OF THE  
STATE OF OREGON**

In the Matter of Ground Water	)	FINAL ORDER APPROVING
Registration Modification Application	)	RECOGNITION OF A MODIFICATION
T-11417, Josephine County	)	IN POINT OF APPROPRIATION AND
	)	A MODIFICATION IN PLACE OF USE

**Authority**

ORS 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a ground water certificate of registration.

OAR Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating ground water registration modification applications.

**Applicants**

JAMES R. AND LEONA M. LAFLAMME, TRUSTEES  
LAFLAMME LOVING TRUST  
PO BOX 106  
SELMA, OR 97538

**Findings of Fact**

**Background**

1. On May 7, 2012, JAMES R. AND LEONA M. LAFLAMME, TRUSTEES, LAFLAMME LOVING TRUST filed a ground water registration modification application to modify the point of appropriation and place of use under Registration Application GR-4090 (Certificate of Registration GR-3860). The Department assigned the application number T-11417.
2. On November 19, 2012, the applicant amended the application correcting the place of use proposed to be transferred.
3. On May 7, 2012, Registration Application GR-4090 (Certificate of Registration GR-3860) was partially assigned from Raymond L. and Loretta R. Frost to James R. and Leona M. Laflamme, Trustees, Laflamme Loving Trust.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. The portion of the ground water registration to be modified is as follows:

**Registration:** Application GR-4090 (Certificate of Registration GR-3860), in the names of RAYMOND L. AND LORETTA R. FROST (*partially assigned to JAMES W. AND LEONA M. LAFLAMME, TRUSTEES, LAFLAMME LOVING TRUST*)

**Use:** IRRIGATION OF 12.0 ACRES

**Tentative**

**Priority Date:** JUNE 1948

**Quantity:** 33.34 GALLONS PER MINUTE

**Source:** A SUMP within the DEER CREEK BASIN

**Original Point of Appropriation:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SE	590 FEET NORTH AND 810 FEET WEST FROM THE SE CORNER OF SECTION 9

**Original Place of Use:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	7 W	WM	9	SE SW	12.0

5. Ground Water Registration Modification Application T-11417 proposes to modify the location of the original point of appropriation approximately 0.5 mile from the original point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SW	230 FEET NORTH AND 3390 FEET WEST FROM THE SE CORNER OF SECTION 9

6. Ground Water Registration Modification Application T-11417 proposes to modify the place of use under the ground water registration to:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
38 S	7 W	WM	9	NE SW	38	4.0
38 S	7 W	WM	9	SE SW	38	8.0

7. Notice of the application for ground water registration modification was published on May 15, 2012, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.
8. On November 6, 2012, the Department sent a copy of the draft Preliminary Determination proposing to approve Groundwater Registration Modification Application T-11417 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of December 7, 2012, for the applicants to respond. The applicants requested that the

Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the Groundwater Registration Modification.

9. On November 30, 2012, the Department issued a Preliminary Determination proposing to approve Groundwater Registration Modification Application T-11417 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the Groundwater Registration Modification application was published on the Department's weekly notice on November 30, 2012, and in the Grants Pass Daily Courier newspaper on December 6 and 13, 2012, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

***Review Criteria for Ground Water Registration Modification Applications [OAR 690-382-0700(2)]***

10. The proposed modifications would not result in enlargement of the ground water registration. The proposed modifications would not result in a state Scenic Waterway not receiving previously available water during periods in which streamflows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
11. The proposed modifications would not result in injury to other water rights.

**Conclusions of Law**

The modification in point of appropriation and modification in place of use proposed in Ground Water Registration Modification T-11417 are consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000.

**Now, therefore, it is ORDERED:**

1. The modifications to Registration Application GR-4090 (Certificate of Registration GR-3860) proposed in Ground Water Registration Modification Application T-11417 are recognized. Recognition of the modifications shall not be construed as a final determination of the right to appropriate ground water under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.
2. The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-4090 (Certificate of Registration GR-3860) and any related decree.
3. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
4. Water shall no longer be appropriated from the original point of appropriation as part of this ground water certificate of registration.

