Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicants

STANFIELD, OR 97875

Findings of Fact

1. On April 7, 2023, Stanfield Hutterian Brethren filed an application for an additional point of diversion and to change the place of use under Certificate 87111. The Department assigned the application number T-14212.
2. Notice of the application for transfer was published on April 18, 2023, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On November 13, 2023, the Department sent a copy of the draft Preliminary Determination to the applicant proposing to approve Transfer Application T-14212. The draft Preliminary Determination cover letter gave a deadline of December 13, 2023, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
4. On December 19, 2023, the Department issued a Final Order for Transfer T-12516, which cancelled Certificate 87111 and issued remaining right Certificate 97229. The place of use proposed in Transfer T-14212 is included in remaining right Certificate 97229, therefore,

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

8. The authorized place of use as described in Finding of Fact #5, above, is appurtenant to lands described under Water Right Permits S-55114, S-55262, S-55263 and S-55173. These permits are for use of water from the Columbia River, tributary to the Pacific Ocean. The

applicant has stated that these permits are not currently being exercised on lands appurtenant to the authorized place of use involved in this transfer. Therefore, the authorized place of use under Certificate 97229, described in Finding of Fact #5, is not subject to conditions set forth in Permits S-55114, S-55262, S-55263 and S-55173.

9. The proposed place of use as described in Finding of Fact #7, above, is appurtenant to lands described under Water Right Permits S-55114, S-55262, S-55263 and S-55173. These permits are for use of water from the Columbia River, tributary to the Pacific Ocean. Use of water under these permits is subject to the following annual use condition:
 - a. If water under Permits S-55114, S-55262, S-55263 and S-55173 is planned for use as supplemental irrigation, then pre-existing primary rights for the same place of use cannot be transferred to another place of use or character of use.
10. On April 17, 2023, the Oregon Department of Fish and Wildlife (ODFW) determined that a fish screen was necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.
11. After further review, on November 16, 2023, the Oregon Department of Fish and Wildlife (ODFW) determined that the requirement for a fish screen, identified in the Draft Preliminary Determination, was erroneous. The new point of diversion is equipped with an approved fish screen.

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2), 690-380-2110(2), and 690-380-2200]

12. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the records that would demonstrate that the right is subject to forfeiture under ORS 540.610.
13. A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14212.
14. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
15. The proposed point of diversion diverts water from the same source of surface water as the authorized point of diversion, as required by OAR 690-380-2110(2).
16. The proposed change would not result in enlargement of the rights.
17. The proposed change would not result in injury to other water rights.
18. All other application requirements are met.

Determination and Proposed Action

The additional point of diversion and change in place of use proposed in Transfer Application T-14212 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-14212 is approved, the final order will include the following:

1. *The additional point of diversion and change in place of use proposed in Transfer Application T-14212 are approved.*
2. *The right to the use the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 97229 and any related decree.*
3. *Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of diversion or the new place of use.*
4. *Water right Certificate 97229 is cancelled. A new certificate will be issued describing those portions of Certificate 97229 not affected by this transfer.*
5. *The quantity of water diverted at the new additional point of diversion (POD 2 (EID River Sta.)), together with that diverted at the original point of diversion (POD 1 (SHB River Sta.)), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1 (SHB River Sta.)).*
6. *Water shall be acquired from the same source of surface water as the original point of diversion.*
7. *The former place of use of the transferred right shall no longer receive water under the right.*
8. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of diversion (new and existing).*
 - b. *The water user shall maintain the meter in good working order.*
 - c. *The water user shall allow the Watermaster access to the meter; provided however, where the meter is located within a private structure, the Watermaster shall request access upon reasonable notice.*

9. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2025**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
10. After satisfactory proof of beneficial use is received, a new certificate confirming the rights transferred will be issued.

If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably

ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;

- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

Requests for Standing

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to

pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14212

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14212. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 503 979-9607 or Kim.R.French@water.oregon.gov, if I may be of assistance.

Sincerely,
