REFERENCE: Temporary Drought Transfer Application T-13722

Enclosed is a copy of the final order approving your TEMPORARY DROUGHT water right transfer application.

The temporary change shall be effective upon issuance of this final order. Please note, the use shall revert back to the original authorized place of use at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Scott Grew, by telephone at (503) 986-0890 or by e-mail at Scott.A.Grew@oregon.gov.

Sincerely,

Stacy H. Phillips
Restoration Program Technician
Transfers and Conservation Section

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application)	FINAL ORDER APPROVING AN
T-13722, Klamath County)	EMERGENCY USE DROUGHT
)	TEMPORARY CHANGE IN PLACE OF
)	USE AND CHANGE IN POINT OF
)	APPROPRIATION

Authority

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

Applicant

ROBERT UNRUH
30083 PICKETT RD
MALIN, OR 97632

Findings of Fact

1. On May 10, 2021, ROBERT UNRUH filed an application to temporarily change the place of use and change the point of appropriation under Certificate 74458 for the remainder of the 2021 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-13722.
2. Notice of the application for transfer was published on June 1, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The right to be temporarily transferred is as follows:
Certificate: 74458 in the name of DONALD A. RAJNUS (perfected under Permit G-11664)
Use: IRRIGATION of 133.07 ACRES
Priority Date: MARCH 6, 1992
Rate: 1.66 CUBIC FEET PER SECOND

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

41 S	12 E	WM	22	NW NW	POA 2 – (KLAM 53250) 42.0054, -121.4081	4.8 mi.

Temporary Drought Transfer Review Criteria

6. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right is present.
8. The Governor issued an executive order on March 9, 2021, declaring a state of drought emergency in Klamath County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
9. The proposed changes would not result in enlargement of the rights.
10. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

Conclusions of Law

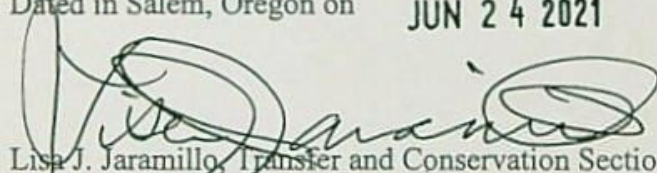

The temporary change in place of use and points of appropriation proposed in Temporary Drought Transfer Application T-13722 are consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

Now, therefore, it is ORDERED:

1. The temporary change in place of use and points of appropriation proposed in Temporary Drought Transfer Application T-13722 are approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the remainder of the 2021 irrigation season or until the end of the Governor’s declared drought, whichever occurs first.

3. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
4. The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 74458. The use shall revert to the authorized place of use at the end of the 2021 irrigation season.
6. The proposed change in place of use and point appropriation shall revert to the authorized place of use and point of appropriation at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.

Review Due Date: 06/27/2021

Applicant Name: Robert Unruh

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): Michelle Angell

Date of Review: 06/10/2021

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? Yes No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? Yes No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?
 Yes No Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? Yes No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? Yes No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? Yes No

9. For POU changes: N/A Is it likely the original place of use would continue to receive water from the same source? Yes No If "Yes", explain:

10. For POU or USE changes: N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

Yes No If "Yes", explain:

11. For POU changes that involve micro-irrigation: N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

Yes No If "Yes", explain:

b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

Yes No If "Yes", answer the following:

i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? Yes No If "Yes", explain:

ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? Yes No If "No", explain:

iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? Yes No If "No", explain:

iv. Do you have any other observations regarding the temporary transfer?

Yes No If "Yes", describe:

v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? Yes No If "No", explain:

c. To the best of your knowledge, if this transfer is approved, does it appear that:

i. "Injury" will occur to other water rights that share the same source?

Yes No If "Yes", explain:

ii. "Enlargement" of the water right being transferred will occur?

Yes No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

Yes No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? No Yes, as checked and provided below:

For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

A Headgate should be required prior to diverting water.

Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install **staff gages***, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

Weir

Submerged Orifice

Parshall Flume

Flow Restrictor

Other: ___

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13722

GW Reviewer M. Thoma Date Review Completed: 06/01/2021

Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Ground Water Review Form:

- Water Right Transfer
 (Emergency Drought Transfer)
- Permit Amendment
- GR Modification
- Other

Application: T-13722

Applicant Name: Robert Unruh

Proposed Changes: POA APOA SW→GW RA
 USE POU OTHER

Reviewer(s): M. Thoma

Date of Review: 06/01/2021

Date Reviewed by GW Mgr. and Returned to WRSD: _____

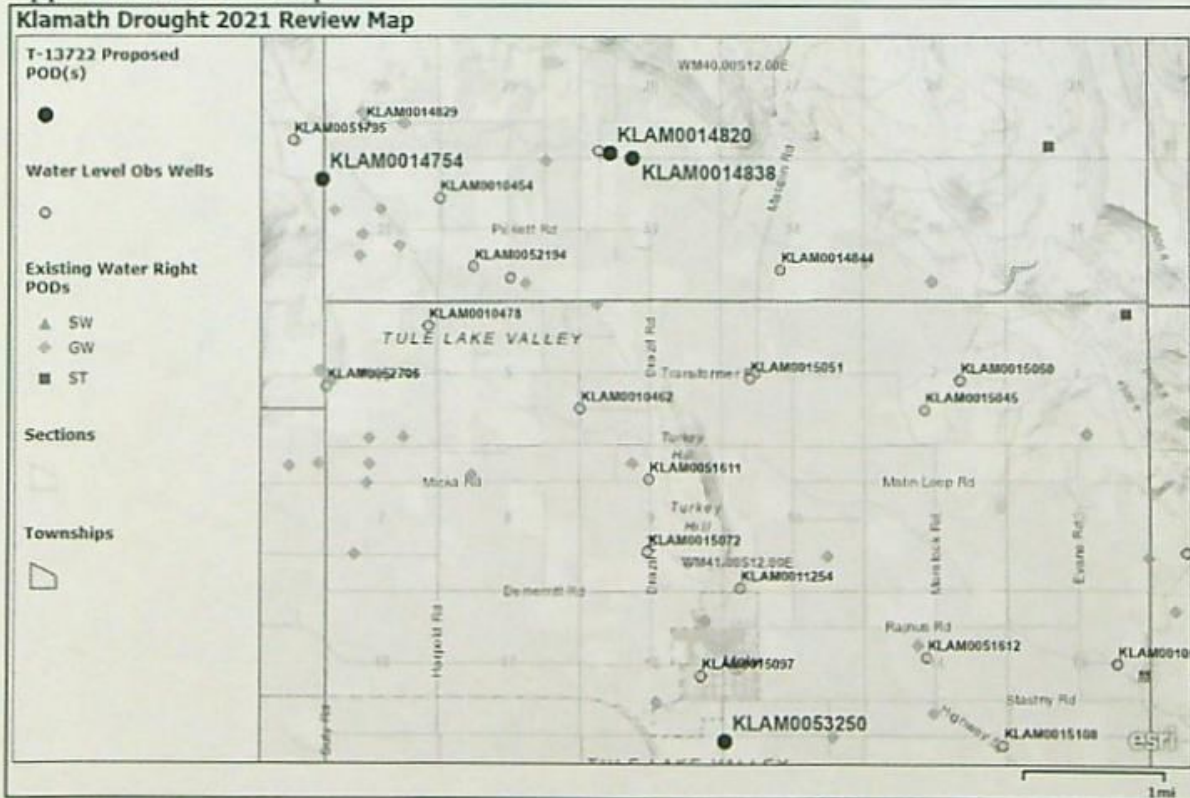

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other _____

1. Basic description of the changes proposed in this transfer: The applicant proposes to change the point of appropriation under Cert. 74458 from the authorized well (KLAM0014754) to three existing wells (KLAM0053250, KLAM0014838, KLAM0014820 / KLAM0053641(d)) and also change the Place of Use on 133.07 acres.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
 Yes No Comments: The authorized and proposed POAs are all producing from the mixed-volcanic aquifer system underlying the Tule Lake area.
3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
 Yes No _____
 b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?
 Yes No Comments: The proposed transfer would move appropriation under Cert. 74458 up to approx. 5 miles from the original POA and closer to several existing groundwater rights.