5. The quantity of water diverted at the new point of appropriation shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. The former place of use of the modified ground water registration shall no longer receive water as part of the ground water certificate of registration.
7. Water use measurement conditions:
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at the new point of appropriation.
  - b. The water user shall maintain the meter or measuring device in good working order.
  - c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.

Dated at Salem, Oregon this 15 day of January, 2013.

Codi,

I have processed the legal into our format and it comes to a 1 col. by 4 inch ad. The cost will be \$81.60 for two publications.

We have a couple of different accounts set up for Oregon Water Resources and we can bill you.

Let me know when you'd like to publish. We are working on Saturday and Monday today, as we are on holiday deadlines for Thanksgiving.

Thank you,

SUBJECT: Ground Water Registration Modification T-11417

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-11417. This document is an intermediate step in the approval process; water may not be used legally as proposed in the ground water registration modification application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Grants Pass Daily Courier newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0881 or [teri.k.hranac@wrd.state.or.us](mailto:teri.k.hranac@wrd.state.or.us), if I may be of assistance.

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of Ground Water	)	PRELIMINARY DETERMINATION
Registration Modification Application	)	PROPOSING APPROVAL OF
T-11417, Josephine County	)	RECOGNITION OF A MODIFICATION
	)	IN POINT OF APPROPRIATION AND
	)	A MODIFICATION IN PLACE OF USE

**Authority**

ORS 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a ground water certificate of registration.

OAR Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating ground water registration modification applications.

**Applicants**

JAMES R. AND LEONA M. LAFLAMME, TRUSTEES  
LAFLAMME LOVING TRUST  
PO BOX 106  
SELMA, OR 97538

**Findings of Fact**

**Background**

1. On May 7, 2012, JAMES R. AND LEONA M. LAFLAMME, TRUSTEES, LAFLAMME LOVING TRUST filed a ground water registration modification application to modify the point of appropriation and place of use under Registration Application GR-4090 (Certificate of Registration GR-3860). The Department assigned the application number T-11417.
2. On November 19, 2012, the applicant amended the application correcting the place of use proposed to be transferred.
3. On May 7, 2012, Registration Application GR-4090 (Certificate of Registration GR-3860) was partially assigned from Raymond L. and Loretta R. Frost to James R. and Leona M. Laflamme, Trustees, Laflamme Loving Trust.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

4. The portion of the ground water registration to be modified is as follows:

**Registration:** Application GR-4090 (Certificate of Registration GR-3860), in the names of RAYMOND L. AND LORETTA R. FROST (*partially assigned to JAMES W. AND LEONA M. LAFLAMME, TRUSTEES, LAFLAMME LOVING TRUST*)

**Use:** IRRIGATION OF 12.0 ACRES

**Tentative**

**Priority Date:** JUNE 1948

**Quantity:** 33.34 GALLONS PER MINUTE

**Source:** A SUMP within the DEER CREEK BASIN

**Original Point of Appropriation:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SE	590 FEET NORTH AND 810 FEET WEST FROM THE SE CORNER OF SECTION 9

**Original Place of Use:**

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	Acres	
38 S	7 W	WM	9	SE SW	12.0	

5. Ground Water Registration Modification Application T-11417 proposes to modify the location of the original point of appropriation approximately 0.5 mile from the original point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SW	230 FEET NORTH AND 3390 FEET WEST FROM THE SE CORNER OF SECTION 9

2. Ground Water Registration Modification Application T-11417 proposes to modify the place of use under the ground water registration to:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
38 S	7 W	WM	9	NE SW	38	4.0
38 S	7 W	WM	9	SE SW	38	8.0

6. Notice of the application for ground water registration modification was published on May 15, 2012, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.
7. On November 6, 2012, the Department sent a copy of the draft Preliminary Determination proposing to approve Groundwater Registration Modification Application T-11417 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of December 7, 2012, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the

necessary information to demonstrate that the applicant is authorized to pursue the Groundwater Registration Modification.

