water right... then multiply by the number of acres to be transferred to get the transfer cfs.
b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80).
2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.

FEE WORKSHEET for SUBSTITUTION

Table with 4 columns: Line Number, Description, Line Number, Amount. Rows 1-3 for substitution fee calculation, including base fee and well count.

Explain in your own words what you propose to accomplish with this transfer application, and why:
Adding new wells to existing water right to provide more flexibility to existing systems

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

RECEIVED
OCT 16 2023
OWRD

14339 -

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Lake County Examiner.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error of the Department.

I (we) affirm that the information contained in this application is true and accurate.

Applicant signature

Theresa Cliff, President
Print Name (and Title if applicable)

10/6/23
Date

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No*

**If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: https://www.oregon.gov/owrd/WRDFormsPDF/Transfer_Property_Transactions.pdf

For Place of Use or Character of Use Changes

OWRD

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers:

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;

Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

| Proposed or Authorized POA Name or Number | Is well already built? (Yes or No) | If an existing well: OWRD Well ID Tag No. L-____ | Total well depth | Casing Diameter | Casing Intervals (feet) | Seal depth(s) (intervals) | Perforated or screened intervals (in feet) | Static water level of completed well (in feet) | Source aquifer (sand, gravel, basalt, etc.) | Well-rate (gpm) than 1 of wat |

14339 -

Description of Water Delivery System

System capacity: 0.38 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Water is pumped from the authorized POA into an existing canal system that conveys into the existing flood irrigation system.**

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

| POD/POA Name or Number | Is this POD/POA Authorized on the Certificate or is it Proposed? | If POA, OWRD Well Log ID# (or Well ID Tag # L-___) | Twp | Rng | Sec | ¼ | ¼ | Tax Lot, DLC or Gov't Lot | Measured Distances (from a recognized survey corner) |

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: Silver Creek Decree (V9, P253), 2060, 8658, 8571, 8582, 37617, 44111, 60692, 86158, 86159, 91055, 91056, S55013, 97175 & 97177.

.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;
Surface water primary Certificate # _____.

OWRD

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BELL A LAND AND CATTLE
C/O THERESA CLIFF
PO BOX 97
LA PINE OR 97739

confirms the right to the use of water perfected under the terms of Permit G-5544. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well. The specific limits and conditions of the use are listed below.

SOURCE: POA 4 A TRIBUTARY OF BRIDGE CREEK

USE: IRRIGATION OF 81.6 ACRES

RATE: 1.02 CUBIC FEET PER SECOND

PRIORITY DATE: MARCH 28, 1972

The well is located as follows:

| Twp | Rng | Mer | Sec | Q-Q | Measured Distances |
|------|------|-----|-----|-------|---|
| 28 S | 14 E | WM | 22 | SE NW | POA 4 - 2150 FEET SOUTH AND 1800 FEET EAST FROM NW CORNER, SECTION 22 |

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use is as follows:

| Twp | Rng | Mer | Sec | Q-Q | Acres |
|------|------|-----|-----|-------|-------|
| 27 S | 14 E | WM | 35 | SW SE | 17.0 |
| 28 S | 14 E | WM | 10 | SE SW | 33.3 |
| 28 S | 14 E | WM | 15 | NE NW | 31.3 |

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

14339

The quantity of water diverted at the new point of appropriation shall not exceed the quantity of water lawfully available from the original point of appropriation described as follows:

| Twp | Rng | Mer | Sec | Q-Q | Measured Distances |
|------|------|-----|-----|-------|--|
| 28 S | 14 E | WM | 15 | NW NW | POA 1 (CLIFF WELL) - 50 FEET SOUTH AND 60 FEET EAST FROM NW CORNER, SECTION 15 |

Water use measurement conditions:

- a) The water user shall maintain a weir or other suitable measuring device, as approved by the Director, in good working order, at each point of diversion/appropriation (new and existing)
- b) The water user shall allow the Watermaster access to the weirs or measuring devices; provided however, when the weirs or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Static Water Level Conditions:

- a) The Department requires a qualified individual (see below) to measure, record, and report annual static water levels for each well on the water right. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement in a format approved by the Department (see below).
- b) The water user shall report an initial March static water-level measurement once well construction is complete and annual measurements thereafter. Annual measurements are required whether or not the well is used. The first annual measurement will establish a reference level against which future measurements will be compared. However, the Director may assign a reference level based on an analysis of other water-level data. The Director may require the user to measure, record, and report water levels more frequently each year if more data are needed to evaluate the aquifer system.
- c) All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Measurement shall be submitted on forms provided by, or specified, by the Department. Measurements shall be made with a calibrated electric tape or steel tape that is accurate to at least 0.025 feet and reported to a precision of at least 0.10 feet. The Department requires the individual performing the measurement to:
 - i. Associate each measurement with an owner's well name or number and a Department well log ID; and
 - ii. Report water levels to at least the nearest tenth of a foot as depth-to-water below ground surface; and
 - iii. Specify the method of measurement; and
 - iv. Certify the accuracy of all measurement and calculations reported to the Department.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

