Lead to do

3. TYPE OF CHANGE

☐ Use ☒ Place of Use ☒ Point of Diversion ☐ Point of Appropriation
☐ Historic Point of Diversion ☐ Substitution ☐ Surface Water to Ground Water

Reason for change: Match Present Farming Practices Using All Pivot Irrigation Systems

4. AFFECTED DISTRICTS AND LOCAL GOVERNMENTS

Is the affected water right located within or served by an irrigation or other water district?

☒ Yes ☐ No

Will the affected water right be located within or served by an irrigation or other water district after the proposed transfer?

☒ Yes ☐ No

If yes for either, list the name and mailing address of each district:

WEST EXTENSION IRRIGATION DISTRICT, Irrigon, Oregon

Attach the name and mailing address of all affected local governments (e.g., county, city, municipal corporation, tribal governments)

5. CURRENT WATER RIGHT INFORMATION

Name on Permit, Certificate, or Decree: Prudential Insurance Co. of America

Decree: _____

☒ Not applicable]

Permit Number: Permit #S-35694

☐ Not applicable]

Certificate Number: 76360 ~~51913~~

☐ Not applicable]

Permit Amendment Only -

Completion Date of Permit: _____

☐ Claim of Beneficial Use - Date Submitted _____
Requesting the Department to determine if the requirement for proof has been met.]

Priority Date: 11/05/1971

Authorized Use: IRRIGATION

Source of Water: COLUMBIA RIVER

County: MORROW

Are there other sources listed on the water right? ☐ Yes ☒ No

Transfer Application/ 2

supp right Permit 6-12729

T-9601

Location of Authorized Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
80' N & 2480' W of SE Cor, S35	SW SE	Section 35	T 5 N	R 25 E

Location of Authorized Place of Use: *(Only list portion of water right subject to transfer)*

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR LOCATION OF AUTHORIZED PLACE OF USE						

Are there other lands described in the water right? ☒ Yes ☐ NoAre there other water rights or permits associated with this land? ☒ Yes ☐ No
(e.g., supplemental water rights) If yes, attach a copy of all rights or permits.

Describe the current water delivery system (n/a Permit Amendment). The description must demonstrate that the applicant is ready, willing, and able to exercise the right. Include information on the capacity of any pumps, canals, and pipelines used to divert and convey the water to the authorized place of use.

PUMPS ARE LOCATED ON THE COLUMBIA RIVER TO SUPPLY WATER TO A
LARGE 36" Ø PIPELINE WHICH CARRIES WATER THROUGHOUT THE FARM.

PIVOT IRRIGATION SYSTEMS ARE USED TO APPLY THE WATER TO THE CROPS.

System capacity (in cfs): 76.4 CFS

6. PROPOSED CHANGES TO THE WATER RIGHT

X Change in Character of Use: (n/a Permit Amendment)

Proposed use: ☐ Irrigation ☒ Municipal ☐ Quasi-municipal
☐ Commercial ☐ Industrial ☐ Other _____
Domestic (indicate number of households) _____

X Change in Point of Diversion or Point of Appropriation:

☐ Change
Old point of diversion
or point of appropriation
will not be used for this
portion of the water right.

☒ Additional
Both old and new points
of diversion or points of
appropriation will be used
for this portion of the water
right.

☒ Surface Water to Ground Water
New point of appropriation will
be used in the place of the old
point of diversion. This is not an
additional point of appropriation.

Location of Proposed Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
80' N & 2480' W of SE Cor, S35	SW SE	Section 35	T 5 N	R 25 E
50' N & 200' W OF SE Cor, S35	SE SE	Section 35	T 5 N	R 25 E
1602' N & 191' W OF SE Cor, S10	SW NE	Section 10	T 4 N	R 25 E

X Change in Place of Use:

Location of Proposed Place of Use

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR LOCATION OF PROPOSED PLACE OF USE						

Remarks: A net 690.0 Acres are Being Transferred With The Following Volumes:

31.7 Acres Are Used to Fill in The Deficiencies in the Local Irrigated Properties,

466.2 Acres Are Transferred to 4 N 25 E Sections 23 & 24

192.1 Acres (4.80 CFS) Are Transferred to Municipal Use, To be Used During the
Same Period of Use (Irrigation Season)

7. LAND OWNERSHIP

Answer only
if for change
in **Character
of Use** or
Place of Use.

Use/Place of Use

Are there any lien holders identified in the Lot Book Report? Yes ☒ No

If yes, list the name and address of lien holder: NONE

If yes, the applicant must provide written notification of the proposed transfer to each lien holder.

Answer only
if the applicant
is **not** the
landowner.

Landowners

This section does not apply to water delivery entities authorized to act on behalf of their members, making permit amendment requests, or requests for changes in point of diversion or point of appropriation only.

Landowners: _____

(List all landowners shown on deed.)

Address(es): _____

City

State

Zip

The application must include notarized statements granting permission for the transfer from each landowner listed on the Lot Book Report. Attach extra sheets as necessary.

Answer only
if the receiving
landowner is
not the original
landowner or
the applicant.

Receiving Landowner

Name: _____

Address: _____

City

State

Zip

☐ The Department's records should be changed to show this landowner is responsible for completion of the changes. This includes perfection of the changes after the final order is issued. All notices and correspondence should be sent to this landowner.

☐ The applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to the applicant.

RECEIVED

NOV 14 2003

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- ☒ Enclosed
- ☐ Not needed: (must meet the following four requirements)
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
 - ④ Irrigation only.

Map:

- ☒ Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*
- ☐ All others: *Need not be prepared by a Certified Water Right Examiner.*

Lot Book Report:

(n/a Permit Amendment)

- ☒ A lot book report for the land to which the water right is apputenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

- ☒ Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

- ☐ If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

- ☒ Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0
690.0 Ac. @ 1/40 = 17.25 CFS

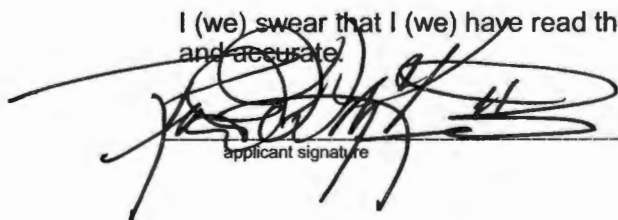

18 x 175 = \$ 3150

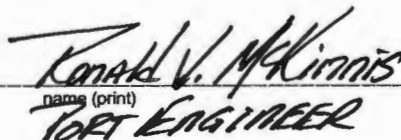

3 x \$350 = \$1050

TOTAL = \$4200

9. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

Westland Enterprises, LLC
c/o Robert Levy
822 Highway 395 S. #423
Hermiston, Oregon 97838

Reference: Application G-11239, Permit G-10550
Transfer T-9599
Transfer T-9601

Regarding Application G-11239, Permit G-10550, the assignment from Port of Morrow to Westland Enterprises, LLC c/o Robert Levy has been recorded in the records of the Water Resources Department.

Regarding Transfer T-9599 and Transfer T-9601, the partial assignment from Port of Morrow to Westland Enterprises, LLC c/o Robert Levy has been recorded in the records of the Water Resources Department.

Our records have been changed accordingly and the original request is enclosed. Receipt number 76969 covering the recording fee of \$100.00 is also enclosed.

Sincerely,

Jerry Sauter
Water Rights Program Analyst

SECTION 3

CLAIM DESCRIPTION

1. Point of diversion/appropriation name or number:

POINT OF DIVERSION/APPROPRIATION (POD/POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
Columbia River Station (POD #1)		N/A
Toadvin Pond (POA #1)		N/A

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of diversion/appropriation source and, if from surface water, the tributary:

POD/POA NAME OR NUMBER	SOURCE	TRIBUTARY
River Station (POD #1)	Surface Water - Columbia River	Pacific Ocean
Toadvin Pond (POA #1)	Alluvial Ground Water Directly in Connection with the Columbia River	Columbia River

3. Developed use(s), period of use, and rate for each use:

POD/POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	ACTUAL RATE OR VOLUME USED (CFS, GPM, OR AF)
River Station	Irrigation/MU	Multiple	March 1 - Oct. 31	63.3 CFS
Toadvin Pond POA #1	Irrigation/MU	Multiple	March 1 - Oct. 31	12.54 CFS
Total Quantity of Water Used				75.84 CFS

4. Provide a general narrative description of the distribution works. This description must trace the water system from **each point of diversion or appropriation to the place of use:**

The Columbia River Pump Station is tied to a large piping system that delivers water from the Columbia River to numerous Pivots, Solid Set, and Hand Line/Wheel Line Irrigation Systems. The Acreages are within a number of Sections that extend a couple of miles from the Columbia River. At present there is an Extension of Time Application that proposes to replace Farm Wells #4A & #5A for the Portion of the G-16935 Permit. The additional POA's will supply both the Primary Irrigation and the Industrial Use portions of Permit G-16935 (Supplemental Irrigation).

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

SECTION 3

CLAIM DESCRIPTION

1. Point of diversion/appropriation name or number:

POINT OF DIVERSION/APPROPRIATION (POD/POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
Columbia River Station (POD #1)		N/A
Toadvin Pond (POD #2)		N/A

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of diversion/appropriation source and, if from surface water, the tributary:

POD/POA NAME OR NUMBER	SOURCE	TRIBUTARY
River Station (POD #1)	Surface Water - Columbia River	Pacific Ocean
Toadvin Pond (POD #2)	Alluvial Ground Water Directly in Connection with the Columbia River	Columbia River

3. Developed use(s), period of use, and rate for each use:

POD/POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	ACTUAL RATE OR VOLUME USED (CFS, GPM, OR AF)
River Station	Irrigation/MU	Multiple	March 1 - Oct. 31	73.3 CFS
Toadvin Pond	Irrigation/MU	Multiple	March 1 - Oct. 31	Up to 7.06 CFS
Total Quantity of Water Used				Up to 80.36 CFS

4. Provide a general narrative description of the distribution works. This description must trace the water system from each point of diversion or appropriation to the place of use:

The Columbia River Pump Station is tied to a large piping system that delivers water from the Columbia River to numerous Pivots, Solid Set, and Hand Line/Wheel Line Irrigation Systems. The Acreages are within a number of Sections that extend a couple of miles from the Columbia River. At present there is an Extension of Time Application that proposes to replace Farm Wells #4A & #5A for the Portion of the G-16935 Permit. The additional POA's will supply both the Primary Irrigation and the Industrial Use portions of Permit G-16935 (Supplemental Irrigation).

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

RECEIVED

JUN 11 2015

**WATER RESOURCES DEPT
SALEM, OREGON**

5. Variations:

Was the use developed differently from what was authorized by the permit, permit amendment final order, or extension final order? If yes, describe below.

YES

(e.g. "The permit allowed three points of diversion. The water user only developed one of the points." or "The permit allowed 40.0 acres of irrigation. The water user only developed 10.0 acres.")

T-9601 Authorized an Additional Point of Diversion POA #2 (Mining Pond) for Serving Primary Rights to the North Farm (Port of Morrow). Consistent with Order 71-353, The Port determined that it was Not in the Best Interest of the Port to Developed POA #2. The Water Quantity was sufficient but the Water Quality was not (High Nitrates). Therefore the POA #2 (Mining Pond) was Not Developed and the Diversion for the North Farm (Port of Morrow) reverts back to the Columbia River Station POD #1.

6. Claim Summary:

POD / POA NAME OR #	MAXIMUM RATE AUTHORIZED	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED	USE	# OF ACRES ALLOWED	# OF ACRES DEVELOPED
River Station POD #1	42.16 CFS IR 1.79 CFS MU	63.3 CFS	63.3 CFS	Irrigation/ MU	2183.0	2183.0
Toadvin Pond (POA #1)	7.79 CFS IR 1.79 CFS MU	12.54 CFS	2.148 CFS (1 of 4 Pumps)	Irrigation/ MU	403.2	403.2

NOTE : Columbia River Pump Station - POD #1

Typical System Operation Does Not See All 5 Pumps Running At The Same Time.

Usually Up To 3 Pumps At Any One Time and Pump #1 is Operating @ 30-60 HZ (50-100%)

At Theoretical Rate = 3 @ 23.1 CFS = 69.3 CFS

Measured Rate = 3 @ 21.1 CFS = 63.3 CFS

NOTE : Toadvin Pond Pump Station - POA #1

Typical System Operation May See All 4 Pumps Running At The Same Time.

Piping Allows for Water Use to go Direct to Irrigation, be Mixed with Wastewater Flows that are Used for Irrigation, or Direct Use to Municipal/ Industrial Sites.

At Theoretical Rate = 1 @ 1.74 CFS + 2 @ 2.80 CFS & 1 @ 5.2 CFS = 12.54 CFS

Measured Rate = Pump #1 @ 2.14 CFS

Combined Rate at approx. = 2.14 CFS + 2 @ 2.80 CFS + 5.2 CFS = 12.94 CFS

NOTE : Toadvin Pond Pump Station - POD #2

Typical System Operation May See All 4 Pumps Running At The Same Time.

Piping Allows for Water Use to go Direct to Irrigation, be Mixed with Wastewater Flows that are Used for Irrigation, or Direct Use to Municipal/ Industrial Sites.

At Theoretical Rate = 1 @ 1.74 CFS + 2 @ 2.80 CFS & 1 @ 5.2 CFS = 12.54 CFS

Measured Rate = Pump #1 @ 2.14 CFS

Combined Rate at approx. 12.94 CFS

B. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport and apply the water from the point of diversion/appropriation to the place of use.

1. Is a pump used? **YES (5 Pumps Total in Columbia River Pump Station)**

All Pumps/Motors Appear to be the Same Design with One (Pump #1) being on a Variable Frequency Drive (VFD) that Reacts to a Pressure Control on the Discharge Side of the Pump Station.

Pump Layout is - Pump #1 through Pump #5 (East to West) on the Deck over the River of the Station.

If "NO" items 2 through item 6 may be deleted.

2. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Layne & Bowels	Unknown	#1 - 70604	Turbine Pumps	12"	16"
		#2 - None		12"	16"
		#3 - 70606		12"	16"
		#4 - None		12"	16"
		#5 - 70605		12"	16"

3. Motor Information

MANUFACTURER	HORSEPOWER
All 5 - US Electrical Motors	800 HP 181 Amp @ 2300 Volt

RECEIVED

JUN 11 2015

WATER RESOURCES DEPT
SALEM, OREGON

4. Theoretical Pump Capacity

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *If A WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
5 @ 800 HP	100 PSI	14.0 Ft. (To River Level)	0 Ft. @ Gage	5@= 23.1 CFS
Total 4000 HP	100 PSI	14.0 Ft.	0 Ft. @ Gage	Total 115.5 CFS

**Typical System Operation Does Not See All 5 Pumps Running At The Same Time.
Usually Up To 3 Pumps At Any One Time and Pump #1 is Operating @ 30-60 HZ (50-100%)**

5. Provide pump calculations:

Assumed Eff. = 80% (Turbine)

100 psi (2.31) = 231 Ft. + 14.0' = 245 TDH

Theoretical Calculated Q = 800 HP x 0.8 x 3960 / 245 = 10345 GPM = 23.1 CFS

**Pump #1, Flow Test - with VFD at 60 HZ (100%) Output Pressure at 100 PSI from Transducer
283,000 Gallons in 30 Minutes = 9433 GPM (21.1 CFS)**

Assumed Eff. = 80% 245 Ft. x 9433 / 3960 x 0.8 = 730 HP - within 91% of Theoretical

Based on All Pumps Being Operationally The Same, Total Station Capacity Is 105.5 CFS

Realistically, the Station Would Operate Around 3 @ 21.1 CFS or 63.3 CFS

6. Measured Pump Capacity (using meter if meter was present and system was operating)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
10415.507 MGal	10415.790 MGal	30 Min.	9433 GPM = 21.1 CFS

Reminder: For pump calculations use the reference information at the end of this document.

7. Is the distribution system piped?

YES

If "NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Various 6" - 30"	Various	STEEL/PVC Typical	Buried

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Some but not Usual	Various		

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
Various	Various	Various			

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
Various	Various	Various		

RECEIVED

JUN 11 2015

**WATER RESOURCES DEPT
SALEM, OREGON**

12. Additional notes or comments related to the system:

I did not go out and measure any of the Pivots/Wheel Lines/Hand Lines. I relied on the Measurements at the POA for the System Rate/Capacity. In Almost All Cases, the Place of Use is Served by a Pivot of Varying Length and Flow based on the Sprinkler Package Installed on the Hardware. The Sprinkler Package Often Changes with the Crop under it at the time.

C. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)?

NO

If "NO", items 2 through 8 relating to this section may be deleted.

D. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)

NO

E. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

F. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

G. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

			TOTAL	12.45 CFS

5. Provide pump calculations: Pump #1 (Pumps Numbered East to West)**Assumed Eff. = 80% (Turbine)****65 psi (2.31) = 150.0 Ft. + 12.0 Ft. = 162.0 TDH****Theoretical Calculated Q = 40 HP x 0.8 x 3960 / 162.0 = 782 GPM = 1.74 CFS****Measured Flow Average = 958.7 GPM (2.14 CFS)****Actual Efficiency = 98% - Pump was Rebuilt and re-installed a few days before this test.**

5. Provide pump calculations: Pump #2 (Pumps Numbered East to West)

Assumed Eff. = 80% (Turbine) Lower Pressure System (25 - 30 PSI) Flow to a 200 HP Booster
27.5 psi (2.31) = 63.5 Ft. + 12.0 Ft. = 75.5 TDH
Theoretical Calculated Q = 30 HP x 0.8 x 3960 / 75.5 = 1259 GPM = 2.80 CFS
No Measured Flow

5. Provide pump calculations: Pump #3 (Pumps Numbered East to West)

Assumed Eff. = 80% (Turbine) Lower Pressure System (25 - 30 PSI) Flow to a 350 HP Booster
27.5 psi (2.31) = 63.5 Ft. + 12.0 Ft. = 75.5 TDH
Theoretical Calculated Q = 30 HP x 0.8 x 3960 / 75.5 = 1259 GPM = 2.80 CFS
No Measured Flow

5. Provide pump calculations: Pump #4 (Pumps Numbered East to West)

Assumed Eff. = 80% (Turbine) Lower Pressure System (30 PSI)
30 PSI (2.31) = 63.5 Ft. + 12.0 Ft. = 81.3 TDH
Theoretical Calculated Q = 60 HP x 0.8 x 3960 / 81.3 = 2338 GPM = 5.20 CFS
No Measured Flow

6. Measured Pump Capacity - Pump #1 (Meter Located at Coyote Springs Power Plant)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
33566607	33601313	36.2 Min.	958.7 GPM = 2.14 CFS

7. Is the distribution system piped?

YES

If "NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Various	Various	PVC Typical	Buried

RECEIVED

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
N/A			

JUN 11 2015
WATER RESOURCES DEPT
SALEM, OREGON

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
N/A					

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
N/A				

12. Additional notes or comments related to the system:

Flow Test Was For Pump #1 Only - Which Delivers Cooling Water to the Coyote Springs Power Plant (PGE). The Meter is Located Along Industrial Way Just inside the Fence at the Southwest Corner of the PGE Facility.

C. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)?
edge of an Open Pond

YES - Groundwater via Sump in the

If "NO", items 2 through 8 relating to this section may be deleted.

2. Describe the access port (type and location) or other means to measure the water level in the well:

10' Diameter Sump with Direct Access to the Water Level Below

3. If well logs are not available, provide as much of the following information as possible:

CASING DIAMETER	CASING DEPTH	TOTAL DEPTH	COMPLETION DATE OF ORIGINAL WELL	COMPLETION DATES OF ALTERATIONS	WHO THE WELL WAS DRILLED FOR	WELL DRILLED BY
10 Ft.						

4. In addition to the information requested in item "3" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

N/A

5. Is the appropriation from a dug well (sump)?

NO

D. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)

NO

E. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

F. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

G. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

RECEIVED

JUN 11 2015

WATER RESOURCES DEPT
SALEM, OREGON

SECTION 5

CONDITIONS

All conditions contained in the permit, permit amendment, transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits, transfer final orders, and any extension final orders contain any or all of the following dates: the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit, extension or transfer final order:

	DATE FROM PERMIT OR TRANSFER	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	Nov. 29, 2004		
BEGIN CONSTRUCTION (A)		4-01-2005	Start POA Improvements
COMPLETE CONSTRUCTION (B)	Oct. 01, 2006	Oct. 01, 2009	End Construction
COMPLETE APPLICATION OF WATER (C)	Oct. 01, 2006	Oct. 01, 2009	Submit COBU 05-01-2015

* MUST BE WITHIN PERIOD BETWEEN PERMIT, TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETELY APPLY WATER

2. Is there an extension final order(s)?

NO

If "NO", you may delete item 3 in this section.

3. If for a transfer extension order, provide the following information:

VOLUME	PAGE	DATE EXTENDED TO
71	353	Oct. 01, 2010

4. Initial Water Level Measurements:

a. Was the water user required to submit an initial static water level measurement?

RECEIVED

NO

If "NO", items 4b through 4d relating to this section may be deleted.

b. What month was the initial measurement to be taken in?

JUN 11 2015

c. Was the measurement submitted to the Department?

**WATER RESOURCES DEPT
SALEM, OREGON**

NO

d. If the initial measurement was not submitted, provide that measurement now, if available:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT

5. Annual Static Water Level Measurements:

a. Was the water user required to submit annual static water level measurements?

NO

If "NO", items 5b through 5e relating to this section may be deleted.

6. Pump Test (Required for most ground water permits prior to issuance of a certificate)

a. Did the permit require the submittal of a pump test?