***Review Criteria for Ground Water Registration Modification Applications [OAR 690-382-0700(2)]***

8. The proposed modifications would not result in enlargement of the ground water registration. The proposed modifications would not result in a state Scenic Waterway not receiving previously available water during periods in which streamflows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
9. The proposed modifications would not result in injury to other water rights.

**Determination and Proposed Action**

The modification in point of appropriation and modification in place of use proposed in Ground Water Registration Modification T-11417 appear to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-380-4030, the modification will be approved.

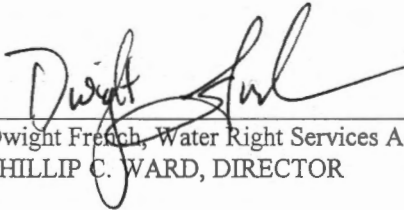

*If Ground Water Registration Modification T-11417 is approved, the final order will include the following:*

1. *The modifications to Registration Application GR-4090 (Certificate of Registration GR-3860) proposed in Ground Water Registration Modification Application T-11417 are recognized. Recognition of the modifications shall not be construed as a final determination of the right to appropriate ground water under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-4090 (Certificate of Registration GR-3860) and any related decree.*
3. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
4. *Water shall no longer be appropriated from the original point of appropriation as part of this ground water certificate of registration.*
5. *The quantity of water diverted at the new point of appropriation shall not exceed the quantity of water lawfully available at the original point of appropriation.*
6. *The former place of use of the modified ground water registration shall no longer receive water as part of the ground water certificate of registration.*

7. *Water use measurement conditions:*

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at the new point of appropriation.*
- b. The water user shall maintain the meter or measuring device in good working order.*
- c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.*

Dated at Salem, Oregon this 30 day of November, 2012.

SUBJECT: Water Right Transfer Application T-11417

Your water right transfer is ready for issuance of the Preliminary Determination, once the Department receives payment for publication of the newspaper notice.

### **Items needed before the next phase of processing...**

At this time you need to:

1. submit a check for **\$ 97.92** (to cover cost of publication of the notice), made out to the Oregon Water Resources Department
2. **write "for T-11417 NOTICE" on the front of your check**, and
3. submit it with the tracking stub at the bottom of this letter.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, **no later than December 20, 2012.**

### **What happens next...**

Shortly after receiving payment, the Department will issue the Preliminary Determination, initiate publication in the Grants Pass Daily Courier newspaper, and also publish the notice on the Department's weekly notice. Publication of the notice will initiate a protest period during which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

**If we do not receive payment for newspaper notice by December 20, 2012, a Preliminary Determination may be issued denying the application as incomplete.**

SUBJECT: Ground Water Registration Modification T-11417

Your water Ground Water Registration Modification is in one of three phases of processing. Enclosed is a draft of our Preliminary Determination regarding Ground Water Registration (GR) Modification Application T-11417. The document reflects the Department's conclusion that, based on the information currently available, the modification will be approved.

### Items needed before the next phase of processing...

1. Please review the draft carefully to see if it accurately reflects the changes you intend to make, and to become familiar with all proposed conditions. **You will need to respond in writing** by the deadline provided below, whether you agree with the proposed action and conditions. Also we will appreciate having you let us know if there are typographical errors that need to be corrected.
2. A report of landownership for the lands to which the Ground Water Registration is appurtenant (the FROM lands) is required. **The report must be prepared by a title company and meet the criteria below.** (*Reports may be called by various names, such as Customer Service Report, Property Analysis Report (PAR), List Pack, Lot Book Report, etc.*)
  - a) The title company's report must either be:
    - i) prepared within 3 months of the draft Preliminary Determination showing current ownership, or
    - ii) prepared within 3 months of recording of a water right conveyance agreement, or
    - iii) prepared at any time, but showing ownership at the time a water right conveyance agreement was recorded.
  - b) The ownership report shall include:
    - i) Date reflected by the ownership information
    - ii) List of owners at that time
    - iii) Legal description of the property where the water right to be modified is currently located.
  - c) You will need to submit a notarized statement of consent from any landowner listed in the ownership report who is not already included in the application, or other information such as a water right conveyance agreement, if applicable.
3. Notice of this GR Modification will need to be published in a local newspaper with general circulation in the area where the registrations are currently located. You will be responsible for the charges. Please indicate the local paper you prefer to publish in so we can get an accurate estimate of the cost.

