

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of Transfer Application	)	PRELIMINARY DETERMINATION
T-14059, Marion County	)	PROPOSING APPROVAL OF A CHANGE IN
	)	POINTS OF APPROPRIATION AND A
	)	CHANGE IN PLACE OF USE

**Authority**

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicant**

CRAIG AND JUANITA SCHURTER  
6540 TORVEND RD NE  
SILVERTON, OR 97381

**Findings of Fact**

1. On August 1, 2022, Craig and Juanita Schurter filed an application to change the points of appropriation and change the place of use under Certificates 88739 and 93894. The Department assigned the application number T-14059.
2. Notice of the application for transfer was published on August 9, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On June 13, 2023, the Department notified the applicant's agent that the application did not meet the requirements for the exceptions under OAR 690-380-3220. The multiple certificates proposed for transfer require separate applications, or the applicant would need to add a place of use change to the application to meet the exception requirements under OAR 690-380-3220.
4. On July 19, 2023, the applicant's agent submitted superseding application pages and superseding maps, adding a place of use change under Certificates 88739 and 93894.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.
---

5. On November 3, 2023, the Department determined one proposed point of appropriation (POA) under Certificate 88739 (Alluvial Well 2) will cause additional drawdown/ interference in well MARI 3594. The drawdown by the pumping of proposed Alluvial Well 2 would likely result in other existing groundwater rights not receiving the water to which they are legally entitled.
6. On November 13, 2023, the Department notified the applicant's agent via email that the transfer application did not include supporting documentation for the Evidence of Use Affidavit.
7. On November 13, 2023, the applicant's agent submitted the supporting documentation for the Evidence of Use Affidavit.
8. On December 12, 2023, the applicant's agent submitted a revised Table 1 indicating a change in location of the injurious proposed point of appropriation (Alluvial Well 2).
9. On January 18, 2024, The Department completed a review of the revised location proposed for Alluvial Well 2 and determined that the new proposed location would not likely result in another existing groundwater right not receiving the water to which it is legally entitled.
10. On March 6, 2024, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-14059 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of April 5, 2024, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.

**Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and OAR 690-380-2110(2)]**

17. Confirming rights have been issued and water has been used within the last five years prior to the submittal of Transfer Application T-14059 according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
18. A water delivery system sufficient to use the full amount of water allowed under the existing rights was present within the five-year period prior to submittal of Transfer Application T-14059.
19. The water rights are subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).

20. The proposed points of appropriation develop groundwater from the same aquifer as the authorized points of appropriation, as required by OAR 690-380-2110(2).
21. The proposed changes, as conditioned, would not result in enlargement of the rights.
22. The proposed changes, as conditioned, would not result in injury of other rights.
23. All other application requirements are met.

#### **Determination and Proposed Action**

1. *The change in points of appropriation and change in place of use proposed in Transfer Application T-14059 are approved.*

7. *Water shall be acquired from the same aquifer (water source) as the original points of appropriation.*
8. *The former place of use of the transferred right shall no longer receive water under the right.*

A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*

If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last

date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

### **Requests for Standing**

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14059

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14059. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Woodburn Independent newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971 304-5006 or Dante.J.Luongo@water.oregon.gov, if I may be of assistance.

Sincerely,
