

Application for
Surface Water
Allocation of Conserved Water
 Part 1 of 4 – Minimum Requirements Checklist

This application will be returned if Parts 1 through 4 and all required attachments are not completed and included.
 For questions, please call (503) 986-0900, and ask for Allocation of Conserved Water Section.

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Applicant Information and Signature.
- Part 3 – Completed Water Right Information and Conservation Measures. Please include a separate Part 3 for each water right. List all water right certificates involved in this application here: **25327, 55361, and 67096 (Attachment A)**.
- Part 4 –Completed Mitigation, Proposed Use, Project Schedule, Funding, and Fee Calculation.

Attachments:

- Fees – Amount enclosed: \$ **2,320** (From last page of application).
- Application Map. Must have sufficient detail to locate and describe the facilities and areas involved in the conservation measures. Must show the place of use where water is being used if the rate or duty are changing. **(Attachment B)**
- Land Use Information Form with approval and signature. (Not required if 100% of Conserved Water is being transferred instream.) **or (Attachment C)**

 Land Use Notice - Notice of the intent to create an instream water right must be provided to each affected county, city, municipal corporation, or tribal government along the proposed instream reach.
- Completed Evidence of Use Affidavit and Supporting Documentation. **(Attachment D)**
- N/A Affidavit(s) of Consent. **(Attachment E)**
- N/A Letter of approval from Irrigation or Water Control District. For water rights served by or issued in the name of a District; this must be provided when the applicant is not the District.
- N/A Irrigation or Water Control District’s adopted policy on allocation of conserved water.
- N/A If construction of the project has begun or been completed and if more than 25 percent of the project costs have been expended before applying for allocation of conserved water, evidence that you have attempted to identify and resolve the concerns of water right holders in the area, governmental entities or other organizations who have asked to be consulted regarding the allocation of conserved water.
- N/A Evidence for Fee Waiver.
- N/A Notice of Completion. **(Attachment F)**
- N/A Request for Finalization. (The entire conservation project listed on the application must be complete. No partial finalization will be recognized.)

Part 2 of 4 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME WFR Water, LLC, Attn: Paul Sherrill			PHONE NO. 719-381-1960	ADDITIONAL CONTACT NO.
ADDRESS 1 MUDDY ROAD				FAX NO.
CITY ANTELOPE	STATE OR	ZIP 97001	E-MAIL PSHERRILL@SC.YOUNGLIFE.ORG	

The applicant is an irrigation district organized under ORS Chapter 545 or a water control district organized under ORS Chapter 553. The District's OAR 690-018-0025 allocation of conserved water policy was adopted: ____/____/20____.

OR

The applicant is the sole owner of the land on which the water right, or portion thereof, proposed for conservation measures is located? Yes No

If NO, include signatures of all landowners (and mailing address if different than the applicant's) or attach affidavits of consent (and mailing addresses) from all landowners or individuals/entities to which the water right(s) has been conveyed.

LANDOWNER NAME Fallbrooks Ranch LLC, Attn: Fall Newsom			PHONE NO. 503-799-5429
ADDRESS 3207 NW PENNINGTON PLACE			
CITY PORTLAND	STATE OR	ZIP 97229	E-MAIL

Representative Information – The person(s) listed below is/are authorized to represent the applicant in all matters relating to this application.

REPRESENTATIVE/BUSINESS NAME GSI WATER SOLUTIONS, INC. ATTN: KIMBERLY GRIGSBY			PHONE NO. 541-257-9004	ADDITIONAL CONTACT NO.
ADDRESS 1600 SW WESTERN BLVD., SUITE 240				FAX NO.
CITY CORVALLIS	STATE OR	ZIP 97333	E-MAIL KGRIGSBY@GSIWS.COM	

I understand that I will be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following paper: Madras Pioneer.

I (we) affirm that the information contained in this application is true and accurate.