### **Conditions to your GR registration modification...**

The Watermaster has required a water measurement device at the new points of appropriation prior to appropriation of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) device.

### **What happens next...**

Once the Preliminary Determination is issued a publication period is required. Because there is more than ¼ mile between the new and the authorized point of appropriation, the Department will publish notice of the modification in a local newspaper having a general circulation in the area of the water right at least once per week for two consecutive weeks. You are responsible for sending a check to cover the cost of publication prior to the issuance of the Preliminary Determination and publication of notice (see below).

The Department has identified an error in your application regarding the authorized place of use. Attached is a copy of Table 2, page 6, with corrections indicated. These corrections correspond to the map that was submitted with your application as well as with the original Groundwater Registration Statement. Please initial the corrections and return the page to us.

Issuance of the Preliminary Determination will occur shortly after we receive:

1. your written response to the conditions and proposed action in the draft Preliminary Determination (e-mail is acceptable); and
2. corrected Table 2, page 6 of the application
3. report of ownership, and affidavits of consent from any landowners shown in the ownership report who have not signed the application; and
4. name of the newspaper you wish the Department to use for publication of the notice of the Preliminary Determination.

**If we do not receive the items listed above by December 7, 2012, a Preliminary Determination may be issued denying the application as incomplete.**

Please do not hesitate to contact me at 503-986-0881 or [teri.k.hranac@ wrd.state.or.us](mailto:teri.k.hranac@ wrd.state.or.us), if I may be of assistance.

PRELIMINARY DETERMINATION  
PROPOSING APPROVAL OF  
RECOGNITION OF A MODIFICATION  
IN POINT OF APPROPRIATION AND  
A MODIFICATION IN PLACE OF USE

**Authority**

ORS 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a ground water certificate of registration.

OAR Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating ground water registration modification applications.

**Applicant**

JAMES R. AND LEONA M. LAFLAMME,  
TRUSTEES LAFLAMME LOVING TRUST  
PO BOX 106  
SELMA, OR 97538

**Findings of Fact**

**Background**

1. On May 7, 2012, JAMES R. AND LEONA M. LAFLAMME, TRUSTEES LAFLAMME LOVING TRUST filed a ground water registration modification application to modify the point of appropriation and place of use under Registration Application GR-4090 (Certificate of Registration GR-3860). The Department assigned the application number T-11417.
2. On \_\_\_\_\_, 2012, the applicant amended the application correcting the proposed place of use proposed to be transferred.
3. On May 7, 2012, Registration Application GR-4090 (Certificate of Registration GR-3860) was partially assigned from RAYMOND L. AND LORETTA R. FROST to JAMES R. AND LEONA M. LAFLAMME, TRUSTEES LAFLAMME LOVING TRUST.