- b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?
 Yes No If yes, explain:
5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?
 Yes No Comments: _____
- b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?
 Stream: _____ Minimal Significant
 Provide context for minimal/significant impact: _____
6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?
 Yes No N/A Comments: _____
7. What conditions or other changes in the application are necessary to address any potential issues identified above: _____
8. Any additional comments: _____

Application Review Map

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

STATE OF OREGON
COUNTY OF KLAMATH
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DONALD A. RAJNUS
30485 TRANSFORMER ROAD
MALIN, OR 97632

confirms the right to use the waters of A WELL in the LOST RIVER BASIN for IRRIGATION OF 133.07 ACRES.

This right was perfected under Permit G-11664. The date of priority is MARCH 6, 1992. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 1.66 CUBIC FEET PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source.

The well is located as follows:

SE 1/4 NE 1/4, SECTION 25, T 40 S, R 11 E, W.M.; 2086 FEET SOUTH AND 134 FEET WEST OF THE NE CORNER OF SECTION 25.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NE 1/4 SW 1/4	12.29 ACRES
NW 1/4 SW 1/4	7.19 ACRES
SW 1/4 SW 1/4	0.48 ACRE
SE 1/4 SW 1/4	33.61 ACRES
SW 1/4 SE 1/4	7.50 ACRES

SECTION 24

NW 1/4 NE 1/4	26.24 ACRES
SW 1/4 NE 1/4	4.53 ACRES
NE 1/4 NW 1/4	23.41 ACRES
SE 1/4 NW 1/4	0.69 ACRE
SE 1/4 SE 1/4	0.87 ACRE

SECTION 25

NE 1/4 NE 1/4	16.26 ACRES
---------------	-------------

SECTION 36

TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

SEE NEXT PAGE

G-12810.DEK

The user shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

The user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from the well listed on this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The use of water shall be limited when it interferes with the prior SURFACE AND GROUND WATER rights of others.

Failure to comply with any of the provisions of this right may result in action including, but not limited to restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed MAY 28, 1997.

EXECUTIVE ORDER NO. 21-07

**DETERMINATION OF A STATE OF DROUGHT EMERGENCY IN
KLAMATH COUNTY DUE TO UNUSUALLY LOW SNOW PACK AND
LACK OF PRECIPITATION**

At the request of Klamath County (by Resolution 2021-012, dated March 9, 2021) and based on the recommendations of the Drought Readiness Council and the Water Supply Availability Committee, and pursuant to ORS 536.740, I find the lack of precipitation and low snow pack have caused or will cause natural and economic disaster conditions in this county.

Forecasted water supply conditions are not expected to improve, and drought is likely to have significant economic impacts on the farm, ranch, forest, recreation, drinking water, and natural resources sectors, as well as impacts on fish and wildlife and other natural resources which are dependent on adequate precipitation and streamflow in these areas. Extreme conditions are expected to affect local growers, and increased the potential for fire, a loss of economic stability, shortened growing season, and decreased water supplies.

Conditions continue to be monitored by the state's natural resource and public safety agencies, including the Oregon Water Resources Department and the Oregon Office of Emergency Management.

Preparation and resiliency to drought are vital to the health and safety of persons, property, and the economic security of the citizens and businesses. I therefore declare that a severe, continuing drought emergency exists and is likely to continue to exist in Klamath County.

NOW, THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

- I. The Oregon Department of Agriculture is directed to coordinate and provide assistance in seeking federal resources to mitigate drought conditions and to assist in agricultural recovery in Klamath County.
- II. The Oregon Water Resources Department and the Water Resources Commission are directed to coordinate and provide assistance to water users in Klamath County as the Department and Commission determine is necessary and appropriate in accordance with ORS 536.700 to 536.780.
- III. The Oregon Water Resources Department is directed to seek information from the Oregon Department of Fish and Wildlife to help understand the impacts of water availability on Oregon's fish and wildlife, as necessary and appropriate in accordance with ORS 536.700 to 536.780.

EXECUTIVE ORDER NO. 21-07
PAGE TWO

- IV. The Office of Emergency Management is directed to coordinate and assist as needed with assessment and mitigation activities to address current and projected conditions in Klamath County.
- V. All other state agencies are directed to coordinate with the above agencies and to provide appropriate state resources as needed to assist affected political subdivisions and water users in Klamath County.
- VI. This Executive Order expires on December 31, 2021.