NO

If "NO", items 6b through 6e relating to this section may be deleted.

b. Has the pump test been previously submitted to the Department?

NO

c. Is the pump test attached to this claim?

NO

d. Has the pump test been approved by the Department?

NO

e. Has a pump test exemption been approved by the Department?

N/A

7. Measurement Conditions:

a. Does the permit, permit amendment, transfer final order, or any extension final order require the installation of a meter or approved measuring device?

YES

If "NO", items 7b through 7f relating to this section may be deleted.

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

b. Has a meter been installed?

YES

c. Meter Information

SEE COBU MAP FOR MORE DETAILS

If a meter has been installed, items 7d through 7f relating to this section may be deleted.

8. Recording and reporting conditions

a. Is the water user required to report the water use to the Department?

RECEIVED

**YES
JUN 11 2015**

If "NO", item 8b relating to this section may be deleted.

**WATER RESOURCES DEPT
SALEM, OREGON**

b. Have the reports been submitted?

YES

METHOD OF SUBMITTING REPORT (PAPER OR ELECTRONIC)	WATER USER REPORTING ID
Both Paper & Electronic in the Past	1513

If the reports have not been submitted, attach a copy of the reports if available.

9. Fish Screening

a. Are any points of diversion required to be screened to prevent fish from entering the point of diversion?

YES - Screening Previously Approved by ODFW

10. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?

NO

If "NO", items 10b and 10c relating to this section may be deleted.

11. Other conditions required by permit, permit amendment final order, extension final order, or transfer final order:

a. Were there special well construction standards?

NO

b. Was submittal of a ground water monitoring plan required?

NO

c. Was the water user required to restore the riparian area if it was disturbed?

NO

d. Was a fishway required?

NO

e. Was submittal of a letter from an engineer required prior to storage of water?

NO

f. Was submittal of a water management and conservation plan required?

YES/NO

g. Other conditions?

NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

Original POD (Columbia River, POD #1) Required to Have Approved Fish Screens.
Current Fish Screen Meet ODFW Approval.
Water Management & Conservation Plan Not Required Specifically by this Transfer or but Required of the Port. Submitted and Approved by OWRD on January 18, 2008
Special Order Vol. 74, Page 69
Valid through November 30, 2017

SECTION 3

CLAIM DESCRIPTION

1. Point of diversion/appropriation name or number:

POINT OF DIVERSION/APPROPRIATION (POD/POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)
Columbia River Station (POD #1)		N/A
Toadvin Pond (POA #1)		N/A

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepenings)

2. Point of diversion/appropriation source and, if from surface water, the tributary:

POD/POA NAME OR NUMBER	SOURCE	TRIBUTARY
River Station (POD #1)	Surface Water - Columbia River	Pacific Ocean
Toadvin Pond (POA #1)	Alluvial Ground Water Directly in Connection with the Columbia River	Columbia River

3. Developed use(s), period of use, and rate for each use:

POD/POA NAME OR NUMBER	USES	IF IRRIGATION, LIST CROP TYPE	SEASON OR MONTHS WHEN WATER WAS USED	ACTUAL RATE OR VOLUME USED (CFS, GPM, OR AF)
River Station	Irrigation/MU	Multiple	March 1 - Oct. 31	63.3 CFS
Toadvin Pond POA #1	Irrigation/MU	Multiple	March 1 - Oct. 31	12.54 CFS
Total Quantity of Water Used				75.84 CFS

4. Provide a general narrative description of the distribution works. This description must trace the water system from **each point of diversion or appropriation to the place of use:**

The Columbia River Pump Station is tied to a large piping system that delivers water from the Columbia River to numerous Pivots, Solid Set, and Hand Line/Wheel Line Irrigation Systems. The Acreages are within a number of Sections that extend a couple of miles from the Columbia River. At present there is an Extension of Time Application that proposes to replace Farm Wells #4A & #5A for the Portion of the G-16935 Permit. The additional POA's will supply both the Primary Irrigation and the Industrial Use portions of Permit G-16935 (Supplemental Irrigation).

Reminder: The map associated with this claim must identify the location of the point(s) of diversion, Donation Land Claims (DLC), Government Lots (GLot), and Quarter-Quarters (QQ).

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

5. Variations:

Was the use developed differently from what was authorized by the permit, permit amendment final order, or extension final order? If yes, describe below.

YES

(e.g. "The permit allowed three points of diversion. The water user only developed one of the points." or "The permit allowed 40.0 acres of irrigation. The water user only developed 10.0 acres.")

T-9601 Authorized an Additional Point of Diversion POA #2 (Mining Pond) for Serving Primary Rights to the North Farm (Port of Morrow). Consistent with Order 71-353, The Port determined that it was Not in the Best Interest of the Port to Developed POA #2. The Water Quantity was sufficient but the Water Quality was not (High Nitrates). Therefore the POA #2 (Mining Pond) was Not Developed and the Diversion for the North Farm (Port of Morrow) reverts back to the Columbia River Station POD #1.

6. Claim Summary:

POD / POA NAME OR #	MAXIMUM RATE AUTHORIZED	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED	USE	# OF ACRES ALLOWED	# OF ACRES DEVELOPED
River Station POD #1	42.16 CFS IR 1.79 CFS MU	63.3 CFS	63.3 CFS	Irrigation/ MU	2183.0	2183.0
Toadvin Pond (POA #1)	7.79 CFS IR 1.79 CFS MU	12.54 CFS	2.148 CFS (1 of 4 Pumps)	Irrigation/ MU	403.2	403.2

NOTE : Columbia River Pump Station - POD #1

Typical System Operation Does Not See All 5 Pumps Running At The Same Time.

Usually Up To 3 Pumps At Any One Time and Pump #1 is Operating @ 30-60 HZ (50-100%)

At Theoretical Rate = 3 @ 23.1 CFS = 69.3 CFS

Measured Rate = 3 @ 21.1 CFS = 63.3 CFS

NOTE : Toadvin Pond Pump Station - POA #1

Typical System Operation May See All 4 Pumps Running At The Same Time.

Piping Allows for Water Use to go Direct to Irrigation, be Mixed with Wastewater Flows that are Used for Irrigation, or Direct Use to Municipal/ Industrial Sites.

At Theoretical Rate = 1 @ 1.74 CFS + 2 @ 2.80 CFS & 1 @ 5.2 CFS = 12.54 CFS

Measured Rate = Pump #1 @ 2.14 CFS

Combined Rate at approx. = 2.14 CFS + 2@ 2.80 CFS + 5.2 CFS = 12.94 CFS

B. Diversion and Delivery System Information

Provide the following information concerning the diversion and delivery system. Information provided must describe the equipment used to transport and apply the water from the point of diversion/appropriation to the place of use.

1. Is a pump used? **YES (5 Pumps Total in Columbia River Pump Station)**

All Pumps/Motors Appear to be the Same Design with One (Pump #1) being on a Variable Frequency Drive (VFD) that Reacts to a Pressure Control on the Discharge Side of the Pump Station.

Pump Layout is - Pump #1 through Pump #5 (East to West) on the Deck over the River of the Station.

If "NO" items 2 through item 6 may be deleted.

2. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Layne & Bowels	Unknown	#1 - 70604	Turbine Pumps	12"	16"
		#2 - None		12"	16"
		#3 - 70606		12"	16"
		#4 - None		12"	16"
		#5 - 70605		12"	16"

3. Motor Information

MANUFACTURER	HORSEPOWER
All 5 - US Electrical Motors	800 HP 181 Amp @ 2300 Volt

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

4. Theoretical Pump Capacity

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *IF A WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
5 @ 800 HP	100 PSI	14.0 Ft. (To River Level)	0 Ft. @ Gage	5@ = 23.1 CFS
Total 4000 HP	100 PSI	14.0 Ft.	0 Ft. @ Gage	Total 115.5 CFS

Typical System Operation Does Not See All 5 Pumps Running At The Same Time.

Usually Up To 3 Pumps At Any One Time and Pump #1 is Operating @ 30-60 HZ (50-100%)

5. Provide pump calculations:

Assumed Eff. = 80 % (Turbine)

100 psi (2.31) = 231 Ft. + 14.0' = 245 TDH

Theoretical Calculated Q = 800 HP x 0.8 x 3960 / 245 = 10345 GPM = 23.1 CFS

Pump #1, Flow Test - with VFD at 60 HZ (100%) Output Pressure at 100 PSI from Transducer
283,000 Gallons in 30 Minutes = 9433 GPM (21.1 CFS)

Assumed Eff. = 80 % 245 Ft. x 9433 / 3960 x 0.8 = 730 HP - within 91 % of Theoretical

Based on All Pumps Being Operationally The Same, Total Station Capacity Is 105.5 CFS

Realistically, the Station Would Operate Around 3 @ 21.1 CFS or 63.3 CFS

6. Measured Pump Capacity (using meter if meter was present and system was operating)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
10415.507 MGal	10415.790 MGal	30 Min.	9433 GPM = 21.1 CFS

Reminder: For pump calculations use the reference information at the end of this document.

7. Is the distribution system piped?

YES

If "NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Various 6" - 30"	Various	STEEL/PVC Typical	Buried

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Some but not Usual	Various		

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
Various	Various	Various			

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
Various	Various	Various		

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

12. Additional notes or comments related to the system:

I did not go out and measure any of the Pivots/Wheel Lines/Hand Lines. I relied on the Measurements at the POA for the System Rate/Capacity. In Almost All Cases, the Place of Use is Served by a Pivot of Varying Length and Flow based on the Sprinkler Package Installed on the Hardware. The Sprinkler Package Often Changes with the Crop under it at the time.

C. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)?

NO

If "NO", items 2 through 8 relating to this section may be deleted.

D. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)

NO

E. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

F. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

If "NO", items 2 through 4 relating to this section may be deleted.

G. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Pomona Pump 1200 RPM	Unknown	Unknown	TURBINE	12"	16"

3-2. Motor #2 Information

MANUFACTURER	HORSEPOWER
GE Motors	30 HP 42 Amp @ 460 Volt

2-3. Pump #3 Information (Pumps Numbered East to West)

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Unknown 1190 RPM	Unknown	Unknown	TURBINE	12"	16"

3-3. Motor #3 Information

MANUFACTURER	HORSEPOWER
US Electric Motors	30 HP 38 Amp @ 460 Volt

2-4. Pump #4 Information (Pumps Numbered East to West)

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Layne - Bowler 1800 RPM	Unknown	73514	TURBINE	8"	6"

3-4. Motor #4 Information

MANUFACTURER	HORSEPOWER
WEG Motors	60 HP 73 Amp @ 460 Volt

4. Theoretical Pump Capacity - Pump #1 (Pumps Numbered East to West)

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *If a WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
40 HP	65.0 PSI	12 Ft.	0 Ft. @ Gage	782 = 1.74 CFS
30 HP	27.5 PSI	12 Ft.	0 Ft. @ Gage	1259 = 2.80 CFS
30 HP	27.5 PSI	12 Ft.	0 Ft. @ Gage	1259 = 2.80 CFS
60 HP	30.0 PSI	12 Ft.	0 Ft. @ Gage	2338 = 5.20 CFS
			TOTAL	12.54 CFS
			Total/Flow Meas. (2.14 CFS)	12.94 CFS

5. Provide pump calculations: Pump #1 (Pumps Numbered East to West)

Assumed Eff. = 80% (Turbine)

65 psi (2.31) = 150.0 Ft. + 12.0 Ft. = 162.0 TDH

Theoretical Calculated Q = 40 HP x 0.8 x 3960 / 162.0 = 782 GPM = 1.74 CFS

Measured Flow Average = 958.7 GPM (2.14 CFS)

Actual Efficiency = 98% - Pump was Rebuilt and re-installed a few days before this test.

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

5. Provide pump calculations: **Pump #2 (Pumps Numbered East to West)**

Assumed Eff. = 80% (Turbine) Lower Pressure System (25 - 30 PSI) Flow to a 200 HP Booster
 27.5 psi (2.31) = 63.5 Ft. + 12.0 Ft. = 75.5 TDH
 Theoretical Calculated Q = 30 HP x 0.8 x 3960 / 75.5 = 1259 GPM = 2.80 CFS
 No Measured Flow

5. Provide pump calculations: **Pump #3 (Pumps Numbered East to West)**

Assumed Eff. = 80% (Turbine) Lower Pressure System (25 - 30 PSI) Flow to a 350 HP Booster
 27.5 psi (2.31) = 63.5 Ft. + 12.0 Ft. = 75.5 TDH
 Theoretical Calculated Q = 30 HP x 0.8 x 3960 / 75.5 = 1259 GPM = 2.80 CFS
 No Measured Flow

RECEIVED

5. Provide pump calculations: **Pump #4 (Pumps Numbered East to West)**

Assumed Eff. = 80% (Turbine) Lower Pressure System (30 PSI)
 30 PSI (2.31) = 63.5 Ft. + 12.0 Ft. = 81.3 TDH
 Theoretical Calculated Q = 60 HP x 0.8 x 3960 / 81.3 = 2338 GPM = 5.20 CFS
 No Measured Flow

FEB 25 2016

WATER RESOURCES DEPT
 SALEM, OREGON

6. Measured Pump Capacity - **Pump #1 (Meter Located at Coyote Springs Power Plant)**

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
33566607	33601313	36.2 Min.	958.7 GPM = 2.14 CFS

7. Is the distribution system piped?

YES

If "NO" items 8 through item 11 may be deleted.

8. Mainline Information

MAINLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
Various	Various	PVC Typical	Buried

9. Lateral or Handline Information

LATERAL OR HANDLINE SIZE	LENGTH	TYPE OF PIPE	BURIED OR ABOVE GROUND
N/A			

10. Sprinkler Information

SIZE	OPERATING PSI	SPRINKLER OUTPUT (GPM)	TOTAL NUMBER OF SPRINKLERS	MAXIMUM NUMBER USED	TOTAL SPRINKLER OUTPUT (CFS)
N/A					

Reminder: For sprinkler output determination use the reference information at the end of this document.

11. Pivot Information

MANUFACTURER	MAXIMUM WETTED RADIUS	OPERATING PSI	TOTAL PIVOT OUTPUT (GPM)	TOTAL PIVOT OUTPUT (CFS)
N/A				

12. Additional notes or comments related to the system:

Flow Test Was For Pump #1 Only - Which Delivers Cooling Water to the Coyote Springs Power Plant (PGE). The Meter is Located Along Industrial Way Just inside the Fence at the Southwest Corner of the PGE Facility.

C. Groundwater Source Information (Well and Sump)

1. Is the appropriation from ground water (well or sump)?

YES - Groundwater via Sump in the

edge of an Open Pond

If "NO", items 2 through 8 relating to this section may be deleted.

2. Describe the access port (type and location) or other means to measure the water level in the well:

10' Diameter Sump with Direct Access to the Water Level Below

3. If well logs are not available, provide as much of the following information as possible:

CASING DIAMETER	CASING DEPTH	TOTAL DEPTH	COMPLETION DATE OF ORIGINAL WELL	COMPLETION DATES OF ALTERATIONS	WHO THE WELL WAS DRILLED FOR	WELL DRILLED BY
10 Ft.						

4. In addition to the information requested in item "3" above, provide any other information which may help the Department locate any well logs associated with this appropriation.

N/A

5. Is the appropriation from a dug well (sump)?

NO

D. Storage

1. Does the distribution system include in-system storage (e.g. storage tank, bulge in system / reservoir)

NO

E. Gravity Flow Pipe

(THE DEPARTMENT TYPICALLY USES THE HAZEN-WILLIAM'S FORMULA FOR A GRAVITY FLOW PIPE SYSTEM)

1. Does the system involve a gravity flow pipe?

NO

F. Gravity Flow Canal or Ditch

(THE DEPARTMENT TYPICALLY USES MANNING'S FORMULA FOR CANALS AND DITCHES)

1. Is a gravity flow canal or ditch used to convey the water as part of the distribution system?

NO

G. Reservoir

1. Does the claim involve a reservoir modified through a transfer?

NO

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

SECTION 5 CONDITIONS

All conditions contained in the permit, permit amendment, transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Permits, transfer final orders, and any extension final orders contain any or all of the following dates: the date when the actual construction work was to begin, the date when the construction was to be completed, and the date when the complete application of water to the proposed use was to be completed. These dates may be referred to as ABC dates. Describe how the water user has complied with each of the development timelines established in the permit, extension or transfer final order:

	DATE FROM PERMIT OR TRANSFER	DATE ACCOMPLISHED*	DESCRIPTION OF ACTIONS TAKEN BY WATER USER TO COMPLY WITH THE TIME LIMITS
ISSUANCE DATE	Nov. 29, 2004		
BEGIN CONSTRUCTION (A)		4-01-2005	Start POA Improvements
COMPLETE CONSTRUCTION (B)	Oct. 01, 2006	Oct. 01, 2009	End Construction
COMPLETE APPLICATION OF WATER (C)	Oct. 01, 2006	Oct. 01, 2009	Submit COBU 05-01-2015

* MUST BE WITHIN PERIOD BETWEEN PERMIT, TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETELY APPLY WATER

2. Is there an extension final order(s)?

NO

If "NO", you may delete item 3 in this section.

3. If for a transfer extension order, provide the following information:

VOLUME	PAGE	DATE EXTENDED TO
71	353	Oct. 01, 2010

4. Initial Water Level Measurements:

a. Was the water user required to submit an initial static water level measurement?

NO

If "NO", items 4b through 4d relating to this section may be deleted.

b. What month was the initial measurement to be taken in?

c. Was the measurement submitted to the Department?

NO

d. If the initial measurement was not submitted, provide that measurement now, if available:

DATE OF MEASUREMENT	MEASUREMENT MADE BY	METHOD	MEASUREMENT

5. Annual Static Water Level Measurements:

a. Was the water user required to submit annual static water level measurements?

NO

If "NO", items 5b through 5e relating to this section may be deleted.

RECEIVED

FEB 25 2016

WATER RESOURCES DEPT
SALEM, OREGON

6. Pump Test (Required for most ground water permits prior to issuance of a certificate)

a. Did the permit require the submittal of a pump test?

NO

If "NO", items 6b through 6e relating to this section may be deleted.

b. Has the pump test been previously submitted to the Department?

NO

c. Is the pump test attached to this claim?

NO

d. Has the pump test been approved by the Department?

NO

e. Has a pump test exemption been approved by the Department?

N/A

7. Measurement Conditions:

a. Does the permit, permit amendment, transfer final order, or any extension final order require the installation of a meter or approved measuring device?

YES

If "NO", items 7b through 7f relating to this section may be deleted.

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

b. Has a meter been installed?

YES

c. Meter Information

SEE COBU MAP FOR MORE DETAILS

If a meter has been installed, items 7d through 7f relating to this section may be deleted.

8. Recording and reporting conditions

a. Is the water user required to report the water use to the Department?

RECEIVED **YES**

If "NO", item 8b relating to this section may be deleted.

FEB 25 2016

**WATER RESOURCES DEPT
SALEM, OREGON**

b. Have the reports been submitted?

YES

METHOD OF SUBMITTING REPORT (PAPER OR ELECTRONIC)	WATER USER REPORTING ID
Both Paper & Electronic in the Past	1513

If the reports have not been submitted, attach a copy of the reports if available.

9. Fish Screening

a. Are any points of diversion required to be screened to prevent fish from entering the point of diversion?

YES - Screening Previously Approved by ODFW

10. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?

NO

If "NO", items 10b and 10c relating to this section may be deleted.

11. Other conditions required by permit, permit amendment final order, extension final order, or transfer final order:

a. Were there special well construction standards?

NO

b. Was submittal of a ground water monitoring plan required?

NO

c. Was the water user required to restore the riparian area if it was disturbed?

NO

d. Was a fishway required?

NO

e. Was submittal of a letter from an engineer required prior to storage of water?

NO

f. Was submittal of a water management and conservation plan required?

YES/NO

g. Other conditions?

NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

**Original POD (Columbia River, POD #1) Required to Have Approved Fish Screens.
Current Fish Screen Meet ODFW Approval.
Water Management & Conservation Plan Not Required Specifically by this Transfer or but Required of the Port. Submitted and Approved by OWRD on January 18, 2008

Attachments: COBU T-9601.doc

Kerry,
I cleaned up the COBU Report to change Toadvin Pond to POA #1, and the change for the CFS on both POD #1 & POA #1.
I can send a preliminary new COBU Map as well?
Thanks!
Ron

Subject: RE: RA Project R12312-17 Port of Morrow involving transfer application T-9601 -- please review the proposed draft certificate and reversion order

Hi Ron,

Thank you for your detailed email.

First item – 7.79 CFS from Toadvin Pond for IR of 403.2 acres – I will make this change in the draft proposed certificate – please send superseding applicable pages from the Claim of Beneficial Use (Claim) report – I will then insert the new pages into the Claim report. You may also update the rates for the Columbia River Station as you have described. I agree that the ultimate rate allowed for the Columbia River Station will not change in the draft proposed certificate.

Second Item – I went with your Claim map to describe the specific distribution of acres. I wasn't quite sure how to address the discrepancies with the transfer final order – so I tried to follow through with the Claimed acres per Q-Q in both the draft proposed certificate and the reversion order. I will change the acreage to 0.4 acres in NESE and 29.4 acres in NWSE, Section 5, T4N, R26E, W.M. in the table in Item 6 of the reversion order. Thank you.

Third Item – labeling of Toadvin Pond POA - Thank you for your flexibility in identifying the POA at Toadvin Pond – I will proceed with labeling this POA as "POA 1".

Once I receive the revised pages of the Claim report, I will send you a DRAFT 2 of the certificate and order. Then, after you review these 2nd drafts, we can discuss the finalization of the mylar Claim map.