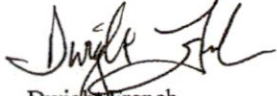

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water use measurement conditions:

- a) The water user shall maintain a weir or other suitable measuring device, as approved by the Director, in good working order, at each point of diversion/appropriation (new and existing)
- b) The water user shall allow the Watermaster access to the weirs or measuring devices; provided however, when the weirs or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Static Water Level Conditions:

- a) The Department requires a qualified individual (see below) to measure, record, and report annual static water levels for each well on the water right. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement in a format approved by the Department (see below).
- b) The water user shall report an initial March static water-level measurement once well construction is complete and annual measurements thereafter. Annual measurements are required whether or not the well is used. The first annual measurement will establish a reference level against which future measurements will be compared. However, the Director may assign a reference level based on an analysis of other water-level data. The Director may require the user to measure, record, and report water levels more frequently each year if more data are needed to evaluate the aquifer system.
- c) All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Measurement shall be submitted on forms provided by, or specified, by the Department. Measurements shall be made with a calibrated electric tape or steel tape that is accurate to at least 0.025 feet and reported to a precision of at least 0.10 feet. The Department requires the individual performing the measurement to:
 - i. Associate each measurement with an owner's well name or number and a Department well log ID; and
 - ii. Report water levels to at least the nearest tenth of a foot as depth-to-water below ground surface; and
 - iii. Specify the method of measurement; and
 - iv. Certify the accuracy of all measurement and calculations reported to the Department.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

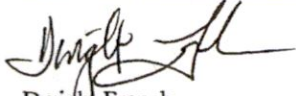

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

CERTIFICATE OF WATER RIGHT

RECEIVED

OCT 16 2023

OWRD

THIS CERTIFICATE ISSUED TO

BELL A LAND AND CATTLE
C/O THERESA CLIFF
PO BOX 97
LA PINE OR 97739

confirms the right to the use of water perfected under the terms of Permit G-10039. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well. The specific limits and conditions of the use are listed below.

SOURCE: FIVE WELLS IN THE GOOSE LAKE & SUMMER LAKE BASIN

USE: IRRIGATION OF 56.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 62.6 ACRES

RATE: 0.59 CUBIC FOOT PER SECOND (CFS), BEING 0.06 CFS FROM WELL 1; 0.17 CFS FROM WELL 2; 0.18 CFS FROM WELL 3, 0.09 CFS FROM WELL 4; AND 0.09 CFS FROM WELL 5, OR ITS EQUIVALENT IN CASE OF ROTATION, MEASURED AT THE WELL.

PRIORITY DATE: FEBRUARY 28, 1983

The wells are located as follows:

| Twp | Rng | Mer | Sec | Q-Q | Measured Distances |
|------|------|-----|-----|-------|---|
| 28 S | 14 E | WM | 15 | NW NW | POA 1 - 50 FEET SOUTH AND 60 FEET EAST FROM NW CORNER, SECTION 15 |
| 28 S | 14 E | WM | 15 | NW SW | POA 2 - 80 FEET SOUTH AND 850 FEET EAST FROM W1/4 CORNER, SECTION 15 |
| 28 S | 14 E | WM | 15 | SE SW | POA 3 - 600 FEET NORTH AND 2550 FEET EAST FROM SW CORNER, SECTION 15 |
| 28 S | 14 E | WM | 22 | SE NW | POA 4 - 2150 FEET SOUTH AND 1800 FEET EAST FROM NW CORNER, SECTION 22 |
| 28 S | 14 E | WM | 24 | NW NE | POA 5 - 950 FEET SOUTH AND 2510 FEET WEST FROM NE CORNER, SECTION 24 |

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

| 28 S | 14 E | WM | 24 | SW NE | 20.6 |
| 28 S | 14 E | WM | 24 | SE NE | 28.9 |

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall maintain an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation at all times.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

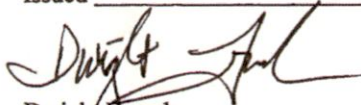

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of the water shall be limited when it interferes with any prior surface or ground water rights.

This certificate is issued to confirm a change in PLACE OF USE approved by an order of the Water Resources Director entered December 22, 2014, at Special Order Volume 93, Page 974, approving Transfer Application T-11629, and together with Certificate 89345, supersedes Certificate 86160, State record of Water Right Certificates.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): *Lake County Zoning Ordinance - A-1 & A-2.*
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

| Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.) | Cite Most Significant, Applicable Plan Policies & Ordinance Section References | Land-Use Approval: | |
|---|--|--|--|
| | | <input type="checkbox"/> Obtained <input type="checkbox"/> Denied | <input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued |

| | | <input type="checkbox"/> Obtained <input type="checkbox"/> Denied | <input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued |

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Name: *Darwin Johnson* Title: *Planning Director*

Signature: *[Signature]* Phone: *541-947-6036* Date: *18 Sept 2023*

Government Entity: *Lake County Planning Dept.*

Note to local government representative: Please complete this form or sign the receipt below and return it to the applicant. If you sign the receipt, you will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.