Done at Salem, Oregon, this 31st day of March, 2021.

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13722

GW Reviewer M. Thoma Date Review Completed: 06/01/2021

Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Ground Water Review Form:

- Water Right Transfer
 (Emergency Drought Transfer)
- Permit Amendment
- GR Modification
- Other

Application: T-13722

Applicant Name: Robert Unruh

Proposed Changes: POA APOA SW→GW RA
 USE POU OTHER

Reviewer(s): M. Thoma

Date of Review: 06/01/2021

Date Reviewed by GW Mgr. and Returned to WRSD: _____

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other _____

1. Basic description of the changes proposed in this transfer: The applicant proposes to change the point of appropriation under Cert. 74458 from the authorized well (KLAM0014754) to three existing wells (KLAM0053250, KLAM0014838, KLAM0014820 / KLAM0053641(d)) and also change the Place of Use on 133.07 acres.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
 Yes No Comments: The authorized and proposed POAs are all producing from the mixed-volcanic aquifer system underlying the Tule Lake area.
3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
 Yes No _____
 b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right?
 Yes No Comments: The proposed transfer would move appropriation under Cert. 74458 up to approx. 5 miles from the original POA and closer to several existing groundwater rights.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes No If yes, explain:

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes No Comments: _____

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: _____ Minimal Significant

Provide context for minimal/significant impact: _____

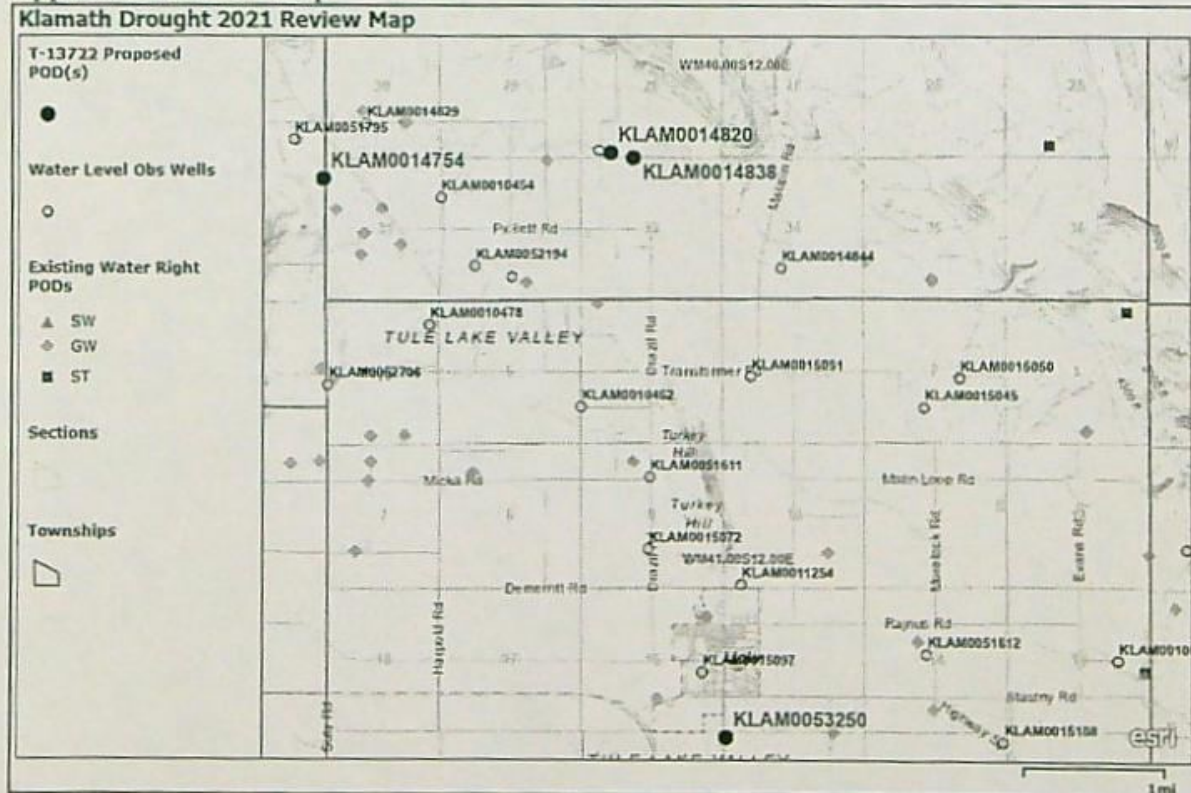

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

Yes No N/A Comments: _____

7. What conditions or other changes in the application are necessary to address any potential issues identified above: _____