In your own words tell us what physical conservations measures you have made or propose to make and the reason for the change(s): Fallbrooks Ranch LLC is the owner of a property in Wheeler County that Young Life leases for agricultural production. The irrigation system on the property consists of two partial pivots (half-circles) covering portions of the authorized places of use for Certificates 25327, 55361, and 67096. With Fallbrooks Ranch LLC's consent, Young Life installed more efficient sprinkler packages on the pivot systems in July 2024 to conserve water. The more efficient pivot systems allow for the application of a lower instantaneous rate per acre of irrigated land and the use of a lower total volume of water applied during the irrigation season. This Allocation of Conserved Water application is seeking to use a portion of the conserved water for quasi-municipal use at Young Life's Washington Family Ranch youth camp, and to dedicate a portion of the conserved water instream to benefit aquatic life. WFR Water LLC provides quasi-municipal water supply to Young Life's Washington Family Ranch.

 To meet State Land Use Consistency Requirements, you must list all local governments (each county, city, municipal corporation, or tribal government) within whose jurisdiction the conservation project and/or proposed instream reach will be located.

Part 3 of 4 – Water Right Information and Conservation Measures

Please use a separate Part 3 for each water right involved in the proposed allocation of conserved water.

WATER RIGHT INFORMATION:

Water Right Subject to Transfer (check and complete **ONE** of the following):

<input checked="" type="checkbox"/> Certificated Right	<u>25327</u> <small>Certificate Number</small>	<u>John Day River Decree</u> <small>Permit Number or Decree Name</small>
<input type="checkbox"/> Adjudicated, Un-certificated Right	_____ <small>Name of Decree</small>	_____ <small>Page Number</small>
<input type="checkbox"/> Permit for which Proof has been Approved	_____ <small>Permit Number</small>	_____ <small>Special Order Volume _____, Page _____</small>
<input type="checkbox"/> Transferred Right for which Proper Proof of the change has been filed	_____ <small>Previous Certificate / Transfer Number</small>	_____ <small>Date Claim of Beneficial Use Submitted</small>

County: Wheeler

Describe the pre-project water delivery system. Include information on the diversion structure, pumps, and conveyance facilities (including canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use). *Provide sufficient detail for the Department to determine the system capacity.* Water is diverted from the John Day River using a 60-hp pump. The irrigation system consists of two partial pivot systems. The larger pivot is ¼-mile in length (1,320 feet) and the smaller pivot is 750 feet in length. The sprinkler packages on both pivots applied 11.22 gallons per minute per acre.

Table 1: Pre-Project Description

List: A) the maximum rate and annual duty (volume) of water that may be diverted **as stated on the water right of record; and** B) the maximum amount of water that can be diverted using the pre-project facilities (“**system capacity**”). If there are multiple priority dates on the water right, list the rate and duty associated with each priority date. *(If the water right is only limited by rate, do not list a duty. Conversely, if the water is only limited by duty, do not list a rate).*

PRE-PROJECT DESCRIPTION										
			Column A				Column B			
			Water Right of Record						System Capacity	
			Rate		Duty		Rate	Duty		
Originating Water Right #	Priority	Acres	Maximum CFS	CFS/AC	Maximum AF	AF/AC	Maximum CFS	Maximum AF

CONSERVATION MEASURES:

Describe the type of conservation measures, check all that apply:

- On-Farm efficiency project
- Distribution project, such as a ditch piping or lining project
- Other: _____

Describe the proposed changes to the physical system, operations and application methods that will result in the conservation of water. If these proposed changes will change the point of diversion, you must meet the ODFW fish screen and bypass requirements pursuant to ORS 540.525. *Please include a description and details of how the estimate of water conserved was determined. Please provide sufficient detail for the Department to provide notice of the project.* Young Life installed more efficient sprinkler packages on the two partial pivot irrigation systems on a 9.6-acre portion of the place of use for Certificate 25327 in July 2024. The pivot systems (two half-circles) apply 0.0156 cfs/acre, decreasing the instantaneous rate applied compared to the previous sprinkler packages, which applied 0.025 cfs/acre. The volume of water per acre of land irrigated also decreased by using the more efficient sprinkler packages.