4. The portion of the ground water registration to be modified is as follows:

**Registration:** Application GR-4090 (Certificate of Registration GR-3860), in the names of RAYMOND L. AND LORETTA R. FROST (*partially assigned to JAMES W. AND LEONA M. LAFLAMME, TRUSTEES LAFLAMME LOVING TRUST*)

**Use:** IRRIGATION OF 12.0 ACRES

**Tentative**

**Priority Date:** JUNE 1948

**Quantity:** 33.34 GALLONS PER MINUTE

**Source:** A SUMP within the DEER CREEK BASIN

**Original Point of Appropriation:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SE	590 FEET NORTH AND 810 FEET WEST FROM THE SE CORNER OF SECTION 9

**Original Place of Use:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	7 W	WM	9	SE SW	12.0

5. Ground Water Registration Modification Application T-11417 proposes to modify the location of the original point of appropriation approximately 0.5 mile from the original point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SW	230 FEET NORTH AND 3390 FEET WEST FROM THE SE CORNER OF SECTION 9

2. Ground Water Registration Modification Application T-11417 proposes to modify the place of use under the ground water registration to:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
38 S	7 W	WM	9	NE SW	38	4.0
38 S	7 W	WM	9	SE SW	38	8.0

6. Notice of the application for ground water registration modification was published on May 15, 2012, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.

***Review Criteria for Ground Water Registration Modification Applications [OAR 690-382-0700(2)]***

7. The proposed modifications would not result in enlargement of the ground water registration. The proposed modifications would not result in a state Scenic Waterway not receiving previously available water during periods in which streamflows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.

8. The proposed modifications would not result in injury to other water rights.

### **Determination and Proposed Action**

The modification in point of appropriation and modification in place of use proposed in Ground Water Registration Modification T-11417 appear to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-380-4030, the modification will be approved.

*If Ground Water Registration Modification T-11417 is approved, the final order will include the following:*

1. *The modifications to Registration Application GR-4090 (Certificate of Registration GR-3860) proposed in Ground Water Registration Modification Application T-11417 are recognized. Recognition of the modifications shall not be construed as a final determination of the right to appropriate ground water under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-4090 (Certificate of Registration GR-3860) and any related decree.*
3. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
4. *Water shall no longer be appropriated from the original point of appropriation as part of this ground water certificate of registration.*
5. *The quantity of water diverted at the new point of appropriation shall not exceed the quantity of water lawfully available at the original point of appropriation.*
6. *The former place of use of the modified ground water registration shall no longer receive water as part of the ground water certificate of registration.*
7. *Water use measurement conditions:*
  - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at the new point of appropriation.*
  - b. *The water user shall maintain the meter or measuring device in good working order.*

*c. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.*

RE: Application for Ground Water Registration Modification for Certificate GR-3860

Dear Transfer Section,

Please accept our application for modification of ground water registration certificate GR-3860.

We are proposing to transfer the point of appropriation and place of use for 12 acres. There are 15 acres in the SE/SW of section 9, T38S, R7W, W.M. We have been irrigating approximately 15 acres on tax lot 702 as the neighbor to the east (TL-794) has never irrigated as long as we have lived on our property. Be that as it may, we are claiming 12 of the 15 acres as that is what we believe was appurtenant to our property (TL-702) in the original registration.

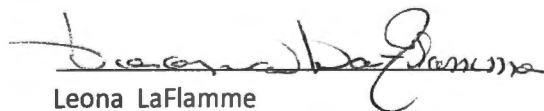

We dug the sump we are currently using in 1982 or 1983 and have used it to irrigate continuously since that time.

Before we dug the sump we were advised by the watermaster's office to cancel our claim to GR-3860, and file for a new permit. This was confusing to us since we believe our sump is the same ground water source as the sump identified in the claim. We decided to dig the sump and use it under GR-3860 and wait for the adjudication of ground water claims.

We would now like to solidify our intentions and to take advantage of the recent legislation that allows for modification of ground water registrations.

Thank you,

  
James LaFlamme

**For a modification in place of use or character of use:**

**Are there other water right certificates, water use permits, or ground water registrations associated with the "from" or "to" lands?**  Yes  No

If YES, list the other certificate, water use permit, or other ground water registration numbers:

Pursuant to OAR 690-382-0200, any "layered" water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a ground water registration on the "to" lands must be filed separately with a ground water registration modification.