Thanks for your help with this Ron!

Kerry

Subject: RE: RA Project R12312-17 Port of Morrow involving transfer application T-9601 -- please review the proposed draft certificate and reversion order

Kerry,

I've gone through both the proposed Reversion Order and the Draft Certificate and have just some minor edits/questions - then I think they're both ready.

On the Draft Cert., Page 1, The Maximum Rates are listed as :

43.95 CFS From Columbia River, being 42.16 CFS for Irrigation of 2183.0 Ac. and no more than 1.79 CFS for MU, Further limited to 417.6 Ac-Ft per the Season of use, And 7.06 CFS form POA #1 - Toadvin Pond for Irrigation of 403.2 Ac.

I checked the Cert. Draft Rates with the COBU Report to find that I made a mistake on one of the rates.

If you look at the COBU I submitted, Section 3 (3), I listed River Station at 73.3 CFS and Toadvin Pond as up to 7.06 CFS but under Section 3 (6) Claim Summary, I listed the River Station as (Water Measured) 63.3 CFS and Toadvin Pond as (Calculated) 12.54 CFS, (Measured - 1 of 4 Pumps) 2.148 CFS. (I Only Measured the Flow from one of the 4 Pumps) - Note that this same information is found in Section 4 for Toadvin Pond to support Section 3 (6).

Realistically, I should have had, in Section 3 (3) , River Station as 63.3 CFS and Toadvin Pond as 12.54 CFS. I know that the ultimate Cert. Rate of the Columbia River Station would not be effected by the error but the Cert. Rate for Toadvin Pond would be, and should be listed as 7.79 CFS in the Draft Cert.

Let me know if I need to send you a revised COBU showing the correction.

On the Reversion Order: The Acreage in the following Sections are not the same as the Certificate and it could be that they mimic the Transfer Order, 62-236, then again not??

4N 26 5 NE SE - (Order 62-236) 1.4 Ac, (Reversion Order) 1.4 Ac., (Cert. Draft) 0.4 Ac.

4N 26 5 NW SE - ((Order 62-236) 28.4 Ac, (Reversion Order) 28.4 Ac., (Cert. Draft) 29.4 Ac.

The Cert. Draft Matches my COBU Map so I'm OK with however the Reversion Order Needs to match either the Order 62-236 or the Cert.

4N 26 9 NW NE - (Order 62-236) 2.7 Ac, (Reversion Order) 2.8 Ac., (Cert. Draft) 2.8 Ac.

4N 26 9 SW NE - (Order 62-236) 36.0 Ac, (Reversion Order) 35.9 Ac., (Cert. Draft) 35.9 Ac.

The Cert. Draft Matches my COBU Map so I'm OK with however the Reversion Order Needs to match either the Oder 62-236 or the Cert. - I just know that it probably isn't consistent between the two examples.

On the Issue of Toadvin Pond being POA #1 or POA #2, I'm OK either way so I can send you a new COBU Map labeled appropriately - and I can also send a revised COBU Report to reflect the change in POA #1 for Toadvin Pond along with the correction to Table 3 (3) for both the Columbia River Station and Toadvin Pond.

That's all I have to comment on - let me know your thoughts.

Thanks!

Ron

Subject: RA Project R12312-17 Port of Morrow involving transfer application T-9601 -- please review the proposed draft certificate and reversion order

Hello Ron,

Please find attached to this email the draft proposed certificate for transfer application T-9601. Please review the draft proposed certificate and compare it to the transfer final order for accuracy and completeness. Also see the associated order describing the reversion that Kelly Starnes has reviewed.

For your convenience, here is a link to information regarding transfer application T-9601 in the Department's Water Rights Information System (WRIS) database:

http://apps.wrd.state.or.us/apps/wr/wrinfo_stage/wr_transfer_centric.aspx?transfer_nbr=9601&transfer_char=T

Click on "62-236 " under Volume-Page to view the transfer final order.

As you may recall, you submitted a revised Claim of Beneficial map via email on August 14, 2015 which showed the Government Lots. The August 14, 2015 Claim map describes the point of appropriation from Toadvin Pond as POD #2. I think for consistency with the transfer final order, the reversion order, and the attached draft proposed certificate, that it would be better to describe the point of appropriation as POA #1 – Toadvin Pond on the Claim map. If you don't agree, then I will need to revise the notation of the point of appropriation on the attached draft proposed certificate. Please let me know what you think....then the Claim map can be finalized.

Please provide me your comments or edits, should you have any. If you agree with the draft proposed certificate and let me know this, then I can proceed to issue a certificate without waiting the standard 60-day notice period.

Thank you for your patience.

Kerry

Subject: RA Agreement for Port of Morrow R12312-17 involving transfer application T-9601

Hello Ron,

Attached are copies of the fully executed Applicant's Agreement signed by the required parties and a receipt for the monies paid for these expedited services. The agreement details the terms and conditions that a work order was issued for the expedited services you requested.

In reviewing the Claim of Beneficial Use report and map, I noticed that the place of use listing for irrigated areas include Gov't Lots, but the map does not show the Gov't Lots. **Please provide a revised map which shows Gov't Lots for the irrigated place of use.**

If you have any questions, please contact me.

On June 11, 2015 the Water Resources Department received the Claim of Beneficial Use (COBU) for the following file(s):

T-9601

The COBU included a report and map. The Department hopes to review your submittal within approximately 2 - 4 years. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at:
http://www.wrd.state.or.us/OWRD/mgmt_reimbursement_authority.shtml

For all other questions please call our Customer Service phone: (503) 986-0811.

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

From: Mike Zwart

Subject: Review of Transfer File T-9601, Port of Morrow

I have been assigned the above transfer for injury review. Unfortunately, I cannot yet complete such a review without more information. The proposal is, in part, a surface water to ground water transfer, apparently including a number of wells. Most of these are outside the area in which it could be approved without "...evidence prepared by a licensed geologist..." pursuant to ORS 540.531(2)(b). Also, the information provided did not include any Water Well Reports or other construction details as required in the "Exhibits" portion of the application. The applicant did not mark the application as including this, so I am presuming that none was. Please resolve this with the applicant and return the review form to me when we receive the necessary information.

STATE OF OREGON

COUNTY OF

MORROW

CERTIFICATE OF WATER RIGHT

This Is to Certify, ThatPRUDENTIAL INSURANCE COMPANY
OF AMERICA

of PO Box 3048, Pasco, State of Washington 99302, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Columbia River

a tributary of Pacific Ocean for the purpose of
irrigation of 2884.1 acres and supplemental irrigation of 1074.4 acres

under Permit No. 35694 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
November 5, 1971

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
76.4 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the Lot 3 (SW 1/4 SE 1/4), Section 35, T5N,
R25E, WM; 80 feet North and 2480 feet West from SE Corner, Section 35

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further
limited to a diversion of not to exceed 4 1/2 acre-feet per acre for each
acre irrigated during the irrigation season of each year

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

REFERENCE: Transfer 9601

On 11/14/03 we received your water right transfer application requesting a change in **place of use and an additional point of diversion, surface to ground water** for use of water from **Columbia River**. The application was accompanied by \$ **4200.00**. Our receipt **64313** is enclosed.

By copy of this letter, we are asking the Watermaster for his usual report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

You may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, you will need to obtain consent from the buyer to complete the transfer.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503) 986-0900.

(SIGNATURE)

signed by injury reviewer

date signed

SUBJECT:

WATER RIGHT TRANSFER # 9601

A change in:

POD

APOD

POA

USE

of water.

SW to GW

In the name(s) of

Port of Morrow

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY

WOULD RESULT IN INJURY* to an existing water

right.

*The approval of this transfer application would result in injury to other water rights because _____

The existing right may not be valid because _____

Headgate notices HAVE

HAVE NOT

Been issued for diversion from the source(s) which

serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

The authorized place of use is located as follows:

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PRUDENTIAL INSURANCE COMPANY OF AMERICA
P.O. BOX 3048
PASCO, WASHINGTON 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 2721.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 1074.4 ACRES.

This right was perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 73.3 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 3 (SW $\frac{1}{4}$ SE $\frac{1}{4}$), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $\frac{4}{5}$ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

PRIMARY IRRIGATION

LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$)	39.0 ACRES	LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$)	40.9 ACRES

This certificate correctly describes that portion of the water right NOT modified by the provisions of an order of the Water Resources Director entered March 18, 1999, approving Transfer Application 7941, and supercedes Certificate 76044, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources

Director, affixed DEC 16 1999.

ORDER APPROVING A CHANGE IN PLACE OF USE

Pursuant to ORS 540.510 to 540.530, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, TRANSFER 7941 submitted by

LOGAN FARMS, INC.
77661 PATERSON FERRY ROAD
IRRIGON, OREGON 97844.

The right to be modified, as evidenced by a portion of Certificate 51913, was perfected under Permit 35694 with a date of priority of NOVEMBER 5, 1971. The right allows the use of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 163.0 ACRES. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 3.1 cubic feet per second, if available at the authorized point of diversion: LOT 3 (SW¼ SE¼), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35, or its equivalent in case of rotation, measured at the point of diversion from the source.

The amount of water used for irrigation, together with the amount secured under an other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4¼ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

PUBLIC NOTICE

Notice of Preliminary Determinations for Water Right Transfer T-9601

T-9601 filed by Port of Morrow, proposes a change in point of diversion from surface water to ground water, place of use, and character of use under Certificate 76360 and a change in place of use under Permit G-12729.

Certificate 76360 allows the use of 51.74 cfs (priority date November 5, 1971) from a diversion in Sec. 3, T5N, R25E, W.M. (Umatilla Basin) for irrigation in Sec. 1, 2 and 12, T4N, R25E; Sec. 35, T5N, R25E; and Sec. 4, 5, 6, 7, 8 and 9, T4N, R26E, W.M. The applicant proposes to change the point of diversion to two

points of appropriation: North Farm-location approximately 2175 feet east (Sec. 35, T5N, R25E, W.M.), South Farm-location approximately 10,000 feet southwest (Sec. 10, T4N, R25E, W.M.); to change the place of use to Sec. 1, 2, 12 and 23, T4N, R25E; and Sec. 4, 5, 6, 7, 8 and 9, T4N, R26E, W.M.; and to change the character of use of a portion of the right to municipal use.

Permit G-12729 allows the use of 6.35 cfs (priority date January 22, 1993) from wells in Sec. 1 and 10, T4N, R25E, W.M. for supplemental irrigation in Sec. 1, 12, T4N, R25E, W.M., Sec. 35, T5N, R25E, W.M., Sec. 6 and 7, T4N, R26E, W.M. The applicant proposes to change the place of use to Sec. 1 and 12, T4N, R25E; and Sec. 6 and 7, T4N, R26E, W.M.

The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may file, jointly or severally, with the Department a protest or standing statement within 30 days after the date of final publication of notice in the Department's weekly notice or of this newspaper notice, whichever is later.

This certificate describes that portion of the water right confirmed by Certificate 76360, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered _____, approving Transfer Application 9601.

The issuance of this superceding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture of abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands of place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

Witness the signature of the Water Resources Directory, affixed _____.

**AFFIDAVIT FOR THE PARTIAL DIMINUTION OF A
WATER RIGHT CERTIFICATE**

State of Oregon)
County of MORROW) ss
)

I/We (or authorized agent), PORT OF MORROW,
residing at P.O. BOX 200, #2 MARINE DRIVE, BOARDMAN, OREGON 97818,
telephone number 514-481-7678, being first duly sworn depose and say:

1. I/We are the legal owner(s) of the property described as tax lot number 4N - 25 - 1700, within the ALL $\frac{1}{4}$ $\frac{1}{4}$, Section 24, Township 4 N N/S, Range 25 E E/W, of the Willamette Meridian, in MORROW County, Oregon, as shown on the attached map and described in the attached deed and legal description and made part of this affidavit;
2. A portion of water right certificate number 51913 issued to Prudential Insurance Co. of America, with a date of priority of 11/ 05 /71 for use of 76.4 cubic foot per second of water from COLUMBIA RIVER (sources) for the purpose of IRRIGATION (uses) is appurtenant to my/our property;
3. I/We have obtained a Closer / ON-Site / Wastewater (e.g., better, more economical) source of water for the primary irrigation of the portion of this water right shown on the attached map and described as follows:
The right to the use of 0.44 cubic foot per second from Unnamed Stream Tributary to Juniper Canyon for the irrigation of 35.0 acres located:

<u>NW</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>4.8</u> Acres
<u>SW</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>26.0</u> Acres
<u>SE</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>4.2</u> Acres

Section 24
Township 4 N N/S, Range 25 EE/W, WM;
4. I/we request the water right be diminished from a right for primary irrigation to a right for supplemental irrigation of the above described lands;
5. The appurtenant water right is/is not located within the boundaries of an irrigation district (if the right is located within a district, name it here: N/A); and

PAYMENT IN

In order to avoid interest charges and receive applicable discounts, you need to follow the payment schedule shown at the right. All overpayments from value appeal reductions will be refunded.

Mailed payments **must have a postmark or transmittal date on or before the tax due date shown on the front of the tax statement** to be eligible for discount. U.S. Postal Service postmark date or private express carrier transmittal date will be considered the date received.

All payments should be made to the name and address shown in the area "Please Make Payment To" on the front of the tax statement. Please send only a check or money order. **DO NOT** mail cash. **Your cancelled check is your receipt.**

Payments for property taxes must be credited to the earliest year for which taxes are due on the property for which payments are being made. This could affect your property tax discount (ORS 311.356(2)). Returned checks may result in loss of the discount.

Individual tax statements for less than \$40 must be paid in full (ORS 311.505).

Payment Schedules

Property taxes may be paid in installment payments using the following schedules. Some discounts are allowed de

Supplemental Irrigation

Source of Water: COLUMBIA RIVER County: MORROW

Are there other sources listed on the water right? Yes ☒ No

Location of Authorized Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
110' N & 180' W OF SE Cor, S35	SE SE	Section 35	T 5 N	R 25 E

Location of Authorized Place of Use: *(Only list portion of water right subject to transfer)*

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR			LOCATION OF AUTHORIZED PLACE OF USE			

Are there other lands described in the water right? X Yes No

Are there other water rights or permits associated with this land? X Yes No
 (e.g., supplemental water rights) If yes, attach a copy of all rights or permits.

Describe the current water delivery system (n/a Permit Amendment). The description must demonstrate that the applicant is ready, willing, and able to exercise the right. Include information on the capacity of any pumps, canals, and pipelines used to divert and convey the water to the authorized place of use.

PUMPS ARE LOCATED ON THE COLUMBIA RIVER TO SUPPLY WATER TO A
LARGE 36" Ø PIPELINE WHICH CARRIES WATER THROUGHOUT THE FARM.
PIVOT IRRIGATION SYSTEMS ARE USED TO APPLY THE WATER TO THE CROPS.

System capacity (in cfs): 76.4 CFS

6. PROPOSED CHANGES TO THE WATER RIGHT

X Change in Character of Use: (n/a Permit Amendment)

Proposed use: ☐ Irrigation ☒ Municipal ☐ Quasi-municipal
☐ Commercial ☐ Industrial ☐ Other _____
☐ Domestic (indicate number of households) _____

X Change in Point of Diversion or Point of Appropriation:

☐ Change
 Old point of diversion or point of appropriation will not be used for this portion of the water right.

~~☒ Additional
 Both old and new points of diversion or points of appropriation will be used for this portion of the water right.~~

☒ Surface Water to Ground Water
 New point of appropriation will be used in the place of the old point of diversion. This is not an additional point of appropriation.

Location of Proposed Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
110' N & 180' W OF SE Cor, S35	SE SE	Section 35	T 5 N	R 25 E
1197' S & 1340' W OF NE Cor, S10	NW NE	Section 10	T 4 N	R 25 E

X Change in Place of Use:

Location of Proposed Place of Use

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR LOCATION OF PROPOSED PLACE OF USE						

Remarks: A net 527.8 Acres are Being Transferred With The Following Volumes:
31.8 Acres Are Used to Fill in The Deficiencies in the Local Irrigated Properties,
403.2 Acres Are Transferred to T 4 N, R 25 E, Section 23
92.8 Acres (2.32 CFS) Are Transferred to Municipal Use, To be Used During the
Same Period of Use (Irrigation Season) - Supplemental Right will Follow the Primary

7. LAND OWNERSHIP

Answer only
if for change
in **Character
of Use** or
Place of Use.

Use/Place of Use

Are there any lien holders identified in the Lot Book Report? Yes ☒ No

If yes, list the name and address of lien holder: NONE

If yes, the applicant must provide written notification of the proposed transfer to each lien holder.

Answer only
if the applicant
is **not** the
landowner.

Landowners

This section does not apply to water delivery entities authorized to act on behalf of their members, making permit amendment requests, or requests for changes in point of diversion or point of appropriation only.

Landowners: _____
(List all landowners shown on deed.)

Address(es): _____

City

State

Zip

The application must include notarized statements granting permission for the transfer from each landowner listed on the Lot Book Report. Attach extra sheets as necessary.

Answer only
if the receiving
landowner is
not the original
landowner or
the applicant.

Receiving Landowner

Name: _____

Address: _____

City

State

Zip

☒ The Department's records should be changed to show this landowner is responsible for completion of the changes. This includes perfection of the changes after the final order is issued. All notices and correspondence should be sent to this landowner.

☐ The applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to the applicant.

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- ☒ Enclosed
- ☐ Not needed: (must meet the following four requirements)
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
 - ④ Irrigation only.

Map:

- ☒ Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*
- ☐ All others: *Need not be prepared by a Certified Water Right Examiner.*

Lot Book Report:

(n/a Permit Amendment)

- ☒ A lot book report for the land to which the water right is appurtenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

- ☒ Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

- ☐ If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

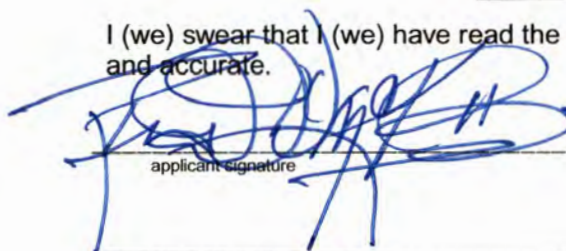

Fees:

- ☒ Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0
690.0 Ac. @ 1/40 = 17.25 CFS
18 x 175 = \$ 3150
3 x \$350 = \$1050
TOTAL = \$4200

9. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

 Ronald V. McKinnis 09/08/04
applicant signature name (print) date

applicant signature name (print) date

Before you submit your application be sure you have:

- Answered each question completely.
- Attached a legible map which includes township, range, section, quarter/quarter and tax lot number.
- Included the necessary exhibits.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

Hi Ken!

I wanted to check in with you and see where things are on the above referenced Port of Morrow transfers. I have their temporary transfers, which I believe are for the exact same thing as the permanent transfers, or at least that's what the cover letter submitted with the transfers indicates.

I'm probably going to hand the temp transfers over to Doug. He's contacting anyone that has temporary transfers being used as a bridge towards a permanent transfer to suggest that they use the reimbursement program to speed up the process on the perm transfer rather than having the Department do the work twice. But before I did that I wanted to see where in the process the permanent transfers are on your end and to make sure that the perm and temp transfers are for the same thing.

Laura

TO DOUG. VERN WILL CALL GARY NEAL
TO SEND IN LETTER REQUESTING
WITHDRAWAL of THOSE TEMPORARY
TRANSFERS.

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PRUDENTIAL INSURANCE COMPANY OF AMERICA
P.O. BOX 3048
PASCO, WASHINGTON 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 2721.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 1074.4 ACRES.

This right was perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 73.3 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 3 (SW $\frac{1}{4}$ SE $\frac{1}{4}$), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET
NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 $\frac{1}{2}$ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

PRIMARY IRRIGATION

LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 39.0 ACRES	LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 40.9 ACRES
LOT 2 (NW $\frac{1}{4}$ NE $\frac{1}{4}$) 39.6 ACRES	LOT 5 (NW $\frac{1}{4}$ NE $\frac{1}{4}$) 10.3 ACRES

STATE OF OREGON

COUNTY OF

MORROW

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

PRUDENTIAL INSURANCE COMPANY
OF AMERICA

of PO Box 3048, Pasco, State of Washington 99302, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Columbia River

a tributary of Pacific Ocean for the purpose of
irrigation of 2884.1 acres and supplemental irrigation of 1074.4 acres

under Permit No. 35694 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
November 5, 1971

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
76.4 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the Lot 3 (SW 1/4 SE 1/4), Section 35, T5N,
R25E, WM; 80 feet North and 2480 feet West from SE Corner, Section 35

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further
limited to a diversion of not to exceed 4 1/2 acre-feet per acre for each
acre irrigated during the irrigation season of each year

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

This certificate describes that portion of the water right confirmed by Certificate 51913, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered MAR 18 1999, approving Transfer Application 7941.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

WITNESS the signature of the Water Resources

Director, affixed MAR 18 1999.

Ref. Application T-9601
Permit #G-12729

In the process of completing the Transfer #T-9601, which includes a supplemental irrigation from the above water Rights Permit #G-12729, the Port of Morrow requests to ABANDON 3.48 Acres which were applied for under Application #G-13264. The acreages under Permit #G-12729 should match the PLACE of USE of the PRIMARY Water Right for #S-35694 under the Pending Transfer #T-9601 and should be SUPPLEMENTAL to the rights under Permit #G-S-35694 only where the Place of Use for the two permits are the same.