8. Any additional comments: _____

Staff: _____ 503-986-0_____	Date: ____/____/____

Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A If more than three water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 3 of 5 – Fee Worksheet

FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS			
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$810.00
2	Number of water rights included in transfer: _____ (2a) Subtract 1 from the number in 3a above: _____ (2b) <i>If only one water right this will be 0</i> Multiply line 2b by \$260.00 and enter » » » » » » » » » » » » » » » »	2	
3	Do you propose to change the place of use for a non-irrigation use? <input type="checkbox"/> No: enter 0 on line 3 » » » » » » » » » » » » » » » » <input type="checkbox"/> Yes: enter the cfs for the portions of the rights to be transferred: _____ (3a) Subtract 1.0 from the number in 3a above: _____ (3b) If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » » If 3b is greater than 0, round up to the nearest whole number: _____ (3c) and multiply 4c by \$200.00, then enter on line 3	3	
4	Do you propose to change the place of use for an irrigation use? <input type="checkbox"/> No: enter 0 on line 4 » » » » » » » » » » » » » » » » <input type="checkbox"/> Yes: enter the number of acres for the portions of the rights to be transferred: _____ (4a) Multiply the number of acres in 4a above by \$2.30 and enter on line 4 » »	4	
5	Add entries on lines 1 through 4 above » » » » » » » » » » Subtotal:	5	
6	Is this transfer: <input type="checkbox"/> necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? <input type="checkbox"/> endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat? If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 » If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » »	6	
7	Subtract line 6 from line 5 » » » » » » » » » » » » » » » » Transfer Fee:	7	

FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS			
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
2	Enter the cfs for the portions of the rights to be transferred (see example below*): <u>1.66</u> (2a) Subtract 1.0 from the number in 2a above: _____ (2b) If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » If 2b is greater than 0, round up to the nearest whole number: <u>50</u> (2c) and multiply 2c by \$50, then enter on line 2 » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	<u>250.00</u>

*Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:
 1. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).
 2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
 3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

- Using the **Tools** menu => click **Protect Document**;
- OR
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Water Right Certificate # 74458

Description of Water Delivery System

System capacity: 1.66 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

RECEIVED
 MAY 10 2021
 OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. _____

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp	Rng	Sec	¼ ¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
POA 1	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed	Klam	40 S	11 E	25	SE NE		2086' South + 134' West OF THE NE CORNER OF SEC 25

POA 4	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed	KLAM 53641	40 S	12 E	28			

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- | | |
|---|---|
| <input type="checkbox"/> Place of Use (POU) | <input type="checkbox"/> Appropriation/Well (POA) |
| <input type="checkbox"/> Point of Diversion (POD) | <input type="checkbox"/> Additional Point of Appropriation (APOA) |
| <input type="checkbox"/> Additional Point of Diversion (APOD) | |

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- | | |
|--|---|
| <input checked="" type="checkbox"/> Place of Use (POU) | <input checked="" type="checkbox"/> Point of Appropriation/Well (POA) |
| <input type="checkbox"/> Character of Use (USE) | <input type="checkbox"/> Additional Point of Appropriation (APOA) |
| <input type="checkbox"/> Point of Diversion (POD) | <input type="checkbox"/> Additional Point of Diversion (APOD) |

Will all of the proposed changes affect the entire water right?

- Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the water right to be changed.

