**Authority**

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicant**

KIRK AND REGENA J. HUMPHREY  
PO BOX 354  
MOUNT VERNON, OR 97865

**Findings of Fact**

1. On May 8, 2023, KIRK AND REGENA J. HUMPHREY filed an application for additional points of diversion and to change the places of use under Certificates 25399 and 30950. The Department assigned the application number T-14243.
2. Notice of the application for transfer was published on May 16, 2023, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On July 1, 2024, the Department sent a copy of the draft Preliminary Determination to the applicants, proposing to approve Transfer Application T-14243. The draft Preliminary Determination cover letter provided a deadline of July 31, 2024, for the applicants to respond and submit the required information. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.
4. On July 30, 2024, the applicant requested additional time to complete beneficial use of the water, pursuant to OAR 690-380-5140(3). The applicant needs until October 1, 2029, to construct a new irrigation system and install a measuring device and a fish screen.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

5. On December 2, 2020, the Department issued a Final Order for T-13481, approving Temporary Changes in Places of Use and an Additional Point of Diversion under Certificates 25399 and 30950, for a period of 5 years. The order was recorded at Special Order Volume 118, Page 143.
6. On February 28, 2024, the applicant requested to terminate temporary changes in places of use and an additional point of diversion under Transfer T-13481, upon issuance of a final order approving T-14243.
7. The first right to be transferred is as follows:

**Certificate:** 25399 in the name of H. G. JUSTICE (confirmed by John Day River (F) Decree)  
**Use:** IRRIGATION AND STOCK  
**Priority Date:** 1882  
**Limit/Duty:** The amount of water to which such right is entitled, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1/40 cubic foot per second per acre irrigated to June 1 and 1/80 cubic foot per second per acre thereafter; further limited to one acre-foot per calendar month to June 1 and four acre-feet per acre during season April 1 to Sept. 30 measured at point of diversion.

14. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

***Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2), 690-380-2110(2), and 690-380-2200]***

15. Water has been used within the five-year period prior to submittal of Transfer Application T-14243 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
16. A water delivery system sufficient to use the full amount of water allowed under the existing rights was present within the five-year period prior to submittal of Transfer Application T-14243.
17. The water rights are subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
18. The proposed points of diversion divert water from the same source of surface water as the authorized points of diversion, as required by OAR 690-380-2110(2).
19. The proposed changes, as conditioned, would not result in enlargement of the rights.
20. The proposed changes, as conditioned, would not result in injury to other existing water rights.
21. All other application requirements are met.

## **Determination and Proposed Action**

The additional points of diversion and change in places of use proposed in Transfer Application T-14243 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

*If Transfer Application T-14243 is approved, the final order will include the following:*

- 1. Temporary Transfer Application T-13481 is terminated. The Final Order entered at Special Order Volume 118, Page 143 is of no further force or effect.*
- 2. The additional points of diversion and change in places of use proposed in Transfer Application T-14243 are approved.*
- 3. The right to the use of the water is restricted to beneficial use at the places of use described and is subject to all other conditions and limitations contained in Certificates 25399, 30950 and any related decree.*
- 4. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of diversion or the new places of use.*
- 5. Water right Certificates 25399 and 30950 are cancelled.*
- 6. Under Certificate 25399, the quantity of water diverted at the new additional points of diversion (POD #2 and POD #3), together with that diverted at the original point of diversion (POD #1), shall not exceed the quantity of water lawfully available at the original point of diversion (POD #1).*
- 7. Under Certificate 30950, the quantity of water diverted at the new additional point of diversion (POD #3), together with that diverted at the original points of diversion (POD #2), shall not exceed the quantity of water lawfully available at the original point of diversion (POD #2).*
- 8. Water shall be acquired from the same source of surface water as the original points of diversion.*
- 9. The former places of use of the transferred rights shall no longer receive water under the rights.*
- 10. Water Use Measurement Conditions:*
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).*

- b. *The water user shall maintain the meters or measuring devices in good working order.*
  - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
11. *Prior to diverting water, the water user shall install a headgate to control and regulate the quantity of water diverted. The type and plans of the headgate must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain the headgate as required by the Department.*
  12. *Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.*
  13. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2029**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change(s) and full beneficial use of the water.*
  14. *After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.*

This Preliminary Determination was prepared by Kim French. If you have questions about the information in this document, you may reach me at 503 979-9607 or [Kim.R.French@water.oregon.gov](mailto:Kim.R.French@water.oregon.gov).

## **Protests**

Under the provisions of ORS 540.520(6) & (7) and OAR 690-380-4030, within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, any person may file, jointly or severally, a protest expressing opposition of approval of the transfer application and disagreement with this Preliminary Determination or a standing statement in support of this Preliminary Determination. If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

## **Requests for Standing**

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14243

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14243. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 503 979-9607 or [Kim.R.French@water.oregon.gov](mailto:Kim.R.French@water.oregon.gov), if I may be of assistance.

Sincerely,

Kim French