Should you need information as a part of this application, please contact me at 541-481-7678 or you may use my e-mail address at ronm@portofmorrow.com

RE: File # G 13264, Permit G 12729

Dear Mr. Neal:

The Department is currently in the process of evaluating your request for an extension on the above referenced permit. However, based upon continued review, the Department has determined that additional information is necessary in order to evaluate your extension request. The following information must be received:

- ▶ Has any water been used from wells 4A, 5A, 6 or 7, that are the source under this permit? If water has been use from any of the wells, how many acres have been irrigated, how much water has been used for industrial use?
- ▶ Your request for an extension of time shows a request to extend construction to 10/1/2002. How long do you wish to extend the full application of water to ? Keep in mind that extensions of time are no longer limited to 5 years under the new rules.

Please submit this information by **March 7, 2000**. Failure to submit the requested information by this deadline **may** result in the proposed rejection of your extension request.

If you need to request additional time to submit the above information, a written request must be received in the Salem office of the Department by the deadline above. The Department will evaluate timely requests and determine whether or not the request may be granted.

Should you have any questions regarding your extension request or the required materials listed above, please call me at (503) 378-8455, extension 272, or toll free

REFERENCE: APPLICATION G13264

Your application for more time to perfect your water use permit # G12729 was received November 27, 1997.

As you may know, new rules governing extension requests were adopted this year. The process for granting approval of extension requests is under more scrutiny now than in the past. Our new rules require a rigorous review of evidence submitted by the permit holder to ensure that the proposed extension is not detrimental to the public interest. To that end, all applicants are required to complete a new application form, a copy of which is enclosed. Please answer each question on the form. Feel free to include any additional information that you feel may help your case.

The information you provided in your November 27, 1997 application is not sufficient to justify approval of your extension request under our current rules. Please be advised that failure to provide the information requested on the enclosed application form by October 1, 1999 will result in denial of your extension request.

If you need further assistance please contact the Water Rights Section at the address listed above or phone (503) 378-3739.

Sincerely,

Douglas L. Bacr

PO BOX 200

BOARDMAN, OREGON 97818

REFERENCE: APPLICATION G13264

Your file was recently reviewed. Before we can continue processing your permit extension request, you need to provide us with additional information as described below.

The date for the complete construction under your water use permit was October 1, 1998. On November 27, 1998 we received your permit extension application. You have asked to extend the deadline for construction under your permit from October 1, 1998 to October 1, 1999.

The information you have provided is not sufficient to justify approval of your extension request. According to our records, you did not respond to our December 4, 1998 request for more information. Failure to provide the requested information may result in denial of your extension request.

If you still wish to apply for an extension of time, you must complete the enclosed application form. The Department's permit extension rules require that this information be considered as part of our decision to approve or deny an extension request. You should request to extend your permit for the amount of time necessary to fully put water to beneficial use. Should the permit extension be approved, it is the Department's expectation that it will be the last extension granted. Copies of the new extension rules will be furnished upon request.

If you are no longer interested in the project, please let us know. We will provide forms for you to authorize the cancellation of the permit. If you need further assistance please contact the Water Rights Section at the address listed above or phone (503) 378-3739.

Sincerely,

Douglas L. Baer

REFERENCE: Application #G-13264 (Permit #G-12729)

Dear Mr. McKinnis:

On November 27, 1998, the Department received an extension of time application for Permit #G-12729 from the Port of Morrow along with \$100 statutory fee for the extension application.

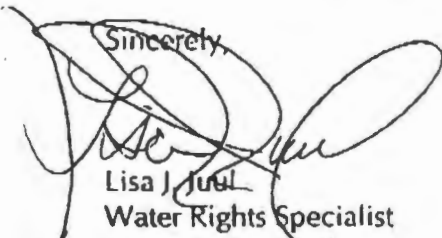

Due to insufficient information provided on the applications, the Department requested the submittal of additional information in order to properly evaluate the extension of time requests.

On September 30, 1999, the Port of Morrow submitted an updated extension of time application for Permit #G-12729 along with an additional \$100 payment to meet the requirements of new extension rules adopted by the Department in 1999.

While processing the extension for Permit #G-12729 on June 15, 2004, the Department discovered that these excess fees were collected. Therefore, please find the enclosed check, in the amount of \$100, refunding excess permit extension fees paid to the Department on September 30, 1999.

If you have any further questions concerning this matter, please feel free to contact me by telephone at (503) 986-0808.

Sincerely,

Lisa J. Justus

Ok, given this discussion for now I am disagreeing with you. For a couple of reasons, 540.610(2)(a) talks about a city or town. I can not find where the Port of Morrow is a town or city. Therefore, Port of Morrow does NOT have the ability to rebut the presumption of forfeiture under this statute.

If you agree with this we may want to add this as a Findings of Fact in the draft preliminary determination. Or as an addition in the draft preliminary determination, we state that they are not a town or city therefore do not fall under the statute.

what u think?

At 01: M 8/26/04 -0700, you wrote:

At 01:17 PM 8/26/04 -0700, Tony Justus wrote:

It is the correct answer because 540.611 allows cities to rebut the presumption of forfeiture for they acquire.

At P14 08/26/2004 -0700, Vern Church wrote:

Tony, I figured this would be the answer. Doug is correct a lot of cities have been allowed to take annexation right and change. Maybe Mike and you would like to take it on as an enlargement issue. I think just because we have done it in the past means it is correct, maybe nobody was looking at annexation as an enlargement. I hope this addresses your concerns with this issue. vern

n-level:

think that a change from irrigation to municipal is an enlargement

to the fact that the right will become extinct from forfeiture.

approach is inconsistent with our past practices involved in the recent City of Pennington transfers.

There could easily be other aspects of the transfer of rights and entitlement issues. For example, in the Deschutes River Basin, we are trying to determine the amount of consumptive use that we would expect if the water were used for municipal purposes. Doing that requires us to make some assumptions about the consumptive use associated with irrigation. We need to know how much water diverted under a municipal right is actually used.

his helps,

INTEROFFICE MEMO

FORWARD TO:

Ken Dowden

DATE:

2-11-04

FIELD PROCESSOR WORKING ON THIS TRANSFER

FROM:

☒

WATERMASTER, DISTRICT # 5

GROUNDWATER SECTION

(SIGNATURE)

[Signature]
signed by injury reviewer

date signed

8/24/04

SUBJECT:

WATER RIGHT TRANSFER #

9601

(Amended application)

A change in:

POU

A POD

POA

USE

of water.

SW to GW

In the name(s) of

Port of Morrow

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY
right.

WOULD RESULT IN INJURY* to an existing water

*The approval of this transfer application would result in injury to other water rights because

limit season on municipal portion to March 1 - Oct. 31 so
w/r season is not expanded beyond original use period. Also change
to municipal shall not expand w/r to now enjoy the municipal
benefits such as forfeiture exemption, etc.

see back

The existing right may not be valid because

Headgate notices HAVE

HAVE NOT

Been issued for diversion from the source(s) which

serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No)

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

☒

(1) PRIOR to the diverting of water at the new point of diversion . . .

(2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

1. Appears to be a cone from surface pod to
2 new well ports

2. Also change to new municipal pod location?

3. Authorized pod not same as identified on the application.

4. Check from 1 to acreage study.

Ken,

I've spoken with Ron McKinnis and told him that we would sit on his transfer application while he decides whether to amend it or to withdraw it. I will take the responsibility for setting up a tickler file to remind me to remind him that he is making that decision.

Doug

3. TYPE OF CHANGE

Use ☐ Place of Use ☒ Point of Diversion ☐ Point of Appropriation
☐ Historic Point of Diversion ☐ Substitution ☐ Surface Water to Ground Water

Reason for change: Match Present Farming Practices Using All Pivot Irrigation Systems

4. AFFECTED DISTRICTS AND LOCAL GOVERNMENTS

Is the affected water right located within or served by an irrigation or other water district?

☒ Yes ☐ No

Will the affected water right be located within or served by an irrigation or other water district after the proposed transfer?

☒ Yes ☐ No

If yes for either, list the name and mailing address of each district:

WEST EXTENSION IRRIGATION DISTRICT, Irrigon, Oregon

Attach the name and mailing address of all affected local governments (e.g., county, city, municipal corporation, tribal governments)

5. CURRENT WATER RIGHT INFORMATION

Name on Permit, Certificate, or Decree: Prudential Insurance Co. of America

Decree: _____

☒ Not applicable]

Permit Number: Permit #S-35694

☐ Not applicable]

Certificate Number: 51913

☐ Not applicable]

Permit Amendment Only -

Completion Date of Permit: _____

☐ Claim of Beneficial Use - Date Submitted _____
Requesting the Department to determine if the
requirement for proof has been met.]

Priority Date: 11/05/1971

Authorized Use: IRRIGATION

Source of Water: COLUMBIA RIVER

County: MORROW

Are there other sources listed on the water right? ☐ Yes ☒ No

7-9601

Location of Authorized Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
80' N & 2480' W of SE Cor, S35	SW SE	Section 35	T 5 N	R 25 E

Location of Authorized Place of Use: (Only list portion of water right subject to transfer)

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR LOCATION OF AUTHORIZED PLACE OF USE						

Are there other lands described in the water right? ☒ Yes ☐ No

Are there other water rights or permits associated with this land? ☒ Yes ☐ No
(e.g., supplemental water rights) If yes, attach a copy of all rights or permits.

Describe the current water delivery system (n/a Permit Amendment). The description must demonstrate that the applicant is ready, willing, and able to exercise the right. Include information on the capacity of any pumps, canals, and pipelines used to divert and convey the water to the authorized place of use.

PUMPS ARE LOCATED ON THE COLUMBIA RIVER TO SUPPLY WATER TO A
LARGE 36" Ø PIPELINE WHICH CARRIES WATER THROUGHOUT THE FARM.
PIVOT IRRIGATION SYSTEMS ARE USED TO APPLY THE WATER TO THE CROPS.

System capacity (in cfs): 76.4 CFS

6. PROPOSED CHANGES TO THE WATER RIGHT

☒ Change in Character of Use: (n/a Permit Amendment)

Proposed use: ☐ Irrigation ☒ Municipal ☐ Quasi-municipal
☐ Commercial ☐ Industrial ☐ Other _____
Domestic (indicate number of households) _____

☒ Change in Point of Diversion or Point of Appropriation:

☐ Change
Old point of diversion
or point of appropriation
will not be used for this
portion of the water right.

☒ Additional
Both old and new points
of diversion or points of
appropriation will be used
for this portion of the water
right.

☒ Surface Water to Ground Water
New point of appropriation will
be used in the place of the old
point of diversion. This is not an
additional point of appropriation.

Location of Proposed Point(s) of Diversion or Point(s) of Appropriation:

Coordinates (from recognized survey corner)	1/4 1/4 Section	Section	Township	Range
80' N & 2480' W of SE Cor, S35	SW SE	Section 35	T 5 N	R 25 E
50' N & 200' W OF SE Cor, S35	SE SE	Section 35	T 5 N	R 25 E
1602' N & 191' W OF SE Cor, S10	SW NE	Section 10	T 4 N	R 25 E

☒ Change in Place of Use:

Location of Proposed Place of Use

Township	Range	Section	Government Lot or DIC	1/4 1/4 Section	Tax Lot Number	Acres (if appropriate)
SEE ATTACHED SHEETS FOR LOCATION OF PROPOSED PLACE OF USE						

Remarks: A net 690.0 Acres are Being Transferred With The Following Volumes:
31.7 Acres Are Used to Fill in The Deficiencies in the Local Irrigated Properties,
466.2 Acres Are Transferred to 4 N 25 E Sections 23 & 24
192.1 Acres (4.80 CFS) Are Transferred to Municipal Use, To be Used During the
Same Period of Use (Irrigation Season)

7. LAND OWNERSHIP

Use/Place of Use

Are there any lien holders identified in the Lot Book Report? Yes ☒ No

If yes, list the name and address of lien holder: NONE

If yes, the applicant must provide written notification of the proposed transfer to each lien holder.

Answer only
if for change
in **Character
of Use** or
Place of Use.

Landowners

This section does not apply to water delivery entities authorized to act on behalf of their members, making permit amendment requests, or requests for changes in point of diversion or point of appropriation only.

Landowners: _____
(List all landowners shown on deed.)

Address(es): _____

City State Zip

The application must include notarized statements granting permission for the transfer from each landowner listed on the Lot Book Report. Attach extra sheets as necessary.

Answer only
if the applicant
is **not** the
landowner.

Receiving Landowner

Name: _____

Address: _____

City State Zip

- ☐ The Department's records should be changed to show this landowner is responsible for completion of the changes. This includes perfection of the changes after the final order is issued. All notices and correspondence should be sent to this landowner.
- ☐ The applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to the applicant.

Answer only
if the receiving
landowner is
not the original
landowner or
the applicant.

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- ☒ Enclosed
- ☐ Not needed: (must meet the following four requirements)
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
 - ④ Irrigation only.

Map:

- ☒ Water Right Transfer: Must be prepared by a Certified Water Right Examiner.
- ☐ All others: Need not be prepared by a Certified Water Right Examiner.

Lot Book Report:

(n/a Permit Amendment)

- ☒ A lot book report for the land to which the water right is appurtenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

- ☒ Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

- ☐ If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

- ☒ Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0
690.0 Ac. @ 1/40 = 17.25 CFS

18 x 175 = \$ 3150

3 x \$350 = \$1050

TOTAL = \$4200

9. SIGNATURE

Hi Doug, it would be great that Salem send out the letter identifying these deficiencies.

I have not had a chance to adequately look for other items which may be missing. At first blush, I have only identified a couple of errors. (believe these are somewhat GLARING)

First, the partial cancelation affidavits describe a little too much cfs for the equivalent corresponding acreage identified. It doesn't bother me to cancel the amount, but the certificate identifies 0.01931 cfs per acre. They may want to know that.

For the 39.5 acres for instance, the amount
--->>> should be 0.76 cfs, **NOT** 0.988 cfs.

As noted, Certificate 51913 **has been canceled** and they really should look at the new certificate 76360. There is acreage that was transferred off from T-7941 that they're not aware of obviously but just comparing section 4 in T 4 N, R 26 E for starters. I did not look any further. They should really do that research so that I don't have to.

I was also able to review the injury review by Tony today on the associated temporary transfer (T-9628) similar to this one. He identifies the same about the canceled certificate but also identifies typos and errors in tabulation for: (*check against map*)

T 4 N, R 25 E, section 1. (NW NW 5.9 ac. and 33.6 ac)

I would like to suggest that we take the time to run WRIS or spot check to see if the right subject to transfer (cert #) identified by the applicant is indeed a valid right in which we may modify.

Please cc: me on any correspondence please. Thanks.

Ken,

We have decided that we won't send the application back. Instead, we will identify the basic additional information needed to even move forward on the review, and offer the applicant an opportunity to withdraw or to provide the required information. And, we will (1) make it clear that we need that information before we can even begin processing, (2) give them a deadline to provide the information or withdraw, and (3) keep some of the money.

Our thinking is that having filed it and cashed the check we will just incur more costs if we refund the money and then the applicant fixes the application and sends it back.

I will prepare a letter, unless you really want to. However, if I am going to draft the letter, I would appreciate it if you let me know if there are any other GLARING deficiencies. (I intend to let them know that this first shot is just to get the obvious problems fixed and does not preclude identification of other deficiencies once we begin processing.)

Doug

P.S. I will work with WRIS to fix the problem with 51913 showing up as cancelled.

Doug, please review (below) Mike Zwart's note and decide if the application was indeed "sufficient" to file..... in other words, met the minimum application requirements to file this request, assign a number, receipt the money.

I believe that the filing would require a licensed geologist affirming the groundwater connection and, according to one of Fred Lissner's e-mails from the past (if my memory serves me), the GW section would not review files containing NO significant well information or well logs in which to make a finding.

Also, WRIS has this Certificate 51913 as canceled, it was NOT canceled by T-7907 which was a temporary transfer.

Ken,

I just sent you a paper memo that reads like this, so consider this email to be a heads up.

I have been assigned the above transfer for injury review. Unfortunately, I cannot yet complete such a review without more information. The proposal is, in part, a surface water to ground water transfer, apparently including a number of wells. Most of these are outside the area in which it could be approved without "...evidence prepared by a licensed geologist..." pursuant to ORS 540.531(2)(b). Also, the information provided did not include any Water Well Reports or other construction details as required in the "Exhibits" portion of the application. The applicant did not mark the application as including this, so I am presuming that none was. Please resolve this with the applicant and return the review form to me when we receive the necessary information.

Mike Z.

SUBJECT:

TEMPORARY TRANSFER # 9628

A change in:

POU

of water.

In the name(s) of

Port of Morrow

In my opinion (assuming the right is valid), the proposed change

MAY BE MADE WITHOUT INJURY
right.

WOULD RESULT IN INJURY* to an existing water

*The approval of this transfer application would result in injury to other water rights because

From area based on cancelled Cert # 51915 see
Cert # 716360. Map for 44 25 01 (NW NW) shows 5.9 ac
an injury not 0.9. Application will need to be modified.

The existing right may not be valid because

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

STATE OF OREGON

COUNTY OF MORROW

ORDER APPROVING A CHANGE IN PLACE OF USE

Pursuant to ORS 540.510 to 540.530, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, **TRANSFER 7941** submitted by

LOGAN FARMS, INC.
77661 PATERSON FERRY ROAD
IRRIGON, OREGON 97844.

The right to be modified, as evidenced by a portion of **Certificate 51913**, was perfected under Permit 35694 with a date of priority of NOVEMBER 5, 1971. The right allows the use of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 163.0 ACRES. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 3.1 cubic feet per second, if available at the authorized point of diversion: LOT 3 (SW¼ SE¼), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35, or its equivalent in case of rotation, measured at the point of diversion from the source.

The amount of water used for irrigation, together with the amount secured under an other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4½ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to any reasonable rotation system ordered by the proper state officer.

The authorized place of use is located as follows:

SW $\frac{1}{4}$ NW $\frac{1}{4}$ 4.8 ACRES
SE $\frac{1}{4}$ NW $\frac{1}{4}$ 7.2 ACRES
NE $\frac{1}{4}$ SW $\frac{1}{4}$ 38.2 ACRES
NW $\frac{1}{4}$ SW $\frac{1}{4}$ 31.0 ACRES
SW $\frac{1}{4}$ SW $\frac{1}{4}$ 2.6 ACRES
SE $\frac{1}{4}$ SW $\frac{1}{4}$ 35.6 ACRES
NW $\frac{1}{4}$ SE $\frac{1}{4}$ 3.4 ACRES
SW $\frac{1}{4}$ SE $\frac{1}{4}$ 25.7 ACRES
SECTION 4

SE $\frac{1}{4}$ NE $\frac{1}{4}$ 0.2 ACRE
NE $\frac{1}{4}$ SE $\frac{1}{4}$ 7.5 ACRES
SECTION 5

SECTION 32

TOWNSHIP 5 NORTH, RANGE 26 EAST, W.M.

THIS CHANGE TO AN EXISTING WATER RIGHT MAY BE MADE PROVIDED THE FOLLOWING CONDITIONS ARE MET BY THE WATER USER:

1. The proposed change shall be completed on or before October 1, 2000.
2. The former place of use shall no longer be irrigated as a part of this water right.

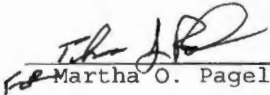

T-7941.PKS

Special Order Volume 53, Page 433

Certificate 51913 is cancelled. A new certificate will be issued to confirm that portion of the right NOT involved in this transfer. When satisfactory proof of the completed change is received, a new certificate confirming this water right will be issued.

WITNESS the signature of the Water Resources

Director, affixed MAR 18 1999.

Martha O. Pagel, Director

Under the provisions of OAR 137-004-0080, the applicant may petition for reconsideration of this order. The petition shall set forth specific grounds for reconsideration. The petition for reconsideration must be filled within 60 days after the date this order is served.

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PRUDENTIAL INSURANCE COMPANY OF AMERICA
P.O. BOX 3048
PASCO, WASHINGTON 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 2721.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 1074.4 ACRES.

This right was perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 73.3 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 3 (SW $\frac{1}{4}$ SE $\frac{1}{4}$), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $4\frac{1}{2}$ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

PRIMARY IRRIGATION

LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 39.0 ACRES	LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 40.9 ACRES

 SECTION 32

TOWNSHIP 5 NORTH, RANGE 26 EAST, W.M.

This certificate correctly describes that portion of the water right NOT modified by the provisions of an order of the Water Resources Director entered March 18, 1999, approving Transfer Application 7941, and supercedes Certificate 76044, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources

Director, affixed DEC 16 1999.

DEC 16 1999
/s/ Tom J. Paul (for)
 Martha O. Pagel, Director

Recorded in State Record of Water Right Certificates numbered 76360.

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PRUDENTIAL INSURANCE COMPANY OF AMERICA
P.O. BOX 3048
PASCO, WASHINGTON 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 2721.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 1074.4 ACRES.

This right was perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 73.3 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 3 (SW $\frac{1}{4}$ SE $\frac{1}{4}$), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 $\frac{1}{2}$ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

PRIMARY IRRIGATION

LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 39.0 ACRES	LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 40.9 ACRES

This certificate describes that portion of the water right confirmed by Certificate 51913, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered MAR 18 1999, approving Transfer Application 7941.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

WITNESS the signature of the Water Resources

Director, affixed MAR 18 1999.