**For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:**

- Well log(s) are attached for each well that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.  
(Tip: You may search for well logs on the Department's web page at:  
[http://apps.wrd.state.or.us/apps/gw/well\\_log/](http://apps.wrd.state.or.us/apps/gw/well_log/))

**OR**

- Describe the construction of the well(s) in Table 3 for any wells that do not have a well log.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist or certified water right examiner for the proper information needed to complete the table.

COUNTY OF JOSEPHINE  
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

RAYMOND L. AND LORETTA R. FROST  
4001 DEER CREEK ROAD  
SELMA, OREGON 97538

confirms the right to use the waters of SUMP 4 in the DEER CREEK BASIN for the purpose of IRRIGATING 35.0 ACRES.

This right has been perfected under Permit G-9922. The date of priority is AUGUST 18, 1976. This right is limited to 0.44 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

SE 1/4 SW 1/4, SECTION 9, T 38 S, R 7 W, W.M.; 700 FEET NORTH AND 1370 FEET EAST FROM THE SW CORNER OF SECTION 9.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

The use of water shall be limited when it interferes with the prior surface water rights of others.

This right shall conform to any reasonable rotation system ordered by the proper state officer.

A description of the place of use under this right, and to which this right is appurtenant, is as follows:

SW 1/4 SW 1/4	25.0 ACRES
NW 1/4 SW 1/4	0.7 ACRE
NE 1/4 SW 1/4	0.3 ACRES

## Ground Water Review Form:

- Water Right Transfer
- Permit Amendment
- GR Modification
- Other

Application: T-11417

Applicant Name: Leona M LaFlamme

Proposed Changes:  POA       APOA       SW→GW       RA  
 USE       POU       OTHER

Reviewer(s): Jen Woody

Date of Review: 6/13/2012

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other \_\_\_\_\_

- 
1. Basic description of the changes proposed in this transfer: The application proposes to change the place of use and change the POA for Cert GR 3860. The authorized POA is a sump (14 feet deep per application GR 4090) located approximately 2600 feet east (upstream) from the proposed POA. The proposed POA is an existing, 14 or 18 feet deep sump (the application states different depths in different places for the proposed POA).
  2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?  
 Yes     No    Comments: GR 4090 describes the sump as 14 feet deep, with sandy loam to 10 feet below land surface (BLS), gravel and fines from 10 to 14 feet BLS. Well logs in the area describe similar materials at shallow depths, so it is reasonable to assume the proposed POA accesses the same aquifer.
  3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?  
 Yes     No    Both sumps are in the Quaternary alluvium of Deer Creek. There is no information indicating there are distinct aquifers within the alluvium.
  4. b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): NA
  5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?  
 Yes     No    Comments: The nearest groundwater right to the proposed POA is 1780 feet NW of the sump, while Deer Creek is 150 feet from the proposed POA. The cone of depression caused by pumping at the sump will intercept the Creek before it affects other groundwater users. Therefore, the new POA is expected to affect other groundwater users similarly to the authorized POA.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes  No If yes, explain: \_\_\_\_\_

6. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes  No Comments: Hunt (1999) model indicates the proposed POA will cause an increase in interference with Deer Creek. There are no site-specific aquifer parameters available. This model is most sensitive to variations in streambed hydraulic conductivity, so a range of values was tested. The lowest (1 ft/d) is probably overly conservative, more likely to describe a silty-sand streambed than the cobble streambed observed near the site. The streambed materials are coarse, consisting of cobbles with some sand and gravel; streambed hydraulic conductivity is expected to be on the order of 10 ft/day or greater. Using this streambed hydraulic conductivity, the Jenkins and Hunt (1999) models converge in less than 30 days. Both models show an increase in interference with surface water at the proposed POA.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: interference with Deer Creek increases by 0.013 cfs at 1 year  Minimal  Significant  
Stream: \_\_\_\_\_  Minimal  Significant

Provide context for minimal/significant impact: The streambed likely has little clogging, because of the large grain size, and the observation by local landowners that in low flow months the creek flows part way through the valley before disappearing into the subsurface. Pumping at either the authorized or the proposed location will create a cone of depression that intersects the stream in less than one day. Given the uncertainty in estimating site-specific aquifer parameters and streambed conductivity, a 0.013 cfs increase in interference is considered minimal for the purposes of this review.