Certificate 25327 authorizes the use of up to 0.50 cfs for irrigation of 20.0 acres, limited to a rate of 1/40 cfs per acre (0.025 cfs/acre) and a duty of 1 AF/acre per calendar month, further limited to a total of 5 AF/acre per irrigation season. The previous system used the full rate and duty authorized by the water right. The installation of the efficient sprinkler packages affected 9.6 acres of the authorized place of use, which used 0.24 cfs and 48.0 AF of the authorized rate and volume. The new system reduces the rate per acre needed to 0.0156 cfs/acre and the volume to 4 AF/acre. The rate and volume of water needed were calculated as follows:

Rate: (0.0156 cfs/acre) * 9.6 acres = 0.15 cfs

Volume: (4 AF/acre) * 9.6 acres = 38.4 AF

In summary, this project has resulted in the following changes:

- A reduction in rate from 0.24 cfs to 0.15 cfs, for a resulting conservation of 0.09 cfs
- A reduction in volume from 48.0 AF to 38.4 AF, for a resulting conservation of 9.6 AF

Existing Point(s) of Diversion:

CONSERVATION MEASURES:

Describe the type of conservation measures, check all that apply:

- On-Farm efficiency project
- Distribution project, such as a ditch piping or lining project
- Other: _____

Received
SEP 09 2024
OWRD

Describe the proposed changes to the physical system, operations and application methods that will result in the conservation of water. If these proposed changes will change the point of diversion, you must meet the ODFW fish screen and bypass requirements pursuant to ORS 540.525. *Please include a description and details of how the estimate of water conserved was determined. Please provide sufficient detail for the Department to provide notice of the project.* Young Life installed more efficient sprinkler packages on the two partial pivot irrigation systems on a 78.1-acre portion of the place of use for Certificate 55361 in July 2024. The pivot systems (two half-circles) apply 0.0156 cfs/acre, decreasing the instantaneous rate applied compared to the previous sprinkler packages, which applied 0.019 cfs/acre. The volume of water per acre of land irrigated also decreased by using the more efficient sprinkler packages.

Certificate 55361 authorizes the use of up to 1.82 cfs for irrigation of 96.0 acres, further limited to a rate of 1/40 cfs per acre (0.025 cfs/acre) and a duty of 5 AF/acre. (Note that the authorized rate of 1.82 cfs divided by the authorized acreage (96.0 acres) yields a rate per acre of 0.019 cfs/acre.) The previous system used the full rate and duty authorized by the water right. The installation of the efficient sprinkler packages affected 78.1 acres of the authorized place of use, which used 1.48 cfs and 390.5 AF of the authorized rate and volume. The new system reduces the rate per acre needed to 0.0156 cfs/acre and the volume to 4 AF/acre. The rate and volume of water needed were calculated as follows:

Rate: (0.0156 cfs/acre) * 78.1 acres = 1.22 cfs

Volume: (4 AF/acre) * 78.1 acres = 312.4 AF

In summary, this project resulted in the following changes:

- A reduction in rate from 1.48 cfs to 1.22 cfs, for a resulting conservation of 0.26 cfs
- A reduction in volume from 390.5 AF to 312.4 AF, for a resulting conservation of 78.1 AF

Existing Point(s) of Diversion:

Totals		8.9	0.22		44.5		1.16	232.0

Note: 1 miner’s inch = 1/40 cfs; 1 cfs = 448.8 gpm 1 cfs = 1.983471 ac-ft/day

CONSERVATION MEASURES:

Describe the type of conservation measures, check all that apply:

- On-Farm efficiency project
- Distribution project, such as a ditch piping or lining project
- Other: _____

Received
SEP 09 2024
OWRD

Describe the proposed changes to the physical system, operations and application methods that will result in the conservation of water. If these proposed changes will change the point of diversion, you must meet the ODFW fish screen and bypass requirements pursuant to ORS 540.525. *Please include a description and details of how the estimate of water conserved was determined. Please provide sufficient detail for the Department to provide notice of the project.* Young Life installed more efficient sprinkler packages on the two partial pivot irrigation systems on an 8.9-acre portion of the place of use for Certificate 67096 in July 2024. The pivot systems (two half-circles) apply 0.0156 cfs/acre, decreasing the instantaneous rate applied compared to the previous sprinkler packages, which applied 0.025 cfs/acre. The volume of water per acre of land irrigated also decreased by using the more efficient sprinkler packages.