REC'D MAR 08 2004

**OREGON WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO**

To: Ken Dowden Date: March 3, 2004
From: Mike Zwart
Subject: Review of Transfer File T-9601, Port of Morrow

I have been assigned the above transfer for injury review. Unfortunately, I cannot yet complete such a review without more information. The proposal is, in part, a surface water to ground water transfer, apparently including a number of wells. Most of these are outside the area in which it could be approved without "...evidence prepared by a licensed geologist..." pursuant to ORS 540.531(2)(b). Also, the information provided did not include any Water Well Reports or other construction details as required in the "Exhibits" portion of the application. The applicant did not mark the application as including this, so I am presuming that none was. Please resolve this with the applicant and return the review form to me when we receive the necessary information.

cc: Doug Woodcock
Bernie Williams

T-9601 PERMIT # 35964

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- ☒ Enclosed
- ☐ Not needed: (must meet the following four requirements)
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
 - ④ Irrigation only.

Map:

- ☒ Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*
- ☐ All others: *Need not be prepared by a Certified Water Right Examiner.*

Lot Book Report:

(n/a Permit Amendment)

- ☒ A lot book report for the land to which the water right is appurtenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

- ☒ Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

- ☐ If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

- ☒ Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0

690.0 Ac. @ 1/40 = 17.25 CFS

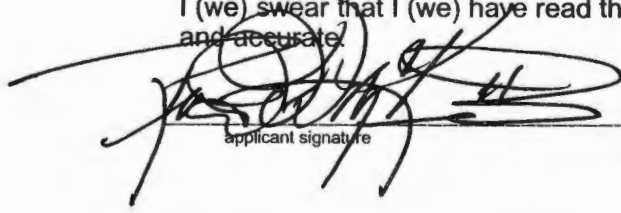

18 x 175 = \$ 3150

3 x \$350 = \$1050

TOTAL = \$4200

9. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

applicant signature

Ken,

I just sent you a paper memo that reads like this, so consider this email to be a heads up.

I have been assigned the above transfer for injury review. Unfortunately, I cannot yet complete such a review without more information. The proposal is, in part, a surface water to ground water transfer, apparently including a number of wells. Most of these are outside the area in which it could be approved without "...evidence prepared by a licensed geologist..." pursuant to ORS 540.531(2)(b). Also, the information provided did not include any Water Well Reports or other construction details as required in the "Exhibits" portion of the application. The applicant did not mark the application as including this, so I am presuming that none was. Please resolve this with the applicant and return the review form to me when we receive the necessary information.

STATE OF OREGON

COUNTY OF

MORROW

CERTIFICATE OF WATER RIGHT

This Is to Certify, ThatPRUDENTIAL INSURANCE COMPANY
OF AMERICA

of PO Box 3048, Pasco, State of Washington 99302, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Columbia River

a tributary of Pacific Ocean for the purpose of
irrigation of 2884.1 acres and supplemental irrigation of 1074.4 acres

under Permit No. 35694 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
November 5, 1971

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
76.4 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the Lot 3 (SW 1/4 SE 1/4), Section 35, T5N,
R25E, WM; 80 feet North and 2480 feet West from SE Corner, Section 35

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further
limited to a diversion of not to exceed 4 1/2 acre-feet per acre for each
acre irrigated during the irrigation season of each year

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

OREGON WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO

REC'D JUN 28 2004

To: File/Doug Parrow

Date: June 16, 2004

From: Michael J. Zwart

Subject: T-9601, Port of Morrow

CWRE Ron McKinnis of the Port of Morrow hand delivered a copy of a stamped report prepared by registered geologist Terry Tolan today. The report is in support of the above file, which proposes (in part) a surface water to ground water transfer.

I have reviewed the report and concur with the conclusion that the pumping of the proposed ground water POA will affect the Columbia River 'similarly' to the authorized POD. I have independently calculated that stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping. Let me know if I need to provide additional review comments.

7/21/04 Vern,
This was attached
to that Report
that I did not
send. I put a
copy of this Memo
w/ that report and
put it back in Kears

Subject: Hydrogeology of the Gravel Pit Pond
Port of Morrow Pump Station Relocation Project
K/J 006096*50

Dear Gary:

Kennedy/Jenks Consultants is pleased to provide the Port of Morrow (POM) with this letter report describing our hydrogeologic assessment of the potential for direct hydraulic connection between the Gravel Pit Pond (the Pond) and the Columbia River (Figure 1). The objective of this assessment effort, described in our 27 May 2004 Contract with the POM, is to provide hydrogeologic data and analysis that can be used to address specific regulatory requirements (under ORS 540.531) to support your application to the State of Oregon for changing the POM point of appropriation.

Based on discussions with Mr. Ron McKinnis of your staff, the POM seeks to relocate the existing pump station on the Columbia River to a pond (here termed "the Pond") which formed within a large pit (Figure 1) created by a former gravel mining operation. POM made an application to Oregon Department of Water Resources (OWRD) for this transfer under ORS 540.531 (transfer of surface water point of diversion to groundwater). Based on a conference call between Mr. Mike Zwart (OWRD), Mr. Ron McKinnis (POM), and myself on 10 May 2004, the proposed transfer to the Pond fails to meet ORS 540.531 2(a)(D) which requires the new point of diversion to be located within 500 feet of the surface water source and, since your original point of diversion is a stream (Columbia River), the new point of diversion must be located within 1,000 feet upstream or downstream of the original point of diversion. Mr. Zwart did point out that ORS 540.531 2(a)(D)(b) will allow the proposed transfer, despite not meeting the distance requirements, if:

Mr. Gary Neal
Port of Morrow
June 15, 2004
Page 2

The new point of diversion is not located within the distance requirements set forth in paragraph (a)(D) of this subsection, the holder of the water use subject to transfer submits to the department evidence prepared by a licensed geologist that demonstrates that the use of the ground water at the new point of diversion will meet the criteria set forth in paragraph (a)(A) to (C) of this subsection.

Paragraph 2(a)(A) to (C) require:

(2) The Water Resources Department may allow a transfer of the point of diversion under subsection (1) of this section if:

(a)(A) The new point of diversion appropriates ground water from an unconfined aquifer that is hydraulically connected to the authorized surface water source;

(B) The proposed change in point of diversion will not result in enlargement of the original water right or in injury to other water right holders;

(C) The use of the new point of diversion will affect the surface water source similarly to the authorized point of diversion specified in the water use subject to transfer;

The following sections in this letter report will present data/information and analysis to address how the proposed transfer of the point of appropriation to the Pond meets each of these requirements.

Page 3

LOCATION

The existing pump station on the Columbia River (original point of diversion) and the Pond (proposed new point of diversion) are both located in section 35, T5N, R25E (Figure 1; Plate 1). Plate 1 presents general map of the Pond area and a bathymetric chart and cross-sections of Pond.

The Pond occupies a pit that was created by a former gravel and sand mining operation. The Pond is located approximately 1100 feet east of the existing pump station on the Columbia River (Plate 1). The northwest corner of the Pond lies approximately 590 feet from the shore (John Day pool) of the Columbia River (Plate 1).

The Pond covers approximately 12 acres and has an average depth of approximately 40 feet. The maximum depth of the Pond is approximately 70 feet as shown on cross section A-A' (Plate 1). The volume of water in the Pond (average depth of 40 feet) is approximately 480 acre-feet. The intake for the proposed new pumping station would be located within the "deep spot" near the northern side of the Pond (Plate 1). The distance from the proposed new intake location in the Pond to the shore of the Columbia River is approximately 700 feet (Plate 1).

STRATIGRAPHIC AND HYDROGEOLOGIC SETTING

The most recent geologic and hydrogeologic investigations of the area encompassing the Pond area have been conducted by Wozniak (1995), Tolan and Lindsey (2000), and Richerson (2004). The most recent geologic mapping of the area was done by Swanson and others (1981) and Wozniak (1995). Wozniak's (1995, Plate 2.2) geologic map of the Umatilla Basin is reproduced in Figure 2.

Pond Area Stratigraphy

Based on the findings of the previous geologic studies in this area (Swanson and others, 1981; Wozniak, 1995; Tolan and Lindsey, 2000), and our review of available well logs of the immediate area around the Pond (see Appendix A), the following stratigraphic units are present beneath this area:

- Quaternary eolian deposits that consist largely of fine to medium sand (dune sand). These strata are typically felsic to moderately mafic and are very friable being largely unconsolidated. Colors range from light tan to brown to reddish brown. No calcium carbonate is observed in these deposits. The thickness of this unit is highly variable within this area, ranging from absent to greater than 15 feet-thick. Wozniak (1995) included these deposits in his "HoAI" map unit (Figure 2). The Quaternary eolian unit unconformably overlies Pleistocene Cataclysmic Flood deposits and is absent at the Pond.
- Pleistocene Cataclysmic Flood deposits produced by the Missoula or Bretz floods. In the area of the Pond, the upper portion of these Cataclysmic Flood deposits consist of medium- to coarse-grained, basaltic to lesser quartzose, stratified sand and basaltic

Mr. Gary Neal
Port of Morrow
June 15, 2004
Page 4

granule to pebble gravel (here termed the "sand facies"). The sand facies in this area typically display tabular bed forms and ranges from 20 to greater than 50 feet-thick. Underlying the sand facies are flood gravels that generally consist of massive to well stratified, basalt-dominated, granule-to-boulder gravel (here termed the "gravel facies"). Where the gravel facies is exposed within the Umatilla Basin, it is commonly found to be matrix-poor, uncemented, and have an open-framework texture where intergranular pores are readily apparent to the unaided eye. At the Pond, mining operations encountered a boulder gravel (some boulders greater than 3 feet in diameter) at the base of the excavation (Pond bottom). Thickness of the gravel facies in the area of the Pond ranges from 30 to greater than 80 feet-thick. Wozniak (1995) included these deposits in his "Pscf" map unit (Figure 2). Pleistocene Cataclysmic Flood deposits unconformably overlie the Miocene Elephant Mountain Member of the Columbia River Basalt Group.

- Miocene Elephant Mountain Member of the Saddle Mountains Basalt (Columbia River Basalt Group). The Elephant Mountain Member in this area consists of a single 10.5 million year old flow (Swanson and others, 1981; Wozniak, 1995). Based on well logs and well cuttings from the area immediately adjacent to the Pond, the upper portion of the Elephant Mountain flow has been largely removed by post-emplacement erosion (Wozniak, 1995; Tolan and Lindsey, 2000). For the purposes of this report, the Elephant Mountain flow is interpreted to be hydrogeologic "basement" rock.

Based upon our interpretation of available well logs from the Pond area (see Appendix A), no evidence was found to indicate the presence of Miocene-Pliocene fluvial sediments of the Alkali Canyon Formation (between the Pleistocene Cataclysmic Flood deposits and the Columbia River Basalt Group) beneath this area.

Pond Area Hydrogeology

For the purposes of this assessment, the most important aspect of the hydrogeology of the Pond area is the aquifer that is hosted by the suprabasalt sediments – the eolian and Cataclysmic Flood deposits. Wozniak (1995) named this aquifer the "alluvial aquifer". Previous hydrogeologic investigations of the alluvial aquifer that include the Pond area (i.e., Hogenson, 1964; Oberlander and Miller, 1981; Wozniak, 1995; Richerson, 2004), have determined that the alluvial aquifer is an unconfined aquifer in this area. The extent of the alluvial aquifer within the POM area was mapped by Wozniak (1995, Plate 2.4). Wozniak's (1995, Plate 2.4) map of the extent of the alluvial aquifer is reproduced in Figure 3.

Richerson (2004, Figure 2-1) has prepared a water table elevation map for the alluvial aquifer (based on March 2002 data) that covers the Pond area. Richerson's (2004) water map is reproduced in Figure 4. Based on the alluvial aquifer water table elevation contours shown on Figure 4, the direction of groundwater movement is generally from the southeast to the northwest (towards the Columbia River), with a very low gradient in the Pond area. Both Wozniak (1995, p. 2.27-2.30) and Richerson (2004, p. 2.2-2.3) noted that the elevation of the John Day Pool (Columbia River) directly effected the water levels in wells completed in the alluvial aquifer immediately adjacent to the Columbia River in the Boardman area. Richerson

Mr. Gary Neal
Port of Morrow
June 15, 2004
Page 5

(2004, Figure 2-3) documented the effect by plotting John Day Pool elevation verses water levels elevations in two monitoring wells (MW-9 and MW-10, see Figure 4) located south and southwest of the Pond. Richerson's (2004) water levels elevation graph is reproduced in Figure 5.

Based on the depth to the water table in the area surrounding the Pond (7 to greater than 25 feet below ground surface), the alluvial aquifer in this area is primarily hosted by Pleistocene Cataclysmic Flood deposits. The saturated thickness of the alluvial aquifer beneath the Pond area is estimated to be greater than 80 feet (Richerson, 2004) and perhaps as much as 100 feet based on Wozniak's (1995) top of Columbia River basalt map (Figure 2).

No aquifer tests of the alluvial aquifer in the Pond area have been done. The only available data on this aquifer in the Pond area comes from two irrigation wells (MORR 678 and 679) located in section 1 southeast of the Pond (Figure 1). Test pumping of wells MORR 678 and 679 (reported on Oregon Water Well Report forms, see Appendix A) at 2,500 gpm produced 33.5 feet and 13.5 feet of drawdown, respectively, after 4 hours of pumping. The specific capacity for wells MORR 678 and 679 are approximately 75 and 185 gpm/foot of drawdown, respectively. The high specific capacity values for these wells suggest that the alluvial aquifer in this area should have correspondingly high hydraulic conductivity values. Very high hydraulic conductivity values (8,000 to greater than 20,000 feet/day) have been measured in aquifers hosted by Cataclysmic Flood gravels in the Pasco Basin (U.S. DOE, 1988). Water supply wells completed in these Cataclysmic Flood gravel aquifers in the Pasco Basin have specific capacities that fall into the same range as those calculated for wells MORR 678 and 679.

DATA AND INFORMATION ASSESSMENT

This section presents an assessment of the above presented data and information with regards to requirements set forth in ORS 540.531 Paragraph 2(a)(A) to (C).

(2)(a)(A) The new point of diversion appropriates ground water from an unconfined aquifer that is hydraulically connected to the authorized surface water source;

Previous hydrogeologic investigations of the region that the Pond is located in (i.e., Hogenson, 1964; Oberlander and Miller, 1981; Wozniak, 1995; Richerson, 2004) have concluded that the alluvial aquifer beneath this area is an unconfined aquifer. Data and information presented by Wozniak (1995, p. p. 2.27-2.30) and Richerson (2004, p. 2.2-2.3) document that the unconfined alluvial aquifer beneath the Pond area is in direct hydraulic connection with the Columbia River. Figure 5 (from Richerson, 2004, Figure 2-3) demonstrates the hydraulic connection between the alluvial aquifer and Columbia River in the Pond area. Therefore the proposed new point of appropriation (the Pond) is located within an unconfined aquifer that is in direct hydraulic connection to the authorized surface water source (Columbia River).

Mr. Gary Neal
Port of Morrow
June 15, 2004
Page 6

(2)(a)(B) The proposed change in point of diversion will not result in enlargement of the original water right or in injury to other water right holders;

The proposed new pump station in the Pond would not result in an enlargement of the original water right.

All water supply wells, and associated water rights, identified in our assessment of this area (Table 1; Appendix A) belong to the POM.

(2)(a)(C) The use of the new point of diversion will affect the surface water source similarly to the authorized point of diversion specified in the water use subject to transfer;

The proposed pump station to be relocated to the Pond would have a maximum pumping rate of 72 cubic feet per second (cfs) (142.8 acre-feet/day) under the existing POM water right. Under this requirement, pumping of water from the Pond will affect the surface water source (Columbia River) similarly to the existing pumping station (authorized point of diversion). ORS 540.531 Paragraph (8)(b) provides a specific definition for "similarly":

"Similarly" means that the use of ground water at the new point of diversion affects the surface water source specified in the permit or certificated or decreed water right and would result in stream depletion of at least 50 percent of the rate of appropriation within 10 days of continuous pumping.

Based on this requirement, half of the 72 cfs or 142.8 acre-feet/day rate of appropriation (36 cfs or 71.4 acre-feet/day) would have to be Columbia River water that entered the Pond via the alluvial aquifer connection.

Based on hydrogeologic data presented in the previous sections, the Pond is in direct hydraulic connection with the Columbia River via the alluvial aquifer. The alluvial aquifer in the Pond area is hosted by gravel facies of the Cataclysmic Flood deposits. Although no direct measurements of the hydraulic properties of the alluvial aquifer have been made in the Pond area, pumping tests of nearby water supply wells completed in this aquifer have high specific capacity values (75 - 185 gpm/foot of drawdown) which suggest that the alluvial aquifer in this area should have correspondingly high hydraulic conductivity values. High hydraulic conductivity values (8,000 to greater than 20,000 feet/day) have been measured in aquifers hosted by similar Cataclysmic Flood gravels in the Pasco Basin (U.S. DOE, 1988). As previously noted, water supply wells completed in aquifers hosted by Cataclysmic Flood gravels in the Pasco Basin have specific capacities that fall into the same range as those calculated for wells adjacent to the Pond. Based on the overall hydraulic behavior of the alluvial aquifer, pumping from the Pond (at 72 cfs) should cause a reversal of the hydraulic gradient which should result in the movement of Columbia River water into the alluvial aquifer and then into the Pond.

Assuming that pumping the Pond at 72 cfs causes a reversal of the hydraulic gradient (stage difference) between the Pond and the Columbia River, we can use Darcy's Law to estimate the

Mr. Gary Neal
 Port of Morrow
 June 15, 2004
 Page 7

potential for "leakance" or "seepage" through the alluvial aquifer from the Columbia River to the Pond. The equation for estimating leakance is:

$$Q \text{ (leakance)} = \text{estimate of hydraulic conductivity of alluvial aquifer (K)} \times \frac{\text{change in head } (\Delta h)}{\text{ave. flow path length}} \times \text{area perpendicular to flow}$$

Values for the variables in the leakance equation were estimated as follows:

- Because of the lack of direct measurement of the hydraulic conductivity of the alluvial aquifer at the Pond, three different values for hydraulic conductivity (8,000 feet/day, 10,000 feet/day, and 20,000 feet/day) were evaluated. These values span the range of hydraulic conductivity measured for aquifers hosted by Cataclysmic Flood gravels.
- Because of the uncertainty in the response of the Pond to pumping at 72 cfs, three values for the change in head (difference in surface water level elevation between the Columbia River and the Pond). This range for Δh values is 10 feet, 15 feet, and 20 feet.
- The average flow path length was assumed to be approximately 1,000 ft based on the survey map in Plate 1.
- The area perpendicular to flow is the distance around the perimeter of the Pond that faces towards the shoreline of the Columbia River multiplied by the saturated thickness of the aquifer. Using Plate 1, this perimeter distance is estimated to be approximately 1,000 ft and the saturated thickness is assumed to be 50 feet. The area perpendicular to flow is estimated to be 50,000 feet².

Of the above variables, only Δh and K have a range of estimates. Substituting the range of values for Δh and K, the following leakance estimates (Q) are obtained:

$\Delta h = 10 \text{ feet}$	$K = 8,000 \text{ feet/day}$	$Q = 4,000,000 \text{ feet}^3/\text{day} = 91.8 \text{ acre-feet/day}$
$\Delta h = 10 \text{ feet}$	$K = 10,000 \text{ feet/day}$	$Q = 5,000,000 \text{ feet}^3/\text{day} = 114.8 \text{ acre-feet/day}$
$\Delta h = 10 \text{ feet}$	$K = 20,000 \text{ feet/day}$	$Q = 10,000,000 \text{ feet}^3/\text{day} = 229.6 \text{ acre-feet/day}$
$\Delta h = 15 \text{ feet}$	$K = 8,000 \text{ feet/day}$	$Q = 6,000,000 \text{ feet}^3/\text{day} = 137.7 \text{ acre-feet/day}$
$\Delta h = 15 \text{ feet}$	$K = 10,000 \text{ feet/day}$	$Q = 7,500,000 \text{ feet}^3/\text{day} = 172.2 \text{ acre-feet/day}$
$\Delta h = 15 \text{ feet}$	$K = 20,000 \text{ feet/day}$	$Q = 15,000,000 \text{ feet}^3/\text{day} = 344.3 \text{ acre-feet/day}$
$\Delta h = 20 \text{ feet}$	$K = 8,000 \text{ feet/day}$	$Q = 8,000,000 \text{ feet}^3/\text{day} = 183.6 \text{ acre-feet/day}$
$\Delta h = 20 \text{ feet}$	$K = 10,000 \text{ feet/day}$	$Q = 10,000,000 \text{ feet}^3/\text{day} = 229.6 \text{ acre-feet/day}$

Mr. Gary Neal
Port of Morrow
June 15, 2004
Page 8

$$\Delta h = 20 \text{ feet} \quad K = 20,000 \text{ feet/day} \quad Q = 20,000,000 \text{ feet}^3/\text{day} = 459.1 \text{ acre-feet/day}$$

The range of estimates of leakance between the Columbia River and the Pond (under pumping conditions) presented above are greater than 71.4 acre-feet/day which is 50% of the POM's 142.8 acre-feet/day rate of appropriation. Based on these estimates the proposed pumping from the Pond meets the 50% rate requirement set forth in ORS 540.531 Paragraph 2(a)(C).

SUMMARY

Based upon the available hydrogeologic data and information, as summarized in the previous sections, the proposed transfer of the point of appropriation from the Columbia River to the Pond appears to meet the requirements as set forth in ORS 540.531 Paragraph 2(a)(A) to (C). If you should have any questions about the contents of this assessment, please feel free to contact me at (509) 734-9763.

Very truly yours,

KENNEDY/JENKS CONSULTANTS

Terry L. Tolan, R.G.
Hydrogeoloist

AGENT: RON MCKINNIS
PO BOX 200
TWO MARINE DRIVE
BOARDMAN OR 97818

Reference: Transfer 9601

Enclosed is a copy of the order approving your water right transfer application.

