Authority

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating groundwater registration modification applications.

Applicant

GABRIEL B. COX AND SOPHIE C. BELLO
30699 MAPLE DR.
JUNCTION CITY, OR 97448

Findings of Fact

1. On March 12, 2021, GABRIEL B. COX AND SOPHIE C. BELLO filed a groundwater registration modification application for an additional point of appropriation and to modify the place of use under Registration Application GR-4224 (Certificate of Registration GR-4020). The Department assigned the application number T-13652.
2. On March 12, 2021, applicants provided consent from the deeded landowner consenting to the proposed changes in GR-4224 (Certificate of Registration GR-4020).

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

3. On March 23, 2021, Registration Application GR-4224 (Certificate of Registration GR-4020) was partially assigned from THAYER DICKEY to JOE L. DICKEY.
4. Notice of the application for Groundwater Registration Modification was published on March 30, 2021, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.
5. On July 9, 2024, the Department contacted the applicant by written correspondence to notify the applicants and the applicant's agent of a deficiency in the application. The application map did not identify how the water was delivered to the proposed place of use from the original and proposed points of appropriation. Pursuant to OAR 690-380-3100(2)(h), the map shall include the general location of main canals, ditches, flumes, pipelines, pumps, or other water delivery features. The Department requested that the deficiency be resolved by August 8, 2024.
6. On July 10, 2024, the agent submitted a revised map, resolving the deficiency.
7. On August 5, 2024, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-13652 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of September 5, 2024, for the applicants to respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
8. The portion of the groundwater registration to be modified is as follows:

Registration: Application GR-4224 (Certificate of Registration GR-4020), in the name of THAYER DICKEY (*partially assigned to JOE L. DICKEY*)

Use: IRRIGATION of 12.4 ACRES

Tentative

Priority Date: MAY 18, 1943

Quantity: 332.1 GALLONS PER MINUTE

Duty: 18.6 ACRE FEET PER YEAR

Source: PUMP WELL

Original Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
16 S	4 W	WM	22	NE NE	PUMP WELL - SOUTH 47 DEGREES 05 MINUTES 738 FEET FROM THE COMMON CORNER OF SECTIONS 14, 15, 22, AND 23

Original Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
16 S	4 W	WM	22	NE NE	12.4

9. Groundwater Registration Modification Application T-13652 proposes an additional point of appropriation approximately 0.4 mile Northwest from the original well to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
16 S	4 W	WM	14	SE SW	WELL 2 - 270 FEET NORTH AND 1440 EAST FROM THE COMMON CORNER TO SECTIONS 14, 15, 22, AND 23

10. Groundwater Registration Modification Application T-13652 also proposes to modify the place of use under the ground water registration to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
16 S	4 W	WM	14	SW SW	4.4
16 S	4 W	WM	14	SE SW	8.0
Total					12.4

Review Criteria for Groundwater Registration Modification Applications

[OAR 690-382-0100(10), 690-382-0700(2), 690-382-1000(1), 690-380-2110(2), and 690-380-2200]

11. The proposed modifications would not result in a state Scenic Waterway not receiving previously available water during periods in which stream flows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
12. The proposed point of appropriation develops groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
13. The proposed modifications as conditioned would not result in enlargement of the registration.
14. The proposed modifications would not result in injury to other water rights.
15. All other application requirements are met.

Determination and Proposed Action

The additional point of appropriation and modification in place of use proposed in Groundwater Registration Modification T-13652 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modifications will be approved.

If Groundwater Registration Modification T-13652 is approved, the final order will include the following:

1. *The modifications to Registration Application GR-4224 (Certificate of Registration GR-4020) proposed in Groundwater Registration Modification Application T-13652 are recognized. Recognition of the modifications shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*

2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-4224 (Certificate of Registration GR-4020) and any related decree.*
3. *Approval of this Groundwater Registration Modification application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation or the new place of use.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *The combined quantity of water diverted at the proposed additional point of appropriation (Well 2), together with that diverted at the original point of appropriation (Pump Well), shall not exceed the quantity of water lawfully available at the original point of appropriation (Pump Well).*
6. *The former place of use of the modified groundwater registration shall no longer receive water as part of the groundwater certificate of registration.*
7. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. SUBJECT: Groundwater Registration Modification T-13652

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13652. This document is an intermediate step in the approval process; water may not be used legally as proposed in the groundwater registration modification application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Eugene Weekly newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication, whichever is later.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me, at corey.a.courchane@water.oregon.gov or (503) 979-3917, if I may be of assistance.

Sincerely,