Certificate 67096 authorizes the use of up to 1.16 cfs for irrigation of 46.4 acres, further limited to a rate of 1/40 cfs per acre (0.025 cfs/acre) and a duty of 5 AF/acre. The previous system used the full rate and duty authorized by the water right. The installation of the efficient sprinkler packages affected 8.9 acres of the authorized place of use, which used 0.22 cfs and 44.5 AF of the authorized rate and volume. The new system reduces the rate per acre needed to 0.0156 cfs/acre and the volume to 4 AF/acre. The rate and volume of water needed were calculated as follows:

Rate: (0.0156 cfs/acre) * 8.9 acres = 0.14 cfs

Volume: (4 AF/acre) * 8.9 acres = 35.6 AF

Received

SEP 09 2024

OWRD

In summary, this project resulted in the following changes:

- A reduction in rate from 0.22 cfs to 0.14 cfs, for a resulting conservation of 0.08 cfs
- A reduction in volume from 44.5 AF to 35.6 AF, for a resulting conservation of 8.9 AF

12/28/1984	0.22	0.025	44.5	5	0.14	0.0156	35.6	4	0.08	1.0
Totals	0.22		44.5		0.14		35.6		0.08	1.0

Table 3: Allocation of Conserved Water

List the portions of the conserved water that will be allocated to the state and applicant. Note: Column A plus Column B should total Column C (e.g., A + B = C).

Conserved Water Allocation								
Column A			Column B			Column C		
State’s Portion			Applicant’s Portion			Conserved Water		
Percentage*	Maximum Rate	Maximum Duty (Volume)	Percentage	Maximum Rate	Maximum Duty (Volume)	Percentage	Maximum Rate	Maximum Duty (Volume)
25%	0.02	2.2	75%	0.06	6.7	100%	0.08	8.9

* must be at least 25%

The priority for the conserved water is requested to be:

- The same as the original right, or
- One minute junior to the original right.

**Part 4 of 4 – Mitigation, Proposed Use,
Project Schedule, Funding, and
Fee Calculation**

MITIGATION:

Describe any expected effects from the proposed allocation of conserved water on other water rights. Describe what currently happens to the water that is proposed to be conserved. No effects on other water rights are anticipated as a result of the project. The water being conserved is currently used on the property for irrigation.

Describe any mitigation or other measures that are planned to avoid harm to other water rights. The Applicant does not anticipate that any mitigation or other measures will be needed to avoid harm to other water rights.

PROPOSED USE:

New Out-of Stream Uses:

N/A For new out-of-stream uses, describe the intended use and boundaries of the expected area within which the diversion structures and places of use of the applicants’ conserved water right will be located. This is land other than that to which this water right is appurtenant. Intended Use: Quasi-municipal; Boundaries: Please see Attachment B for the proposed quasi-municipal place of use at Young Life’s Washington Family Ranch.

Will the new use require a change or additional point of diversion/appropriation?

Yes No Unknown at this time

New Point of Diversion:

Twp		Rng		Sec	¼	¼	Tax Lot	Gvt Lot or DLC	Measured Distances or Latitude and Longitude
8	S	19	E	22	NW	NW	100	GL 1	850 feet South and 600 feet East from the NW corner of Section 22

New Instream Uses to be Created (State’s Portion):

Originating Surface Water Right (as identified in Part 3)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
25327	1908	John Day River	April 1 – May 23	0.023	2.4
55361	12/9/1974	John Day River	April 1 – August 30	0.065	19.5
67096	12/28/1984	John Day River	April 1 – May 26	0.020	2.2
TOTAL VOLUME					24.1

* To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

** To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

Note: The instream rate may not exceed the maximum rate conserved and the total volume may not exceed the maximum duty or volume conserved (Table 3, Column C).

Location of the proposed instream water right.

Received
SEP 09 2024
OWRD

- Water is requested to be protected within a reach. Location of the proposed reach (identify the extent of the reach): (e.g., from the upstream POD located at RM ___ to downstream location at the mouth at RM ___) _____

OR

- Water is requested to be protected at a point at the following location (i.e. legal description of the point of diversion (POD)): 0.023 cfs to be protected instream at the POD for Cert. 25327, located 550 feet South and 840 feet West from the East ¼ corner of Section 26; 0.085 cfs to be protected at the POD for Certificates 55361 and 67096, located 1,340 feet North and 1,240 feet West from the East ¼ corner of Section 26, all within Section 26, Township 8 South, Range 19 East. (Please note that the location descriptions of the PODs for Certificates 55361 and 67096 are measured from different corners but are the same location and use the same physical infrastructure.)