A time to complete the transfer is given the order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change within the time allowed.

You have the requirement to hire a Certified Water Right Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this department within one year of the date you completed the change or within one year of the completion date authorized in the transfer, whichever occurs first.

Sincerely,

for Doug Parrow
Natural Resource Specialist

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	FINAL ORDER APPROVING CHANGE
T-9601, Morrow County, Oregon)	IN PLACE OF USE, POINT OF
)	DIVERSION, AND CHARACTER OF
)	USE

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the Point of Diversion, Place of Use, or Character of Use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications. ORS 537.211(4) establishes the process under which a permittee may request amendment of a permit to change the authorized place of use. ORS 540.621 establishes the process for cancellation of a water right when the owner certifies that the right has been abandoned.

Applicant

Port of Morrow
P.O. Box 200
Boardman, OR 97818

Findings of Fact

1. The Port of Morrow filed a transfer application to change the place of use, to change the point of diversion from surface water to two points of appropriation, and to change the character of use under Certificate 76360 and to change the place of use under PermitG-12729. The Department assigned the application number T-9601.
2. The portions of the rights to be transferred is as follows:

PRIMARY IRRIGATION

Certificate: 76360 in the name of Prudential Insurance Company of America
Use: Primary Irrigation
Priority Date: November 5, 1971
Quantity: 51.74 cubic feet per second (cfs)
Rate/Duty: 1/40 cfs per acre, not to exceed 4½ acre-feet per acre
Acres: 2,679.0
Source: Columbia River, tributary of the Pacific Ocean

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

3. Certificate 76360 contains a scrivener's error. The certificate describes 2.6 acres as located in Lot 3 (SW¼ SE¼), Section 35, Township 4 North, Range 25 East, W.M. The correct location is Lot 3 (SW¼ SE¼), Section 35, Township 5 North, Range 25 East, W. M.
4. On January 12, 2004, affidavits were received from Port of Morrow, owner of certain land and the water right appurtenant to it. A portion of the water right has been abandoned and is requested to be canceled. The portion is described by Certificate 76360, State Record of Water Right Certificates. The date of Priority is November 5, 1971. The water use was for irrigation of 42.1 acres from Columbia River, a tributary of the Pacific Ocean. The amount used was 0.81 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	26	E	W.M.	6	SW NW	5	17.6
4	N	26	E	W.M.	6	SE NW		21.9
5	N	25	E	W.M.	35	SW SE	3	2.6*
Total								42.1

Described at the correct location as identified in Finding of Fact 3.

5. The applicant requests to cancel a portion of permit G-12729. The applicant has submitted a statement that a portion of the water right permit has been abandoned and is requested to be canceled. The date of priority is January 22, 1993. The water use is for supplemental irrigation of 3.48 acres from Well 4A, Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin. The amount authorized for used is 0.03 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼		Lot	Acres
4	N	25	E	W.M.	1	NW	NE		3.48
TOTAL									3.48

6. The original completion date for Permit G-12729 was October 1, 1998. However, the completion date has been extended to October 1, 2007.
7. The application proposes to change the point of diversion for the rights under Certificate 76360 from surface water to groundwater (two points of diversion – Mining Pond and Toadvin Pond. The proposed new points of diversion are not within the statutorily prescribed distance of the existing points of diversion. However, the applicant has submitted a report prepared by a registered geologist demonstrating that the new points of diversion will appropriation ground water from an unconfined aquifer that is hydraulically connected to the surface water source and will affect the surface water source similarly to the authorized point of diversion.
8. The Department has reviewed the report and concurs with the conclusion that the pumping of the proposed ground water point of appropriation will affect the Columbia River similarly to the authorized point of diversion. Stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping – the threshold for establishing a similar effect.
9. Application T-9601 proposes to move the authorized point of diversion for the primary rights to be transferred to the North Farm (Port of Morrow) approximately 2,175 feet east from the existing point of diversion #1 (Columbia River) in the Umatilla basin to POA #2 – Mining Pond located at:

Township		Range		Meridian	Sec	¼ ¼		Lot	Location
5	N	25	E	W.M.	35	SE	SE		110' N & 180' W of SE Corner, Sec. 35

10. Application T-9601 proposes to change the place of use for the above described rights to the North Farm (Port of Morrow) located at:

11. Application T-9601 also proposes to change the character of use of 92.8 acres from the above described primary right (Certificate 76360) to municipal use. The season of use will be restricted to March 1st to October 31st. The amount of water to which this use is entitled under this right is limited to an amount actually beneficially used and shall not exceed 1.79 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source and shall be further limited to a diversion of not to exceed 417.6 acre-feet during the season of each year.
12. Application T-9601 proposes to provide water for municipal use from the new POA #2 (Mining Pond) located:

TOTAL								403.2

15. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
16. Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
17. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
18. The proposed change would not result in enlargement of the right.
19. The proposed change would not result in injury to other water rights.

Conclusions of Law

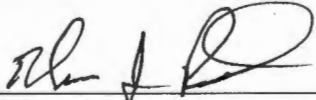

The changes in place of use, change in point of diversion to groundwater (two points of appropriation – Mining Pond and Toadvin Pond) and character of use proposed in application T-9601 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580, and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change(s) in point of diversion, place of use, and character of use proposed in application T-9601 are approved.
2. The abandoned portion of the certificated right is cancelled pursuant to ORS 540.621. Proof shall not be made on the abandoned portion of the permit.
3. Water right certificate 76360 is cancelled. A new certificate will be issued describing that portion of the right not involved in this transfer.
4. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Water Right Certificate 76360.
5. The use of water authorized under G-12729 continues to be restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in permit G-12729.
6. Water shall be acquired from the same surface water source as the original point of diversion.
7. The proposed change shall be completed on or before October 1, 2006.
8. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
9. The quantity of water diverted at the new points of diversion (two points of appropriation – Mining Pond and Toadvin Pond), together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of appropriation.
10. Prior to diverting water at the new points of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
11. Prior to diverting water for the new character of use, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
12. The former place of use and character of use shall no longer receive water under the original authorized use of these water rights.

13. When satisfactory proof of the completed changes is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this 29th day of November 2004.

160 Phillip C. Ward
Director

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE IS ISSUED TO

PRUDENTIAL INSURANCE CO. OF AMERICA
PO BOX 3048
PASCO WA 99302

confirms the right to use the waters of the COLUMBIA R, a tributary of the PACIFIC OCEAN for the purpose of SUPPLEMENTAL IRRIGATION of 1074.4 ACRES.

The right has been perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. This right is limited to an amount actually beneficially used and shall not exceed 20.75 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

Twp		Rng		Mer	Sec	1/4	1/4	GLot	DLC	Legal Description
5	N	25	E	WM	35	SW	SE	3		80 FEET NORTH & 2480 FEET WEST FROM SE CORNER, SECTION 35

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4½ acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

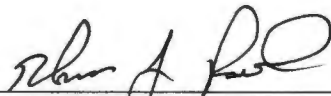

Twp		Rng		Mer	Sec	1/4	1/4	GLot	DLC	AC

This certificate describes that portion of the water right confirmed by Certificate 76360, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered NOV 29 2004, approving Transfer Application 9601.

The issuance of this superceding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture of abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands of place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

WITNESS the signature of the Water Resources Director, affixed NOVEMBER 29, 2004.

REFERENCE: File Transfer 9601

We have received your application for extension of the time limit to make complete application of water under Transfer T-9601. We also have your check in the amount of \$250.00. A copy of receipt number 86083 is enclosed.

The application indicates reasonable diligence toward completion of the proposed project. The time limit to make complete application of water is extended to October 1, 2010. The order approving the extension was entered March 15, 2007, at Volume 71, Page 353.

If you have any questions, please contact the transfer section at 503-986-0883.

Sincerely,

Sarah Henderson

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Application for Extension)
of Time for Transfer of Water Right)
T-9601 Morrow County, Oregon **FINAL ORDER APPROVING AN
EXTENSION OF TIME**

Applicant

Port of Morrow
P.O. Box 200
Boardman, Oregon 97818

Findings of Fact

1. On February 2, 2007, the Department received an application for extension of time for transfer of water right from the Port of Morrow for Transfer application T-9601.
2. The Water Resources Department issued an order approving Transfer Application T-9601 on November 29, 2004. The order was recorded in Special Order Volume 62, at Page 236. The order set a transfer completion date of October 1, 2006.
3. The applicant has completed all changes in place of use, type of use, municipal use, and point of appropriation associated with the Toadvin Pond.
4. The applicant needs to complete the pump station and point of appropriation changes associated with the Mining Pond. They also need to complete long term pumping tests to evaluate the water quality. Based on the water quality, they will either revert water back to the Port's Columbia River Pump Station or build a new pump station at the mining pond to supply all Columbia River Irrigation water to the areas of water use.
4. The applicant has requested that the time for completion be extended to October 1, 2010.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

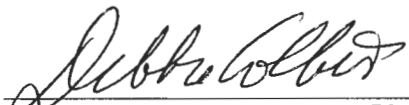

Conclusions of Law

Pursuant to OAR 690-380-6020, the Director of the Water Resources Department concludes the applicant has shown reasonable diligence to complete the transfer within the time period established by the order approving Transfer Application T-9601.

Now, therefore, it is ORDERED:

The time for completion of the changes in place of use, character of use and point of appropriation, authorized by T-9601, shall be extended to October 1, 2010.

Dated at Salem, Oregon this 15th day of March, 2007

Transfer T-9601

APPLICATION FOR EXTENSION OF TIME
FOR TRANSFER OF WATER RIGHT

A summary of review criteria and procedures that are generally applicable to these applications is available at www.wrd.state.or.us/publication/reports/index.shtml.

To the WATER RESOURCES DIRECTOR OF OREGON:

I/We, Port of Morrow

of P.O. Box 200, #2 Marine Drive (Name of Applicant)
state of Oregon (Mailing Address), 97818 (Zip Code), Boardman (City),
541-481-7678 (Phone Number)

do hereby make application for an extension of time within which to complete a change in:

☒ point of diversion/appropriation ☐ place of use ☐ character of use

of water under the terms of an order of the Water Resources Director entered on 11-29, 2004,
approving Transfer T-9601, in the name of Port of Morrow, Robert Levy,
for See Attached

(Give location of your property, as shown on the order approving the transfer)

THE FOLLOWING HAS BEEN accomplished toward completion of the change within the time
allowed, which expired on October 1, 2006:

All Place of Use Changes, All Changes in Type of Use and All Municipal Uses and Point
of Appropriation changes as associated with Toadvin Pond. All irrigation as shown in the
Transfer T-9601 are complete - Total of Acres

(If for irrigation, how many acres total are now irrigated)

TO FULLY COMPLETE the change, it will be necessary to accomplish the following:

Complete the Pump Station and Point of Appropriation Changes associated with Mining
Pond in Section 35.

See Attached - This and Item Below

I AM UNABLE TO COMPLETE the change under the terms of the order, within the time allowed,
because Evaluation of the Water Quality of the proposed Pond and found Higher than
expected amounts of Nitrogen as compared to the Columbia River. The Water use (IR)
is associated to a DEQ Land Application Permit which regulates Nitrogen Loading.

And request that the time for completion be extended to October 1, 2010.

(Signature of applicant)

PORT OF MORROW ENGINEER

In order for an application to be complete, it must be accompanied by the required fee. See the
Department's fee schedule at www.wrd.state.or.us or call (503) 986-0900.

Oregon Water Resources Department
158 12th Street NE
Salem, Oregon 97310-0210
Ref. Transfer T-9601
Pending Application for Extension of Time

January 29, 2007

Dear Ms. Henderson;

We submit the following information in regards to Application for Extension of Time in Items notes for this Attachment

ITEMS-

TO FULLY COMPLETE - Complete long term pumping tests to evaluate Water Quality. Based on Water Quality - Revert Water back to the Port's Columbia River Pump Station or build new Pump Station at the mining pond to supply all Columbia River Irrigation water to the areas of water use.

Task	Date	Expenditure
Long Term Pump Test of Mining Pond	May 1, 2007	\$ 75,000

Option 1 - Water Source Back to Columbia River Pump Station

Resume Irrigation of All acres	June 15, 2007	\$ 25,000
Complete full beneficial use of permit	October 1, 2007	\$100,000

Option 2 - Develop Water Source from Mining Pond Pump Station

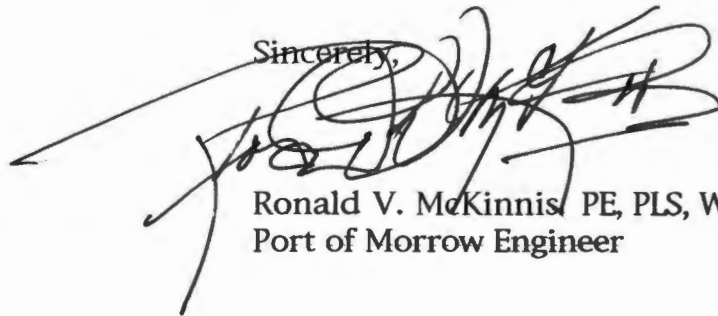

Develop New Pump Station	January, 2010	\$450,000
Extend infrastructure improvements	January, 2010	\$250,000
Resume Irrigation of All acres	June 15, 2010	\$ 25,000
Complete full beneficial use of permit	October 1, 2011	

I AM UNABLE TO COMPLETE - The Port of Morrow had applied to move the Point of Diversion from our Columbia River Pump Station to a Point of Appropriation at a Mining Pond adjacent to the Columbia River. The change required an evaluation for the effect of the Mining Pond sue on the Columbia River, which was completed by Terry Tolan of Kennedy Jenks Consultants. The evaluation considered flow and no water quality issues were required by the Dept. Upon starting the change of water sources, the Port completed a basics review of the Quality of the proposed source and found the Nitrogen content to be close to 30 ppm which was a lot higher that the Columbia River Live Flow. The lands irrigated by this water are a part of the Port's Industrial Wastewater land Application System which is regulated by a WPCF permit through the State's Dept. of Environmental Quality. The higher nitrogen content will

be a challenge for the Port to regulate based on the nitrogen loading from the fresh water supplemental source along with application of the industrial wastewater. The Port plans to complete some pump tests to evaluate the effect of long term use on the mining pond on nitrogen concentration thus identifying the effect of the water source on nitrogen loading. Based on the Tolan report the mining pond should be recharged predominantly from the Columbia River and thus the nitrogen concentration should more closely resemble the River whereas the local alluvial ground water are typically higher in nitrogen being a part of the Lower Umatilla River Ground Water Management Area. Completion of the pumping test should allow us to determine the best source of water - the hydraulically connected ground water from the mining pond or revert back to our existing Columbia River Pump Station.

Again we appreciate the Department's cooperation in this matter.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read 'Ronald V. McKinnis', is written over the word 'Sincerely,'.

Ronald V. McKinnis PE, PLS, WRE
Port of Morrow Engineer

WATER RESOURCES DIVISION
SALEM, OREGON

STATE OF OREGON

In the Matter of Transfer Application) PRELIMINARY DETERMINATION
T-9601, Morrow County, Oregon)
)

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the **Point of Diversion, Place of Use, or Character of Use** authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

Port of Morrow
P.O. Box 200
Boardman, OR 97818

Findings of Fact

1. The Port of Morrow filed a transfer application to change the place of use, to change the point of diversion from surface water to two points of appropriation, and to change the character of use under Certificate 76360. The Department assigned the application number T-9601.
2. An application proposing to change the point of diversion from surface water to groundwater (two points of appropriation – Mining Pond and Toadvin Pond) is covered under OAR 690-380-2130(2)(d). The withdrawal of groundwater at the new point of diversion is located within 500 feet of the surface water source and, when the surface water source is a stream, is also located within 1000 feet upstream or downstream of the original point of diversion as specified in the water use subject to transfer; or (e) If the distance requirements in subsection (2)(d) of this rule are not met, the holder of a water use subject to transfer shall submit to the Department evidence prepared by a licensed geologist that demonstrates that the use of the groundwater at the new point of diversion will meet the criteria set forth in subsections (2)(a)(c) of this rule.
3. The application for change from surface water to groundwater is outside of 500 feet of the surface water source and outside of 1000 feet upstream or downstream and exceeds the criteria listed above. A report therefore must be submitted.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this transfer application and preliminary determination.

4. Ron McKinnis, agent for the Port of Morrow hand delivered a copy of a stamped report prepared by registered geologist Terry Tolan. The report is in support of the transfer application, which proposes (in part) a surface water to groundwater transfer.
5. Michael J. Zwart, Oregon Water Resources Department, Groundwater section, registered geologist reviewed the report and concurs with the conclusion that the pumping of the proposed ground water point of appropriation will affect the Columbia River "similarly" to the authorized point of diversion. He had independently calculated that stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping.
6. The portion of the right to be transferred is as follows:

PRIMARY IRRIGATION

Certificate: 76360 in the name of Prudential Insurance Company of America
Use: Primary Irrigation
Priority Date: November 5, 1971
Quantity: 52.55 cubic feet per second (cfs)
Rate/Duty: 1/40 cfs per acre, not to exceed 4½ acre-feet per acre
Acres: 2721.1
Source: Columbia River, tributary of the Pacific Ocean

Authorized Point of Diversion:

Township	Range	Meridian	Sec	¼ ¼	Lot	Location
5	N	25	E	W.M.	35	SW SE 3 80'N & 2480'W from SE corner, Sec. 35

SUPPLEMENTAL IRRIGATION

The permit to appropriate the public waters to be transferred is as follows:

Permit: G-12729, in the name of Port of Morrow
Use: Supplemental Irrigation
Priority Date: January 22, 1993
Quantity: 6.38 cubic feet per second
Rate/Duty: 1/80 cfs per acre, not to exceed 3.0 acre-feet per acre
Acres: 787.18
Source: Well 4A, Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin

Period of Use: March 1 through April 15 and October 1 through October 31 for irrigation

Authorized Points of Appropriation:

Township	Range	Meridian	Sec	¼ ¼	Location

7. ***NOTE:** A scrivener's error was found in Certificate 76360 describing Lot 3 (SW¼ SE¼) 2.6 acres, Section 35, Township 4 North, Range 25 East, W.M.. The correct location is Lot 3 (SW¼ SE¼) 2.6 acres, Section 35, Township 5 North, Range 25 East, W. M..
8. On January 12, 2004, affidavits were received from Port of Morrow, owner of certain land and the water right appurtenant to it. A portion of the water right has been abandoned and is requested to be canceled.

The portion is described by Certificate 76360, State Record of Water Right Certificates. The date of Priority is November 5, 1971. The water use was for irrigation of 42.1 acres from Columbia River, a tributary of the Pacific Ocean. The amount used was 0.81 cubic foot per second.

The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	26	E	W.M.	6	SW NW	5	17.6
4	N	26	E	W.M.	6	SE NW		21.9
5	N	25	E	W.M.	35	SW SE	3	2.6*
Total								42.1

*Note: Described in correct location, see #7 above (scrivener's error noted on certificate)

ORS 540.621 provides: "Whenever the owner of a perfected and developed water right certifies under oath to the Water Resources Commission that the water right has been abandoned by the owner and that the owner desires cancellation thereof, the commission shall enter an order canceling the water right."

9. The applicant requests to cancel a portion of permit G-12729. The applicant has submitted a statement that a portion of the water right permit has been abandoned and is requested to be canceled.

The portion is described by water right permit G-12729. The date of priority is January 22, 1993. The water use was for supplemental irrigation of 3.48 acres from Well 4A,

Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin. The amount used was 0.03 cubic foot per second.

The abandoned portion is located as follows:

Township	Range	Meridian	Sec	¼ ¼	Lot	Acres
4	N	25	E	W.M.	1 NW NE	3.48
TOTAL						3.48

10. Application T-9601 proposes to move the authorized point of diversion for the North Farm (Port of Morrow) approximately 2175 feet east from the existing point of diversion #1 (Columbia River) in the Umatilla basin to POA #2 – Mining Pond:

12. Application T-9601 also proposes to change the character of use of 92.8 acres from the above described primary right (Certificate 76360) to municipal use. The season of use will be restricted to March 1st to October 31st. The amount of water to which this use is entitled under this right is limited to an amount actually beneficially used and shall not exceed 1.79 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source and shall be further limited to a diversion of not to exceed 417.6 acre-feet during the season of each year.

Authorized Place of Use of 92.8 acres under Certificate 76360 to be transferred to municipal use:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	26	E	W.M.	5	SW NE		3.4

4	N	25	E	W.M.	23	SW SE		29.9
4	N	25	E	W.M.	23	SE SE		32.9
TOTAL								403.2

16. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
17. Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
18. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
19. The proposed change would not result in enlargement of the right.
20. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The changes in place of use, change in point of diversion to groundwater (two points of appropriation – Mining Pond and Toadvin Pond) and character of use proposed in application T-9601 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580,

and OAR 690-380-5000, and will be approved provided that protests are not filed pursuant to OAR 690-380-4030.

If approved, the change and subsequent use of water shall be subject to the following conditions:

1. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Water Right Certificate 76360.
2. The use of water authorized under G-12729 continues to be restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in permit G-12729.
3. Water shall be acquired from the same surface water source as the original point of diversion.
4. The proposed change shall be completed on or before October 1, 2006.
5. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
6. The quantity of water diverted at the new points of diversion (two points of appropriation – Mining Pond and Toadvin Pond), together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. Prior to diverting water at the new points of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
8. Prior to diverting water for the new character of use, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
9. The former place of use and character of use shall no longer receive water under the original authorized use of these water rights.