Please use and attach additional pages of Table 2 as needed.
See page 6 for instructions.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Temporary Changes to Water Right Certificate # 74458

List only the part of the right that will be changed. For the acreage in each ¼ ¼, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

AUTHORIZED (the "from" or "off" lands) The listing that appears on the Certificate BEFORE PROPOSED CHANGES List only that part or portion of the water right that will be changed. OWRD

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (Intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right

I, Rob Unruh, in my capacity as OWNER,

mailing address 30083 Pickett Rd Madras Or. 97632

telephone number (541) 891-8360, being first duly sworn depose and say:

1. My knowledge of the exercise or status of the water right is based on (check one):

- Personal observation Professional expertise

2. I attest that:

Water was used during the previous five years on the **entire** place of use for Certificate # 74458 OR

My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township	Range	Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)
	S	E					
	S	E					
	S	E					

OR

- Confirming Certificate # _____ has been issued within the past five years; OR
- Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: _____ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); OR
- The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
- Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # _____ (For Historic POD/POA Transfers)

(continues on reverse side)

3. The water right was used for: (e.g., crops, pasture, etc.): CROPS

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

SECTION 7: KLAMATH BASIN/COUNTY WELL INFORMATION

A functioning, totalizing flowmeter will be required for any drought permits issued. Is there currently a flowmeter installed on each of the PODs listed in the table in Section 3 of this application? Yes No*

*Please note that watermaster staff will visit the well to confirm flowmeter presence prior to issuance of an emergency drought groundwater permit. Where possible, watermaster staff will take a static water level measurement. Alterations to the well head may be required in order to make the water level measurements and these may be conditions of the permit.

For each well, please provide a description of the flowmeter location, the serial number, the current flowmeter reading and the date the reading was taken in the table below.

OWNER'S WELL NAME OR NUMBER	WELL TAG NUMBER (IF AVAILABLE)	WELL LOG ID (E.G., KLAM 1234)	FLOWMETER SERIAL NUMBER	FLOWMETER READING	FLOWMETER DATE	FLOWMETER LOCATION

STATE OF OREGON
COUNTY OF KLAMATH
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DONALD A. RAJNUS
30485 TRANSFORMER ROAD
MALIN, OR 97632

confirms the right to use the waters of A WELL in the LOST RIVER BASIN for IRRIGATION OF 133.07 ACRES.

This right was perfected under Permit G-11664. The date of priority is MARCH 6, 1992. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 1.66 CUBIC FEET PER SECOND, or its equivalent in case of rotation, measured at the point of diversion from the source.

The well is located as follows:

SE 1/4 NE 1/4, SECTION 25, T 40 S, R 11 E, W.M.; 2086 FEET SOUTH AND 134 FEET WEST OF THE NE CORNER OF SECTION 25.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NE 1/4 SW 1/4	12.29 ACRES
NW 1/4 SW 1/4	7.19 ACRES
SW 1/4 SW 1/4	0.48 ACRE
SE 1/4 SW 1/4	33.61 ACRES
SW 1/4 SE 1/4	7.50 ACRES

SECTION 24

NW 1/4 NE 1/4	26.24 ACRES
SW 1/4 NE 1/4	4.53 ACRES
NE 1/4 NW 1/4	23.41 ACRES
SE 1/4 NW 1/4	0.69 ACRE
SE 1/4 SE 1/4	0.87 ACRE

SECTION 25

NE 1/4 NE 1/4	16.26 ACRES
---------------	-------------

SECTION 36

TOWNSHIP 40 SOUTH, RANGE 11 EAST, W.M.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

SEE NEXT PAGE

G-12810.DEK

RECEIVED

MAY 10 2021

PAGE TWO

OWRD

The user shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

The user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from the well listed on this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The use of water shall be limited when it interferes with the prior SURFACE AND GROUND WATER rights of others.

Failure to comply with any of the provisions of this right may result in action including, but not limited to restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed MAY 28, 1997.

/S/ Richard D. Bailey

SECTION 7; KLAMATH BASIN/COUNTY WELL INFORMATION

A functioning, totalizing flowmeter will be required for any drought permits issued. Is there currently a flowmeter installed on each of the PODs listed in the table in Section 3 of this application? Yes No*

*Please note that watermaster staff will visit the well to confirm flowmeter presence prior to issuance of an emergency drought groundwater permit. Where possible, watermaster staff will take a static water level measurement. Alterations to the well head may be required in order to make the water level measurements and these may be conditions of the permit.