Public Use for which conserved water right should be managed under an instream right (check at least one box):

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat, and other ecological values.
- Recreation and scenic attraction.
- Water Quality (e.g. pollution abatement).

List any existing instream water rights at the same point or within the same requested reach(es):

- None.
- Instream Water Right Certificates: Certificate 66609

- N/A Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of any instream water right established under ORS 537.341 (state agency application process) and ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date?

- Yes No. If no, please explain your intent below:

Is the requested instream flow intended to exceed the estimated average natural flow or natural lake level occurring from the drainage system?

- No; **OR**
- Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); **OR**
- Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:
- The requested flow does not exceed the maximum amount of any instream water right applied for under ORS 537.338 (state agency instream water right application process); the requested public use is for the same public use; and the requested reach covers a portion or same reach as the state agency instream water right; **and**
- The stream is in an ODFW flow restoration priority watershed during the requested instream period; **or**
- The stream is listed as water quality limited by DEQ.

PROJECT SCHEDULE:

N/A For a project that has **not** been completed, please provide the dates on which the applicant intends to do the following:

Begin Construction	Complete Construction and File Notice of Completion	Request that Entire Conserved Water Allocation be Finalized
Date:	Date:	*Date:

* Must be within 5 years from the date of filing the Notice of Completion.

Note: If construction of the project has begun or has been completed, and if more than 25 percent of the project costs have been expended before submitting this application, you must submit evidence that you have attempted to identify and resolve the concerns of water right holders in the area, governmental entities or other organization who have asked to be consulted regarding the allocation of conserved water.

N/A For a project that has been completed, provide the dates when the conservation measures were implemented and the date by which the applicant intends to request the allocation be finalized. Complete and attach Notice of Completion form.

Conservation Measures Were Implemented	Request that Entire Conserved Water Allocation be Finalized
*Date: July 2024	**Date: 12/31/2025

* Must be within 5 years prior to the date of filing this application.

** Must be within 5 years from the date of filing this Application and Notice of Completion.

FUNDING

N/A Federal or state public funds that are not subject to repayment are to be used for the project. Refer to OAR 690-018-0040(18)(a)-(d) for further information in completing this section.

- Source of Funding: Federal: _____ State: _____
- Total cost for project engineering \$ _____
Total cost for construction \$ _____
- The present value of any incremental changes in the cost of operations and maintenance that are directly attributable to the project that would not be incurred or realized in the absence of the project is \$ _____.
- The amount of funding and the value of any in-kind contributions for project engineering and construction and for any incremental changes in the costs of operations and maintenance to be provided from federal or state public funds that are not subject to repayment is \$ _____.
- The amount of funding and the value of any in-kind contributions for project engineering and construction and for any incremental change since costs of operations and maintenance to be provided from other funds is \$ _____.

N/A Enter the percentage from Table 3, Column B (Applicant’s Portion of Conserved Water) 75%. If this is more than 25%, what portion of project funds (expressed as a percentage) come from federal or state public sources? 0%

N/A The Oregon Watershed Enhancement Board (OWEB) has a contractual interest in this project. The OWEB project number is _____.

FEE CALCULATION

Fee Schedule – ORS 536.050 https://www.oregon.gov/OWRD/Forms/Pages/default.aspx	
\$1,360.00 - Base (1 st Water Right)	Add \$480.00 for each additional right
$\$1,360 + (2 \times \$480) = \text{Total Fee } \$2,320$	

Fee Waiver Worksheet	
To qualify for a waiver of up to 50%, you must provide evidence to establish your application meets the following criteria:	
<input type="checkbox"/>	(a) Will be converted to an instream right pursuant to ORS 537.348; or
<input type="checkbox"/>	(b) Is necessary to complete a project funded under ORS 541.375 (OWEB); or
<input type="checkbox"/>	(c) Is approved by the Oregon Department of Fish and Wildlife as a project that will result in a net benefit to fish and wildlife habitat. See OAR 690-018-0040(25).
If the project meets one of the above standards, use the following formula to calculate the fees:	
<input type="checkbox"/>	(d) Enter Percentage from Table 3, Column A = <u>25%</u>
<input type="checkbox"/>	(e) Deduct 25% from percentage in (d) above = <u>0%</u>
<input type="checkbox"/>	(f) Enter the lesser of (e) above or 50% <u>0</u>
<input type="checkbox"/>	(g) Total Fee x % waived (f) = Fee Waiver <u>\$0</u>
<i>Example: (d) = 100% - 25% (e) = 75% (max 50% waived) = Fee x 50% = Fee Waiver</i>	
Total Fee <u>\$2,320</u> – Fee Waiver (g) <u>\$0</u> = Amount Due <u>\$2,320</u>