Dated at Salem, Oregon this ____ day of _____, 2004.

Phillip C. Ward
Acting Director

Protests should be addressed to the attention of Field Services Division, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1271

This Draft Preliminary Determination was prepared by Vernon L. Church. If you have any questions about the information in this document, you may reach me at (541)384-4207 or [Vernon.L.Church @wrdd.state.or.us](mailto:Vernon.L.Church@wrdd.state.or.us).

Protest Rights and Standing

Protests may be filed by persons who think this transfer application would result in injury to an existing water right as defined by OAR 690-380-0100(3). The fee to file a protest is \$250.00. Additional information, forms and rules for filing protests are available from the Water Resources Department by contacting Field Services by calling (503) 986-0900. If a protest is filed, a hearing may be held.

“Injury” or “Injury to an existing water right” means a proposed transfer would result in another, existing water right not receiving previously available water to which it is legally entitled.

“Protest” means a written statement expressing opposition to approval of a transfer application and disagreement with a preliminary determination that is filed in response to the notice prescribed by ORS 540.520(5) and OAR 690-380-4020 and includes the fee prescribed in ORS 536.050.

Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person’s position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing.

Nov. 1, 2004

Dear Vern,

This letter from the Department of the Navy is for the sole use of the change in appropriations concerning 95-99 and the port of Morrow has no involvement in lands leased to me on section 28 or the right to interfere with its water rights.

Carly Hall

DEPARTMENT OF THE NAVY

NAVAL AIR STATION WHIDBEY ISLAND
OAK HARBOR, WASHINGTON 98278-5000

5090

Ser N44/0961

OCT 21 2004

Mr. Earl Aylett
29732 Royce Lane
Hermiston, OR 97838

Dear Mr. Aylett:

SUBJECT: STATE WATER RIGHTS

You requested a letter indicating that the Commanding Officer of the Naval Air Station Whidbey Island does not object to the modification of a water rights certificate, which Earl Aylett has obtained under the laws of the State of Oregon.

As I understand the situation, the facts are as follows. In 1997, the Navy leased 125 acres of the Naval Weapons Systems Training Facility Boardman to the Carlson and Braat Farms for agricultural purposes. At no cost to the Navy and without Navy involvement, Carlson and Braat obtained a water rights certificate from the State of Oregon. This certificate allowed Carlson and Braat to draw water from the Columbia River and apply it to the land leased from the Navy.

At some point later, both the agricultural lease with the Navy and the water rights certificate were transferred from Carlson and Braat to the Port of Morrow. Earl Aylett occupied the property and utilized the water right until the agricultural lease expired in August 2002. Upon the expiration of the lease, Earl Aylett vacated the property and removed all equipment, including all irrigation equipment. Earl Aylett now desires to apply the water right he obtained from Carlson and Braat to another piece of property that is neither owned nor controlled by an agency of the U.S. Government.

The Navy asserts water rights at Naval Weapons Systems Training Facility Boardman under the federal law not state law. Therefore, assuming that the facts laid out above are correct

and that this action does not interfere with the property rights of anyone else, we have no interest in or objection to an otherwise legal modification of your water rights certificate. We see that transaction as one between Earl Aylett, the Port of Morrow and the State of Oregon.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Brown', with a long horizontal line extending to the right.

Port of Morrow
PO Box 200, Two Marine Drive
Boardman, Oregon 97818

REFERENCE: Transfer 9601

On 11/14/03 we received your water right transfer application requesting a change in **place of use and an additional point of diversion, surface to ground water** for use of water from **Columbia River**. The application was accompanied by \$ 4200.00. Our receipt 64313 is enclosed.

By copy of this letter, we are asking the Watermaster for his usual report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

You may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, you will need to obtain consent from the buyer to complete the transfer.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503) 986-0900.

STATE OF OREGON

COUNTY OF

MORROW

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

PRUDENTIAL INSURANCE COMPANY
OF AMERICA

of PO Box 3048, Pasco, State of Washington 99302, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Columbia River

a tributary of Pacific Ocean for the purpose of
irrigation of 2884.1 acres and supplemental irrigation of 1074.4 acres

under Permit No. 35694 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
November 5, 1971

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
76.4 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the Lot 3 (SW 1/4 SE 1/4), Section 35, T5N,
R25E, WM; 80 feet North and 2480 feet West from SE Corner, Section 35

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further
limited to a diversion of not to exceed 4 1/2 acre-feet per acre for each
acre irrigated during the irrigation season of each year

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

SUBJECT: Transfer Application T-9601

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-9601.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a 30-day period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

Because the new point of appropriation is more than $\frac{1}{4}$ mile from the authorized point of diversion, the applicant is responsible for giving public notice of the transfer changes in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We have prepared the notice for you (enclosed). The deadline for individuals to file protests or standing statements is 30 days after the date of last publication. Please have the newspaper insert the date of last publication in the proper place. After publication, the Department needs to receive an affidavit specifying the dates the notice was published. Typically, the newspaper will prepare and mail an *affidavit of publication* to the Department, however you will want to request specifically that they do so. The newspaper can mail the affidavit to me at the address above.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Sincerely,

Doug Parrow
Field Services Division

**Notice of Preliminary Determination for
Water Right Transfer T-9601**

T-9601 filed by Port of Morrow, proposes a change in point of diversion from surface water to ground water, place of use, and character of use under Certificate 76360 and a change in place of use under Permit G-12729.

Certificate 76360 allows the use of 51.74 cfs (priority date November 5, 1971) from a diversion in Sec. 3, T5N, R25E, W.M. (Umatilla Basin) for irrigation in Sec. 1, 2 and 12, T4N, R25E; Sec. 35, T5N, R25E; and Sec. 4, 5, 6, 7, 8 and 9, T4N, R26E, W.M. The applicant proposes to change the point of diversion to two points of appropriation: North Farm-location approximately 2175 feet east (Sec. 35, T5N, R25E, W.M.), South Farm-location approximately 10,000 feet southwest (Sec. 10, T4N, R25E, W.M.); to change the place of use to Sec. 1, 2, 12 and 23, T4N, R25E; and Sec. 4, 5, 6, 7, 8 and 9, T4N, R26E, W.M.; and to change the character of use of a portion of the right to municipal use.

Permit G-12729 allows the use of 6.35 cfs (priority date January 22, 1993) from wells in Sec. 1 and 10, T4N, R25E, W.M. for supplemental irrigation in Sec. 1, 12, T4N, R25E, W.M., Sec. 35, T5N, R25E, W.M., Sec. 6 and 7, T4N, R26E, W.M. The applicant proposes to change the place of use to Sec. 1 and 12, T4N, R25E; and Sec. 6 and 7, T4N, R26E, W.M.

The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may file, jointly or severally, with the Department a protest or standing statement within 30 days after the date of final publication of notice in the Department's weekly notice or of this newspaper notice, whichever is later. A protest form and additional information on filing protests may be obtained by calling (503) 986-0852. The last date of newspaper publication is [DATE OF LAST PUBLICATION]. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

In the Matter of Transfer Application) PRELIMINARY DETERMINATION
T-9601, Morrow County, Oregon)
)

SUPPLEMENTAL IRRIGATION

The permit to appropriate the public waters to be amended is as follows:

Permit: G-12729, in the name of Port of Morrow
Use: Supplemental Irrigation
Priority Date: January 22, 1993
Quantity: 6.35 cubic feet per second (cfs)
Rate/Duty: 1/80 cfs per acre, not to exceed 3.0 acre-feet per acre
Acres: 783.7
Source: Well 4A, Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin

Period of Use: March 1 through April 15 and October 1 through October 31 for irrigation

Authorized Points of Appropriation:

Township		Range		Meridian	Sec	¼ ¼	Location

- Certificate 76360 contains a scrivener's error. The certificate describes 2.6 acres as located in Lot 3 (SW¼ SE¼), Section 35, Township 4 North, Range 25 East, W.M. The correct location is Lot 3 (SW¼ SE¼), Section 35, Township 5 North, Range 25 East, W. M.
- On January 12, 2004, affidavits were received from Port of Morrow, owner of certain land and the water right appurtenant to it. A portion of the water right has been abandoned and is requested to be canceled. The portion is described by Certificate 76360, State Record of Water Right Certificates. The date of Priority is November 5, 1971. The water use was for irrigation of 42.1 acres from Columbia River, a tributary of the Pacific Ocean. The amount used was 0.81 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	26	E	W.M.	6	SW NW	5	17.6
4	N	26	E	W.M.	6	SE NW		21.9
5	N	25	E	W.M.	35	SW SE	3	2.6*
Total								42.1

Described at the correct location as identified in Finding of Fact 3.

- The applicant requests to cancel a portion of permit G-12729. The applicant has submitted a statement that a portion of the water right permit has been abandoned and is requested to be canceled. The date of priority is January 22, 1993. The water use is for supplemental irrigation of 3.48 acres from Well 4A, Well 5A, Port Well #6 and Port Well #7, within the

Umatilla River Basin. The amount authorized for used is 0.03 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼		Lot	Acres
4	N	25	E	W.M.	1	NW	NE		3.48
TOTAL									3.48

6. The original completion date for Permit G-12729 was October 1, 1998. However, the completion date has been extended to October 1, 2007.
7. The application proposes to change the point of diversion for the rights under Certificate 76360 from surface water to groundwater (two points of diversion – Mining Pond and Toadvin Pond. The proposed new points of diversion are not within the statutorily prescribed distance of the existing points of diversion. However, the applicant has submitted a report prepared by a registered geologist demonstrating that the new points of diversion will appropriation ground water from an unconfined aquifer that is hydraulically connected to the surface water source and will affect the surface water source similarly to the authorized point of diversion.
8. The Department has reviewed the report and concurs with the conclusion that the pumping of the proposed ground water point of appropriation will affect the Columbia River similarly to the authorized point of diversion. Stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping – the threshold for establishing a similar effect.
9. Application T-9601 proposes to move the authorized point of diversion for the primary rights to be transferred to the North Farm (Port of Morrow) approximately 2,175 feet east from the existing point of diversion #1 (Columbia River) in the Umatilla basin to POA #2 – Mining Pond located at:

Township		Range		Meridian	Sec	¼ ¼		Lot	Location
5	N	25	E	W.M.	35	SE	SE		110' N & 180' W of SE Corner, Sec. 35

10. Application T-9601 proposes to change the place of use for the above described rights to the North Farm (Port of Morrow) located at:

11. Application T-9601 also proposes to change the character of use of 92.8 acres from the above described primary right (Certificate 76360) to municipal use. The season of use will be restricted to March 1st to October 31st. The amount of water to which this use is entitled under this right is limited to an amount actually beneficially used and shall not exceed 1.79 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source and shall be further limited to a diversion of not to exceed 417.6 acre-feet during the season of each year.
12. Application T-9601 proposes to provide water for municipal use from the new POA #2 (Mining Pond) located:

4	N	25	E	W.M.	23	SE SE		32.9
TOTAL								403.2

15. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
16. Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
17. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
18. The proposed change would not result in enlargement of the right.
19. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The changes in place of use, change in point of diversion to groundwater (two points of appropriation – Mining Pond and Toadvin Pond) and character of use proposed in application T-9601 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580, and OAR 690-380-5000, and will be approved provided that protests are not filed pursuant to OAR 690-380-4030.

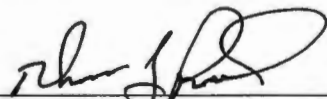

The rights identified by the applicants as abandoned shall be cancelled.

If approved, the change and subsequent use of water shall be subject to the following conditions:

1. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Water Right Certificate 76360.

2. The use of water authorized under G-12729 continues to be restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in permit G-12729.
3. Water shall be acquired from the same surface water source as the original point of diversion.
4. The proposed change shall be completed on or before October 1, 2006.
5. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
6. The quantity of water diverted at the new points of diversion (two points of appropriation – Mining Pond and Toadvin Pond), together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. Prior to diverting water at the new points of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
8. Prior to diverting water for the new character of use, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
9. The former place of use and character of use shall no longer receive water under the original authorized use of these water rights.

Dated at Salem, Oregon this 4th day of OCTOBER, 2004.

Phillip C. Ward
Acting Director

Protests should be addressed to the attention of Field Services Division, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1271

This Draft Preliminary Determination was prepared by Vernon L. Church. If you have any questions about the information in this document, you may reach me at (541)384-4207 or [Vernon.L.Church @wrds.state.or.us](mailto:Vernon.L.Church@wrds.state.or.us).

Protest Rights and Standing

Protests may be filed by persons who think this transfer application would result in injury to an existing water right as defined by OAR 690-380-0100(3). The fee to file a protest is \$250.00. Additional information, forms and rules for filing protests are available from the Water Resources Department by contacting Field Services by calling (503) 986-0900. If a protest is filed, a hearing may be held.

“Injury” or “Injury to an existing water right” means a proposed transfer would result in another, existing water right not receiving previously available water to which it is legally entitled.

“Protest” means a written statement expressing opposition to approval of a transfer application and disagreement with a preliminary determination that is filed in response to the notice prescribed by ORS 540.520(5) and OAR 690-380-4020 and includes the fee prescribed in ORS 536.050.

Each person submitting a protest shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person’s position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue precludes consideration of the issue during the hearing.

Memo

To: Mike Ladd, North-Central Region Manager

From: Vern Church

Date: September 17, 2004

Re: Transfer application 9601

Transfer application 9601 was filed to change the place of use, point of diversion and character of use in the Umatilla Basin.

The Watermaster staff have reviewed the transfer application and found that no injury to existing rights or enlargement would result from the change.

No comments or protests were received or submitted.

I recommend that the transfer be forwarded to Salem with the preliminary determination to be approved.

NOTES:

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	FINAL ORDER APPROVING CHANGE
T-9601, Morrow County, Oregon)	IN PLACE OF USE, POINT OF
)	DIVERSION, AND CHARACTER OF
)	USE

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the Point of Diversion, Place of Use, or Character of Use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications. ORS 537.211(4) establishes the process under which a permittee may request amendment of a permit to change the authorized place of use. ORS 540.621 establishes the process for cancellation of a water right when the owner certifies that the right has been abandoned.

Applicant

Port of Morrow
P.O. Box 200
Boardman, OR 97818

Findings of Fact

1. The Port of Morrow filed a transfer application to change the place of use, to change the point of diversion from surface water to two points of appropriation, and to change the character of use under Certificate 76360 and to change the place of use under PermitG-12729. The Department assigned the application number T-9601.
2. The portions of the rights to be transferred is as follows:

PRIMARY IRRIGATION

Certificate: 76360 in the name of Prudential Insurance Company of America
Use: Primary Irrigation
Priority Date: November 5, 1971
Quantity: 51.74 cubic feet per second (cfs)
Rate/Duty: 1/40 cfs per acre, not to exceed 4½ acre-feet per acre
Acres: 2,679.0
Source: Columbia River, tributary of the Pacific Ocean

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

Authorized Point of Diversion:

Township	Range	Meridian	Sec	¼ ¼	Lot	Location
5	N	25	E	W.M.	35	SW SE 3 80'N & 2480'W from SE corner, Sec. 35

SUPPLEMENTAL IRRIGATION

The permit to appropriate the public waters to be amended is as follows:

Permit: G-12729, in the name of Port of Morrow

Use: Supplemental Irrigation

Priority Date: January 22, 1993

Quantity: 6.35 cubic feet per second (cfs)

Rate/Duty: 1/80 cfs per acre, not to exceed 3.0 acre-feet per acre

Acres: 783.7

Source: Well 4A, Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin

Period of Use: March 1 through April 15 and October 1 through October 31 for irrigation

3. Certificate 76360 contains a scrivener's error. The certificate describes 2.6 acres as located in Lot 3 (SW¼ SE¼), Section 35, Township 4 North, Range 25 East, W.M. The correct location is Lot 3 (SW¼ SE¼), Section 35, Township 5 North, Range 25 East, W. M.
4. On January 12, 2004, affidavits were received from Port of Morrow, owner of certain land and the water right appurtenant to it. A portion of the water right has been abandoned and is requested to be canceled. The portion is described by Certificate 76360, State Record of Water Right Certificates. The date of Priority is November 5, 1971. The water use was for irrigation of 42.1 acres from Columbia River, a tributary of the Pacific Ocean. The amount used was 0.81 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	26	E	W.M.	6	SW NW	5	17.6
4	N	26	E	W.M.	6	SE NW		21.9
5	N	25	E	W.M.	35	SW SE	3	2.6*
Total								42.1

Described at the correct location as identified in Finding of Fact 3.

5. The applicant requests to cancel a portion of permit G-12729. The applicant has submitted a statement that a portion of the water right permit has been abandoned and is requested to be canceled. The date of priority is January 22, 1993. The water use is for supplemental irrigation of 3.48 acres from Well 4A, Well 5A, Port Well #6 and Port Well #7, within the Umatilla River Basin. The amount authorized for used is 0.03 cubic foot per second. The abandoned portion is located as follows:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	25	E	W.M.	1	NW NE		3.48
TOTAL								3.48

6. The original completion date for Permit G-12729 was October 1, 1998. However, the completion date has been extended to October 1, 2007.
7. The application proposes to change the point of diversion for the rights under Certificate 76360 from surface water to groundwater (two points of diversion – Mining Pond and Toadvin Pond. The proposed new points of diversion are not within the statutorily prescribed distance of the existing points of diversion. However, the applicant has submitted a report prepared by a registered geologist demonstrating that the new points of diversion will appropriation ground water from an unconfined aquifer that is hydraulically connected to the surface water source and will affect the surface water source similarly to the authorized point of diversion.
8. The Department has reviewed the report and concurs with the conclusion that the pumping of the proposed ground water point of appropriation will affect the Columbia River similarly to the authorized point of diversion. Stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping – the threshold for establishing a similar effect.
9. Application T-9601 proposes to move the authorized point of diversion for the primary rights to be transferred to the North Farm (Port of Morrow) approximately 2,175 feet east from the existing point of diversion #1 (Columbia River) in the Umatilla basin to POA #2 – Mining Pond located at:

Township		Range		Meridian	Sec	¼ ¼	Lot	Location
5	N	25	E	W.M.	35	SE SE		110' N & 180' W of SE Corner, Sec. 35

10. Application T-9601 proposes to change the place of use for the above described rights to the North Farm (Port of Morrow) located at:

11. Application T-9601 also proposes to change the character of use of 92.8 acres from the above described primary right (Certificate 76360) to municipal use. The season of use will be restricted to March 1st to October 31st. The amount of water to which this use is entitled under this right is limited to an amount actually beneficially used and shall not exceed 1.79 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source and shall be further limited to a diversion of not to exceed 417.6 acre-feet during the season of each year.
12. Application T-9601 proposes to provide water for municipal use from the new POA #2 (Mining Pond) located:

Township		Range		Meridian	Sec	¼ ¼

13. Application T-9601 proposes to move the authorized point of diversion for the primary rights to be transferred to the South Farm (Levy Farms) approximately 10,000 feet southwest from the existing point of diversion #1 in the Umatilla River Basin to a POA (Toadvin Pond) located at:

Township		Range		Meridian	Sec	¼ ¼	Lot	Location
4	N	25	E	W.M.	10	NW NE		1197' S & 1340' W of NE Corner, Sec. 10

14. Application T-9601 also proposes to change the place of use for (the remaining) portion of the above described right (Certificate 76360/primary only) for the South Farm (Levy Farms) to:

Township		Range		Meridian	Sec	¼ ¼	Lot	Acres
4	N	25	E	W.M.	23	NE NE		31.6
4	N	25	E	W.M.	23	NW NE		30.5
4	N	25	E	W.M.	23	SW NE		35.8
4	N	25	E	W.M.	23	SE NE		31.3
4	N	25	E	W.M.	23	NE NW		31.4
4	N	25	E	W.M.	23	NW NW		30.8
4	N	25	E	W.M.	23	SW NW		35.6
4	N	25	E	W.M.	23	SE NW		36.3
4	N	25	E	W.M.	23	NE SW		5.0
4	N	25	E	W.M.	23	NW SW		4.1
4	N	25	E	W.M.	23	NE SE		32.2
4	N	25	E	W.M.	23	NW SE		35.8
4	N	25	E	W.M.	23	SW SE		29.9
4	N	25	E	W.M.	23	SE SE		32.9
TOTAL								403.2

15. Notice of the application for transfer was published pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
16. Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
17. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
18. The proposed change would not result in enlargement of the right.
19. The proposed change would not result in injury to other water rights.

Conclusions of Law

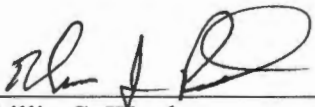

The changes in place of use, change in point of diversion to groundwater (two points of appropriation – Mining Pond and Toadvin Pond) and character of use proposed in application T-9601 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580, and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change(s) in point of diversion, place of use, and character of use proposed in application T-9601 are approved.
2. The abandoned portion of the certificated right is cancelled pursuant to ORS 540.621. Proof shall not be made on the abandoned portion of the permit.
3. Water right certificate 76360 is cancelled. A new certificate will be issued describing that portion of the right not involved in this transfer.
4. The right to use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Water Right Certificate 76360.
5. The use of water authorized under G-12729 continues to be restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in permit G-12729.
6. Water shall be acquired from the same surface water source as the original point of diversion.
7. The proposed change shall be completed on or before October 1, 2006.
8. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department by October 1, 2007.
9. The quantity of water diverted at the new points of diversion (two points of appropriation – Mining Pond and Toadvin Pond), together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of appropriation.
10. Prior to diverting water at the new points of appropriation, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
11. Prior to diverting water for the new character of use, the water user shall install and maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water appropriated. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
12. The former place of use and character of use shall no longer receive water under the original authorized use of these water rights.