What conditions or other changes in the application are necessary to address any potential issues identified above: \_\_\_\_\_

7. Any additional comments: \_\_\_\_\_

## Watermaster Review Form: Water Right Transfer

Transfer Application: T-11417

Review Due Date: \_\_\_\_\_

Applicant Name: James R. and Leona M. LaFlamme Loving Trust

Proposed Changes:  POU     POD     POA     USE     OTHER

Reviewer(s): Kathy Smith

Date of Review: Jun. 11, 2012

1. Do you have information suggesting that the water rights may be subject to forfeiture?  
 Yes     No    If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: \_\_\_\_\_
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights?  Yes     No    Generally characterize the frequency of any regulation or explain why regulation has not occurred:  
\_\_\_\_\_
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right?  If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:  
\_\_\_\_\_
4. Are there upstream water rights that would be affected by the proposed change?  
 Yes     No    If "Yes", describe how the rights would be affected and list the rights most affected: \_\_\_\_\_
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach?  If you check the box, describe and, if possible, estimate the losses: \_\_\_\_\_
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?  
 Yes     No    If "Yes", explain: \_\_\_\_\_
7. For POU changes, would the original place of use continue to receive water from the same source?  Yes     No     N/A    If "Yes", explain: \_\_\_\_\_
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?  Yes     No  
If "Yes", explain: \_\_\_\_\_
9. Are there other issues not identified through the above questions?  Yes     No    If "Yes", explain: \_\_\_\_\_
10. What alternatives may be available for addressing any issues identified above: \_\_\_\_\_

11. Have headgate notices been issued for the source that serves the right?  Yes  No

12. The checked water control and measurement conditions should be included in the transfer:

<b>Headgates:</b> <input checked="" type="checkbox"/> NA	<input type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.

**Measurement Devices:**

*The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.*

Surface Water Diversion or Groundwater Point of Appropriation:

*The Director may require the water user to install a totalizing flow meter or other suitable measuring devices at each point of diversion/appropriation. If the Director notifies the water user to install totalizing flow meters or other measuring devices, the water user shall install such devices specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the meters or measuring devices in good working order and shall allow the Watermaster access to the meters or measuring devices.*

*Water use measurement conditions: (if this condition is selected, also fill in the top sections of page 3)*  
 a. ***Before water use may begin under this order, the water user shall install a totalizing flow meter\*, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation.***  
 b. *The water user shall maintain the meters or measuring devices in good working order.*  
 c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

Reservoirs:

*The Director may require the water user to install staff gages or other suitable measuring devices that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style. Additionally, if the reservoir is located in-channel, weirs or other suitable measuring devices may be required upstream and downstream of the reservoir, and an adjustable outlet valve may be required. If the Director notifies the water user to install adjustable outlet valves, staff gages, weirs, or other suitable measuring devices, the water user shall install such devices specified by the Director within the period allowed in the notice. Once installed, the water user shall maintain the devices in good working order and shall allow the Watermaster access to the devices.*

*Water use measurement conditions: (if this condition is selected, also fill in the top sections of page 3)*  
 a. ***Before water use may begin under this order, the water user shall install staff gages\*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.***  
 b. *Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

**\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:**

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. Comments should be sent to the Transfers Section at the Department's Salem office.

 SALEM, OREGON

**This Ground Water Registration Modification application will be returned if Parts 1 through 4 and all required attachments are not completed and included.**

For questions, please call (503) 986-0900, and ask for Transfer Section.