Application for an Allocation of Conserved Water - WFR Water LLC

STATE OF OREGON

COUNTY OF WHEELER

CERTIFICATE OF WATER RIGHT

This Is to Certify, That CHARLES S. HICKS

of Clarno, State of Oregon, has a right to the use of the waters of John Day River for the purpose of Irrigation

and that said right has been confirmed by decree of the Circuit Court of the State of Oregon for Grant County, and the said decree entered of record at Salem, in the Order Record of the STATE ENGINEER, in Volume 15, at page 461; that the priority of the right thereby confirmed dates from 1908

that the amount of water to which such right is entitled, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1/40 cubic foot per second per acre irrigated from April 1 to Sept. 30; further limited to one acre-foot per acre per calendar month; total of five acre-feet per acre for season, measured at point of diversion.

A description of the lands irrigated under such right, and to which the water is appurtenant (or, if for other purposes, the place where such water is put to beneficial use), is as follows:

15.8 acres in NE 1/4 NE 1/4
4.0 acres in SE 1/4 NE 1/4
0.2 acres in NE 1/4 SE 1/4
Section 26,
T. 8 S., R. 19 E., W. M.

Received
SEP 09 2024
OWRD

And said right shall be subject to all other conditions and limitations contained in said decree. The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed

this 1st day of May, 1959.

LEWIS A. STANLEY
State Engineer

Recorded in State Record of Water Right Certificates, Volume 17, page 25327

STATE OF OREGON

COUNTY OF WHEELER

CERTIFICATE OF WATER RIGHT

This is to certify, That BILLY M. CROSS

of PO Box 53A, Antelope, State of OR 97001, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of John Day River

a tributary of Columbia River for the purpose of irrigation of 96.0 acres

under Permit No. 37751 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from December 9, 1974 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1.82 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NE 1/4 NE 1/4, Section 26, T8S, R19E, WM; 1340 feet North and 1240 feet West from E 1/4 corner Section 26.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 5.0 acre-feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

- 7.5 acres SE 1/4 SE 1/4 Section 23
30.1 acres NW 1/4 NW 1/4 10.3 acres SW 1/4 NW 1/4 Section 25
21.9 acres NE 1/4 NE 1/4 26.2 acres SE 1/4 NE 1/4 Section 26
Township 8 South, Range 19 East, WM

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Resources Commission with an effective date prior to this right.

WITNESS the signature of the Water Resources Director, affixed this date. December 19, 1986

THIS CERTIFICATE ISSUED TO

BILL CROSS
PO BOX 188
ANTELOPE, OREGON 97001

confirms the right to use the waters of THE JOHN DAY RIVER, a tributary of THE COLUMBIA RIVER, for IRRIGATING 46.4 ACRES.

This right was perfected under Permit 49236. The date of priority is DECEMBER 28, 1984. This right is limited to 1.16 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The points of diversion are located as follows:

NORTH DIVERSION - NE 1/4 NE 1/4, SECTION 26, T 8 S, R 19 E, W.M.; 1340 FEET SOUTH AND 1240 FEET WEST FROM THE NE CORNER OF SECTION 26.

SOUTH DIVERSION - SW 1/4 NW 1/4, SECTION 36, T 8 S, R 19 E, W.M.; 1350 FEET SOUTH AND 670 FEET EAST FROM THE NW CORNER OF SECTION 36.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent) and 5.0 acre-feet for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

SE 1/4 SE 1/4 2.4 ACRES
SECTION 23

NE 1/4 NW 1/4 2.8 ACRES
NW 1/4 NW 1/4 8.5 ACRES

NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the “Receipt Acknowledging Request for Land Use Information” to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD’s acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

This form is **NOT** required if:

- 1) Water is to be diverted, conveyed, and used on federal lands only; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a. The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b. The application involves a change in place of use only;
 - c. The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d. The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the “Receipt Acknowledging Request for Land Use Information” and return it to the applicant.

