RE: Smith Application for Water Right Instream Transfer

Trout Unlimited is submitting the enclosed Application for Water Right Instream Transfer and supporting materials on behalf of the water right holder – Gary Smith of Elgin Oregon. Charge all application fees to Trout Unlimited Customer Account #0034. Please include myself on all correspondence related to this application and instream water right transfer. Thank you for your assistance.

Land Use Notice

Application for Water Right Instream Transfer

Part 1 of 6 – Minimum Requirements Checklist

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

This transfer application will be returned if Parts 1 through 6 and all required attachments are not completed and included.
For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL INSTREAM TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

Received

SEP 12 2024

OWRD

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.

Note: Instream transfers are considered both a change in place of use and character of use. In addition, an automatic 50% fee waiver applies to all instream transfers.

- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Completed Instream Use Information.
- Part 6 – Information about the Transferred Water Rights: How many water rights are to be transferred? **2** List them here: **36706; 36696**
Please include a separate Part 6 for each water right. (See instructions on page 8)

Attachments:

- Completed Instream Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- Land Use Notice - Notice of the intent to file an instream transfer application must be provided to each affected local government along the proposed reach. Copies of the notices must be enclosed with the instream transfer application.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

___ Application fee not enclosed/insufficient	___ Map not included or incomplete
___ Land Use Form not enclosed or incomplete	___ Part ___ is incomplete
___ Additional signature(s) required	

Other/Explanation _____

Staff: _____ 503-_____ Date: ___/___/___

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/.
- OR**
- N/A Waiver of requirement that map be prepared by a CWRE. Completed map waiver form is signed by the Department’s Regional Manager and included in the application. The map **must** still meet Department mapping requirements described below.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, quarter-quarter, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- Existing diversion point(s) with distance and bearing or coordinates from a recognized survey corner. This information can generally be found in your water right certificate or permit.

Part 3 of 6 – Fee Worksheet

FEE WORKSHEET for INSTREAM TRANSFER			
1	Base Fee (includes Place of Use and Character of Use to Instream changes to one water right for up to 1 cfs)	1	\$2,450
2	Number of water rights included in transfer <u>2 (2a)</u> Subtract 1 from the number in 2a above: <u>1 (2b)</u> <i>If only one water right, this will be 0</i> Multiply line 2b by \$610 and enter » » » » » » » » » » » » » » »	2	610
3	Enter the cfs for the portions of the rights to be transferred (see example below*): <u>1.72 (3a)</u> Subtract 1.0 from the number in 3a above: <u>.72 (3b)</u> If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » If 3b is greater than 0, round up to the nearest whole number: <u>1(3c)</u> and multiply 3c by \$410, then enter on line 3 » » » » » » » » »	3	410
4	Add entries on lines 1 through 3 above » » » » » » » » » » Subtotal:	4	3470
5	Multiply line 4 by 0.5 and enter on line 5 » » » » » » » » » » » » » » »	5	1735
6	Subtract line 5 from line 4 » » » » » » » » » » » » » » » Transfer Fee:	6	1735

*Example for Line 3a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each “on the ground” acre included in the transfer. (In this example, blank 3a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 3b would be 0 and Line 3 would then also become 0).

Part 4 of 6 – Applicant Information and Signature.

Is this a Permanent Instream Transfer or Time-Limited Instream Transfer?

Applicant Information

APPLICANT/BUSINESS NAME Gary Smith		PHONE NO. 928-961-3370	ADDITIONAL CONTACT NO.
ADDRESS 69519 Elgin Cemetery Rd.		FAX NO.	
CITY Elgin	STATE Oregon	ZIP 97827	E-MAIL rangergaryb@gmail.com
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Jessica Humphreys / Trout Unlimited		PHONE NO. 541-913-3750	ADDITIONAL CONTACT NO.
ADDRESS 401 NE 1st St.		FAX NO.	
CITY Enterprise	STATE Oregon	ZIP 97828	E-MAIL Jessica.humphreys@tu.org
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this transfer application, and why: Legally transfer the entirety of our two water surface irrigation rights to OWRD for an instream water right to protect surface flows from the point of diversion to the mouth of Clark Creek. The goal is to restore summer habitat in Clark Creek for steelhead and Chinook salmon and restoration of the aquatic ecosystem.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check one box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm that the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Eastern Oregonian.

I (we) affirm that the information contained in this application is true and accurate.

Part 5 of 6 – Proposed Instream Use Information

Identify the Public Use for which the instream right is requested (check at least one box):

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values.
- Recreation
- Navigation
- Pollution Abatement

Received
SEP 12 2024
OWRD

Instream use proposed to be created by the instream transfer:

Originating Water Right Number (as identified in Part 5)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
36706	08/04/1909	Clark Creek	May 1 through Sept. 30	1.22	291.6
36696	01/13/1966	Clark Creek	May 15 through Sept. 1	0.5	100
TOTAL VOLUME					391.6

***Tip:** To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

****Tip:** To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

Note: The instream rate may not exceed the max rate allowed by the existing right(s) and the total volume may not exceed to max volume or duty allowed by the existing right(s).

Additional Information: _____.

Identify the location of the proposed instream water right.