**Check all included with this application (N/A = Not Applicable)**

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Ground Water Registration Modification Application Map Checklist.
- Part 3 – Completed Ground Water Registration Modification Application – Applicant Information and Signature.
- Part 4 – Completed Ground Water Registration Modification Application – Ground Water Registration Information. (Only one ground water registration per application, **unless** the ground water registrations to be modified are layered).
- Completed Ground Water Registration Modification Application Map (Does not have to be prepared by a Certified Water Right Examiner).
- Ground water registration modification fees – Amount enclosed: \$ **1,125.00**. See <http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml#fees> or call (503) 986-0883.

**Attachments:**

- N/A Request for Assignment Form and statutory fee. This form needs to be completed if the applicant owns the land to which the registration is appurtenant and is **not** the registration certificate holder of record. The Request for Assignment Form is available at [http://www.wrd.state.or.us/OWRD/PUBS/docs/forms/req\\_assign\\_8\\_21\\_09.pdf](http://www.wrd.state.or.us/OWRD/PUBS/docs/forms/req_assign_8_21_09.pdf), or [http://www.wrd.state.or.us/OWRD/PUBS/docs/forms/req\\_assign\\_8\\_09.pdf](http://www.wrd.state.or.us/OWRD/PUBS/docs/forms/req_assign_8_09.pdf). Assignment is not needed for any person or entity who can demonstrate authorization to request recognition of a modification (e.g. legal representative, power of attorney, agent, etc.) **or** the applicant is named on the certificate of registration, or has been assigned to the certificate of registration.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Land use form not required if any of the following apply:
  - Water is to be diverted, conveyed, and/or used only on federal lands.
  - All of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A For changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation, Water Well Report/Well Log.

**Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.**

- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads and railroads.
- Major water delivery system features from the point(s) of appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes hachuring, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the registration is being changed, a separate hachuring is needed for the portion of the registration left unchanged.
- N/A If you are proposing a modification in place of use, show the proposed place of use with hachuring including priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of appropriation with distance and bearing or coordinates from a recognized survey corner.
- N/A If you are proposing a modification in point(s) of appropriation, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

RE: Application for Ground Water Registration Modification for Certificate GR-3860

Dear Transfer Section,

Please accept our application for modification of ground water registration certificate GR-3860.

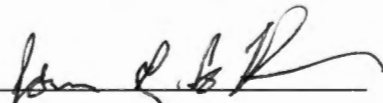

We are proposing to transfer the point of appropriation and place of use for 12 acres. There are 15 acres in the SE/SW of section 9, T38S, R7W, W.M. We have been irrigating approximately 15 acres on tax lot 702 as the neighbor to the east (TL-794) has never irrigated as long as we have lived on our property. Be that as it may, we are claiming 12 of the 15 acres as that is what we believe was appurtenant to our property (TL-702) in the original registration.

We dug the sump we are currently using in 1982 or 1983 and have used it to irrigate continuously since that time.

Before we dug the sump we were advised by the watermaster's office to cancel our claim to GR-3860, and file for a new permit. This was confusing to us since we believe our sump is the same ground water source as the sump identified in the claim. We decided to dig the sump and use it under GR-3860 and wait for the adjudication of ground water claims.

We would now like to solidify our intentions and to take advantage of the recent legislation that allows for modification of ground water registrations.

Thank you,

  
James LaFlamme

## APPLICANT:

*James R. & Leona M. LaFlamme*  
*P.O. Box 106*  
*Selma, OR 97538-0106*

\*Of the remaining 42.0 acres after this change, only about 20.0 acres have been and are being irrigated, all on TL-709.  
Rate of diversion in registration is 150 gpm for 54 acres with a total duty of 100 Acre-Feet

Upon adjudication, if fewer than 54 acres are found irrigated, it is expected that the total quantity of water (150 gpm) not be reduced unless the rate per acre exceeds 1/80 CFS per acre and the duty of 100 Acre-Feet not be reduced unless it exceeds 3 acre feet per acre