For each well, please provide a description of the flowmeter location, the serial number, the current flowmeter reading and the date the reading was taken in the table below.

Salem, OR

SUBJECT TO: Acreage and use limitations under provisions of United States Statutes and regulations issued thereunder; Reservations and restrictions contained in United States Patents; Rights of the public in and to any portion of the herein described property lying within the limits of any road or highway; Liens and assessments of Klamath Project and Shasta View Irrigation District, and regulations, esements and water and irrigation rights in connection therewith; Right of Way Easement, including the terms and provisions thereof, dated April 14, 1965, recorded October 12, 1965, as Document #1039 in Volume M-65, page 2535, Microfilm records of Klamath County, Oregon; at and for a price of \$ 80,000.00 , payable as follows, to-wit:

\$ 20,000.00 at the time of the execution of this agreement, the receipt of which is hereby acknowledged: \$ 60,000.00 with interest at the rate of 6 % per annum from March 12, 1969,

payable as follows: Interest only on March 15, 1970; Interest only on March 15, 1971; thereafter \$5,000.00 per year, PLUS interest, commencing March 15, 1972, and a like payment continuing thereafter on the 15th day of each March until the full balance and interest are paid. Provided, however, Vendee cannot prepay more than \$5,000.00 per year on principal in any one year without permission of Vendors.

Vendee agrees to make said payments promptly on the dates above named to the order of the vendor, or the survivors of them, at the First Federal Savings and Loan Association of Klamath Falls, at Klamath Falls, Oregon; to keep said property at all times in as good condition as the same now are, that no improvement now on or which may hereafter be placed on said property shall be removed or destroyed before the entire purchase price has been paid and that vendee shall pay regularly and seasonably and before the same shall become subject to interest charges, all taxes, assessments, liens and incumbrances of whatsoever nature and kind

and agrees not to suffer or permit any part of said property to become subject to any taxes, assessments, liens, charges or incumbrances whatsoever having precedence over the rights of the vendor in and to said property. Vendee shall be entitled to the possession of said property immediately.

Vendor will on the execution hereof make and execute in favor of vendee good and sufficient warranty deed conveying a fee simple title to said property free and clear as of this date of all incumbrances whatsoever, except as above stated,

Minutes of Meeting of Members of Gavin Rajnus, L.L.C.

Members gathered on **January 3, 2019** to vote on transferring full Gavin Rajnus L.L.C. assets to Gavin & Julie Rajnus after a culmination of annual gifting transfers. Donald and Sharon also requested to be removed from the Gavin Rajnus limited liability company. Members present included: Julie D. Rajnus, D. Gavin Rajnus, Donald A. Rajnus, and Sharon L. Rajnus.

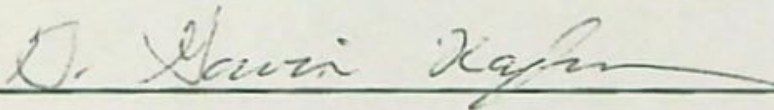

VOTE

A vote was taken regarding the exit of Donald A. Rajnus and Sharon L. Rajnus from Gavin Rajnus, L. L. C. All members voted in favor of this change to the limited liability company.

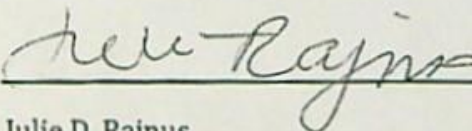

RESOLVED

From this date forward, Gavin Rajnus L.L.C. will consist of two members only- Donald Gavin Rajnus and Julie Dana Rajnus. Donald G. and Julie are now full owners of all properties of Gavin Rajnus L.L.C.

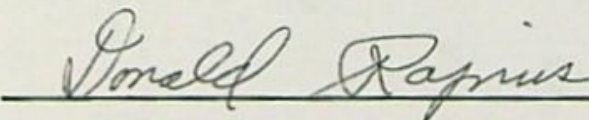

There being no further business, the meeting was adjourned.