You will receive notice via OWRD’s weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD_DL_customerservice@water.oregon.gov.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____
- Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

RE: Proposed Instream Water Right

To Whom It May Concern:

The Oregon Water Resources Department requires applicants intending to create an instream water right to notify local governments that could be affected, so that the local government can make sure that the proposed new use does not result in a land use that would be incompatible with its comprehensive plan.

On behalf of WFR Water, LLC, I am providing such notification of intent to create an instream water right as part of an application for an Allocation of Conserved Water. Water conserved under Certificates 25327 would be protected instream in the John Day River at a point of diversion located in Township 8 South, Range 19 E, in the southeast quarter of the northeast quarter of Section 26, 550 feet South and 840 feet West from the East quarter-corner of Section 26. Water conserved under Certificates 55361 and 67096 would be protected instream in the John Day River at a point of diversion located in Township 8 South, Range 19 East, in the northeast quarter of the northeast quarter of Section 26, 1340 feet North and 1240 feet West from the East quarter-corner of Section 26.

The proposed rate of conserved water originating under Certificate 25327 to be protected instream between April 1 and May 23 of each year is 0.023 cubic feet per second (cfs) with a total volume of 2.4 acre-feet (AF) protected. The proposed rate of conserved water originating under Certificate 55361 to be protected instream between April 1 and August 30 of each year is 0.065 cubic feet per second (cfs) with a total volume of 19.5 acre-feet (AF) protected. The proposed rate of conserved water originating under Certificate 67096 to be protected instream between April 1 and May 26 of each year is 0.02 cubic feet per second (cfs) with a total volume of 2.2 acre-feet (AF) protected.

If you have questions regarding the proposed Allocation of Conserved Water and associated instream water right, or if you are interested in receiving additional information, please contact me at 541-257-9004.

Sincerely,

A handwritten signature in blue ink that reads "Kimberly Grigsby". The signature is written in a cursive, flowing style.

1. My knowledge of the exercise or status of the water right is based on (check one):

- Personal observation Professional expertise

2. I attest that:

Water was used during the previous five years on the **entire** place of use for Certificate # _____; **OR**

My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township		Range		Mer	Sec	¼ ¼		Gov't Lot or DLC	Acres (if applicable)
25327	8	S	19	E	WM	26	NE	NE		6.0
25327	8	S	19	E	WM	26	SE	NE		3.6
55361	8	S	19	E	WM	23	SE	SE		4.2
55361	8	S	19	E	WM	25	NW	NW		29.8
55361	8	S	19	E	WM	26	NE	NE		21.9
55361	8	S	19	E	WM	26	SE	NE		22.2
67096	8	S	19	E	WM	23	SE	SE		0.3
67096	8	S	19	E	WM	25	NW	NW		5.2
67096	8	S	19	E	WM	26	NE	NE		3.4

OR

- Confirming Certificate # _____ has been issued within the past five years; **OR**
- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: _____ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
- The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.

Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # _____ (For Historic POD/POA Transfers)

3. The water right was used for: (e.g., crops, pasture, etc.): CROPS

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

Corey Courchane
Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, OR 97301

Dear Corey:

GSI Water Solutions, Inc. is submitting the enclosed application of an Allocation of Conserved Water on behalf of WFR Water LLC. With the consent of the landowner, WFR Water LLC's affiliate Young Life has installed more efficient sprinkler packages on two partial pivot irrigation systems on land that Young Life leases from Fallbrooks Ranch LLC. The project affects a 9.6-acre portion of the place of use for Certificate 25327, a 78.1-acre portion of the place of use for Certificate 55361, and an 8.9-acre portion of the place of use for Certificate 67096. This application is requesting to apply a portion of the conserved water for quasi-municipal use at Young Life's Washington Family Ranch youth camp and to dedicate a portion of the conserved water instream. WFR Water LLC provides quasi-municipal water supply at the youth camp. The application fee of \$2,320 is enclosed.

If you have any questions regarding this application, please contact me at 541-257-9004.

Sincerely,

A handwritten signature in black ink that reads "Kimberly Grigsby". The signature is written in a cursive, flowing style.