13. When satisfactory proof of the completed changes is received, new certificates confirming the rights transferred will be issued.

Dated at Salem, Oregon this 29th day of November 2004.

160 Phillip C. Ward
Director

Mailing date: NOV 29 2004

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE IS ISSUED TO

PRUDENTIAL INSURANCE CO. OF AMERICA
PO BOX 3048
PASCO WA 99302

confirms the right to use the waters of the COLUMBIA R, a tributary of the PACIFIC OCEAN for the purpose of SUPPLEMENTAL IRRIGATION of 1074.4 ACRES.

The right has been perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. This right is limited to an amount actually beneficially used and shall not exceed 20.75 cubic feet per second or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

Twp		Rng		Mer	Sec	1/4	1/4	GLot	DLC	Legal Description
5	N	25	E	WM	35	SW	SE	3		80 FEET NORTH & 2480 FEET WEST FROM SE CORNER, SECTION 35

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4½ acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

This certificate describes that portion of the water right confirmed by Certificate 76360, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered NOV 29 2004, approving Transfer Application 9601.

The issuance of this superceding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture of abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands of place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

WITNESS the signature of the Water Resources Director, affixed NOVEMBER 29, 2004.

for Phillip C. Ward, Director

Recorded in State Record of Water Right Certificates numbered 80921

STATE OF OREGON
COUNTY OF MORROW
CERTIFICATE OF WATER RIGHT

PRIMARY

THIS CERTIFICATE ISSUED TO

PRUDENTIAL INSURANCE COMPANY OF AMERICA
P.O. BOX 3048
PASCO, WASHINGTON 99302

confirms the right to use the waters of the COLUMBIA RIVER, a tributary of the PACIFIC OCEAN, for IRRIGATION OF 2721.1 ACRES AND SUPPLEMENTAL IRRIGATION OF 1074.4 ACRES.

This right was perfected under Permit 35694. The date of priority is NOVEMBER 5, 1971. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 73.3 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

LOT 3 (SW $\frac{1}{4}$ SE $\frac{1}{4}$), SECTION 35, T 5 N, R 25 E, W.M.; 80 FEET NORTH AND 2480 FEET WEST FROM THE SE CORNER OF SECTION 35.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed $\frac{4}{5}$ acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

PRIMARY IRRIGATION

\ LOT 1 (NE $\frac{1}{4}$ NE $\frac{1}{4}$) 39.0 ACRES
 \ LOT 2 (NW $\frac{1}{4}$ NE $\frac{1}{4}$) 39.6 ACRES

This certificate correctly describes that portion of the water right NOT modified by the provisions of an order of the Water Resources Director entered March 18, 1999, approving Transfer Application 7941, and supercedes Certificate 76044, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources

Director, affixed DEC 16 1999.

15/ Tom J. Paul (for)

COUNTY OF MORROW

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

PORT OF MORROW
PO BOX 200
BOARDMAN, OREGON 97818

(541) 481-7678

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: G-13264

SOURCE OF WATER: WELL 4A, WELL 5A, PORT WELL #6, AND PORT WELL #7
WITHIN THE UMATILLA BASIN

PURPOSE OR USE: IRRIGATION OF 118.8 ACRES, SUPPLEMENTAL IRRIGATION OF 1090.38 ACRES AND INDUSTRIAL USE

AMOUNT ALLOWED: 15.37 CUBIC FEET PER SECOND (CFS), BEING 9.8 CFS FOR IRRIGATION AND 5.57 CFS FOR INDUSTRIAL USE

PERIOD OF ALLOWED USE: MARCH 1 THROUGH APRIL 15 AND OCTOBER 1 THROUGH OCTOBER 31 FOR IRRIGATION AND OCTOBER 1 THROUGH APRIL 15 FOR INDUSTRIAL USE

DATE OF PRIORITY: JANUARY 22, 1993

POINT OF DIVERSION LOCATION: NE 1/4 NW 1/4, SECTION 1; SW 1/4 NE 1/4, SECTION 10, TOWNSHIP 4 NORTH, RANGE 25 EAST, W.M.; WELL 4A - 150 FEET SOUTH & 2550 FEET EAST; WELL 5A - 60 FEET SOUTH & 1380 FEET EAST; BOTH FROM THE NW CORNER OF SECTION 1; PORT WELL #6 - 120 FEET NORTH & 2400 FEET WEST; PORT WELL #7 - 50 FEET NORTH & 2060 FEET WEST, BOTH FROM THE E 1/4 CORNER OF SECTION 10

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

TOWNSHIP 4 NORTH, RANGE 26 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

STANDARD CONDITIONS

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

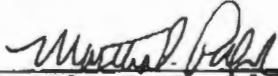

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction of the wells shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued September 11, 1996

7. LAND OWNERSHIP

Answer only
if for change
in **Character
of Use** or
Place of Use.

Use/Place of Use

Are there any lien holders identified in the Lot Book Report? Yes ☒ No

If yes, list the name and address of lien holder: NONE

If yes, the applicant must provide written notification of the proposed transfer to each lien holder.

Answer only
if the applicant
is **not** the
landowner.

Landowners

This section does not apply to water delivery entities authorized to act on behalf of their members, making permit amendment requests, or requests for changes in point of diversion or point of appropriation only.

Landowners: _____

(List all landowners shown on deed.)

Address(es): _____

City

State

Zip

The application must include notarized statements granting permission for the transfer from each landowner listed on the Lot Book Report. Attach extra sheets as necessary.

Answer only
if the receiving
landowner is
not the original
landowner or
the applicant.

Receiving Landowner

Name: _____

Address: _____

City

State

Zip

The Department's records should be changed to show this landowner is responsible for completion of the changes. This includes perfection of the changes after the final order is issued. All notices and correspondence should be sent to this landowner.

The applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to the applicant.

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

- ☒ Enclosed
- ☐ Not needed: (must meet the following four requirements)
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
 - ④ Irrigation only.

Map:

- ☒ Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*
- ☐ All others: *Need not be prepared by a Certified Water Right Examiner.*

Lot Book Report:

(n/a Permit Amendment)

- ☒ A lot book report for the land to which the water right is apputenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

- ☒ Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

- ☐ If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

- ☒ Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0

690.0 Ac. @ 1/40 = 17.25 CFS

18 x 175 = \$ 3150

3 x \$350 = \$1050

TOTAL = \$4200

9. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

applicant signature

name (print)

date

Oregon Water Resources Department Land Use Information Form

This information is needed to determine compatibility with local comprehensive plans as required by ORS 197.180. The Water Resources Department will use this and other information to evaluate the water use application. DO NOT fill out this form if water is to be diverted, conveyed, or used only on federal lands.

To Be Completed By Applicant

The following section includes information about proposed water use. This section must be completed by the individual or group that is filing an application for a water right with the Water Resources Department.

A. Applicant

Name: Port of Morrow

Address: #2 Marine Drive, P.O. Box 200

City: Boardman State: Oregon Zip: 97818 Day Phone: 541-481-7678

B. Land and Location

Please provide information as requested below for all tax lots on or through which water will be diverted, conveyed, or used. Check "diverted" if water is diverted (taken) from its source on tax lot, "conveyed" if water is conveyed (transported) on tax lot, and "used" if water will be put to beneficial use on tax lot. More than one box may be checked. (Attach extra sheets as necessary.) Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service area boundaries for the tax lot information requested below.

Tax Lot I.D.	Plan Designation (e.g. Rural Residential/RR-5)	Water to be: (check all that apply)		
4N-25-02-103	PI	<input checked="" type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
4N-25-1.2.12	PI, MG	<input type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used
4N-26-4.5.6.7.8.9	EFU, PI	<input type="checkbox"/> Diverted	<input checked="" type="checkbox"/> Conveyed	<input checked="" type="checkbox"/> Used

List counties and cities where water is proposed to be diverted, conveyed, or used. Morrow

C. Description of Water Use

Indicate what the water will be used for. Include the beneficial use (found in the instruction booklet for your water right application) and use the space below to describe the key characteristics of the project.

Beneficial Use(s): IRRIGATION

Briefly describe: Columbia River Water for Irrigation of Agricultural Crops on

Port Industrial, General Industrial, and EFU Lands owned by the Port of Morrow

D. Source

Indicate the source for the proposed water use:

☐ Reservoir/Pond ☐ Ground Water ☒ Surface Water Columbia River
(source)

E. Quantity

Indicate the estimated quantity of water the use will require:

76.4 ☒ CFS ☐ GPM ☐ Acre-Feet

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless your project will be located entirely within the city limits. In this case, only the city planning agency must complete this form. Please request additional forms as needed or feel free to copy.

A. Allowed Use

Check the appropriate box below and provide requested information.

- ☒ Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 3.010, 3.070, 3.073. Go to section B "Approval" below
- ☐ Land uses to be served by proposed water uses (including proposed construction) involve discretionary land use approvals as listed in the table below.

Type of Land Use Approval Needed (e.g. plan amendments, rezones, conditional use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Check the item that applies: Land Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Note: Please attach documentation of applicable local land use approvals which have already been obtained. (Record of Action plus accompanying findings is sufficient.)

B. Approval

Please provide printed name and written signature.

Name: CARLA B McLane Date: 1/8/2004
 Title: PLANNING DIRECTOR Phone: 541-922-4624
 Signature: [Signature]

C. Additional Comments

Local governments are invited to express special land use concerns or make recommendations to the Department regarding this proposed use of water below, or on a separate sheet.

Note: If this form cannot be completed while the applicant waits, sign and detach the receipt stub as instructed below. You will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD will presume the land use associated with the proposed water right is compatible with local comprehensive plans. (See attached letter.)

Receipt for Request for Land Use Information

Name of water right applicant: _____

This receipt must be signed by a local government representative and returned to the applicant at the time they present this form. This receipt must be included in the application for a water right permit if the local government cannot provide the requested land use information while the applicant waits.

City or County: _____

Staff contact: _____ Phone: _____

Signature: _____ Date: _____

**WATER RIGHT TRANSFER
AFFIDAVIT ATTESTING TO THE USE OF WATER DURING THE PREVIOUS FIVE YEARS**

State of Oregon)
County of Morrow) ss

I Rolf M. Prag, in my capacity as Utility Maintenance and Sites Supervisor
mailing address P. O. Box 200, Boardman, Oregon 97818,
telephone number (541) 481-7467, being first duly sworn depose and say:

1. I attest that water was used during the previous five years on the entire authorized place of use of the water right subject to transfer as described by the accompanying transfer application. My knowledge of the exercise of the water right is based on (check one):

- ☒ Personal observation
☐ Professional expertise

2. My knowledge is specific to the use of water at the following location(s):

1/4 1/4
1/4 1/4
1/4 1/4

Section Multiple 25
Township 4 N Range 26 E

3. The water right was exercised for the authorized purposes and is described as follows:

The Port of Morrow uses center pivot irrigation to raise crops
on the East Port Farm and the Portview Farm.

4. The water delivery system used to apply water as authorized by the water right is described as follows:

The Port of Morrow has five 800 HP pumps at a Columbia River
pump station, which supplies water through a 36" steel line
to the East Port Farm and the Portview Farm.

(continues on reverse side)

T-9601

5. One or more of the following documentation supporting the above statements is attached:

- ☐ Copy of a water right certificate which has been issued within the last five years (not a remaining right certificate),
- ☐ Copies of receipts from sales of irrigated crops or for expenditures relating to use of water,
- ☐ Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers,
- ☐ Dated aerial photographs of the lands or other photographs containing sufficient detail to establish the location and date of the photograph,
- ☒ Dedicated power usage records or receipts,
- ☐ If the right has not been used during the past five years, documentation that the presumption of forfeiture would be rebutted under ORS 540.610(2), or
- ☐ Other: _____

8. EXHIBITS

Application may be rejected if all appropriate exhibits are not enclosed.

Land Use Information Form:

X Enclosed

Not needed: (must meet the following four requirements)

- ① In EFU zone or irrigation district,
- ② Change in place of use only,
- ③ No structural changes needed, including diversion works, delivery facilities, other structures, and
- ④ Irrigation only.

Map:

X Water Right Transfer: *Must be prepared by a Certified Water Right Examiner.*

All others: Need not be prepared by a Certified Water Right Examiner.

Lot Book Report:

(n/a Permit Amendment)

X A lot book report for the land to which the water right is apputenant prepared by a title company. If the applicant is not the land owner as shown by the lot book report, the applicant shall provide a notarized and signed statement from the land owner authorizing the change.

Evidence of use within last five years, or not subject to forfeiture:

(n/a Permit Amendment)

X Evidence that the water has been used over the past five years in accordance with the terms and conditions of the right or that the right is not subject to forfeiture under ORS 540.610.

Water Well Reports:

... If application is for a change in point of appropriation or change from surface water to ground water, attach copies of all water well reports. If reports are not available, describe construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed.

Fees:

X Amount enclosed \$ 4200.00

NET ACREAGE FOR TRANSFER = 690.0
690.0 Ac. @ 1/40 = 17.25 CFS

18 x 175 = \$ 3150

3 x \$350 = \$1050

TOTAL = \$4200

9. SIGNATURE

I (we) swear that I (we) have read the above application and the statements made are true and accurate.

**AFFIDAVIT FOR THE PARTIAL DIMINUTION OF A
WATER RIGHT CERTIFICATE**

State of Oregon)
) ss
County of MORROW)

I/We (or authorized agent), PORT OF MORROW,
residing at P.O. BOX 200, #2 MARINE DRIVE, BOARDMAN, OREGON 97818,
telephone number 514-481-7678, being first duly sworn depose and say:

1. I/We are the legal owner(s) of the property described as tax lot number 4N - 25 - 1700, within the ALL $\frac{1}{4}$ $\frac{1}{4}$, Section 24, Township 4 N N/S, Range 25 E E/W, of the Willamette Meridian, in MORROW County, Oregon, as shown on the attached map and described in the attached deed and legal description and made part of this affidavit;
2. A portion of water right certificate number 51913 issued to Prudential Insurance Co. of America, with a date of priority of 11/ 05 /71 for use of 76.4 cubic foot per second of water from COLUMBIA RIVER (sources) for the purpose of IRRIGATION (uses) is appurtenant to my/our property;
3. I/We have obtained a Closer / ON-Site / Wastewater (e.g., better, more economical) source of water for the primary irrigation of the portion of this water right shown on the attached map and described as follows:
The right to the use of 0.44 cubic foot per second from Unnamed Stream Tributary to Juniper Canyon for the irrigation of 35.0 acres located:

<u>NW</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>4.8</u> Acres
<u>SW</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>26.0</u> Acres
<u>SE</u> $\frac{1}{4}$ <u>SE</u> $\frac{1}{4}$	<u>4.2</u> Acres

Section 24
Township 4 N N/S, Range 25 EE/W, WM;
4. I/we request the water right be diminished from a right for primary irrigation to a right for supplemental irrigation of the above described lands;
5. The appurtenant water right is/is not located within the boundaries of an irrigation district (if the right is located within a district, name it here: N/A); and

To Whom This May Concern;

The Port of Morrow has five 800HP pumps in a Columbia River pump station which supply water to the East Port Farm. I have personally witnessed these pumps supplying water to the circles on the East Port Farm.

Ref. Water Rights Transfers, T-9599, T-9600 & T-9601

Attn: Sarah Henderson

Enclosed are the supplemental information to complete the 3 (Three) Water Rights Transfers as listed above submitted by the Port of Morrow in Boardman, Oregon. Included within Transfer T-9601 are voluntary cancellations of Portions of Permit #S-35694. These cancellations are for lands that I have personal knowledge of and the associated Water Rights were abandoned by the development of the property more than 5 years ago. ALSO included in T-9601 is a voluntary Diminution for a Portion of the same Permit #S-35694. The Port of Morrow Requests that this Diminution of 35.0 Acres be Executed ONLY if the pending Application for Water Rights #S-85867 is APPROVED for permit. If the pending Application #S-85867 is not approved the Transferred Water Rights from permit #S-35694 will remain at the Same New Location and remain Primary for those lands.

Included in this package are Two (2) Temporary Transfers to cover the new lands until the Permanent Transfers have been issued an Order for Approval. The total fees for the temporary transfer applications are contained in one check. I have included the total fee for each application on page 6 of each application for your and my accounting purposes.

I will gladly address any questions or comments that you may have on this matter at your request.

Thank you

Ronald V. McKinnis, P.E., P.L.S., W.R.E

PRIVACY POLICY

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information – particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use the information we have obtained from any other source, such as information obtained from a public record or from another person or entity.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

2. The assessment roll and the tax roll disclose that the within described premises were specially assessed as Farm Use Land. If the land has become disqualified for the special assessment under the statute, an additional tax, interest and penalties thereon may be levied for the years in which the land was subject to the special land use assessment.
3. Memorandum of Lease, including the terms and provisions thereof, between the Port of Morrow, as lessor, and Ready-Mix Limited Partnership, as lessee, dated June 1, 1993, Recorded February 28, 1995, as Microfilm No. M-44619, Morrow County Microfilm Records.
4. The right, title and interest of parties in possession under unrecorded leases or other rights of possession.

THIS IS NOT A COMMITMENT TO ISSUE TITLE INSURANCE, OR A PRELIMINARY TITLE REPORT, and no Examination has been made of the Title to the above described property. The search of our tract indices was limited to apparent monetary encumbrances, and therefore above listings do not include additional matters which may have been disclosed by an examination of the record title. The Liability in connection with this Lot Book Service is expressly limited to the sum paid therefore, and the issuing company will not otherwise be responsible for errors and omissions therein. The charge for this service will not include supplemental reports.

PRIVACY POLICY

We Are Committed to Safeguarding Customer Information

In order to better serve your needs now and in the future, we may ask you to provide us with certain information. We understand that you may be concerned about what we will do with such information – particularly any personal or financial information. We agree that you have a right to know how we will utilize the personal information you provide to us. Therefore, we have adopted this Privacy Policy to govern the use and handling of your personal information.

Applicability

This Privacy Policy governs our use of the information which you provide to us. It does not govern the manner in which we may use the information we have obtained from any other source, such as information obtained from a public record or from another person or entity.

Types of Information

Depending upon which of our services you are utilizing, the types of nonpublic personal information that we may collect include:

- Information we receive from you on applications, forms and in other communications to us, whether in writing, in person, by telephone or any other means;
- Information about your transactions with us, our affiliated companies, or others; and
- Information we receive from a consumer reporting agency.

Use of Information

We request information from you for our own legitimate business purposes and not for the benefit of any nonaffiliated party. Therefore, we will not release your information to nonaffiliated parties except: (1) as necessary for us to provide the product or service you have requested of us; or (2) as permitted by law. We may, however, store such information indefinitely, including the period after which any customer relationship has ceased. Such information may be used for any internal purpose, such as quality control efforts or customer analysis. We may also provide all of the types of nonpublic personal information listed above to one or more of our affiliated companies. Such affiliated companies include financial service providers, such as title insurers, property and casualty insurers, and trust and investment advisory companies, or companies involved in real estate services, such as appraisal companies, home warranty companies and escrow companies. Furthermore, we may also provide all the information we collect, as described above, to companies that perform marketing services on our behalf, on behalf of our affiliated companies, or to other financial institutions with whom we or our affiliated companies have joint marketing agreements.

Former Customers

Even if you are no longer our customer, our Privacy Policy will continue to apply to you.

Confidentiality and Security

We will use our best efforts to ensure that no unauthorized parties have access to any of your information. We restrict access to nonpublic personal information about you to those individuals and entities who need to know that information to provide products or services to you. We will use our best efforts to train and oversee our employees and agents to ensure that your information will be handled responsibly and in accordance with this Privacy Policy. We currently maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

Ref. Water Rights Transfers & Application

Enclosed are 3 (Three) Water Rights Transfers and 1 (One) Water Rights Application for properties all Owned by the Port of Morrow in and around Boardman, Oregon. I have had conversations with Bernadette Williams, Ken Dowden and Tony Justus on these applications and they are submitted now based on the comments back from them. I have done a "Blanket Transfer" on Two of the transfers and the third was modified based on the "Easiest to Process for All Parties" as it affects Hundreds of acres of irrigation. The Applications and Supporting pages are available in an Electronic Format, which may help in processing.

The total fees for all applications are contained in one check. I have included the total fee for each application on page 6 of each application for your and my accounting purposes.

I will gladly address any questions or comments that you may have on this matter at your request.

Thank you

Ronald V. McKinnis, P.E., P.L.S., W.R.E.

REFERENCE: Transfer 9601

On 11/14/03 we received your water right transfer application requesting a change in **place of use and an additional point of diversion, surface to ground water** for use of water from **Columbia River**. The application was accompanied by \$ **4200.00**. Our receipt **64313** is enclosed.

By copy of this letter, we are asking the Watermaster for his usual report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

You may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, you will need to obtain consent from the buyer to complete the transfer.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503) 986-0900.

**OREGON WATER RESOURCES DEPARTMENT
INTEROFFICE MEMO**

REC'D JUN 28 2004

To: File/Doug Parrow

Date: June 16, 2004

From: Michael J. Zwart

Subject: T-9601, Port of Morrow

CWRE Ron McKinnis of the Port of Morrow hand delivered a copy of a stamped report prepared by registered geologist Terry Tolan today. The report is in support of the above file, which proposes (in part) a surface water to ground water transfer.

I have reviewed the report and concur with the conclusion that the pumping of the proposed ground water POA will affect the Columbia River 'similarly' to the authorized POD. I have independently calculated that stream depletion will likely greatly exceed 50 percent after 10 days of continuous pumping. Let me know if I need to provide additional review comments.