- Water is requested to be protected at a point.
 Location (i.e. the point of diversion (POD) – use the POD Name or Number from Table 1):_____.
- Water is requested to be protected within a reach:
 Location of proposed reach (If an instream water right reach is requested, identify the upstream and downstream extent of the reach):**From POD to mouth of Clark Creek.**

Recommendations for conditions on the instream use to avoid taking away or impairing existing water rights.

- None
- Other (such conditions may include, but are not limited to, reductions in the instream flow levels in cfs per month or total ac-ft, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels): _____.

Are there any existing instream water rights on the same point or within the same requested reach(es) or lake, or on a portion thereof?

No Yes (identify other instream water rights): 73018.

Note: New instream water rights are generally (but not always) additive to instream water rights established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of instream water rights established under ORS 537.341 (state agency application process) or ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date.

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 and ORS 537.470 and replace a portion of any instream water right established under ORS 537.341 and ORS 537.346 with an earlier priority date?

Yes No. If no, please explain your intent: _____.

If the proposed conversion would add to the amounts of an existing instream water right(s) established under ORS 537.341 or 537.346, provide documentation demonstrating why additional instream flows are necessary. Supporting documentation should include information from the Oregon Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Quality (DEQ) (pollution abatement), and/or Parks and Recreation Dept. (recreation).

Is the requested instream flow intended to exceed the estimated average natural flow or level occurring from the drainage system?

- No; **OR**
- Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); **OR**
- Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:
 - The requested flow does not exceed the maximum amount of any instream water right application applied for under ORS 537.341 (state agency instream water right application process) for the same reach or portion thereof, and the requested public use is for the same public use as the afore mentioned instream water right application, **and**
 - For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed. A copy of the priority watershed map indicating the specific watershed involved should be included with the application. Priority watershed maps may be found on the OWRD web page; **or**
 - The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality. The scientific information provided by DEQ should be included with the transfer application.

For a Time Limited Instream Transfer, please answer the following:

- The time-limited instream transfer is for a specific number of years:
_____ Begin Year to _____ End Year
- Time-limited instream transfer is to terminate based upon other conditions:
Conditions: _____.

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 6 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;

OR

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;

OR

- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab, toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "**Allow only this type of editing in the document: Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 6, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 6 and paste as many additional sets of Part 6 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Please use a separate Part 6 for each water right being changed. See instructions on page 8, to copy and paste additional Part 6s, or to add additional rows to tables within the form.

CERTIFICATE # 36706

Received

SEP 12 2024

OWRD

Name on Certificate: Peter C. Westenskow

Date(s) of Priority: August 4, 1909

Source(s) of Water to be Affected by the Transfer: Clark Creek (tributary to Grande Ronde River)

Description of Water Delivery System

System capacity: 1.22 cubic feet per second (cfs) OR
 ___ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Submersible draft connected to a 125hp electric pump inside a permanent pumphouse used to withdraw water from Clark Cr and pump 240 ft uphill through 8" in dia mainline to 5,662 ft of 8" distribution buried piping with 4" risers. The point of diversion has multiple rights associated with it – both Certificates 36706 and 36696, having a capacity of 1.72 cfs total.

Other Water Rights

Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: 36696.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

Table 1. Location of Authorized Point(s) of Diversion (POD)

(Note: If the POD name is not specified on the certificate, assign it a name or number here.

Also, if the POD is not described in the Certificate, provide a description below)

POD Name or Number	Priority Date (if different between PODs)	Twp	Rng	Sec	¼ ¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
1		1 N	39 E	24	SE SW		2,110 feet North and 1,780 feet West from the Southeast corner NWNE of Section 25

Will the proposed instream transfer affect the entire water right?

Yes Then Table 2 on Page 10 does not need to be completed.

No Then complete all of Table 2 to describe the portion of the water right to be changed.

Received
SEP 12 2024
OWRD

Please use additional pages of Table 2 as needed. See page 8 for instructions. If you have further questions about how to fill out the tables, contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Change to Water Right Certificate # _____

List only the part of the right that will be changed. If more than one POD serves the lands, specify the acreage associated with each POD.

Twp		Rng		Sec	¼ ¼		Tax Lot	Gov't Lot or DLC	Acres if Applicable	Type of USE listed on Certificate	Priority Date (if not the same for all acres or type of use)	POD(s) (name or number from Table 1)

Supporting Documents

Examples

Copy of a water right certificate that has been issued within the last five years. (not a remaining right certificate)

Copy of **confirming** water right certificate that shows issue date

Copies of receipts from sales of irrigated crops or for expenditures related to use of water

- Power usage records for pumps associated with irrigation use
- Fertilizer or seed bills related to irrigated crops
- Farmers Co-op sales receipt

Records such as FSA crop reports, irrigation district records, NRCS farm management plan, or records of other water suppliers

- District assessment records for water delivered
- Crop reports submitted under a federal loan agreement
- Beneficial use reports from district
- IRS Farm Usage Deduction Report
- Agricultural Stabilization Plan
- CREP Report

Aerial photos containing sufficient detail to establish location and date of photograph

Multiple photos can be submitted to resolve different areas of a water right.

If the photograph does not print with a "date stamp" or without the source being identified, the date of the photograph and source should be added.