SUBJECT TO: Acreage and use limitations under provisions of United States Statutes and regulations issued thereunder; Reservations and restrictions contained in United States Patents; Rights of the public in and to any portion of the herein described property lying within the limits of any road or highway; Liens and assessments of Klamath Project and Shasta View Irrigation District, and regulations, esements and water and irrigation rights in connection therewith; Right of Way Easement, including the terms and provisions thereof, dated April 14, 1965, recorded October 12, 1965, as Document #1039 in Volume M-65, page 2535, Microfilm records of Klamath County, Oregon; at and for a price of \$ 80,000.00 , payable as follows, to-wit:

of this agreement, the receipt of which is hereby acknowledged: \$ 20,000.00 at the time of the execution
\$ 60,000.00 with interest at the rate of 6 % per annum from March 12, 1969,

payable as follows: Interest only on March 15, 1970; Interest only on March 15, 1971; thereafter \$5,000.00 per year, PLUS interest, commencing March 15, 1972, and a like payment continuing thereafter on the 15th day of each March until the full balance and interest are paid. Provided, however, Vendee cannot prepay more than \$5,000.00 per year on principal in any one year without permission of Vendors.

Vendee agrees to make said payments promptly on the dates above named to the order of the vendor, or the survivors of them, at the First Federal Savings and Loan Association of Klamath Falls, at Klamath Falls,

Oregon; to keep said property at all times in as good condition as the same now are, that no improvement now on or which may hereafter be placed on said property shall be removed or destroyed before the entire purchase price has been paid and that vendee shall pay regularly and seasonably and before the same shall become subject to interest charges, all taxes, assessments, liens and incumbrances of whatsoever nature and kind

and agrees not to suffer or permit any part of said property to become subject to any taxes, assessments, liens, charges or incumbrances whatsoever having precedence over the rights of the vendor in and to said property. Vendee shall be entitled to the possession of said property immediately.

Vendor will on the execution hereof make and execute in favor of vendee good and sufficient warranty deed conveying a fee simple title to said property free and clear as of this date of all incumbrances whatsoever, except as above stated,

Minutes of Meeting of Members of Gavin Rajnus, L.L.C.

Members gathered on **January 3, 2019** to vote on transferring full Gavin Rajnus L.L.C. assets to Gavin & Julie Rajnus after a culmination of annual gifting transfers. Donald and Sharon also requested to be removed from the Gavin Rajnus limited liability company. Members present included: Julie D. Rajnus, D. Gavin Rajnus, Donald A. Rajnus, and Sharon L. Rajnus.

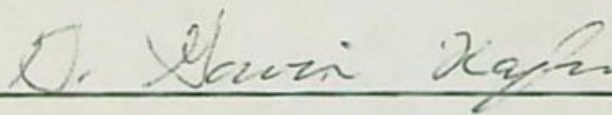

VOTE

A vote was taken regarding the exit of Donald A. Rajnus and Sharon L. Rajnus from Gavin Rajnus, L. L. C. All members voted in favor of this change to the limited liability company.

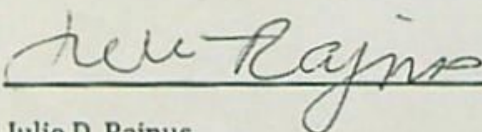

RESOLVED

From this date forward, Gavin Rajnus L.L.C. will consist of two members only- Donald Gavin Rajnus and Julie Dana Rajnus. Donald G. and Julie are now full owners of all properties of Gavin Rajnus L.L.C.

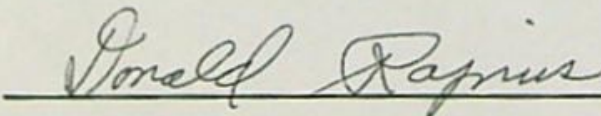

There being no further business, the meeting was adjourned.

Regular Temporary Water Right Transfer Application Checklist

Checked by John

Date 8/27/21

Drought

A temporary transfer must be for a change in place of use. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

A change in POD/POA can accompany the temporary change in place of use, only if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.

(If OK, check box to left; if not, fill in the blank)

- 1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? Deed -
- 2. Are fees included and correct?
If not, the correct fee would be: _____, so the amount missing is: _____
- 3. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?
If not, whose signature is missing? _____
- 4. Are all listed certificates shown by WRIS as non-cancelled?
If not, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.
- 5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
 N/A Form D needed from _____ (district)
- 6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
